1. Description of Plan

General

The following brief description of the PRNPT 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

The Plan is a defined contribution plan, established October 1, 2019, for the benefit of employees of Healthcare Employee Services, LLC dba Physical Rehabilitation Network (the "Company" or "Plan Sponsor") and any other affiliated entities making an adopting employer election. As of December 31, 2020, the Plan had a total of 19 participating employers. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). Management is responsible for oversight of the Plan. The plan administrator determines the appropriateness of the Plan's investment offerings, monitors investment performance, and reports to the Plan's management.

SECURE Act

On December 20, 2019, the Setting Every Community Up for Retirement Enhancement (SECURE) Act of 2019 was signed into law. Applicable provisions of the SECURE Act, effective January 1, 2020, include changing the required minimum distribution age to 72 for participants who have not reached age 70 ½ as of December 31, 2019, and for participant deaths after December 31, 2019, requiring most non-spouse beneficiaries to take full distribution of the participant's account within 10 years of the participant's death.

CARES Act

On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security ("CARES") Act was passed by Congress. The CARES Act, among other things, includes several relief provisions available to tax qualified retirement plans and their participants. Plan management evaluated the impact of the CARES Act on the Plan and approved (a) adding COVID-19-related distributions of up to $100,000 for eligible participants, (b) increasing the limit on Plan loans for eligible participants to the maximum amount permitted under the CARES Act, (c) suspending payments on Plan loans otherwise due in 2020 for eligible participants, and (d) suspending required minimum distributions for 2020. The CARES Act allowed these changes to be effective and operationalized immediately, prior to amending the Plan document.

Eligibility

Employees who have attained the age of 21 and completed three months of service are eligible to participate in the Plan. Employees may join the Plan as an active participant on the first day of the month following satisfaction of the eligibility requirements. Service is recognized and credited to a participant for employers who have adopted the Plan.

1. Description of Plan (continued)

Contributions

Participant Contributions
Participants may contribute up to 99% of their annual pre-tax compensation as defined by the Plan, subject to Internal Revenue Service ("IRS") limitations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Such contributions and any earnings are non-taxable until withdrawn from the Plan. Participants may also contribute amounts representing distributions from other qualified retirement plans. Participants have the option of designating a portion of their elective deferral contributions as Roth contributions.

Discretionary Employer Matching Contributions
The Company, at its discretion, may contribute on behalf of each participant, a matching contribution equal to a discretionary percentage of the participant's compensation, the percentage is determined by the Employer on a uniform basis for all participants. For the year ended December 31, 2020, the Company made discretionary employer matching contributions equal to 100% of a participant's elective deferrals, capped at the lower of 2% of compensation or $1,000. For the year ended December 31, 2020, discretionary employer matching contributions totaled $321,054.

Participant Accounts
Each participant's account is credited with the participant's voluntary contributions and any employer contributions. Earnings and losses are credited to each participant's account based on the performance of the underlying investments. Participants direct the investment of their account into various investment options offered by the Plan. Participants may change their investment allocation at any time.

Vesting
Participants are always 100% vested in their elective contributions and any earnings thereon. Participants become vested in any employer contributions at a rate of 20% per year, starting with the second year of service, and become fully vested after six years.

Notes Receivable from Participants
Participants may borrow up to a maximum of the lesser of $50,000 or 50% of their vested account balance, but not less than $1,000. The loans are secured by the balance in the participant's account. The loans are payable in equal installments through payroll deductions, not to exceed five years. Loans made for the purchase of the participant's principal residence may be repaid over a longer period, as permitted by the Plan Sponsor. Loans bear interest at a rate equal to 1% over Prime. Participants may not have more than one loan outstanding at any time. During 2020, in conjunction with the enactment of the CARES Act, the Plan allowed for loans up to the lesser of $100,000 or 100% of a participants vested account balance.

1. Description of Plan (continued)

Payments of Benefits
Upon termination of service due to death, disability, retirement or termination of employment, a participant may elect to receive their vested benefit in either a lump-sum distribution, distributions in equal installments, or a direct rollover distribution. Terminated participant's accounts with a vested balance less than $5,000 are distributed to the participant as soon as administratively feasible following severance of employment. Participants who are still employed by the Company but have reached age 59 ½ may withdraw all or any part of their vested balance, subject to Plan provisions. The Plan also permits hardship distributions to participants that can demonstrate an immediate and heavy financial need.

During 2020, in conjunction with the enactment of the CARES Act, the Plan allowed for eligible participants, as defined in the CARES Act, to request distributions up to $100,000 from their participant account, without being subject to the 10% early distribution tax under the IRS. Participants may elect to repay same or all of their distribution within three years.

Forfeitures
Upon separation of service, for any reason other than death, disability, or retirement, participants forfeit any unvested portion of their employer contributions. Forfeited balances of terminated participants' non-vested accounts may be used to reduce future administrative expenses or Company contributions. As of December 31, 2020 and 2019, forfeited non-vested accounts totaled $14,734 and $39,064, respectively. During the year ended December 31, 2020, participants forfeited non-vested accounts totaling $35,678. During the year ended December 31, 2020, the Company used $61,851 in previously forfeited amounts to reduce discretionary employer matching contributions.

2. Summary of Significant Accounting Policies

Basis of Accounting
The accompanying financial statements have been prepared under the accrual method of accounting in conformity with U.S. generally accepted accounting principles ("U.S. GAAP").

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment Valuation
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability (an exit price) in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the trustee.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

2. Summary of Significant Accounting Policies (continued)

Notes Receivable from Participants
Notes receivable from participants represent loans and are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recognized on the accrual basis. No allowance for credit losses have been recorded as of December 31, 2020 and 2019. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced, and a benefit payment is recorded.

Benefit Payments
Benefit payments to participants are recorded when paid.

Administrative Expenses
The Company pays certain administrative expenses incurred by the Plan. Certain investment and administration fees are deducted directly from participant's investment returns. Transaction costs borne by the Plan are charged to the individual participant who initiated the transaction to which the charge relates by reducing the participant's account balance.

Excess Contributions
Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions on the statement of net assets available for benefits. The Plan distributed all excess contributions to participants prior to the required deadline of March 15, 2021.

Subsequent Events
Subsequent events have been evaluated through the date of the report of independent auditors, which is the date the financial statements were available to be issued. Other than the matters disclosed in Note 10, there were no items that would require recognition in the financial statements or disclosure in the notes to the financial statements.

3. Information Certified by the Trustee (unaudited)

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for annual reporting and Disclosure under ERISA. As permitted under such election, the Plan Sponsor instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by Reliance Trust Company, the trustee of the Plan, as complete and accurate, except for comparing such information certified by the trustee with information included in the Plan's financial statements and supplemental schedule:

As of December 31,		**2020**		*(Compiled)* 2019
Investments, at fair value:				
Mutual funds	**$**	**28,737,514**	$	24,463,194
Common collective trust fund		**1,091,147**		1,207,129
Total investments, at fair value	**$**	**29,828,661**	$	25,670,323
Notes receivable from participants	**$**	**133,355**	$	165,255

For the Year Ended December 31,		**2020**
Net appreciation in fair value of investments	**$**	**4,467,453**
Dividend and interest income		**818,516**
Interest income on notes receivable from participants		**7,668**

4. Fair Value Measurements

The fair value hierarchy prioritizes the inputs used to measure fair value, giving the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy under FASB accounting guidance are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

4. Fair Value Measurements (continued)

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020 and 2019.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common collective trust fund: Valued at the net asset value of units of a common collective trust. The net asset value as provided by the trustee is used as a practical expedient to estimate fair value. The net asset value is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different that the reported net asset value. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawals from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2020:

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 28,737,514	$ -	$ -	$ 28,737,514
Total investments, at fair value	$ 28,737,514	$ -	$ -	$ 28,737,514
Investments measured at NAV (a)				1,091,147
Total investments, at fair value				$ 29,828,661

4. Fair Value Measurements (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019:

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 24,463,194	$ -	$ -	$ 24,463,194
Total investments, at fair value	$ 24,463,194	$ -	$ -	$ 24,463,194
Investments measured at NAV (a)				1,207,129
Total investments, at fair value				$ 25,670,323

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

As of December 31, 2020:

Investment	Fair Value	Unfunded Commitments	Redemption Frequency (If Currently Eligible)	Redemption Notice Period
Common collective trust fund	$1,091,147	N/A	Daily	12 Months

As of December 31, 2019:

Investment	Fair Value	Unfunded Commitments	Redemption Frequency (If Currently Eligible)	Redemption Notice Period
Common collective trust fund	$1,207,129	N/A	Daily	12 Months

5. Related Party and Party-in-Interest Transaction

Fees incurred by the Plan for the investment management services are included in net appreciation (depreciation) in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. The Plan made direct payments to the recordkeeper of $59,285 during the year ended December 31, 2020. These costs incurred by the Plan are included in administrative expenses on the statement of changes in net assets available for benefits. The Plan Sponsor pays directly any other fees related to the Plan's operations.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions.

7. Income Tax Status

The Plan uses a prototype plan document sponsored by ADP, LLC ("ADP"). ADP received a favorable determination letter dated July 16, 2014, from the Internal Revenue Service stating that the prototype document satisfies the applicable provisions of the Internal Revenue Code ("IRC") Section 401(a). The Plan itself has not received a determination letter from the IRS. However, Plan management believes the Plan, as adopted and amended, is operating within the guidelines of the IRC. Accordingly, no provision for federal income taxes has been provided in the accompanying financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by IRS. The Plan is subject to routine audits taken by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan remains subject to income tax examinations since the Plan's formation in October 1, 2019.

8. Risks and Uncertainties

The Plan offers a variety of investments options to participants. These investment options are exposed to various risks, such as interest rate, credit, and overall volatility risk. The underlying investments may include stocks, bonds, fixed income securities, mutual funds, and other investment securities. Due to the level of risk associated with certain investments, and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the values of investments in the near term could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

On March 11, 2020, the World Health Organization declared the novel strain of coronavirus ("COVID-19") a global pandemic and recommended containment and mitigation measures worldwide. The pandemic and these containment and mitigation measures have led to economic uncertainties which have resulted in significant volatility in the financial markets, impacting some of the investments held by the Plan. The duration of these uncertainties and volatility, and the ultimate financial effects of COVID-19 on the national and global economies and investment markets, cannot be reasonably estimated at this time.
