The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Eligibility: Employees of the Company are eligible to participate in the Plan one month after being hired and attaining the age of 21.

Participant contributions: Participants can elect to have pre-tax payroll compensation deductions contributed to the Plan, subject to IRS limits.

Employer contributions: The Company will match 100% of the first 3% of the employees contributions and 50% of contributions between 3% to 5%. The Company can also make discretionary contributions to the Plan. The Company may make additional voluntary profit-sharing contributions. The Company elected not to make any discretionary contributions for 2020 and 2019.

Participant accounts: Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contributions, (b) Plan earnings and (c) charged with an allocation of administrative expenses. Allocations are based on the provisions of the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's discretionary contribution portion of their account plus actual earnings thereon is based on years of service as follows:

Years of Service	Vesting Percentage
Less than 1 year	0%
1 but less than 2 years	20%
2 but less than 3 years	40%
3 but less than 4 years	60%
4 but less than 5 years	80%
5 years or more	100%

Payment of benefits: On termination of service, death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or optional defined types of annuities. Hardship and other in-service distributions are allowed, as defined in the Plan document. Vested account balances of $5,000 or less are subject to additional payment provisions, including mandatory distribution of amounts defined in the Plan.

Benefits are recorded when paid.

Notes Receivable from Participants: Notes receivable from participants are measured at amortized cost, which represents unpaid principal balance plus accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions upon the occurrence of a distributable event, based on the terms of the Plan agreement. No allowance for credit losses has been recorded as of December 31, 2020 or 2019.

Forfeited accounts: Forfeitures of Company contributions are used first to reduce expenses related to Plan administration and then to reduce employer contributions. At December 31, 2020, forfeited non-vested accounts totaled $0.

Plan expenses: Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants and an allocation of recordkeeping expenses are charged directly to the participant's account and are included in administrative expenses. Investment related expenses for the mutual funds are included in net appreciation (depreciation) of fair value of investments and expenses for the guaranteed investment contract are netted in interest on guaranteed investment contract.

Subsequent Events: Management has performed an evaluation of subsequent events through October 15, 2021, which represents the date the financial statements were available to be issued.

NOTE 2 -- SUMMARY OF ACCOUNTING POLICIES

Basis of accounting: The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America, using the accrual method of accounting.

Investing valuation: The investments are stated at fair value and contract value. The Plan's trustee certifies the contract value of the guaranteed investment contract and the fair market value of all other investments. If available, quoted market prices are used to value investments.

Use of estimates: The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of Plan assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported increase and decrease of net assets available for benefits during the reporting periods. Accordingly, actual results may differ from those estimates.

NOTE 3 -- INFORMATION CERTIFIED BY THE CUSTODIAN (UNAUDITED)

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustee of the Plan, has certified to the completeness and accuracy of:

- Investment including the guaranteed investment contract and notes receivable from participants reflected on the accompanying statements of net assets available for benefits as of December 31, 2020 and 2019.

- Net appreciation in fair value of investments, interest and dividends, and interest income on notes receivable from participants reflected on the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2020.

- Investments reflected on the schedule of assets (held at end of year).

NOTE 4 -- TAX STATUS

The Plan utilized a standardized prototype plan of Reliance. A determination letter, dated March 1, 2012, has been received from the Internal Revenue Service indicating that the standardized prototype plan as then designed, was in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require the plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2017.

NOTE 5 -- PLAN TERMINATION

Although it has not been expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE 6 -- TRANSACTIONS WITH PARTIES-IN-INTEREST

For the year ended December 31, 2020, certain Plan investments are units of pooled separate accounts and guaranteed interest accounts managed by Reliance Trust Company. Reliance Trust Company is the custodian as defined by the Plan and, therefore, transactions therewith qualify as party-in-interest transactions.

NOTE 7 -- RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 8 -- FAIR VALUE MEASUREMENT

The framework for measuring fair value provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quotes prices for identical or similar assets or liabilities in active markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of observable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2020.

Registered investment companies (mutual funds): Valued at the daily closing price as reported by the fund. These funds are required to publish their daily net asset value (NAV) and transact at that price. The funds held by the Plan are deemed to be actively traded. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission.

The following table summarizes the Plan's fair value measurement:

		Fair Value Measuring Using:	
	Fair Value	Level 2	Level 3
December 31, 2019:			
Registered investment companies	$ 741,170	$ 741,170	
Common collective trust	15,736	15,736	
December 31, 2020:	$ 756,906	$ 741,170
