Notes to Financial Statements

Note 1. Description of the Plan

Kenall Manufacturing Co., Inc. 401(k) Plan and Profit Sharing Plan and Trust (the Plan) is a defined contribution plan sponsored by Kenall Manufacturing Co., Inc. (the Company). Perma Plastics, Inc. is a related employer and is also included as a participating employer in the Plan. The Kenall Manufacturing Co. Retirement Plan Committee is responsible for oversight of the Plan.

The following description of the Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: Employees who are at least 20½ years old and who have completed three months of service are eligible to participate in the 401(k) portion of the Plan. Substantially all employees not covered under the collective bargaining agreement are eligible to participate in the Plan. Employees are not eligible to participate in the profit sharing portion of the Plan until they have completed one year of service of 1,000 hours or more. Employees must be employed on the last day of the year in which profit sharing contributions are made in order to be eligible to receive such contribution. Entry dates are the first day of the plan year and the first day of the fourth, seventh and tenth month of each plan year, following meeting eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan's investments are 100% participant-directed. Participants are allowed to change their investment options on a daily basis.

Contributions: Participants may contribute up to 60% of pretax annual compensation to the Plan within the annual Internal Revenue Service (IRS) limitations. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollovers). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 4% of eligible compensation, automatically increasing 1% a year until reaching a deferral rate of 9%, and their contributions invested in a designated balanced fund until changed by the participant. In 2020, the Company made a matching contribution of 50% on the first 6% of employee compensation that a participant contributes. In addition, the Company may make a profit sharing contribution which is allocated to participants based on the ratio of their compensation to total compensation. There was no profit sharing contribution for the year ended December 31, 2020.

Participant accounts: Each participant's account is credited with the participant's contributions and Company matching contributions, as well as, allocations of the Company's profit sharing contribution, if any, and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participants' contributions are credited to their respective accounts, as directed, as soon as practicable, after receipt. Investment income is allocated daily.

Vesting: Participants are vested immediately in their contributions plus actual earnings (losses) thereon. Participants become vested in Company contributions and earnings (losses) thereon over a six-year period; 20% after two years and an additional 20% for each year of service after two years.

Kenall Manufacturing Co., Inc. 401(k) Plan and Profit Sharing Plan and Trust

Notes to Financial Statements

Note 1. Description of the Plan (Continued)

Forfeited accounts: Forfeitures of nonvested Company contributions are first used to reduce the Company matching contributions and then can be used to pay Plan administrative expenses. Forfeited nonvested accounts totaled \$3,291 and \$170 at December 31, 2020 and 2019, respectively. During 2020, approximately \$98,500 of nonvested forfeited amounts were used to reduce Company matching contributions.

Payment of benefits: On termination of service due to death or disability, a participant becomes 100% vested and may elect to receive a lump sum amount equal to the value of the participant's vested interest in his or her account. For termination of service for retirement or other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution. If the value of the vested account balance does not exceed \$1,000 at time of termination of employment with Plan Sponsor, a distribution is made to the participant regardless of consent to receive filed by the Participant.

At December 31, 2020, there were no amounts owed to former participants whose employment had been terminated or who requested payout of their account balances.

Notes receivable from participants: The Plan allows any participant to borrow the lesser of \$50,000 reduced by the excess, if any, of the highest outstanding balance of the loans from the Plan during the one-year period ending the day before the new loan or 50% of the vested interest in the Plan. No loan in an amount less than \$1,000 will be made. The loans are secured by the balance in the participant's account. Interest rates are determined by the Plan Administrator and are required to represent a reasonable interest rate based on prevailing interest rates charged by persons in the business of lending money for loans which are made under similar circumstances at the time of loan origination. All loans must be repaid within five years unless such loan is for the purchase of a primary residence, in which case the loan may have a term in excess of five years. A loan that is in default is considered a distribution and becomes taxable income to the participant. Principal and interest are paid ratably through payroll deductions.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Kenall Manufacturing Co. Retirement Plan Committee determines the Plan's valuation policy utilizing information provided by the custodian. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Payments of benefits: Benefits are recorded when paid.

Kenall Manufacturing Co., Inc. 401(k) Plan and Profit Sharing Plan and Trust

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies (Continued)

Expenses: Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation in fair value of investments.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2020 or 2019. Defaulted participant loans are reclassified as distributions based upon the terms of the plan agreement.

Note 3. Information Certified and Provided by the Minnesota Life Insurance Company

The following is a summary of the Plan's asset and income information as of December 31, 2020 and 2019, and for the year ended December 31, 2020, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by Minnesota Life Insurance Company (Minnesota Life), Custodian, and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from Minnesota Life that the information provided to the Plan Administrator by the custodian related to the following assets and income is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets and income.

The following information has been certified and provided by Minnesota Life as of December 31, 2020 and 2019, and for the year ended December 31, 2020:

	2020	2019
Units of pooled separate accounts	\$ 25,682,433	\$ 22,791,509

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Under Accounting Standards Codification (ASC) 820, the three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access at the measurement date.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020 and 2019.

Units of pooled separate accounts: Valued at net asset value (NAV) per share of the pooled separate accounts. The NAV, as provided by the insurance company, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments comprising the pooled separate accounts. This practical expedient is not used when it is determined the Plan will sell the investments for an amount different from the reported NAV.

Note 4. Fair Value Measurements (Continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2020 and 2019:

	2020			
	Level 1	Level 2	Level 3	Total
Assets in the fair value hierarchy	\$ -	\$ -	\$ -	\$ -
Total assets in the fair value hierarchy	\$ -	\$ -	\$ -	-

Total assets in the fair value hierarchy	\$ -	\$ -	\$ -	-
Investments measured at NAV (a)				22,791,509
				<u>\$ 22,791,509</u>

- a) In accordance with Subtopic 820-10, certain investments measured at NAV per share (or its equivalent) are not classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

The table below sets forth additional disclosures of the Plan's investments whose fair value is measured using the NAV per share practical expedient (or its equivalent) as of December 31, 2020. There are no participant redemption restrictions for these investments. The redemption period is applicable only to the Plan.

	Fair Value	Unfunded Commitments	Redemption Frequency (if currently eligible)	Redemption Notice Period

Units of pooled separate accounts	<u>\$ 25,682,433</u>	<u>\$ -</u>	Daily	7 Days

Kenall Manufacturing Co., Inc. 401(k) Plan and Profit Sharing Plan and Trust

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

Change in fair value levels: To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another; in such instances, the transfer is reported at the end of the reporting period.

For the year ended December 31, 2020, there were no significant transfers in or out of Level 3.

Note 5. Tax Status of Plan

Effective March 1, 2018, the Plan adopted a non-standardized form of a prototype plan sponsored by Minnesota Life Insurance Company. The prototype plan has received an opinion letter from the IRS as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Company believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any open tax periods (current and prior three years) in progress.

Note 6. Related-Party and Party-In-Interest Transactions

Certain plan investments are managed by the custodian. Therefore, these transactions qualify as party-in-interest transactions. Furthermore, the custodian provided plan administration services to the Plan. Fees paid by the Plan to the custodian for the year ended December 31, 2020 were \$13,181.

Certain employees of the Company provide administrative services to the Plan. The employees are not compensated by the Plan for these services. Additionally, the Company pays certain other administrative expenses on behalf of the Plan.

Note 7. Risk and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Kenall Manufacturing Co., Inc. 401(k) Plan and Profit Sharing Plan and Trust

Notes to Financial Statements

Note 8. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of the changes in net assets available for benefits for the year ended December 31, 2020, per the financial statements to Form 5500:

	<u>2020</u>
Net assets available for benefits per financial statements	\$ 2,817,732
Differences in:	
Benefit payments	<u>(13,347)</u>
Change in net assets available for benefits per Form 5500	<u><u>\$ 2,804,385</u></u>

Note 9. Plan Termination and Subsequent Event

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in the Company contributions allocated to their accounts.
