Kraus Holdings, Inc. Employee Retirement Plan
Notes to Financial Statements
December 31, 2020 and 2019

Note 1 – Description of Plan

The following description of the Kraus Holdings, Inc. Employee Retirement Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all employees of Kraus Holdings, Inc. (the "Company"), other than those covered by a collective bargaining agreement unless the agreement requires the employee to be covered by the Plan, who are age 21 or older and have completed three months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions: Each year, participants may contribute from 1% to 60% of their eligible compensation on a pretax and/or Roth basis, as defined in the Plan. For the years ended December 31, 2020 and 2019, such pretax contributions could not exceed $19,500 and $19,000, respectively. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions, up to an additional $6,500 and $6,000 in 2020 and 2019, respectively. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 3% of eligible compensation and their contributions invested in a default investment fund designated by the Company until changed by the participant. In addition, those employees automatically enrolled will have their contribution rate automatically increased by 1% each year, to a maximum of 10%. The Company makes a safe harbor matching contribution of 100% of the first 3% contributed by the employee, plus 50% of the next 2% contributed by the employee. The Company may make a discretionary non-elective contribution as determined annually. The discretionary non-elective contribution to the Plan is for all eligible participants who are enrolled in the Plan on the last day of the Plan Year, which is December 31, or who retired, died or became disabled during the Plan Year. The non-elective contribution is allocated in proportion to compensation. Contributions are subject to certain limitations. The Company currently offers various mutual funds and common/collective trust funds as investment options for participants.

Participant Accounts: Each participant's account is credited with the participant's contributions and Company matching contributions, as well as allocations of Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note 1 – Description of Plan (continued)

Vesting: Participants are vested immediately in their contributions and company matching contributions plus actual earnings thereon. Vesting in the Company's non-elective contribution portion of their account is based on years of continuous service. A participant is 20% vested in the Company's non-elective contributions after 2 years of service, with vesting increasing 20% per year until a participant is 100% vested after 6 years of credited service.

A participant is also fully vested on retirement at age 65, or upon death or disability.

Notes Receivable from Participants: Participants may borrow from their fund accounts up to a maximum equal to the lesser of $50,000 reduced by the highest outstanding loan balance in the one year period ending on the day before the loan is made, or 50 percent of their vested account balance. The loans are secured by the balance in the participant's account and bear fixed interest at the rate in effect at the inception of the loan as determined by the Plan Administrator. As of December 31, 2020 and 2019, the interest rate on all outstanding participant loans was 5%. Principal and interest are paid ratably through payroll deductions over a period not to extend beyond five years from the date of the loan.

Payment of Benefits: On termination of service a participant may elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account, installment payments, or as a "direct rollover" to their account of choice.

Forfeited Accounts: Employer contributions not vested are forfeited and are used to reduce the Company's contribution obligation or to offset administrative expenses. The unallocated forfeiture balance as of December 31, 2020 and 2019, was $924 and $1,532, respectively.

SECURE Act and CARES Act: On December 20, 2019, the Setting Every Community Up for Retirement Enhancement ("SECURE") Act was passed, and most provisions in the law became effective on January 1, 2020. The SECURE Act implements key retirement legislation reform for plan sponsors and individuals. These provisions did not have a material impact on the financial obligations under the Plan.

In response to the COVID-19 global pandemic, on March 27, 2020 the Coronavirus Aid, Relief, and Economic Security ("CARES") Act was enacted and signed into law. Certain provisions of the CARES Act impact the operation of retirement plans during 2020. These provisions did not have a material impact on the financial obligations under the Plan.

Note 2 – Summary of Accounting Policies

Basis of Accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Note 2 – Summary of Accounting Policies (continued)

Use of Estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment adviser and custodian. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2020 and 2019. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced, and a benefit payment is recorded.

Payment of Benefits: Benefits are recorded when paid.

Administrative Expenses: Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses and administrative and managerial fees are included in net appreciation of fair value of investments (see Note 5).

Note 3 – Investments and Information Certified by the Trustee

The Plan management has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Note 3 – Investments and Information Certified by the Trustee (continued)

Accordingly, as permitted under such election, the Plan management instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by Fidelity Management Trust Company, the trustee of the Plan, as complete and accurate, except for comparing such information certified by the trustee with information included in the Plan's financial statements and supplemental schedule:

Investments held and participant loans receivable certified by the trustee:

	As of December 31,	
	2020	*2019*
Investments	$ 17,111,878	$ 13,677,062
Participant loans receivable	251,766	230,690

Investment income and interest on participant loans certified by the trustee:

	For the Year Ended December 31,	
	2020	*2019*
Net appreciation in fair value of investments	$ 2,135,163	$ 1,925,033
Interest and dividend income	875,555	576,162
Interest on participant loans	10,793	11,322

The following presents select investments, with approximate percentage of the Plan's net assets, as of December 31, 2020 and 2019.

	December 31,			
	2020		*2019*	
Fidelity Blue Chip Growth Fund	$ 4,281,199	25%	$ 3,382,298	24%
Fidelity Contrafund Fund	2,929,025	17%	2,544,931	18%
Fidelity Managed Income Portfolio Class 1	1,788,501	10%	1,820,916	13%

During the years ended December 31, 2020 and 2019, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $2,135,163 and $1,925,033, respectively.

Note 4 - Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020 and 2019.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common/collective trusts: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities.

Note 4 - Fair Value Measurements (continued)

This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The categorization of an investment within the fair value hierarchy is based upon the pricing transparency of the investment and does not necessarily correspond to Plan management's perceived risk of that investment.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair value. While Plan management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2020 and 2019:

	Assets at Fair Value as of December 31, 2020			
	Level 1	*Level 2*	*Level 3*	*Total*
Mutual funds	$ 15,323,377	$ -	$ -	$ 15,323,377
Total assets in fair value hierarchy	$ 15,323,377	$ -	$ -	15,323,377
Investments measured at net asset value				1,788,501
Investments at fair value				$ 17,111,878

	Assets at Fair Value as of December 31, 2019			
	Level 1	*Level 2*	*Level 3*	*Total*
Mutual funds	$ 11,856,146	$ -	$ -	$ 11,856,146
Total assets in fair value hierarchy	$ 11,856,146	$ -	$ -	11,856,146
Investments measured at net asset value				1,820,916
Total assets at fair value				$ 13,677,062

Note 4 - Fair Value Measurements (continued)

Fair Value of Investments in Entities that Use NAV

The following table summarizes investments measured at fair value based on NAV per share as of December 31, 2020 and 2019:

Investment	*Fair Value December 31, 2020*	*Fair Value December 31, 2019*	*Unfunded Commitments*	*Redemption Frequency (if currently eligible)*	*Redemption Notice Period*
Common/collective trust - Fidelity Managed Income Portfolio Class 1	$ 1,788,501	$ 1,820,916	n/a	Daily	Daily

Note 5 – Related-Party Transactions and Party-in-Interest Transactions

Management believes that fees paid during the year for administrative and managerial services rendered by Fidelity Management Trust Company, the trustee as defined by the Plan, and Fidelity Workplace Services, LLC, the recordkeeper as defined by the Plan, were based on customary and reasonable rates for such services. These transactions qualify as exempt party-in-interest transactions. Notes receivable from participants are also considered exempt party-in-interest transactions.

Note 6 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

Note 7 – Tax Status

The Plan uses a Non-Standardized Pre-Approved Profit Sharing Plan with CODA sponsored by Fidelity Management & Research Company. Fidelity Management & Research Company obtained an opinion letter on June 30, 2020, in which the IRS stated that the Non-Standardized Pre-Approved Profit Sharing Plan with CODA adopted by the Plan, as then designed, qualifies under Internal Revenue Code ("IRC") Section 401(a).

Note 7 – Tax Status (continued)

The Plan has not received a determination letter specific to the Plan itself; however, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 9 – Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2020 and 2019, to Form 5500:

	2020	*2019*

Note 9 – Reconciliation of Financial Statements to Form 5500 (continued)

We respectfully request a waiver of any late payment charge for the delay in the 5500 (?) report. As our history demonstrates we do endeavor to prepare reports on a timely basis.

The delay in the report was due to the auditee switching payroll processing companies (prior company (PBI) had switched servicers mid-year and reports did not show cumulative balances and used different methods for 401k activity). The auditee had to manually reconcile all 401k deposits, catch up deposits, company match calculation and loan payments to verify accuracy.

This switch resulted in multi onetime items that the auditor, auditee and payroll companies had to all reconcile for the final report.

In the future we are now using ADP for the full year processing and are confident we can meet all deadlines.
