A blackout period occurred from May 4, 2020 to June 12, 2020, and investments currently held with Mid Atlantic Trust Company (the "Custodian") was mapped to similar style investments with the Automatic Data Processing investment portfolio. As a result of this transfer, the Plan adopted the ADP, LLC Prototype Non-Standardized Profit Sharing Plan with CODA.

On December 20, 2019, the Setting Every Community Up for Retirement Enhancement (the "SECURE") Act was signed into legislation. The SECURE Act expands retirement access to both employers and employees by changing the rules with respect to required minimum distributions, among others. The SECURE Act includes both required and optional provisions, some of which became effective immediately, and others with various effective dates beginning after December 31, 2019. The required provisions of the SECURE Act that were effective immediately or beginning no later than January 1, 2020 or for plan years beginning after December 31, 2019 were operationalized accordingly. Any optional features within the SECURE Act are currently being assessed but have not been implemented to date.

The Plan has implemented certain requirements to comply with the Bipartisan Budget Act of 2018 which include eliminating the six-month suspension to making elective deferrals and other employee contributions after taking a hardship distribution and represent in writing the insufficiency of cash or other liquid assets to satisfy the hardship expense. These mandatory provisions were in effect January 1, 2020 and the Plan will be amended to reflect these changes prior to the December 31, 2021 deadline. Any optional features within the Bipartisan Budget Act of 2018 are currently being assessed but have not been implemented to date.

Contributions - Participants may contribute up to the lesser of the annual limitation ($19,500 and $19,000 for 2020 and 2019, respectively), or 100%, 90% effective May 1, 2020, of their eligible compensation as defined in the Plan document. Elective deferrals that are not designated as Roth contributions will be pre-tax elective deferral contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or

contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company may make a discretionary profit sharing contribution allocated to each participant in proportion to each participants compensation, as defined in the Plan document. There were no discretionary profit sharing contributions made during 2020 and 2019.

All participants who have attained age 50 before the close of the Plan year are eligible to make additional elective deferrals in accordance with, and subject to the limitations of IRC Code Section 414(v). The maximum additional elective deferral for 2020 and 2019 is limited to $6,500 and $6,000, respectively.

The annual addition (which includes employee, employer contributions, and forfeitures) that may be contributed or allocated to a participant's account under the Plan for any limitation year shall not exceed the lesser of $57,000 and $56,000 for 2020 and 2019, respectively, as adjusted for increases in the cost of living under Code Section 415(d), or 100% of the participant's compensation within the meaning of Code Section 415(c)(3), for the limitation year.

Participant Accounts - Each participant's account is credited with the participant's contributions and an allocation of (a) the Company's discretionary profit sharing contributions, (b) Plan income and losses, and (c) administrative expenses. Earnings, losses and expenses are allocated to the participant's accounts at the end of each day, based on the participant's account balance at the beginning of the day.

Investment Options - Participants may invest their voluntary contributions, rollover contributions and the Company's contributions, plus actual earnings thereon into any of the investment options maintained by the Custodian at December 31, 2019 and investment options maintained by the Trustee at December 31, 2020, as disclosed in Note 3 to the financial statements. The participants may change their investment elections for new contributions and existing balances daily.

Vesting - Participants are immediately vested in their voluntary contributions, rollover contributions plus actual earnings thereon. The Company's discretionary profit sharing contribution portion of each participants account is subject to the following vesting requirements:

Period of Service	Percent Vested
Less than 2 years	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years	100%

A completed year of service equates to 1,000 hours of service completed by the participant in the vesting computation period. When a participant withdraws from the Plan prior to becoming fully vested, the non-vested portion of the participant's account is forfeited and is used to reduce future employer contributions or plan administrative expenses. Upon death or total and permanent disability, a participant will become 100% vested in the employer discretionary profit sharing contributions.

Payment of Benefits - A participant who has attained age 59½ or has become disabled may receive a distribution from the Plan. Effective May 1, 2020, a participant who has incurred a hardship (as defined in the Plan document) may receive a distribution from the Plan. The Plan may also make a distribution upon termination of service or death. Upon termination of service, retirement, disability or death, if the participant's account balance is $5,000 or less, and the participant does not elect to receive a lump-sum payment, less applicable withholding taxes, or direct rollover to a qualified plan, then participant's account shall be distributed in a direct rollover to an Individual Retirement Account (IRA) designated by the Plan. If the participant's account balance exceeds $5,000, the participant may elect to receive their distribution in installments, a lump-sum payment or direct rollover to a qualified plan. If the participant is a 5% owner, the Plan is required to make a distribution of the participant's account balance on the required beginning date, which is April 1 following the year in which the 5% owner attains the age of 70½. For all other participants, the plan is required to make a distribution of the participant's account balance on the required beginning date, which is the later of (1) April 1 following the year in which the participant attains the age of 70½ or (2) the date the participant terminates employment with the Company. Effective January 1, 2020, the Setting Every Community Up for Retirement Enactment Act of 2019 (the "SECURE Act") allows for the age of requiring participants to begin taking mandatory distributions to increase to 72 years of age.

Notes Receivable from Participants - The Plan document allows participants to borrow, subject to certain restrictions, against their vested account balance at the request of the participant. The minimum note that a participant may take is $1,000 or $500 effective May 1, 2020. The total of such notes from the Plan to a participant will not exceed the lesser of the following amounts:

(a) $50,000, reduced by the highest outstanding loan balance in the previous 12 months or

(b) An amount equal to 50% of any participant's current vested interest in his/her account.

Notes are repayable over a specified period not to exceed five years. If, however, the note is to be used for the purchase of a participant's principal residence the period may be extended not to exceed thirty years. Participants are allowed only one note at a time. The notes bear interest at a fixed rate, which is determined by the prime rate published in the Wall Street Journal plus one percentage point. Notes are secured by the vested balance in the participant's account and are repaid through payroll deductions. There were no outstanding loans as of December 31, 2020 and 2019.

Plan Administrative Expenses - Expenses incurred by the Plan administrator and Custodian or Trustee for their services and costs in administrating the Plan may be paid by the Plan or the Company. Transaction charges (for note and benefit payment transactions) are paid by the participant by reducing the balances of those participants initiating the transactions.

Forfeited Accounts - Forfeited non-vested accounts are used to reduce future employer contributions, pay administrative expenses, or are allocated to the remaining participants, in accordance with the Plan's provisions. There were no outstanding forfeited amounts as of December 31, 2020 and 2019.

2. SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting - The accounts of the Plan are maintained on the accrual basis of accounting.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and disclosure of contingent assets and liabilities as of the date of the financial statements and the reported amounts of additions and deductions in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Investments - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Net Appreciation in Fair Value of Investments - The Plan presents, in the statements of changes in net assets available for benefits, the net appreciation in the fair value of its investments, which consist of the realized gains and losses from sales of investments and unrealized appreciation on those investments. The net change in unrealized appreciation in the fair value of investments is determined by the change in fair value from the beginning of the year to the end of the year, or from date of purchase to the end of the year.

Income Recognition - Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned on the accrual basis. Dividend income is recorded on the ex-dividend date.

Notes Receivable from Participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Defaulted loans are recorded as a deemed distribution based upon the terms of the Plan document.

New Accounting Pronouncements - During 2020 and 2019, various new Accounting Standard Updates (ASUs) were issued by the Financial Accounting Standards Board (FASB). The plan administrator of the Plan has determined, based on their review, that no new accounting pronouncements that were issued are applicable to the Plan. As new accounting pronouncements are released, management will assess if they are applicable, and if they are applicable, their effect will be included in the notes to the financial statements.

The Plan's independent auditors did not perform auditing procedures with respect to the investments which were certified by the Trustee and Custodian at December 31, 2020 and 2019, except for comparing such information to the related information included in the financial statements and supplemental schedules.

4. FAIR VALUE MEASUREMENTS

Accounting Standards Codification (ASC) Topic 820, Fair Value Measurements and Disclosures, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC Topic 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020 and 2019.

The Plan's mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the United States Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The Plan's investments at fair value are classified a level 1, within the fair value hierarchy, as of December 31, 2020 and 2019. The investments totaled $262,600 and $192,847 at December 31, 2020 and 2019, respectively.

5. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

6. TAX STATUS

Although the Plan has not requested determination from the Internal Revenue Service ("IRS") as to the Plan's tax exempt status, the prototype plan from which the Plan was drafted has received a favorable determination letter from the IRS dated April 10, 2014. Effective May 1, 2020, the prototype plan from which the Plan was drafted has received a favorable determination letter from the IRS dated July 8, 2014. The Plan has been amended since receiving its determination letter. The plan administrator believes that the Plan is designed to operate in accordance with all applicable provisions of the Internal Revenue Code ("IRC"). Therefore, the plan administrator believes that the Plan is qualified and that the related trust is exempt from taxation under the IRC.

Accounting principles generally accepted in the United States of America require the plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Company has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2020 and 2019, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are managed by the Trustee and Custodian as defined by the Plan document. Transactions with the Trustee and Custodian qualify as party-in-interest transactions. Any fees for investment management services are included in net appreciation in the fair value of the investments. Direct fees paid by the Plan for custodian and recordkeeping services were $1,078 and $863 for the years ended December 31, 2020 and 2019, respectively.

8. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event the Plan is terminated, the accounts of all participants will become fully vested and non-forfeitable, and assets will be allocated to each participant based on his/her respective account balances after payment of all final liquidation or termination expenses, pursuant to the directions of the plan administrator.

9. RECONCILIATION OF FINANCIAL STATEMENT TO FORM 5500

10. SUBSEQUENT EVENTS

The plan administrator has evaluated subsequent events in accordance with ASC Topic 855, Subsequent Events, through September 27, 2021, which is the date the financial statements were available to be issued. During its evaluation, the following subsequent event item was identified.

As noted in Note 1, the Plan will be required to adopt certain requirements by the SECURE Act and the Bipartisan Budget Act of 2018 at a later date in accordance with applicable law and IRS guidance.
