1. DESCRIPTION OF PLAN

The following description of the TurningPoint Healthcare Solutions, LLC 401(k) Plan (the "Plan") provides only general information regarding the Plan's provisions in effect at December 31, 2020. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was established on November 1, 2014 and restated on February 15, 2016 and is a defined-contribution plan qualifying under Section 401(k) of the Internal Revenue Code ("IRC"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") and is open to all employees of TurningPoint Healthcare Solutions, LLC (the "Plan Sponsor", "Company" or "Employer"), except non-resident aliens who have no earned income from sources within the United States, leased employees, and employees covered by a collective bargaining agreement. The Plan allows other employers to adopt its provisions.

Eligibility

An employee of the Company becomes an eligible participant in the Plan upon the attainment of 21 years of age. Participants enter the Plan on the first date of each month following the date on which they meet the eligibility requirements.

Participant Contributions

Participants may elect to contribute up to 100% of pre-tax annual compensation, as defined in the Plan, subject to limitations defined by the IRC. The Plan also allows for participants to make after-tax ROTH contributions through payroll deductions. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans.

Employer Contributions

The Company may, in its sole discretion, provide a matching contribution of a discretionary percentage of the employee's deferrals as determined by the Company each year. The Plan also allows for the Company to make a discretionary profit-sharing contribution. During the year ended December 31, 2020, there were no employer matching or profit-sharing contributions.

Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's matching contributions, and Plan earnings. Allocations are based upon an eligible participant's relative compensation. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions, rollover contributions, plus actual earnings thereon. Vesting in the Employer's matching and profit-sharing contributions is based on a five-year graded vesting schedule. In general, participants become 20% vested beginning in year two, and vesting increases 20% each year until year six. Thereafter, the participant is 100% vested. A participant also becomes fully vested at normal retirement age, death, total disability, or termination of the Plan.

Payment of Benefits
Upon termination of service due to death, disability, retirement, or for other reasons, a participant or beneficiary of the deceased may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. The Plan permits normal withdrawals of the participant's vested account balance beginning at age 59½. In addition, hardship distributions are permitted if certain criteria are met.

Investment Options
Upon enrollment in the Plan, a participant may direct participant and Employer contributions in any of the Plan's investment options offered by the Plan custodian, Capital Bank and Trust Company. Participants may change their contribution allocation among investment options and may transfer amounts between funds daily.

Forfeited Accounts
The Employer may decide in its discretion how to treat forfeitures under the Plan. Forfeitures may be used in the Plan year in which the forfeitures occur or in the Plan year following the Plan year in which the forfeitures occur. There were no forfeited nonvested account balances as of December 31, 2020 and 2019.

Plan Expenses
The Plan is responsible for management fees relating to the investments, which reduce investment returns, and third-party administrator fees. Individual participants pay for associated expenses. Substantially all other expenses related to the Plan for administration, legal, audit, and other services are paid by the Plan Sponsor.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting
The financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the period.

Payment of Benefits
Benefits are recorded when paid.

Subsequent Events
Plan management has evaluated subsequent events through October 13, 2021, the date the financial statements were available to be issued. Based upon this evaluation, the Plan has determined that no subsequent events have occurred which require adjustment to or disclosure in the financial statements.

3. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy under Topic 820 are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs that are unobservable inputs for the asset or liability.

The following is a description of the valuation methodology used for the Plan's assets measured at fair value.

Mutual Funds: Valued at the daily closing price as reported by the funds. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Plan's investment assets measured at fair value at December 31, 2020 and 2019, are comprised of mutual funds using Level 1 inputs.

4. PARTY-IN-INTEREST TRANSACTIONS

The Plan's assets, including investments, were held by the Plan's custodian, CB&T. Transactions involving the custodian are considered to be transactions with a party-in-interest. Investment management fees are paid to the custodian through reduction of the yield on their various investment accounts and amounted to $1,115 for the year ended December 31, 2020.

5. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their employer contributions.

6. TAX STATUS

The Plan sponsor adopted a Dyatech Non-Standard Prototype Plan. The Internal Revenue Service ("IRS") determined and informed Dyatech by opinion letter, dated March 31, 2014, that the prototype plan is acceptable under applicable sections of the IRC. The Plan Sponsor relies on the opinion letter, and the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan Sponsor and trustee believe the Plan is currently operated in compliance with applicable requirements of the IRC and, therefore, believe the Plan is qualified and the related trust is exempt from federal income taxes as of the financial statement date.

The Plan Sponsor has evaluated tax positions taken by the Plan and recognizes a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan's management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2020 and 2019, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the accompanying financial statements. Furthermore, there are no tax related interest or penalties for the periods presented in these financial statements.

7. INFORMATION PROVIDED AND CERTIFIED BY THE PLAN CUSTODIAN (UNAUDITED)

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, CB&T, the Plan's custodian, has certified to the completeness and accuracy of all investments and related investment activity in the accompanying statements of net assets available for benefits as of December 31, 2020 and 2019, and the statement of changes in net assets available for benefits for the year ended December 31, 2020, and the accompanying supplementary schedule of assets (held at year end) as of December 31, 2020. No auditing procedures were performed by the independent public accountants as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA with respect to information certified as complete and accurate by the custodian, except for comparing such information with the related information included in the financial statements and supplementary schedule.

8. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

9. PROHIBITED TRANSACTIONS

During 2020, the Plan sponsor inadvertently failed to deposit $17,807 of participant deferrals within the required timeframe as stated by the United States Department of Labor ("DOL"). The DOL considers late deposits to be prohibited transactions. The Plan sponsor will contribute the lost earnings on the late contributions to the Plan in accordance with the DOL's self-correction program during the December 31, 2021 plan year.

Further, during 2020, unintentional Plan operational errors were identified. The Plan administrator will implement controls to correct any further operational errors. The Plan administrator is gathering information to determine the best method of correction. The Plan administrator and the Plan Sponsor expect to correct the operational errors in accordance with the applicable IRS and DOL guidelines and do not expect any significant impact to these financial statements. All costs to correct this operational error will be incurred by and paid by the Plan Sponsor and not charged to Plan assets.
