MOUNT VERNON NAZARENE UNIVERSITY
DEFINED CONTRIBUTION RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2020 and 2019

NOTE 1 - PLAN DESCRIPTION

The following description of Mount Vernon Nazarene University Defined Contribution Retirement Plan ("the Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering substantially all employees of Mount Vernon Nazarene University ("the University"). All employees are eligible for the University matching contribution upon the attainment of age 21 and the completion of one year of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions and Vesting: All participants are eligible to make pre-tax contributions. Participants who work 1,000 hours during the plan year and contribute 3% or more of eligible compensation will receive an employer matching contribution equal to 3% of eligible compensation. Participants may also contribute funds from another qualified plan as rollover contributions. Catch up contributions can also be made for participants who meet the criteria. A participant is immediately 100% vested in all contributions.

Investment Options: Upon enrolling in the Plan, a participant may direct the investment of their account into any of the investment options offered by the Plan. Participants generally may change their investment elections daily.

Participant Accounts: Each participant's account is credited with the participant's contribution, the University contribution, and the Plan's earnings or losses. Participant's accounts are charged with applicable withdrawals and allocations of administrative expenses. Allocations are based on participant earnings or account balances, as defined.

Payment of Benefits: Upon termination of service, a participant may elect to receive the value of his or her account in the form of a joint and survivor annuity, a single life annuity, or a lump sum payment. A participant may withdraw all or a portion of the value of his or her vested interest prior to termination of employment upon meeting certain requirements as set forth in the Plan document. Active participants may also take distributions from the Plan upon attainment of age 59 ½.

Administrative Expenses: The Plan's administrative expenses are paid by the Plan. Administrative expenses paid include recordkeeping and custodian fees. Investment management fees are charged to the Plan as a reduction of investment return and included in the investment income reported by the Plan.

CARES Act: On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security (CARES) Act was passed by Congress. Among other things, the CARES Act provides immediate and temporary relief for retirement plan participants with respect to distributions and participant loans. As permitted by the CARES Act, the Plan opted in to implement the following provisions for qualified individuals, as defined by the CARES Act:

- Through December 30, 2020, qualified individuals are permitted to take a distribution in an amount up to \$100,000 from the Plan without an early distribution penalty. Participants who take a qualified distribution have the option to have the distribution taxed over a three-year period, with the ability to recontribute up to the full amount of the distribution within three years and not be subject to federal income tax as a result.
- Required minimum distributions for calendar year 2020 are waived for retired and retirement-aged individual.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared under the accrual basis of accounting.

Recent Accounting Pronouncements: In August 2018, the Financial Accounting Standards Board (the "FASB") issued Accounting Standards Update ("ASU") 2018-13 Fair Value Measurement (Topic 820): Disclosure Framework – Changes to the Disclosure Requirement for Fair Value Measurement. This ASU improves the effectiveness of disclosures about fair value measurements required under ASC 820. The key changes include but are not limited to the removal of the changes in unrealized gains and losses for the period included in earnings for recurring Level 3 fair value measurements held at the end of the reporting period. This ASU is effective for fiscal years beginning after December 15, 2019. A reporting entity should apply amendments retrospectively to each period for which financial statements are presented. The Plan has adopted this ASU as of January 1, 2020. The adoption of this update did not have a material effect on the Plan's statements of net assets available for benefits or the statement of change in net assets available for benefits.

Investment Valuation and Income Recognition: The Plan's investments are reported at fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Risks and Uncertainties: The Plan holds various investments. The investments are exposed to various risks, such as interest rate, market, liquidity, and credit risks. Due to the level of risk associated with certain investments and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in the fair values of investments will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits and participants' individual account balances.

In December 2019, a novel strain of coronavirus surfaced in Wuhan, China, and has spread around the world, with resulting business and social disruption. The coronavirus was declared a Public Health Emergency of International Concern by the World Health Organization on January 30, 2020. The ultimate impact of the coronavirus on the Plan and the University will depend on future developments, which are highly uncertain and cannot be predicted, including new information which may emerge concerning the severity of the coronavirus and the actions required to contain the coronavirus or treat its impact, among others.

Payment of Benefits: Benefits are recorded when paid.

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results may differ from these estimates.

NOTE 3 - PLAN TERMINATION

Although it has not expressed any intent to do so, the University has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA and its related regulations.

NOTE 4 - INVESTMENTS – UNAUDITED INFORMATION

Substantially all information pertaining to the Plan's investments included in the financial statements, including the associated investment income, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by TIAA and CREF and TIAA as agent for TIAA, FSB. This information has not been audited by independent accountants.

NOTE 5 – FAIR VALUE

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (level 1 measurements) and gives the lowest priority to unobservable inputs (level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly in the Plan.

Mutual Funds: The fair values of mutual fund investments were determined by obtaining quoted prices on nationally recognized securities exchanges (level 1 inputs).

Variable Annuity Accounts: The fair values of variable annuity accounts are determined by obtaining quoted net asset value prices (level 1 inputs).

TIAA Traditional Annuity Contracts: The TIAA Traditional Annuity contracts are individual guaranteed fixed annuity investment contracts issued by TIAA ("Issuer"). Due to certain liquidity restriction provisions, some of the contracts within the TIAA Traditional Annuity contract are not fully benefit-responsive and, accordingly, are measured at fair value. TIAA and Plan management have determined contract value to be the most reasonable estimate of fair value for contracts that are not fully benefit-responsive. Contract value is the aggregation of contributions, plus interest that is credited, less applicable withdrawals. The fair values of the Plan's non-fully benefit-responsive investment contracts have been estimated by TIAA to approximate contract value, based upon a discounted cash flows analysis methodology that discounts the projected cash flows using risk-adjusted market discount rates which correlate closely with TIAA Traditional Annuity's historical interest crediting rates (Level 3 inputs).

DEFINED CONTRIBUTION RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2020 and 2019

NOTE 5 – FAIR VALUE (Continued)

The contract values are guaranteed by TIAA and reflect the exit value available to the Plan and Plan participants. Based upon recent credit ratings for TIAA, management believes no adjustment to contract value is required related to credit quality. Since investment contracts are not transferable, there is no market from which to obtain observable market prices for the contracts held by the Plan or comparable contracts. The Plan administrator reviews and evaluates the TIAA Traditional Annuity contract valuation methodology and assumptions provided by TIAA on an annual basis as of the Plan's financial statement date. The plan administrator then presents TIAA's fair value estimate and documentation of its applicable valuation methodology and assumption for the contracts, along with the Plan's applicable financial statement footnote disclosures to the Plan's Investment Committee for its approval of the valuation estimate and financial statement disclosures.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments measured at fair value on a recurring basis are summarized below:

NOTE 5 – FAIR VALUE (Continued)

The table below presents a reconciliation of all investments measured at fair value on a recurring basis using significant unobservable inputs (level 3) for the year ended December 31, 2020, including the reporting classifications for the applicable gains and losses included in the 2020 statement of changes in net assets available for benefits.

	Fair Value Measurements Using Significant Unobservable Inputs (Level 3) Investment Contracts
Balance, January 1, 2020	\$ 15,124,234
Interest income on investment contracts held at end of year	595,496
Purchases	15,963
Redemptions	(840,000)
Transfers , net	<u>182,661</u>
Balance at December 31, 2020	<u>\$ 15,078,354</u>

There were no investments transferred in or out of the level 3 fair value hierarchy during the year ended December 31, 2020.

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements:

The following table presents quantitative information about recurring Level 3 fair value measurements at December 31, 2020:

	<u>Fair Value</u>	<u>Valuation Technique</u>	<u>Significant Unobservable Input</u>	<u>Range of input</u>
TIAA Traditional Annuity Contracts	\$ 15,078,354	Discounted Cash Flow	Discount rates and projected interest crediting rates	GRA – 3.00% - 4.45% RA – 3.00% - 4.45% RC – 2.50% - 4.40%

The following table presents quantitative information about recurring Level 3 fair value measurements at December 31, 2019:

	<u>Fair Value</u>	<u>Valuation Technique</u>	<u>Significant Unobservable Input</u>	<u>Range of input</u>
TIAA Traditional Annuity Contracts	\$ 15,124,234	Discounted Cash Flow	Discount rates and projected interest crediting rates	GRA – 3.00% - 4.40% RA – 3.00% - 4.40% RC – 3.25% - 4.25%

The significant unobservable inputs used in the fair value measurement of the Plan's investment in TIAA Traditional Annuity are the discount rates and the projected interest crediting rates. Based upon historical TIAA Traditional Annuity's crediting rates, the discounted cash flows analysis assumes that the risk-adjusted market discount rates approximate the future interest crediting rates under the contracts. Accordingly, changes in these rates have directly offsetting impacts upon the fair value estimate of these contracts.

NOTE 6 - FULLY BENEFIT-RESPONSIVE TRADITIONAL INVESTMENT CONTRACTS

The Plan holds unallocated, fully benefit responsive investment contracts through its investment holdings in the TIAA Traditional Account (TIAA; Issuer). The TIAA Traditional Individual Fixed Annuity Contracts are individual guaranteed fixed annuity investment contracts issued by TIAA.

Within the TIAA Traditional Individual Fixed Annuity Contracts are six types of contracts available to participants: the Retirement Annuity (RA), the Group Retirement Annuity (GRA), the Retirement Choice (RC), the Supplemental Retirement Annuity (SRA), the Group Supplement Retirement Annuity (GSRA), and the Retirement Choice Plus (RCP). The type of contract through which a participant allocates to the TIAA Traditional Annuity determines the applicability of certain account features, such as the guaranteed minimum interest rate, additional amounts paid above the guaranteed minimum interest rate, the degree of liquidity of the participant's account, and the options for receiving income upon retirement. There are certain liquidity restrictions on the RA, GRA, and RC contracts.

Participants with RA, GRA, and RC contracts have certain restrictions over the availability of lump sum withdrawals from the contracts as well as over the number of installments in which participant-initiated transfers and participant-initiated withdrawals are made. Based on these provisions, the RA, GRA, and RC contracts are considered to be non-fully benefit-responsive. As there are no comparable restrictions over the SRA, GSRA and RCP contracts, those contracts are considered fully benefit-responsive. Participants in the Plan hold investments in both non-fully benefit-responsive and fully benefit-responsive contracts through the TIAA Traditional Account. As of December 31, 2020 and 2019, the Plan's investments in the fully-benefit responsive contracts are \$1,337,081 and \$1,285,396, respectively. The fully-benefit responsive investments are carried at their contract value, which is the amount participants would receive if withdrawing from the contract.

TIAA maintains the contributions to the TIAA Traditional Annuity contracts in its general account. TIAA's general account is credited with earnings on the underlying investments and is charged for participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value.

All TIAA Traditional Annuity contracts are directly between TIAA and the participants. Benefit payments from the contracts are paid as an annuity or a lump sum, as defined in the contracts and as elected by the participant upon meeting the eligibility requirements. There are no conditions specified in any of the contracts under which participant withdrawals and transfers would be restricted or made at a value other than contract value or the annuity or lump sum benefit, as defined in the contracts. The contracts do not provide any provisions that would allow the Issuer to terminate the contracts between the Issuer and the participants.

Based upon this fact and the complexity of the contract provisions of the various TIAA Traditional Annuity contracts, management had determined that it is not practicable to calculate the Plan's average yields from the contracts based on annualized earnings of the average yields based on the interest rate credited to participants.

DEFINED CONTRIBUTION RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2020 and 2019

NOTE 7 - PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor ("DOL") regulations as any fiduciary of the plan, any party rendering service to the plan, the employer, and certain others. The Plan holds variable annuity accounts, investment contracts and mutual funds issued by TIAA and CREF; therefore, these transactions qualify as party-in-interest transactions. Certain administrative functions are performed by officers or employees of the plan sponsor. Additionally, certain advisory services were provided to the Plan and therefore, qualifies as a party-in-interest. No such officer or employee receives compensation from the Plan. Administrative expenses charged to the Plan are paid by the plan sponsor.

NOTE 8 - TAX STATUS

The University has adopted a volume submitter 403(b) plan. The Internal Revenue Service has determined and informed the volume submitter 403(b) plan sponsor, by a letter dated August 7, 2017 that the volume submitter 403(b) adopted by the Plan, is designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although it has been amended since receipt of the letter, the Plan administrator believes that the Plan is being operated in accordance with the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2020 and 2019, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by the Department of Labor or Internal Revenue Service; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2017.

NOTE 9 - SUBSEQUENT EVENTS

Plan management has evaluated subsequent events for recognition and disclosure through October 26, 2021, which is the date the financial statements were available to be issued.
