Note A – Description of Plan

The following description of the Profit Sharing and 401(k) Plan for Employees of Carlton Fields (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan under Section 401(k) of the Internal Revenue Code ("IRC"), which covers employees of Carlton Fields, P.A. and Carlton Fields, LLP (collectively, the "Firm") who have completed certain minimum service requirements, as set forth in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). Effective February 1, 2016, the Plan was amended and restated to comply with the requirements of the Pension Protection Act of 2006. Charles Schwab Trust Bank ("Schwab" or, the "Trustee") served as Trustee and Custodian for the year ended January 31, 2021.

"Company" shall mean Carlton Fields, P.A. and its successors. "Employer" shall mean the Company, Carlton Fields, LLP and any affiliate.

The Plan has implemented certain requirements by the Coronavirus Aid, Relief, and Economic Security Act (the CARES Act) and the Setting Every Community Up for Retirement Enhancement Act of 2019 (the SECURE Act), which laws change the Plan to, among others, allow certain eligible individuals to receive coronavirus-related relief for loan repayment, suspend required minimum distributions, and delay the commencement date for required minimum distributions. Written amendments to the Plan to reflect these operational changes will be adopted at a later date in accordance with applicable law and IRS guidance.

For purposes of participant pre-tax contributions and Roth elective deferrals, employees are eligible to participate in the Plan upon the completion of one hour of service. For purposes of Employer matching contributions and Employer discretionary contributions, participants are eligible if they are credited with at least 1,000 hours of service with the Employer during the first 12 months of service. Participation in Employer contributions will begin as of February 1 or August 1 on or after the date eligibility requirements are met.

Participants direct the Trustee to invest all of their accounts in various investment options as permitted under the Plan. As of each valuation date, the Trustee shall charge or credit all participant accounts with the net earnings, gains, losses, and expenses, as well as any appreciation or depreciation in the fair value of investments as determined by the Trustee using publicly listed fair market values when available or appropriate. Additionally, to the extent that the assets in a participant's account are accounted for as pooled assets or investments, the allocation of earnings, gains and losses of each participant's account shall be based upon the total amount of funds so invested, in a manner proportionate to the participant's share of such pooled investments.

Contributions

Employer matching contributions to the Plan are at the discretion of the Firm's Board of Directors in an amount not to exceed the maximum amount allowable as a deduction by the Firm for income tax purposes. Participants who are eligible to share in any Employer matching contribution for the plan year shall include all participants employed by the Employer as of the last day of the Plan year, except the Chief Operating Officer of the sponsoring Employer, the Executive Director Financial Services Consulting of the Employer, senior government consultants, of counsel attorneys, and shareholder attorneys of the Employer. For the Plan year ended January 31, 2021, the Firm's Board of Directors elected to make a nondiscretionary matching contribution of up to 4% of a participant's Plan year compensation (as defined), with a maximum additional matching contribution of $1,000 to each active participant's account as of the Plan year end. Employer contributions are funded in the Plan year following the year in which they are determined by the Board of Directors.

Note A – Description of Plan (continued)

Contributions (continued)

Each Plan year, the Firm may elect to make a discretionary profit sharing contribution to the Plan. Participants must be employed on the last day of the Plan year and be credited with 1,000 hours of service during the Plan year in order to share in any Employer discretionary contribution that may be made for the Plan year. During the year ended January 31, 2021, the Company contributed approximately $1,000,000 in discretionary profit sharing contributions and approximately $327,000 in Employer matching contributions, which are included in Employer contribution receivable in the statement of changes in net assets available for benefits. Certain otherwise eligible participants are not entitled to receive discretionary profit sharing contributions.

Participants may defer up to 80% of their eligible compensation for the year and are limited to maximum amounts prescribed by the Internal Revenue Service. The maximum participant deferral for January 31, 2021 and 2020 was $19,500 and $19,000, respectively. A participant who has attained the age of 50 may also make catch up contributions, subject to IRS limitations of $6,500 and $6,000, respectively, for January 31, 2021 and 2020. The Plan also permits Roth elective deferrals to the Plan.

The Plan also accepts rollovers and direct transfers from other tax-qualified plans.

The Plan has an automatic enrollment feature for all eligible non-shareholder participants at 6%. If the participant does not make an affirmative election, whether to keep the 6%, change the percentage or opt out of contributing to the Plan entirely, the Plan will automatically defer the 6% for the participant. Each year the deferral rate automatically increases to 6% for participants who have elected a deferral rate of less than 6% or who have also not opted out of contributing to the Plan. In addition, the Plan has an automatic increase of 1% up to a maximum rate of 15% of eligible compensation for participants who have elected an amount greater than or equal to 6%.

Participant Accounts

Each participant's account is credited with the participant's contributions, an allocation of any Firm contributions and Plan earnings. Plan earnings are allocated based upon the participant's account balance. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. The maximum amount of annual additions that can be credited to a participant's account is limited to 80% of such participant's annual compensation for the year and is limited to maximum amounts prescribed by the Internal Revenue Service.

Certain funds in the Plan's investment lineup provide revenue sharing payments. Revenue sharing payments are credited directly to the accounts of Plan participants that invest in a fund that provides revenue sharing payments. The share classes utilized are the share classes that result in the lowest net investment cost after revenue sharing is credited back to participants invested in the funds.

The responsible plan fiduciaries engage in ongoing discussions regarding the importance of monitoring fees to ensure they are reasonable in relation to the services provided. During the plan year, this included the review of ERISA section 408(b)(2) service provider fee disclosures, the benchmarking of plan fees to plans deemed comparable with respect to assets based upon survey and consultant generated data, and a comprehensive fee benchmarking analysis conducted by an independent fee benchmarking firm.

Note A – Description of Plan (continued)

Vesting

Participants are immediately vested in their contributions, including rollovers, and the Employer matching contributions plus actual earnings thereon. The Plan was not determined to be 'top heavy' for the 2021 and 2020 plan year-end. The vesting schedule for Employer discretionary contributions is as follows:

Years of Service	Vesting Percentage
Less than 2	0 %
2	30 %
3	60 %
4 or more	100 %

Investment Options

All contributions to the Plan are deposited with the Trustee. Contributions are then directed, at the participant's discretion, into any of 35 investment options.

Notes Receivable from Participants

Participants may borrow money from their vested balance, as defined in the Plan document. Loans are available to active participants who maintain an account balance under the Plan from $1,000 up to a maximum equal to the lesser of $50,000 or 50% of the participant's vested account balance. Such loans are collateralized by each respective participant's account with interest and principal payments being credited to the participant's account according to the then current investment choices. General purpose loans must have a definitive repayment period not to exceed five years. All participant primary home loans with terms greater than five years are approved by the Plan Administrator. The interest for loans is determined as of the first day of each calendar quarter at an interest rate commensurate with local prevailing rates as determined by the Trustee.

Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. In the event of default, the unpaid portion of the participant's loan will be treated as a taxable distribution as of the last day of the calendar quarter following the calendar quarter in which the participant failed to make a required installment payment.

The Plan has implemented certain requirements by the CARES Act, which allows participants to receive coronavirus-related relief for loan repayment. Participants with loans were permitted to suspend loan payments between May 27, 2020 and December 31, 2020. The Plan also implemented the optional provisions allowed by the CARES Act to permit participant loans up to $100,000 due to the coronavirus.

Distribution of Benefits

Vested benefits become payable upon retirement, death or disability of a participant or upon termination of employment and a break in service. Distributions of a participant's account balance may be made in a lump sum distribution or in installment payments over a period not to exceed ten years. In addition, under very limited circumstances, a participant may receive a financial hardship distribution, in accordance with the Plan document. Participants that terminate and have an account balance of less than $1,000 will be automatically distributed from the Plan.

The Plan has implemented certain requirements by the CARES Act, which allows for coronavirus-related distributions from January 1, 2020, to December 30, 2020 up to an aggregate limit of $100,000. These distributions are not subject to the 10% early withdrawal penalty.

Note A – Description of Plan (continued)

Forfeited Accounts

Forfeited balances of terminated participants' non-vested accounts are utilized to pay administrative expenses or reduce future Employer contributions. During the year ended January 31, 2021, administrative expenses were reduced by approximately $23,000 from forfeited non-vested accounts. There were approximately $0 and $8,000 outstanding that could be used to offset future administrative expenses or Firm contributions as of January 31, 2021 and 2020, respectively.

Plan Termination

Although it has not expressed any intent to do so, the Firm has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of termination of the Plan, each participant's account will become fully vested and non-forfeitable. All appropriate accounting provisions of the Plan will continue to apply until the accounts of all participants have been distributed.

Note B – Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements are presented on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("US GAAP").

Use of Estimates

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and the changes in net assets available for benefits and disclosure of contingent assets and liabilities during the reporting period. Actual results could differ from these estimates.

Valuation of Investments

The Plan's investments are stated at fair value. If available, quoted market prices are used to value investments. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year end.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Employer. Expenses that are paid by the Employer are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Fair Value Measurements

The FASB has established a framework for measuring fair value in ASC 820, *Fair Value Measurements*. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Note B – Summary of Significant Accounting Policies (continued)

Fair Value Measurements (continued)

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include: Quoted prices for similar assets or liabilities in active markets; Quoted prices for identical or similar assets or liabilities in inactive markets; Inputs other than quoted prices that are observable for the asset or liability; Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at January 31, 2021 and 2020.

Money market funds: These are open-ended money market mutual funds valued at a $1.00 stable net asset value ("NAV") for reporting purposes, and transact at $1.00 for subscription and redemption activity. However, on a daily basis the funds NAV is calculated using the amortized cost (not market value) of the securities held in the fund.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of January 31, 2021 and 2020:

	Fair Value Measurements at Reporting Date Using:	
	Assets Measured at Fair Value at 1/31/2021	Quoted Prices in Active Markets (Level 1)

Note C – Certified Investments

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the auditors not to perform any auditing procedures with respect to the information certified by the Trustee, except for comparing such information to the related information included in the financial statements and supplemental schedule. The Plan Administrator has obtained a certification from the Trustee that the information provided to the Plan Administrator by the Trustee as of January 31, 2021 and 2020, and for the year ended January 31, 2021, is complete and accurate. Such information includes all investments, notes receivable from participants, investment income, and the information in the supplemental schedule of assets (held at end of year).

Note D – Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated January 30, 2018, stating that the Plan is qualified under Section 401(a) of the IRC and, therefore, the related trust is exempt from taxation. Subsequent to the issuance of the determination letter, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan Administrator believes the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax-exempt.

The Plan Administrator evaluated the Plan's tax positions and concluded that the Plan had maintained its tax-exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the accompanying financial statements. The Plan is no longer subject to examination by taxing authorities for years prior to 2018.

Note E – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note F – Party-In-Interest Transactions

Section 3(14) of ERISA defines a party-in-interest to include, among others, fiduciaries or employees of the Plan, any person who provides services to the Plan, or an employer whose employees are covered by the Plan. Notes receivable from participants are managed by the Trustee, and there are certain Plan transactions with the Trustee. Transactions related to these investments qualify as party-in-interest transactions. Fees paid to parties-in-interest by the Plan for services amounted to approximately $166,000 during the year ended January 31, 2021.

Note G – Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of January 31:

	2021	2020
Net assets available for benefits per the financial statements	$ 293,864,100	$ 276,025,713
Less: Contribution receivable	(1,326,818)	(577,108)
Net assets available for benefits per the Form 5500	$ 292,537,282	$ 275,448,605

The following is a reconciliation of additions per the financial statements to the Form 5500 for the year ended January 31, 2021:

	2021
Additions per financial statements	$ 47,526,863
Less: Change in contribution receivable	(749,710)
Total additions per the Form 5500	$ 46,777,153

Note H – Subsequent Events
