Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Arconic Retirement Plan I, Arconic Retirement Plan II, Howmet Corporation Muskegon County Operations Hourly Employees' Pension Plan, Howmet Corporation Pension Plan, Huck International Inc., Retirement Plan, Pension Plan of RMI Titanium Company, and Pension Plan for Eligible Salaried Employees of RMI Titanium Company (collectively referred to as the "Plans"), which comprise the statements of individual plan net assets available for benefits as of December 31, 2019 and 2018, and the related statements of changes in individual plan net assets available for benefits for the year ended December 31, 2019, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on the financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 8, which was certified by Bank of New York Mellon, the trustee of the Plans, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plans' investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2019 and 2018 and for the year ended December 31, 2019, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on the financial statements.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Notes to Financial Statements

December 31, 2019 and 2018

1. Description of Plans

The following description of each Plan's provisions provides only general information. Participants should refer to each Plan document for a more complete description of each Plan's provisions.

General

The Arconic Inc. (formerly Alcoa Inc.) and Subsidiary Companies' ("Arconic" or the "Company") Arconic Retirement Plan I (Arconic Salary Plan), Arconic Retirement Plan II (Arconic Hourly Plan), Huck International, Inc. Retirement Plan (Huck Plan), Howmet Corporation Muskegon County Operations Hourly Employees' Pension Plan (Muskegon Plan), Howmet Corporation Pension Plan (Howmet Plan), Pension Plan of RMI Titanium Company (RMI Hourly Plan) and the Pension Plan for Eligible Salaried Employees of the RMI Titanium Company (RMI Salaried Plan) (each referred to as the "Plan") are non-contributory defined benefit plans that cover eligible United States employees and participate in the Arconic Retirement Plans Master Trust ("Arconic Master Trust") at December 31, 2019 and 2018. Additionally, the RMI Hourly Plan and the RMI Salaried Plan participate in the RMI Retirement Plans Master Trust.

The investments of the Plans are maintained under a trust pursuant to the "Arconic Master Trust Agreement" and "RMI Retirement Plans Master Trust Agreement" with the trustee, The Bank of New York Mellon ("trustee").

All fiduciary responsibility for the Plans is maintained by the Arconic Benefits Management Committee and Arconic Benefits Investment Committee. The Plans are subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Plans provide, in general, for monthly pensions upon retirement at or after age 65, or earlier upon disability, incapacity, special circumstances or with certain minimum age and service requirements. Pension benefits generally depend upon length of service, job grade or remuneration, and certain social security and other benefits.

Eligibility and Vesting

Employees hired before March 1, 2006 are eligible to participate in the Arconic Salary Plan after they have attained age 21 with one year of service. Effective March 1, 2006, certain new hires are not eligible to participate in the Arconic Salary Plan. Certain hourly employees are eligible to participate in the Arconic Hourly Plan after they have attained age 21 with one year of service.

Effective January 1, 2002, participants are no longer accruing benefits in the Huck Plan. Benefits are being provided to retired participants and will be provided to deferred vested participants in accordance with the Plan provisions applicable at the time of their termination.

Employees hired or rehired prior to January 1, 1999 are eligible to participate immediately in the Muskegon Plan.

Nonunion hourly-paid employees are eligible to participate immediately in the Howmet Plan.

All eligible participants currently accruing benefits in the Plans fully vest after a five-year period except the eligible participants in the Muskegon Plan, RMI Hourly Plan, and RMI Salaried Plan which fully vest after five years of continuous service and the eligible salaried participants in the Howmet Plan which fully vest after three years of service.

Benefit Provisions

The benefit provisions for the Arconic Salary Plan determine the retirement benefit on a compensation-based formula.

The Arconic Hourly Plan, the Howmet Plan and the Muskegon Plan determine the retirement benefits on a factor times years of service.

The benefit provisions for the Huck plan determine benefits for service through December 31, 2001 based on a percentage of monthly earnings. This percentage was based on age at month end.

Normal retirement for the Arconic Salary Plan, the Arconic Hourly Plan and the Huck Plan is age 65 with five years of service.

Normal retirement for the Muskegon Plan and the Howmet Plan is age 62 with five years of service.

Normal retirement for the RMI Hourly Plan and RMI Salaried Plan is 65 with five or more years of continuous service. Benefits are determined based upon the participants' compensation and/or number of years of continuous service.

Effective April 1, 2018, benefit accruals for future service and compensation for Arconic salaried and non-bargaining hourly employees ceased. This action impacted the Arconic Salary Plan, Arconic Hourly Plan, Howmet Plan and the RMI Salaried Plan. These plan amendments do not impact each of the plan's actuarial present value of accumulated plan benefits.

Risks and Uncertainties

The Plans invest in investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the Statements of Individual Plan Net Assets Available for Benefits and Statements of Changes in Individual Plan Net Assets Available for Benefits.

Plans' contributions and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the individual Plans' financial statements.

Termination of Plans

Benefits under the Plans are insured by the Pension Benefit Guaranty Corporation (PBGC). Should the Plans terminate at some future time, the net assets of the Plans generally will not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty, while other benefits may not be provided for at all.

A full description of each Plan's termination priorities is available in each Plan document.

Recently Adopted Accounting Standards

In February 2017, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2017-06, Plan Accounting: Defined Benefit Pension Plans (Topic 960) Defined Contribution Pension Plans (Topic 962) Health and Welfare Benefit Plans (Topic 965) Employee Benefit Plan Master Trust Reporting.

Under Topic 960, investments in master trusts are presented in a single line item in the statement of net assets available for benefits. Similar guidance is not provided in Topic 962 or 965, which has resulted in diversity in practice. For each master trust in which a plan holds an interest, the amendments in this ASU require a plan's interest in that master trust and any change in that interest to be presented in separate line items in the statement of net assets available for benefits and in the statement of changes in net assets available for benefits, respectively. Topics 960 and 962 require plans to disclose their percentage interest in the master trust and a list of the investments held by the master trust, presented by general type, within the plan's financial statements. The amendments in this ASU remove the requirement to disclose the percentage interest in the master trust for plans with divided interests and require that all plans disclose the dollar amount of their interest in each of those general types of investments, which supplements the existing requirement to disclose the master trust's balances in each general type of investments. Current generally accepted accounting principles in the United State of America (US GAAP) do not require disclosure by plans of the master trust's other assets and liabilities. The amendments in this ASU require all plans to disclose (1) their master trust's other asset and liability balances and (2) the dollar amount of the plan's interest in each of those balances.

The ASU is effective for fiscal years beginning after December 15, 2018. An entity applies the amendments in this ASU retrospectively to each period for which financial statements are presented. This ASU was adopted by the Plans for the fiscal year end December 31, 2019 and was applied retrospectively.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plans are prepared under the accrual basis of accounting in accordance with US GAAP.

Use of Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Notes to Financial Statements

December 31, 2019 and 2018

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Plans' interest in Arconic Retirement Plans Master Trust and RMI Retirement Plans Master Trust investment income and loss includes the Plans' unrealized and realized gains and losses on investments, dividends, interest income, and investment management/trustee fees.

The fair value of the Plans' interest in the Arconic Retirement Plans Master Trust and RMI Retirement Plans Master Trust investment income is based on the beginning-of-year (period) value plus actual contributions and allocated investment income less actual distributions, allocated investment loss and administrative expenses.

The individual Plans participate in the operations of the Arconic Master Trust through the purchase and sale of units. Cash inflows and outflows between the Plans and the Arconic Master Trust are accounted for at the beginning-of-the-month unit value. Units are revalued monthly to reflect changes in the investment values. Net investment income and losses are allocated to the Plans that participate in the Arconic Master Trust based on each Plan's units held.

Additionally, the RMI Hourly Plan and RMI Salaried Plan participate in the operations of the RMI Retirement Plans Master Trust through the purchase and sale of units. Cash inflows and outflows between the Plans and the RMI Retirement Plans Master Trust are accounted for at the beginning-of-the-month (period) unit value. Units are revalued monthly to reflect changes in the investment values. Net investment income and losses are allocated to the Plans that participate in the RMI Retirement Plans Master Trust based on each Plan's units held.

Benefit Payments

Benefit payments to participants are recorded when paid.

Administrative Expenses

Audit, legal, actuarial, recordkeeping, and other administrative expenses are paid by the Plans. Expenses for services provided for the Arconic Master Trust and RMI Retirement Plans Master Trust are allocated to the Plans ratably, if applicable. Expenses for services provided directly to a specific plan are attributed to only that plan.

Investment Management/Trustee Fees

Investment management and trustee fees are paid by the Plans and are included in Plans' interest in Investment income and loss.

Employer Contributions Receivable

Employer contributions receivable represent the remaining funding amounts Arconic is required to contribute to meet the minimum contribution levels established by law or as a result of a formal commitment by Arconic to make a contribution into the respective Plans.

Funding Policy

The Plans are defined benefit pension plans. No employee contributions to the Plans are required or permitted. Arconic contributes such amounts as are necessary on an actuarial basis to provide the individual Plans with assets sufficient to meet the benefits to be paid to current and future retirees or their beneficiaries. The minimum contributions required, if any, for the Plans are designed to fund the target normal cost and an amortization installment towards any funding shortfalls. A funding shortfall occurs when there is an excess of funding target liability over the actuarial value of plan assets. The amortization installment is designed to fully fund the funding

Employees' Retirement Plans of Arconic Inc. and Subsidiary Companies

Notes to Financial Statements

December 31, 2019 and 2018

shortfall in a given year over a 7-year period. Arconic may also voluntarily contribute amounts in excess of those minimum required amounts to meet certain funding thresholds or company objectives.

The actuarial determined pension contribution is calculated using the unit credit cost method. The funding target liability is the present value of accrued benefits and based on compensation and service to date. The target normal cost is the present value of benefits expected to be accrued during the current plan year, reflecting the effect of expected compensation increases during the year and including expected expenses to be paid from plan assets during the year.

The Plans have met the minimum funding requirements under the provisions of ERISA in 2019.

Investment Policy and Strategy

Arconic's investment policy at December 31, 2019 is as follows:

Asset Category	Policy Range
Equity securities	20-55%
Debt securities	25-55
Other	15-35

The principal objectives underlying the investment of the pension plans' assets are to ensure that Arconic can properly fund benefit obligations as they become due under a broad range of potential economic and financial scenarios, maximize the long-term investment return with an acceptable level of risk based on such obligations, and broadly diversify investments across and within various asset classes to protect asset values against adverse movements. Specific objectives for long-term investment strategy include reducing the volatility of pension assets relative to pension liabilities and achieving diversification across the balance of the asset portfolio. The use of derivative instruments is permitted where appropriate and necessary for achieving overall investment policy objectives. The investment strategy uses long duration cash bonds and derivative instruments to offset a portion of the interest rate sensitivity of U.S. pension liabilities. Exposure to broad equity risk is decreased and diversified through investments in discretionary and systematic macro hedge funds, long/short equity hedge funds, high yield bonds, emerging market debt and global and emerging market equities. Investments are further diversified by strategy, asset class, geography, and sector to enhance returns and mitigate downside risk. A large number of external investment managers are used to gain broad exposure to the financial markets and to mitigate manager-concentration risk.

Investment practices comply with the requirements of ERISA and other applicable laws and regulations.

4. Fair Value Measurements

FASB Accounting Standards Codification No. 820, *Fair Value Measurements and Disclosures*, (ASC 820) provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

- | | |
|---------|--|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. |
| Level 2 | Inputs to the valuation methodology include: <ul style="list-style-type: none">• Quoted prices for similar assets or liabilities in active markets;• Quoted prices for identical or similar assets or liabilities in inactive markets;• Inputs other than quoted prices that are observable for the asset or liability;• Inputs that are derived principally from or corroborated by observable market data correlation or other means. |
| Level 3 | Inputs to the valuation methodology are unobservable and significant to the fair value measurement. |

The asset's or liability's fair value measurement Level within the fair value hierarchy is based on the lowest Level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2019 and 2018:

Cash and Cash Equivalents

Cash and cash equivalents held within commingled funds (institutional short-term investment funds) are fully liquid within 30 days and are valued at the closing Net Asset Value (NAV) of shares held at year end as a practical expedient. Cash and cash equivalents held within commingled funds (short-term investment funds) that are publicly traded are valued at the closing Net Asset Value (NAV) and are included in Level 1.

Fixed Income Securities

U.S. government debt is valued at the closing price reported on an active market on the last business day of each period presented (included in Level 1).

U.S. and non-U.S. fixed interest obligations (principally corporate bonds and debentures) are valued through consultation and evaluation with brokers in the institutional market using quoted prices and other observable market data (included in Level 2).

Equity Securities – Common Stocks, Gold Trust-Exchange Traded Fund, and Futures Contracts

Valued at the closing price reported on an active market on the last business day of each period presented (included in Level 1).

Notes to Financial Statements

December 31, 2019 and 2018

Equity Securities – Commingled Trust Funds

Valued at the closing NAV of shares held at year end as a practical expedient.

Equity Securities – Registered Investment Companies

Valued at the closing NAV of shares held at year end. These funds are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. They are required to publish their daily NAV and to transact at that price and, therefore, are deemed to be actively traded with readily determinable fair values (included in Level 1).

Equity Hedging – Put and Call Option Contracts

Valued at the closing price reported on an active market on the last business day of each period presented (included in Level 1).

Interest Rate Collars

Valued using industry standard models with market-based observable inputs (included in Level 2).

Alternative Investments

Valued primarily at the closing NAV of shares held at year end as a practical expedient as reported in audited financial statements. In the event that audited financial statements for these investments are not available in time to prepare the financial statements or management believes the value reported by the investment advisor does not accurately reflect fair value due to an event in the market place, management will adjust the reported value to fair value based upon information provided by the investment manager and independent valuation experts.

5. Derivatives

Derivatives Policy

The Arconic Master Trust enters into contractual arrangements classified as derivatives in carrying out its investment strategy, principally to (1) manage interest rate risk within the portfolio, (2) manage exposure to a market more efficiently than could be accomplished through the use of cash markets, and (3) increase investment returns by reducing the cost of structuring the portfolio or by capturing value disparities between financial instruments. The Arconic Master Trust utilizes exchange traded instruments such as interest rate futures, options on futures, interest rate swaps, interest rate collars, put and call option contracts, and foreign currency forward contracts. The Arconic Master Trust is subject to enforceable master netting arrangements, or netting arrangements, with certain counterparties. Master netting agreements may not be specific to each different asset type; in such instances, they would allow the company to close out and net its total exposure to a specified counter party in the event of a default.

The following is a summary of the Arconic Master Trust's usage of derivatives:

Futures Contracts

A futures contract is a contractual agreement to make or take delivery of a standardized quantity of a specified grade or type of commodity or financial instrument at a specified future date in accordance with terms specified by a regulated future exchange.

The Arconic Master Trust may use treasury, Eurodollar, and other fixed income futures contracts to manage exposure to interest rate risk and exposure in the market. Buying futures tends to increase the Arconic Master Trust's exposure to the underlying instrument held, while selling futures tends to reduce the exposure.

A summary of the open futures contracts as of December 31, 2019 and 2018 is presented below:

Options on Futures Contracts

The Arconic Master Trust may buy or sell options on futures contracts to capture value disparities between financial instruments. Options strategies may be used to improve yields and enhance performance of the fixed income portfolio. Options on futures contracts are purchased or sold on regulated futures exchanges.

Interest Rate Collars

The Arconic Master Trust may use interest rate collars to manage exposure to interest rate fluctuations. The interest rate collar is an options strategy which involves buying an interest rate receiver swaption while selling an interest rate payer swaption. The premium received for selling the interest rate payor swaption pays for the purchase of the interest rate receiver swaption. The purchased receiver swaption protects against falling interest rates, while the sold payor swaption limits the benefit of rising interest rates.

The average notional values of the protective puts and covered calls held by the Arconic Master Trust during the year ended December 31, 2019 was \$2,360,000,000 and (\$2,040,000,000), respectively.

Equity – Put and Call Option Contracts

The Arconic Master Trust may use put and call option contracts to manage exposure related to its equity holdings. A call option provides the holder the right (but not the obligation) to purchase an underlying asset at a specified price (the strike price), for a certain period of time. A put option gives the holder the right to sell an underlying asset at a specified price (the strike price). The seller (or writer) of the put option is obligated to buy the stock at the strike price. Options are purchased or sold on regulated exchanges.

The average notional value of equity put and call option contracts held by the Arconic Master Trust during the year ended December 31, 2019 was (\$248,264,636).

Foreign Currency Forwards

The Arconic Master Trust may use foreign currency forwards to capture value disparities between the fixed income and currency markets. Currency forwards may be purchased or sold to enhance returns in the fixed income portfolio. Foreign currency forwards are purchased or sold on regulated futures exchanges.

Activity and year end holdings of Options on Futures Contracts and Foreign Currency Forwards were not material to the overall investment portfolio.

The RMI Retirement Plans Master Trust did not enter into contractual arrangements classified as derivatives in carrying out its investment strategy.

6. Accumulated Plan Benefits

Accumulated plan benefits are those future benefit payments that are attributable, under each Plan's provisions, to employees' service rendered to the benefit information date. Accumulated plan benefits comprise benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of deceased employees, and (c) present employees or their beneficiaries.

The actuarial present value of accumulated plan benefits is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The Plans' actuary made this determination.

Actuarial valuation results as of December 31, 2019 using census data as of January 1, 2019, as well as those as of December 31, 2018, using census data as of January 1, 2018, have been presented below using standard actuarial techniques, taking into account the occurrence, if any, of significant events during the course of the year and the changes made to actuarial assumptions.

Based upon actuarial estimates at December 31, 2019, the present value of accumulated plan benefits for each of the Plans is as follows:

7. Tax Status

The Internal Revenue Service ("IRS") has determined and informed the Company that the Plans are qualified and the trusts established under the Plans are tax exempt under the appropriate sections of the Internal Revenue Code (IRC).

The Plans have been amended since receiving the determination letters. However, the Plans' administrator and the Plans' tax counsel believe that the Plans are currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, they believe the Plans were qualified and the related trusts were tax-exempt as of the financial statements date.

Determination letters received were dated as follows:

Arconic Salary Plan	December 08, 2016
Arconic Hourly Plan	December 08, 2016
Huck Plan	March 02, 2017
Muskegon Plan	July 21, 2017
Howmet Plan	December 13, 2016
RMI Salaried Plan	September 12, 2014
RMI Hourly Plan	June 27, 2014

US GAAP requires the Plans' management to evaluate tax positions taken by the Plans and recognize a tax liability (or asset) if the organization has taken an uncertain position that would not be sustained upon examination by the IRS. The Plans' administrator and its tax counsel have analyzed the tax positions taken by the Plans and have concluded that as of December 31, 2019 and 2018, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure to the financial statements. As such, no reserve is required under US GAAP. The Plans are subject to audits by the IRS; however, there are no current IRS audits for any tax periods in progress. The Plans' administrator and its tax counsel believe the Plans are no longer subject to IRS audits outside the statutory audit period.

13. Subsequent Events

Management has evaluated the events and transactions that have occurred through October 7, 2020, the date the financial statements were available to be issued, and noted no items requiring adjustment of the financial statements or additional disclosures, other than that which is noted below.

Effective January 1, 2020:

In anticipation of the separation of Arconic Inc., management established the Arconic Corp. Pension Plan A and the Arconic Corp. Pension Plan B.

The benefits, assets and liabilities attributable to certain participants as defined in the amendments of the Arconic Salary Plan and the Arconic Hourly Plan were spun off and transferred to the Arconic

Employees' Retirement Plans of Arconic Inc. and Subsidiary Companies **Notes to Financial Statements** **December 31, 2019 and 2018** ---

Corp. Pension Plan A and Arconic Corp. Pension Plan B. Such individuals no longer have benefits under the Arconic Salary Plan nor the Arconic Hourly Plan.

The accumulated plan benefits and the plan assets transferred from the Arconic Salary Plan to the Arconic Corp. Plan A were \$1,806 million and \$1,177 million, respectively. The accumulated plan benefits and the plan assets transferred from the Arconic Hourly Plan to the Arconic Corp. Plan B were \$1,796 million and \$1,298 million, respectively.

Once the benefits, assets and liabilities attributable to certain participants in the Arconic Hourly Plan were spun-off and transferred to Arconic Pension Plan B, the Arconic Hourly Plan was merged into the Arconic Salary Plan. On January 1, 2020, net assets of \$1,453,818,501 were transferred from the Arconic Hourly Plan to the Arconic Salary Plan. The Arconic Salary Plan is the successor and surviving plan. The Arconic Salary Plan was renamed the Howmet Aerospace Retirement Plan.

Effective April 1, 2020, Arconic Inc. separated into two publicly traded companies. Arconic Inc. was renamed Howmet Aerospace Inc. and began trading under the ticker symbol HWM. Arconic Corporation was spun off from Arconic Inc. and began trading under the ticker symbol ARNC.

On January 14, 2020, January 15, 2020 and March 20, 2020, Arconic made cash contributions of \$26,961,927, \$18,484,027, and \$2,479,000.

The Coronavirus Aid, Relief, and Economic Security Act (CARES Act), signed into law March 27, 2020, introduced temporary relief provisions related to the Plans. It provides for a delay for any minimum required contribution during calendar year 2020. The new due date for any such contribution is now January 1, 2021.

As a result, Howmet Aerospace made cash contributions of \$6,796,000 on September 28, 2020 and is expected to make cash contributions of \$38,097,000 on December 28, 2020. Additionally, on December 1, 2020, Arconic Corporation is expected to make total cash contributions of \$105,349,000 to Arconic Corp. Pension Plan A and the Arconic Corp. Pension Plan B. Since these contributions relate to the 2019 plan year, they are considered contributions to the Arconic Salary Plan and the Arconic Hourly Plan. They are reflected as a Contribution receivable due from Arconic Corporation on the Statements of Individual Plan Net Assets Available for Benefits and as an Employer contribution on the Statements of Changes in Individual Plan Net Assets Available for Benefits.

Arconic Salary Plan	\$ 52,458,000
Arconic Hourly Plan	52,891,000

In the Plans' financial statements, a total of \$92,817,954 is being applied to the 2019 plan year and is reflected as an Employer contribution receivable on the Statements of Individual Plan Net Assets Available for Benefits and as an Employer contribution on the Statements of Changes in Individual Plan Net Assets Available for Benefits.

Arconic Salary Plan	\$ 55,614,695
Arconic Hourly Plan	24,860,027

ATTACHMENT TO SCHEDULE SB OF 2019 FORM 5500

Schedule SB, Part V – Summary of Plan Provisions

The following summary outlines the main provisions applicable to future retirements and terminations from active service. Prior terminations/retirements are subject to provisions applicable at the time of termination.

Definitions

Service

Based on years, months, and days of continuous regular employment with the Company. Certain locations included do not recognize benefit service for all periods of service with the Company. These limitations are specified in the Plan document. Service for non-bargained participants is frozen effective April 1, 2018.

Other Pension

A portion (based upon service covered by the Railroad Retirement Act) of the Tier II benefit determined in accordance with the Railroad Retirement Act, plus the amount of any Supplemental Retirement Benefit provided under the Railroad Retirement Act. In addition, Other Pension is any pension, other than Social Security or Railroad Retirement benefits, that a participant is entitled to from a governmental plan, foreign or domestic, or a benefit from a nongovernmental plan to which Alcoa or a subsidiary has contributed.

Plan Coverage

Every hourly employee of a Company authorized by the Board of Directors to participate who (1) has attained age 21 and completed at least one year of service, (2) is not accruing service countable for pension benefit accrual purposes under another retirement plan of Alcoa or a Subsidiary, (3) is in a collective bargaining unit that has agreed to participate in this plan or a non-bargained employee working at a location authorized to participate in this plan, and (4) is not in receipt of a pension (with certain limited exceptions), commissions, severance pay, retainer or fee under contract is generally covered under the Plan.

Protection Of Benefits

For former participants of other Plans who become participants in this Plan as the result of mergers and acquisitions, benefits accrued, eligibilities, and optional forms of payment available under the former Plan are protected as required by law.

Contributions

All contributions to provide the benefits under the Plan are made by the Company.

Benefit:	Accrued Benefit payable at age 65.

Preretirement Surviving Spouse Benefit

Eligibility:	Death after 5 years of service.
Benefit:	50% of the benefit accrued as of the date of death. If death in active service occurs before attainment of retirement age, the spouse's benefit is payable at the date the deceased employee would have attained retirement age.

Forms of Payment

Single Life Annuity and Joint and Survivor Annuity.

Rule IICC

Eligibility

Certain hourly-related employees of Alumax are eligible to participate in the Plan, provided such employees are not covered by a collective bargaining agreement which does not provide for participation in this Plan. In addition, all participants of the individual plans prior to the merger are participants of the merged plan.

Participation

Eligible employees are covered by the Plan on the first day of service.

Accrued Benefit

The monthly benefit is years of benefit service multiplied by the benefit level applicable to the participant at the time of termination as described below.

Effective April 1, 2018, all non-bargained participants' accrued benefits are frozen.

For Texarkana Participants:

Job Grade	Benefit Level After 8/19/2015
1 - 6	\$ 31.00
7 – 12	33.00
13 – 17	35.00

For Aluminum-Combined – Mill Products (Lancaster) participants:

Participant's Classification	Benefit Level Effective 1/1/2012
1 - 2	\$ 52.00
3 – 4	51.00
5 – 6	49.00
7 – 8	48.00
9 – 10	46.00

Normal Retirement

For participants who were members of any of the individual plans prior to the merger, Normal Retirement Age under the merged plan is the same as Normal Retirement Age under the prior plan. For all other participants, Normal Retirement Age is 65. Monthly benefit is the accrued benefit as defined above.

Early Retirement

Each participant who has attained age 55 and has completed five years of eligibility service is eligible for early retirement. Certain closed locations had different early retirement eligibility requirements not defined here. The participant's accrued benefit will be reduced for each month by which the participant's age at early retirement is less than his Normal Retirement Age according to the following table:

Group	Reduction per Month
Aluminum Combined	
Hired before January 1, 1998	.25%
Hired January 1, 1998 or later	5/12 of 1%
Other Non Closed Locations	
Receive pension prior to January 1, 1998	.5%
Receive pension January 1, 1998 or later	5/12 of 1%

Deferred Vested Retirement

A participant termination employment with five years of eligibility service will be eligible to receive a benefit at any time after attaining age 55 reduced for early commencement prior to Normal Retirement Age by 5% per year.

Disability Retirement

No disability benefits are currently payable from the Plan except for disabilities that occurred in the past.

Pre-Retirement Spouse's Benefit

If an active or terminated participant with five or more years of eligibility service dies prior to receiving retirement benefits, a death benefit is payable under the Plan.

The death benefit is an annuity for the spouse's lifetime equal to the monthly pension which would have been payable to the spouse if the participant had terminated employment just prior to death and elected a qualified joint and survivor annuity commencing on the later of date of death or Early Retirement Age.

Post-Retirement Spouse's Benefit

Payable in accordance with the form of benefit payment elected by the participant.

Forms Of Payment

- Straight Life: payments to retiree until death.
- 50%, 66 2/3%, and 100% joint and survivor: actuarially reduced benefit to retiree until death and then X% of the benefit payable to the spouse.
- 5 or 10 year certain and life: payments to retiree until death or for the balance of X years to survivor if death precedes X years after retirement.
- Joint and 2/3 contingent survivor: actuarially reduced benefit payable during joint lifetime of participant and spouse, 2/3 of the benefit payable upon the death of the participant or spouse.

Contributions

All contributions to support the Plan are made by the Company.

Summary of Changes from the January 1, 2018 Valuation

Effective 1/1/2020, USW Master Agreement locations have been closed to new entrants.

ATTACHMENT TO SCHEDULE SB OF 2019 FORM 5500

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods

Prescribed Funding/PBGC Assumptions and Methods

The following assumptions and methods are prescribed by ERISA, as currently amended.

Funding and PBGC premium interest rates

For 2019 Plan Year: Segment Rates with four-month lookback, constrained in accordance with relevant legislation as follows:

	Unconstrained Rates*	Rates Reflecting Corridor**
First Segment Rate	2.28%	3.74%
Second Segment Rate	3.81%	5.35%
Third Segment Rate	4.46%	6.11%
Effective Interest Rate	3.97%	5.47%

For 2018 Plan Year: Segment Rates with four-month lookback, constrained in accordance with relevant legislation as follows:

	Unconstrained Rates*	Rates Reflecting Corridor**
First Segment Rate	1.75%	3.92%
Second Segment Rate	3.76%	5.52%
Third Segment Rate	4.66%	6.29%
Effective Interest Rate	3.98%	5.64%

*Used for maximum tax-deduction, PBGC premium, and 4010 reporting purposes.

** Used for minimum funding and benefit restriction purposes.

Mortality

Substitute mortality tables for all plans in Arconic's controlled group apply for male annuitants and nonannuitants and for female annuitants and nonannuitants, approved by the IRS as specified in IRS Regulation 1.430(h)(3)–2, with Mortality Improvement Scale MP–2017 appropriate for 2019 on a generational basis. Approval is granted for a period of 10 years commencing January 1, 2018, subject to the conditions specified in IRS Regulation 1.430(h)(3)–2(d)(6). Lump sum mortality tables are as prescribed by IRS Code 417(e).

Lump Sum interest and mortality:

Interest Rate:	Forward rates implied by the funding interest rates (annuity substitution rule)
Mortality:	2019 IRS 417(e) Applicable Mortality table

Actuarial cost method

The Funding Target is the present value of accrued benefits based on compensation and service to date. The Target Normal Cost is the present value of benefits expected to be accrued during the current plan year, reflecting the effect of expected compensation increases during the year and including expected plan administrative and investment related expenses to be paid from plan assets during the year.

Non-Prescribed Funding Assumptions and Methods

The following assumptions were selected by the plan's enrolled actuary. With the exception of the retirement rates, the assumptions are chosen based on the experience study done in 2011 for Alcoa Retirement Plan II. Retirement rates were adjusted for the 2015 funding valuation to account for the increase in life expectancy noted in the Society of Actuaries report on mortality tables and the impact of the Great Recession on retirement savings which is expected to result in individuals working longer than previously assumed. The process used to determine the expected long-term rate of return on assets relied on a combination of historical asset return information and forward-looking returns by asset class using information from various external investment managers and consultants. The asset valuation method was selected by the plan sponsor with the actuary's advice and is an acceptable method under legislation.

Salary increases

Cost-of-living plus additional increase varying by age. Select ages shown.

Age	Current Year
20	5.80%
25	5.30
30	4.80
35	4.30

45	3.30
50	2.80
55	2.30
60	2.30
65	2.30
69	2.30

Expenses

Expected plan administrative and investment related expenses of \$15,460,000 (\$15,500,000 in 2018) were added to the Target Normal Cost, based on expenses paid in the prior year and estimated PBGC premiums to be paid in the current year.

Frequency of optional payment forms

It was assumed that 50% of employees would elect a 50% joint and survivor benefit and 50% of employees would elect a life annuity at commencement. The restoration of a benefit in the event that the spouse pre-deceases the participant is being recognized for certain Rules that permit a "pop-up". For these Rules, it was assumed that 75% of employees would elect a 50% joint and survivor benefit with a "pop-up" and a 25% of employees would elect a life annuity at commencement. For IICC only, 50% of employees not eligible for lump sums elect a life annuity and 50% elect a Joint and Survivor annuity, while 100% of employees eligible for lump sums elect a lump sum.

Marital percentage

73% of participants are assumed to be married at death. Husbands are assumed to be 3 years older than their wives.

Asset valuation method

The Actuarial Value of Assets is market value as of the valuation date, including discounted receivable contributions, reduced by 2/3 and 1/3 of the gain/(loss) in each of the prior 2 years, respectively. The gain/(loss) for each period is determined as the actual return on market value during the period less the expected return on market value based on an assumed earnings rate chosen by the actuary but required by PPA to be not greater than the applicable third Segment Rate. The resulting value is constrained to be within a corridor of 90% to 110% of market value, including discounted receivable contributions.

	Actuary's Assumption	Third Segment Rate	Reflecting PPA Limit
2019 Expected Return	7.00%	6.11%	6.11%
2018 Expected Return	7.00%	6.29%	6.29%
2017 Expected Return	7.75%	6.48%	6.48%

Future actuarial measurements

Future actuarial measurements may differ significantly from current measurements due to plan experience differing from that anticipated by the economic and demographic assumptions, changes expected as part of the natural operation of the methodology used for these measurements, and changes in plan provisions, applicable law or regulations. An analysis of the potential range of such future differences is beyond the scope of this report.

Summary of Changes from the January 1, 2018 Valuation

Prescribed Assumptions: The interest rates were updated to the current rates in accordance with PPA and HATFA. The mortality improvement scale has been updated to scale MP-2017 in accordance with the requirements of the internal revenue code and associated regulations.

These assumption changes increased the Funding Target approximately \$21,275,000 and decreased the plan's AFTAP by 0.9%.

Schedule SB, Line 23 – Information on Use of Substitute Mortality Tables

The substitute mortality table applies to all groups of plan participants and thus there are no groups that use the prescribed mortality tables for the 2019 plan year. The mortality ratio used to develop the table is 1.0639255, and applies to both males and females. The tables are based on full credibility. The substitute mortality tables have been approved beginning with the plan year commencing January 1, 2018 and ending with the plan year commencing January 1, 2027.

ARCONIC RETIREMENT PLAN II

EIN: 25-0317820

PN: 002

ATTACHMENT TO SCHEDULE SB OF 2019 FORM 5500

On April 1, 2020, Arconic Inc. split into two independent companies – Howmet Aerospace Inc. (Howmet) and Arconic Corp. In preparation for this split, Arconic Retirement Plan I spun-off a portion of the plan on December 31, 2019 to create the Arconic Corp. Pension Plan A and Arconic Retirement Plan II spun-off a portion of the plan on December 31, 2019 to create the Arconic Corp. Pension Plan B. The portion of Arconic Retirement Plan II that Howmet retained was then immediately merged into the portion of Arconic Retirement Plan I that Howmet retained on December 31, 2019. In addition, Arconic Retirement Plan I was renamed Howmet Aerospace Retirement Plan on January 1, 2020. To the best of our knowledge, the spinoff was completed in compliance with the requirements of Section 401(a)(12) and Section 414(l) of the Code.

When available, we have relied on post-PPA guidance related to spinoffs. In other instances, we have applied reasonable interpretations based on pre-PPA guidance.

Statement by Enrolled Actuary
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
