SPS Technologies Waterford Company Pension Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of SPS Technologies Waterford Company Pension Plan (the Plan), which comprise the statement of net assets available for benefits as of January 31, 2021 and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information discussed in Note 9, which was certified by The Bank of New York Mellon/BNY Mellon, N.A., the trustee of the Plan, except for comparing such information with the related information included in the 2021 financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the year ended January 31, 2021, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the 2021 financial statements. Accordingly, we do not express an opinion on the accompanying 2021 financial statements.

Emphasis of Matter, Restatement

As part of our audit of the 2021 financial statements, we also audited the adjustments described in Note 4 that were applied to restate the 2020 financial statements. In our opinion, such adjustments are appropriate and have been properly applied. We were not engaged to audit, review or apply any procedures to the 2020 financial statements of the Plan other than with respect to the adjustments and accordingly, we do not express an opinion or any form of assurance on the 2020 financial statements as a whole.

Other Matter - 2020 Financial Statements

The financial statements of the Plan as of January 31, 2020, before the restatement described in Note 4, were audited by predecessor auditors. As permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed the predecessor auditors not to perform, and they did not perform, any auditing procedures with respect to the information certified by the trustee. Their report, dated November 4, 2020, indicated that (a) because of the significance of the information that they did not audit, they were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, they did not express an opinion on the financial statements and (b) the form and content of the information included in the financial statements other than that derived from the information certified by the trustee, were presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Report on Form and Content in Compliance With DOL Rules and Regulations - 2021

The form and content of the information included in the 2021 financial statements, other than that derived from the information certified by the trustee, has been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, is presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Notes to Financial Statements

January 31, 2021 and 2020

1. Description of the Plan

The following description of the SPS Technologies Waterford Company Pension Plan (the Plan) is provided for general information purposes only. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a non-contributory defined benefit pension plan sponsored by SPS International Investment Company (the Company), a wholly-owned subsidiary of Precision Castparts Corp. (PCC). The assets are invested in the Precision Castparts Corp. Master Trust (Master Trust) with The Bank of New York Mellon (BNYM). The Plan is subject to the provisions of the Employee Retirement Income Securities Act of 1974 (ERISA).

The Company has appointed an administrative committee to oversee the administration of the Plan, with local human resources personnel providing day-to-day support functions. The Master Trust Investment Committee determines the appropriateness of the Plan's investments and monitors investment performance.

Funding Policy

The Plan's funding policy is for the Company to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement. No participant contributions are permitted. The minimum funding requirements of ERISA were met for 2021 and 2020.

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

Eligibility and Vesting

Participation and related future benefit accruals in the Plan were frozen as of December 31, 2009. Employees of the Company, who were employed prior to December 31, 2009, attained age 21 and completed one year of service, were eligible to participate in Plan.

Pension Benefits

Participants vest in a pension benefit after 5 years of service and they are entitled to a full benefit equal to 30% of their average compensation after 10 years of service beginning at age 65. Employees with more than 5 but less than 10 years of service will receive a fraction thereof. The Plan permits a reduced early retirement benefit beginning at age 55 with at least 10 years of service. Participants may elect to receive their benefit in the form of a single life annuity or joint and survivor annuity.

Death and Disability Benefits

If an active employee dies, the Trustees shall distribute either a pre-retirement survivor income or a death benefit equal to 100 times the monthly retirement benefit the deceased participant would have received on his normal retirement date, but not both. The benefit will not exceed \$60,000.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, disclosures of contingent assets and liabilities and the actuarial present value of accumulated plan benefits at the date of the financial statements and changes therein. Actual results could differ from those estimates.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying Statements of Changes in Net Assets Available for Benefits. In addition, certain investment related expenses are included in the Plan's interest in the net investment income of the Master Trust presented in the accompanying Statements of Changes in Net Assets Available for Benefits.

Investment Valuation and Income Recognition

The Plan's interest in the Master Trust is reported at fair value based on the underlying investments. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in the value of investments is allocated by the Master Trust to the Plan based upon the Plan's daily weighted average percentage of net assets for a given month.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' service prior to December 31, 2009. The accumulated plan benefits for active employees will equal the accumulation of the annual benefit accruals as of the benefit information date. Benefits payable under all circumstances such as retirement, death, disability and termination of employment are included, to the extent they are attributable to employee service rendered to the valuation date.

SPS Technologies Waterford Company Pension Plan

Notes to Financial Statements

January 31, 2021 and 2020

The actuarial present value of accumulated plan benefits is determined by the Plan's independent actuary as of February 1, 2020 and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The actuarial present value of accumulated plan benefits as of February 1, 2020 is as follows:

Vested benefits:	
Participants and beneficiaries currently receiving payments	\$ 2,607,657
Other participants	<u>4,566,332</u>
 Total vested benefits and actuarial present value of accumulated plan benefits	 <u>\$ 7,173,989</u>

The changes in the actuarial present value of the accumulated plan benefits for the year ended January 31, 2020 are summarized as follows:

Actuarial present value of accumulated plan benefits, at beginning of year	\$ 7,049,902
Increase (decrease) during the year attributable to:	
Increase for interest due to decrease in discount period	501,218
Benefits paid	(277,963)
Change in actuarial assumptions	(151,757)
Actuarial loss	<u>52,589</u>
 Actuarial present value of accumulated plan benefits, at end of year	 <u>\$ 7,173,989</u>

Significant assumptions underlying the actuarial computations are as follows:

- a) Mortality - Pri-2012 Private Retirement Plans Healthy Blue Collar Mortality Tables projected with Scale MP 2019, applied post-retirement only.
- b) Discount Rate - 7.25 percent
- c) Vested inactive participants are assumed to retire at age 62 if eligible for early retirement, otherwise at age 65.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The mortality assumption was updated to incorporate a more recent mortality table and projection scale to reflect both current and expected mortality improvements. These changes resulted in a decrease of approximately \$152,000 in the actuarial present value of accumulated benefits in 2020.

Recent Accounting Standard

In August 2018, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2018-13, *Disclosure Framework - Changes to the Disclosure Requirements for Fair Value Measurement*. ASU No. 2018-13 modifies the disclosure requirements for fair value measurements in Topic 820, *Fair Value Measurement*. The amendments are based on the concepts in the FASB Concepts Statement, *Conceptual Framework for Financial Reporting—Chapter 8: Notes to Financial Statements*, which the FASB finalized on August 28, 2018. ASU No. 2018-13 is effective for fiscal years beginning after December 15, 2019. Management has adopted the provisions of this new standard for the year ended January 31, 2021. This update was retrospectively applied.

Subsequent Events

The Plan has evaluated subsequent events for recognition or disclosure through November 5, 2021, the date the financial statements were available to be issued.

3. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under authoritative guidance are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observables and minimize the use of unobservable inputs.

SPS Technologies Waterford Company Pension Plan

Notes to Financial Statements

January 31, 2021 and 2020

The following is a description of the valuation methodologies used for assets held in the Master Trust measured at fair value. The Plan is able to purchase or sell units of the Master Trust on a daily basis. The Master Trust asset allocation strategy is designed with the objective of achieving the asset return assumption consistently over the long-term in order to fund future payment obligations, while minimizing contributions and plan sponsor economic risk. The asset categories are described below, along with the valuation methodologies and investment level classifications. There have been no changes in the methodologies used at January 31, 2021 and 2020.

Public Equity - Public equity investments consist of publicly traded equity securities, as well as hedged equity investment strategies which may add short positions in equities or equity futures in order to generate absolute returns regardless of equity market direction. Equity investments held directly are valued based upon closing prices reported in active trading markets and classified as Level 1. Other fund investments are valued using the most recent net asset value (NAV) of the fund.

Private Equity - Private equity investments consist of investments in nonpublic companies made directly or through limited partnerships or commingled vehicles with managers who purchase interests in nonpublic companies. Sub-categories of private equity may include venture capital, early stage, special situations or restructuring funds. Private equity typically has low liquidity, a 10 year or longer investment commitment, and valuation methodologies that require the use of significant unobservable inputs. Direct private equity investments are classified as Level 3, while investments made through funds are typically valued at the most recent NAV of the fund. As of January 31, 2021 and 2020, unfunded capital commitments to private equity investments were approximately \$2 million and \$4 million, respectively.

Alternative Strategies - Alternative strategies are investments with managers who seek specified levels of absolute returns with minimal correlation to market movements. Alternatives managers typically invest in futures, forwards or options on a variety of asset classes. Investments are typically made in investment funds with values stated at fund NAVs. Royalty investments were historically made through investment funds which purchase income-producing royalties derived from sales of pharmaceutical products, with the fund's underlying royalty investments subject to independent fair valuation methodologies used in determining the fund's NAV. Liquidity was typically arranged in the secondary market with trades occurring at the most recent NAV. During 2021 the Company's significant royalty investment fund holding was restructured and now trades as a publicly listed equity security. As such, this investment was recategorized during 2021 as a Public Equity holding and classified as Level 1.

Fixed Income - Fixed income investments consist of private fixed income securities of non-U.S. corporate issuers classified as Level 3, as well as publicly traded investment funds classified as Level 1.

Cash/Other - Cash and other investments include highly liquid money market securities, demand deposits and other cash equivalents. Cash and other investments are classified as Level 1, or stated at NAV for private money market funds.

4. Undivided Interest in the Precision Castparts Corp. Master Trust

All of the Plan's investments are in the Master Trust. The Plan's interest is calculated based on the fair value at the end of the previous period, plus any contributions and income received, less benefit payments and expenses paid for each plan during the period.

At January 31, 2021 and 2020, the Plan's interest in the net assets of the Master Trust was 0.76 percent. Investment income and administrative expenses relating to the Master Trust are allocated to the individual plans based upon the amount of time the Plan's assets were invested in the Master Trust.

	2020		
	Private Equity	Fixed Income	Total

Transfers in and/or out of Level 3	-	-	-

Transfers Between Levels - The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. We evaluate the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. In 2021, the Plan had \$10,235,205 of transfers from Level 3 to Level 1. In 2020, there were no transfers between levels.

5. Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a) Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under plan provisions in effect at any time during the five years preceding plan termination.
- b) Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations.
- c) All other vested benefits (that is, vested benefits not insured by PBGC).
- d) All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Company and the level of benefits guaranteed by the PBGC.

6. Related-Party and Party in Interest Transactions

The Plan's investments are administered under a contract with BNYM, the trustee of the Plan. Contributions are held and managed by BNYM, who invests cash received, interest and dividend income and make distributions to participants. These transactions qualify as party in interest transactions which are exempt from the prohibited transactions rules of ERISA.

As described in Note 2, the Plan paid certain expenses related to plan operations and investment activity to various service providers. Additionally, certain administrative functions of the Plan are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

7. Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated August 14, 2015, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Risks and Uncertainties

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

9. Information Certified by Trustee

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA for 2021 and 2020. Accordingly, BNYM, the trustee of the Plan, has certified to the completeness and accuracy of all investments reported in the accompanying Statements of Net Assets Available for Benefits as of January 31, 2021 and 2020 and the related investment activity reported in the Statements of Changes in Net Assets Available for Benefits for the years then ended.

ACTUARIAL ASSUMPTIONS AND METHODS

Discount Rates

As selected by Precision Castparts Corp., the rates for calculating the PPA Funding Target are the February 2020 segment rates without the American Rescue Plan Act of 2021. As prescribed by interest rate stabilization legislation, in 2020 these rates must be between 90% and 110% of the 25-year average rates published by the IRS.

Measurements using segment rates:	PPA Funding Target
Segment 1 payments under 5 years	3.64%
Segment 2 payments between 5 and 20 years	5.21%
Segment 3 payments after 20 years	5.94%

Mortality

For calculating the Funding Target, mortality follows the RP-2014 annuitant and non-annuitant static mortality tables for 2020 as prescribed by the IRS. However, due to the nature of the pre-retirement death benefit, computationally no deaths are assumed prior to retirement.

Retirement

Vested inactive participants are assumed to retire at age 62 if eligible for early retirement, otherwise at age 65. Future retirees are assumed to elect a single life annuity.

Probability of Marriage

100% of non-retired participants were assumed married. Spouses were assumed to be the same age as participants.

Administrative Expenses

It is assumed that the Plan's non-investment expenses will total \$70,000 annually, payable at the beginning of the year (adopted February 1, 2019).

Actuarial Value of Assets

For funding requirements, the Plan uses the 24-month average value of assets per IRS Notice 2009-22 (adopted February 1, 2009).

Actuarial Cost Method

We calculate the actuarial present value of benefits accrued as of the beginning of the plan year. This cost method is typically referred to as the Unit Credit method.

Changes in Actuarial Assumptions

- The discount rates and mortality assumption were updated as required and as described above.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

The Plan no longer has active participants. Terminated vested participants are assumed to retire at age 62 (or current age if greater) if eligible for early retirement, or at age 65 if not eligible for early retirement. The counts of expected retirement ages are shown above. The weighted average retirement age was determined using the counts as weights.

SUMMARY OF THE PLAN

Name

SPS Technologies Waterford Company Pension Plan

Effective Date

February 1, 1974. Amended and restated effective February 1, 2014.

Type of Plan

Trusteed plan with a corporate trustee, administered by a committee appointed by the Company's Board of Directors.

Employees Eligible to Participate

Participation was frozen effective December 31, 2009. The Plan has no active participants.

Normal Retirement Date

A participant's normal retirement date shall be the first day of the month on or after the later of his 65th birthday or the fifth anniversary of the date on which the participant commenced participation in the plan.

Normal Retirement Benefit

A participant's Normal Retirement Benefit is a monthly pension for the life of the participant equal to 30% of the participant's Average Monthly Compensation, reduced by 1/10 for each year credited service is less than ten years.

Credited service was frozen effective December 31, 2009.

Average Monthly Compensation is the total of a participant's annual compensation during the first five consecutive years out of the participant's last 10 years of vesting service prior to December 31, 2009, divided by 60. If a participant has less than 10 years of vesting service as of December 31, 2009, his Average Monthly Compensation is based on his compensation from his employment date to December 31, 2009, provided that no more than the first 60 months are considered. Compensation is total wages, subject to the annual 401(a)(17) compensation limits.

Accrued Benefit

A participant's Accrued Benefit is the Normal Retirement Benefit based on Average Monthly Compensation on the determination date and assuming service to normal retirement, multiplied by the ratio of credited service over expected credited service if service continued to normal retirement.

Optional Forms of Benefit

If a participant is married at retirement and does not elect otherwise, he will receive a reduced monthly benefit for his life and, upon his death, his spouse will receive 50% of that amount monthly for the remainder of the spouse's life. A married participant may optionally select a life annuity or a spousal annuity which continues 75% or 100% of a reduced amount to the spouse after the participant's death. The spousal annuities are actuarially equivalent to the life annuity based on 1971 Group Annuity Mortality and 9.0% Interest. A non-married participant will receive a life annuity.

Earliest Retirement Date

The first day of any month on or after the date on which a member attains age 55 and completes 10 Years of Vesting Service.

Amount of Early Retirement Pension

Basic Retirement Benefit reduced by 1/2% for each month that early retirement precedes his normal retirement date.

Disability Pension

A participant who becomes totally disabled will be eligible to receive an immediate monthly benefit equal to the vested portion of his accrued benefit, actuarially reduced for early commencement.

Preretirement Death Benefits

If a participant dies while an active employee and before his normal retirement age, his beneficiary may receive a lump sum death benefit or, if vested and married, his spouse may receive a surviving spouse's benefit. The lump sum benefit is generally the lesser of \$60,000 or 100 times the deceased participant's accrued benefit as of the January 31 immediately preceding the participant's death. The surviving spouse's benefit is the benefit that would have been payable to the spouse had the deceased participant terminated on the day of his death, survived to the earliest retirement date, retired under the 50% contingent beneficiary option, and died immediately.

If a vested terminated participant dies prior to commencing benefits, his beneficiary may receive the present value of the participant's vested accrued benefit, or if married, his spouse may receive a surviving spouse's benefit, as described above.

Vesting

A participant will be vested in their accrued benefit upon the earliest of:

- a) Completion of 5 years of vesting service.
- b) Attainment of normal retirement age.

A year of vesting service is earned for each plan year in which the participant worked at least 1,000 hours.

Plan Changes

There were no changes to the Plan that were known to have a material impact on the valuation.
