NOTES TO FINANCIAL STATEMENTS

December 31, 2020 and 2019

NOTE 1 - DESCRIPTION OF PLAN

The following description of the LTD Commodities LLC 401(k) Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established under Section 401(k) of the Internal Revenue Code ("IRC"), covering employees of LTD Commodities LLC (the "Company" or "Employer"). Employees of the Company are eligible to participate in the Plan upon reaching 21 years of age. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Contributions

All eligible employees may voluntarily elect to contribute up to 50% of their pre-tax compensation and/or their post-tax compensation as defined in the Plan subject to federally mandated limits. Participants who reach age 50 by the end of the Plan year may make additional catch-up contributions. For participants who have completed one year of service, the Company may contribute a discretionary matching contribution. For both the years ended December 31, 2020 and 2019, the Company elected a discretionary matching contribution equal to 50% of the first 4% of salary that a participant contributes to the Plan. The Plan does not provide for a discretionary match on additional catch-up contributions.

The Plan includes an auto-enrollment provision whereby employees are auto-enrolled in the Plan upon meeting the eligibility requirements at a contribution deferral rate of 4%, unless the participant affirmatively elects otherwise. The Plan also includes a provision to automatically increase the deferral rate by 1% annually up to a maximum of 6%, if the participant so chooses.

The Plan accepts rollovers and transfers as defined in the Plan document. Rollover contributions consist of contributions from other employers' plans, which employees have elected to include with the Company's Plan.

Participant Accounts

Each participant's account is credited with the participant's and matching employer's contributions and an allocation of the Plan's earnings and charged with an allocation of administrative expenses. Allocations of the Plan's earnings are based on the participant's investment fund earnings. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options

All investments of the Plan are fully participant directed. Participants can direct the allocation of their account among the investment options offered by the Plan. With certain restrictions, participants may change their investment options daily.

LTD Commodities LLC 401(k) Savings Plan

NOTES TO FINANCIAL STATEMENTS - CONTINUED

December 31, 2020 and 2019

Vesting

Participants are fully vested in their employee contributions plus actual earnings thereon. Vesting in Company matching contributions, and earnings thereon, is based on years of service and is determined as follows:

Years of Service	Vested Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. Loan terms range from 1-5 years and up to 10 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear fixed interest at the prime rate plus 1% at the time of the loan. Principal and interest are paid ratably through weekly payroll deductions and are credited to participants' accounts at that time. Participants are only allowed one loan outstanding and are prohibited from refinancing loans. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced, and a benefit payment is recorded. Interest rates on loans outstanding ranged from 4.25% to 9.25% at December 31, 2020 and 2019.

Payment of Benefits

Upon termination of service, death, or retirement, a participant or their beneficiary can leave the balance in the Plan or receive either a lump-sum amount equal to the vested value of his or her account or receive a life annuity or joint and survivor annuity. Normal retirement is defined as the date a participant reaches age 65. The Plan also permits hardship withdrawals and in-service distributions if certain criteria are met. Participants may withdraw any part of their vested account balance resulting from rollover contributions at any time. Under the IRC participants must begin receiving benefits by April 1 following the calendar year in which a participant reaches age 72 or stops working for the Company. Required Minimum Distribution (RMD) rules for distributions required for the 2020 calendar year are temporarily waived. Plan participants and beneficiaries may still request to receive a distribution equal to the RMD in 2020 if they would prefer.

Voluntary Withdrawals

Participants who have attained the age of 59½ may withdraw all or part of their vested account balance. Participants under the age of 59½ may withdraw all or part of their elective deferral contributions only for reasons that qualify as a financial hardship, as determined by the Plan Administrator and allowable under the IRC.

Forfeitures

Forfeited non-vested accounts are used to reduce the Employer's contributions to the Plan. The Plan used \$25,703 of forfeitures to reduce the Employer's contribution to the Plan for the year ended December 31, 2020. The forfeiture account balance was \$158 and \$130 as of December 31, 2020 and 2019, respectively.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between willing market participants as of the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes Plan's gains and losses on investments bought and sold as well as held during the year (unrealized).

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. If a participant ceases to make loan repayments and the plan administrator deems the participant's loan to be in default, the participant's loan balance is reduced and a benefit payment is recorded. No allowance for credit losses has been recorded as of December 31, 2020 or 2019.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain administrative expenses of maintaining the Plan are paid by the Company and excluded from these financial statements. The Company does not intend to obtain reimbursement for such costs. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Use of Estimates

The preparation of financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

NOTE 3 - INFORMATION CERTIFIED BY THE TRUSTEE OF THE PLAN ASSETS

The following is a summary of the unaudited information regarding the Plan, included in the Plan's financial statements and supplemental schedule that was prepared by Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company ("Trustee"), the trustee of the Plan, and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the Trustee that such information is complete and accurate:

- Investments and notes receivable from participants, as shown in the statements of net assets available for benefits as of December 31, 2020 and 2019;

LTD Commodities LLC 401(k) Savings Plan

NOTES TO FINANCIAL STATEMENTS - CONTINUED

December 31, 2020 and 2019

- Investment income and interest income on notes receivable from participants, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2020; and
- Information included on Schedule H, line 4i, the schedule of assets held at end of year

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

NOTE 4 - FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board ("FASB") *Accounting Standards Codification* ("ASC") 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access at the measurement date.

Level 2 - Inputs to the valuation methodology that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; or inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2020 or 2019.

Mutual Funds

Valued at closing price reported on the active market on which the mutual funds are traded.

Pooled Separate Accounts

The fair value of the separate accounts are not publicly quoted pricing inputs. The fair value of the underlying stocks are publicly quoted pricing inputs (Level 1). The fair value of all of these investments are used in determining the net assets value ("NAV") of the pooled separate accounts. These investments are valued at NAV as a practical expedient, as that value can be used as an estimate of fair value.

LTD Commodities LLC 401(k) Savings Plan
NOTES TO FINANCIAL STATEMENTS - CONTINUED
December 31, 2020 and 2019

Collective Trust Funds

Valued based on the NAV of the unit value of the funds, which is based on the fair value of the underlying investments. The NAV is used as a practical expedient to estimate fair value for the fund. The underlying investments of the collective trust funds primarily consist of common stocks, corporate bonds, mutual funds and U.S. Government Securities. The underlying securities are valued at the closing price reported in the active market on which the individual security is traded.

Included in the investments of the Plan as of December 31, 2020 and 2019 is the Principal Stable Value Z Fund ("Fund"). The NAV, as provided by the Trustee, is used as a practical expedient to estimate fair value for the fund. NAV per unit is based on the fair value of the underlying assets plus the contract value of the fully benefit responsive wrapper contract. This NAV represents the Plan's fair value since this is the amount at which the Plan transacts with the Fund. The underlying investments of the Fund are primarily in a pool of investment contracts that are issued by insurance companies and commercial banks and in contracts that are backed by high quality bonds, bond trusts, and bond mutual funds. Investment contracts include traditional Guaranteed Investment Contracts ("GICs") and Synthetic Investment Contracts ("SICs"). GICs are valued based on estimated fair value, computed using discounted cash flows. SICs are valued based on the aggregate market value of the applicable bond trusts, mutual funds and other investments with the applicable wrapper contracts valued at estimated fair value based on a replacement cost approach.

Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment in the Fund at NAV. There may be market value events that limit the ability to transact at contract value with the issuer. These are events or conditions that occur which are outside of the normal operation of the Fund and lead to any disbursements which have or will have a material adverse effect on the operations of the Fund and a financial effect on the investment contract or wrap issuer's interest herein. The Plan Administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probably of occurring. NAV represents contributions made under the contract, plus earnings and transfers in, less participant withdrawals, administrative expenses and transfers out.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different fair value measurements at the reporting date.

NOTE 5 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested.

NOTE 6 - RELATED PARTY TRANSACTIONS

Various investments are managed by a related party to the Trustee of the Plan. These transactions are allowable party-in- interest transactions under ERISA and the regulations promulgated thereunder.

NOTE 7 - TAX STATUS

The Plan obtained its latest determination letter dated December 10, 2009, in which the Internal Revenue Service ("IRS") stated the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the determination letter; however, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. The Plan Administrator is not aware of any course of action or series of events that have occurred that might adversely affect the Plan's qualified status.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more-likely-than-not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2020 and 2019, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by the IRS; however, there are currently no audits for any tax periods in progress.

NOTE 8 - RISKS AND UNCERTAINTIES

The Plan provides for investing in numerous funds, which invest in various types of investment securities and in various companies within various markets. Investment securities, generally, are exposed to several risks, such as interest rate, market, and credit risks. Due to the level risk associated with the funds, it is reasonably possible that changes in the values of the funds will occur in the near term and such changes could materially affect the amounts reported in the financial statements and supplementary schedule.

The novel coronavirus ("COVID-19"), which was declared a global health emergency in January 2020 and a pandemic in March 2020, has caused significant changes in political and economic conditions around the world, including disruptions and volatility in the global capital markets. The full impact of COVID-19 continues to evolve rapidly and its future impact on the Plan and the Plan's assets cannot be reasonably estimated as of the date of this report.
