Effective December 12, 1993 the Plan was amended to cease future benefit accruals and eligibility was frozen. Term vested and retirees are still entitled to the monthly benefit stated above.

The early retirement benefit is the actuarial equivalent of the pension accrued to the date of early retirement. If employees terminate before rendering five years of service, they forfeit the right to receive their accumulated Plan benefits.

In December 2019, the Setting Every Community Up for Retirement Enhancement Act (SECURE Act) was signed into law. The Secure Act increased the age for required minimum distributions from age 70 ½ to 72. This change is effective for participants who turn 70 ½ after December 31, 2019, and does not apply to participants already receiving required minimum distributions. In March 2020, the Coronavirus Aid, Relief and Economic Security Act (CARES Act) was signed into law. Under the CARES Act, the required minimum distribution requirement is waived for participants who turned 70 ½ in 2019 and postponed their first required minimum distribution until April 1, 2020. The Plan did not adopt either provision.

Funding — Contributions to provide benefits under the Plan are made solely by the Plan Sponsor. The Plan Sponsor's funding policy is to make cash contributions to the Plan in an amount no less than the minimum funding requirements of ERISA as determined by the Plan's independent actuary. The Plan Sponsor met the minimum funding requirements of ERISA for the years ended February 28, 2021 and February 29, 2020.

Forfeitures — If a participant terminates employment before his or her accrued benefit derived from employer contributions is fully vested, the non-vested portion is forfeited. Any forfeitures arising in the operation of the Plan are applied toward reduction of the cost to fund and maintain the Plan.

Vesting — Participants in the DBR Plan, the RAC Plan and the CB Plan fully vest in benefits after completing five years of credited service, normal retirement, death or disability. Participants in the TPI Plan were 100% vested effective December 31, 1993. Effective March 1, 2008, the CB Plan was amended, in general, to provide that participants who are credited with at least one hour of service on or after March 1, 2008, be 100% vested at all times after the date on which such participant is credited with three years of service.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting — The accompanying financial statements have been prepared on the accrual basis of accounting and in accordance with accounting principles generally accepted in the United States of America (GAAP).

Investments Valuation and Income Recognition — The Plan's investments are stated at fair value. Fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for additional information regarding valuation methodology.

The Plan's investments are held in the Rite Aid Master Retirement Pension Trust. However, only the Rite Aid Pension Plan participates in this Master Trust.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Actuarial Present Value of Accumulated Plan Benefit Obligations — Accumulated plan benefits are those future periodic payments, including lump-sum distributions, which are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits are expected to be paid to retired or terminated employees or their beneficiaries, beneficiaries of employees who have died and present employees or their beneficiaries.

The actuarial present value of accumulated plan benefits presented in the accompanying financial statements at February 28, 2021 and February 29, 2020 are presented using beginning of year benefit information date. The actuarial present value of accumulated plan benefits below is measured as of March 1, 2020 and 2019, which is a proxy for February 28, 2021 and February 29, 2020.

The effect of plan amendments on accumulated plan benefits are recognized during the year in which such amendments are adopted. There were no amendments effective March 1, 2020 and 2019, respectively, recognized in the actuarial present value of accumulated plan benefits.

The actuarial present value of accumulated plan benefit obligations is determined by an independent actuary, and is that amount which results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money and the probability of payment between the valuation date and the expected date of payment. Significant assumptions underlying the actuarial computations as of March 1, 2020 and 2019, are as follows:

Actuarial cost method	Projected Unit Credit cost method
Asset valuation method	Fair market value
Discount Rate	For 2020 - 5.50% For 2019 - 6.00%
Assumed rate of return on investment	6.00%
Mortality basis	2020 - The Amounts-weighted aggregate rates from the Pri-2012 mortality study projected generationally from 2012 with scale MP-2020. 2019 - The Amounts-weighted aggregate rates from the Pri-2012 mortality study projected generationally from 2012 with scale MP-2019.
Assumed retirement age	Varying rates from ages 55 to 73+

The actuarial present value of accumulated plan benefits as of March 1, 2020 is as follows:

	2020
Actuarial present value of accumulated plan benefits:	
Vested benefits:	
Inactive participants receiving benefits	\$ 71,421,937
Other participants	<u>57,399,899</u>
Total vested benefits	128,821,836
Non-vested benefits	<u>505,431</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 129,327,267</u>

The changes in accumulated Plan benefits between the valuation dates are as follows:

Actuarial present value of accumulated plan benefits — March 1, 2019	<u>\$ 124,078,968</u>
Increase (decrease) during the year attributable to:	
Benefits accumulated	7,222,272
Benefits paid	(7,525,158)
Assumption changes	8,623,538
Other changes	<u>(3,072,353)</u>
Net increase	<u>5,248,299</u>
Actuarial present value of accumulated plan benefits — March 1, 2020	<u>\$ 129,327,267</u>

The foregoing actuarial assumptions are based on the presumption that the Plan will continue indefinitely. If the Plan was to be terminated, different actuarial assumptions and other factors would be applicable in determining the actuarial present value of accumulated Plan benefits. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that certain changes in these estimates and assumptions could be material to the financial statements.

Administrative Expenses — Administrative expenses of the Plan are paid by either the Plan or the Plan Sponsor, as provided in the Plan document. During the years ended February 28, 2021 and February 29, 2020, the Plan's expenses primarily included payments to the Plan's Trustee, Actuary, and Record Keeper for services rendered substantially all of which were paid by the Plan. All other expenses were paid by the Plan Sponsor.

Payment of Benefits — Benefit payments to participants are recorded upon distribution.

Use of Estimates — The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits and changes therein at the date of the financial statements. Actual results could differ from those estimates.

Risk and Uncertainties — The Plan invests in common and collective trust funds and a short term investment fund. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Plan contributions are made and the actuarial present value of accumulated Plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements. Additionally, the continuing effects of COVID-19 could impact economic conditions depending on the scope and duration of the pandemic.

Recently Adopted Accounting Standards - In July 2018, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2018-09, which among other things amends an illustrative example of a fair value hierarchy disclosure contained in FASB Accounting Standards Codification (ASC) Subtopic 962-325, *Plan Accounting – Defined Contribution Pension Plans – Investments – Other* to avoid the interpretation that common and collective trust funds would never have a readily determinable fair value and, would always be considered eligible to use the net asset value per share practical expedient. Also, it further clarifies that an entity should evaluate whether a readily determinable fair value exists or whether its investments qualify for the net asset value per share practical expedient in accordance with ASC 820 Fair Value Measurements. The Plan adopted ASU 2018-09 on March 1, 2020. ASU 2018-09 did not have a material impact on the financial statements and it had no impact on the Plan's net assets available for benefits.

In August 2018, the FASB issued Accounting Standards Update ("ASU") 2018-13, *Fair Value Measurement (Topic 820) – Disclosure Framework – Changes to the Disclosure Requirements for Fair Value Measurement*, which amends certain disclosure requirements of Accounting Standards Codification ("ASC") 820. The amendments in the ASU remove, modify and add disclosures for companies required to make disclosures about recurring or nonrecurring fair value measurements under Topic 820. ASU 2018-13 is effective for all reporting periods beginning after December 15, 2019. The Plan adopted ASU 2018-13 as of March 1, 2020. ASU 2018-13 did not have a material impact on the financial statements and it had no impact on the Plan's net assets available for benefits.

3. FAIR VALUE MEASUREMENTS

The Plan utilizes the three-level valuation hierarchy for the recognition and disclosure of fair value measurements.

The categorization of assets and liabilities within this hierarchy is based upon the lowest level of input that is significant to the measurement of fair value. The three levels of the hierarchy consist of the following:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices in active markets for identical assets or liabilities that the Plan has the ability to access at the measurement date.

Level 2 — Inputs to the valuation methodology are quoted prices for similar assets and liabilities in active markets, quoted prices in markets that are not active or inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the instrument.

Level 3 — Inputs to the valuation methodology are unobservable inputs based upon management's best estimate of inputs market participants could use in pricing the asset or liability at the measurement date, including assumptions about risk.

The following is a description of the valuation methodologies used for instruments measured at fair value, as well as the general classification of such instruments pursuant to the valuation hierarchy. There have been no changes in the methodologies used at February 28, 2021 and February 29, 2020.

The EB Temp Investment Fund is not an exchange-traded fund, however, the prices per unit are published and represent the actual price at which the units held in the fund can be bought or sold.

Common and collective trust funds are stated at fair value as determined by the issuer of the common and collective trust funds based on the net asset value (NAV) of the underlying investments in accordance with ASC 820. The fair value of its investment in common and collective trust funds using

NAV as a practical expedient of fair value. The underlying investments mainly consist of equity and fixed income securities funds that are valued based on the daily closing price as reported by the fund. The common and collective trust funds invest mainly in equities and fixed income securities.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Assets are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The following table sets forth by level within the fair value hierarchy, a summary of the Plan's investments measured at fair value on a recurring basis at February 28, 2021 and February 29, 2020.

6. TAX STATUS

The Plan obtained its latest determination letter dated October 19, 2016, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Company and Plan management believe that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC, and the Plan and related trust continue to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

7. PLAN TERMINATION

Although it has not expressed any intention to do so, the Plan Sponsor has the right under the Plan, in certain circumstances, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of Plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations there under and the Plan Document.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal-age retirement benefits, early retirement benefits and certain disability benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the

date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid, and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty while other benefits may not be provided for at all.

8. PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are managed by the Trustee and the actuary. The transactions related to such investments qualify as party-in-interest transactions. Fees paid by the Plan for the investment management and trustee services for the years ended February 28, 2021 and February 29, 2020 were \$542,895 and \$469,389, respectively.

9. SUBSEQUENT EVENTS

For the Plan year ended February 28, 2021, subsequent events were evaluated through December 07, 2021, the date the financial statements were available to be issued. Other than the discussion below, there were no subsequent events requiring recording or disclosure in the financial statements.

Effective April 1, 2021 U.S. Bank National Association became the trustee of the Plan.

The American Rescue Plan Act (ARPA) was passed in 2021 which allows for plan sponsors to change the contributions made in 2019 through 2021 to other years through re-amortization. If the Company takes advantage of ARPA, contributions reported in the financial statements may not reconcile with the contributions reported in the Form 5500. The Plan adopted the Act effective March 1, 2020, which reduced 2021 contributions to \$0. Contributions totaling \$1,700,000 made in 2021 were allocated to Plan year 2020.

Due to software limitations with the electronic filing process, information filed electronically cannot be controlled by the Enrolled Actuary. The values on the signed Schedule SB will govern to the extent there are any differences in the entries filed electronically and the actual data contained on the signed Schedule SB.
