ALLSTAR HOME CARE AGENCY 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2020 AND 2019

Note 1 – Description of Plan

The following description of Allstar Home Care Agency 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provision.

General

The Plan was established by Allstar Home Care Agency Inc., under the original adoption agreement dated February 1, 2019. The Plan was a defined contribution plan covering full-time employees of Allstar Home Care Agency Inc, who were not covered by a collective bargaining agreement that provided for retirement benefits. Eligible employees could enroll in the Plan on the first day of each calendar quarter. It was subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan Retirement Committee was responsible for the administration and determined the appropriateness of the Plan's investment offerings and monitored investment performance.

Contributions

Each year, participants contributed up to the maximum percentage (as allowed by the Internal Revenue Code) of pretax annual compensation, as defined in the Plan. Participants designated all or a portion of their elective deferrals as Roth elective deferrals. Participants also contributed amounts representing distributions from other qualified defined benefit or contribution plans (rollover). Participants who had attained age 50 before the end of the plan year were eligible to make catch-up contributions. Employer profit sharing contributions were made at the discretion of the Company's board of directors. Annual contributions were subject to certain limitations. Participants directed the investment of their contributions, as well as Company contributions, into various investment options offered by the Plan.

Participant accounts

Each participant's account was credited with the participant's contribution and allocations of (i) the Company's contribution and (ii) Plan earnings. Allocations were based on participant earnings or account balances, as defined. Participant accounts were charged with an allocation of administrative expenses that were paid by the Plan. The benefit to which a participant was entitled was the benefit that could be provided from the participant's vested account.

Vesting

Participants are immediately vested in their own contributions plus actual earnings thereon.

ALLSTAR HOME CARE AGENCY 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2020 AND 2019

Notes receivable from participants

Participants borrowed from their fund accounts a minimum of $1,000 and up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. A participant may have had only two outstanding loans at any time. Loan terms ranged from 1 to 5 years, unless the loan was taken for the purchase of a primary residence. The loans were secured by the balance in the participant's account and bore interest at a rate commensurate with local prevailing rates as determined quarterly by the Plan administrator. Interest rates will be determined when you apply for your loan. You pay back both the principal and interest directly to the account held for you in the plan through your payroll deductions.

Payment of benefits

Upon separation from service for any reason, a participant may have elected to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, annual installments or partial withdrawals. In-service distributions may have been made to participants who have attained age 59½.

A participant could take hardship withdrawals (certain medical expenses, purchase of principal residence, tuition payment for post-secondary education, and payments to prevent eviction from a primary residence) as defined by the Internal Revenue Code. The minimum amount of a distribution was $1,000 and no more than two distributions may have been made to a participant during the Plan year. A participant's hardship withdrawal would preclude the participant from making additional employee pre- tax contributions to the Plan for a six-month period after the hardship withdrawal.

Administrative expenses

Although not required by the Plan, the Company did elect to pay the majority of the administrative expenses of the Plan, including legal, audit and investment advisory fees. Notwithstanding the foregoing, the Company directed that administrative expenses that were allocable to the account of a specific participant (i.e. participant loans) were to be paid from that participant's account. All other investment fees applicable to each investment fund were netted against the related investment income before investment income was allocated to participants' accounts.

Forfeited accounts

At December 31, 2020 and 2019, forfeited nonvested accounts totaled $0 and $0, respectively. In the event that the Company has forfeitures in the future, the accounts will be used to reduce future employer contributions.

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2020 AND 2019

Note 2 – Summary of Significant Accounting Policies

Basis of accounting

The financial statements of the Plan were prepared on the accrual basis of accounting.

Investment valuation and income recognition

The investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Retirement Committee determines the Plan's valuation policies utilizing information provided by their investment advisers, custodians and other third-party service providers. See Note 3 for discussionof fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includesthe Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income was recorded on the accrual basis. Related fees were recorded as administrative expenses and were expensed when they were incurred. No allowance for credit losses have been recorded as of December 31, 2020 or 2019.

Payment of benefits

Benefits were recorded when paid.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") required management to make estimates and assumptions that affected the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results might have differed from those estimated.

Subsequent events

Plan management had evaluated subsequent events through August 10, 2021, the date the financial statements were available to be issued.

Note 4 – Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to values based on unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2

Inputs to valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that were significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020 and 2019.

Pooled separate accounts:

The pooled separate accounts are valued at fair values as reported to the Plan by Principal Life Insurance. Each pooled separate account invests its assets solely in the shares or units of an underlying mutual fund, and the investment objective of each subaccount corresponds to the investment objective of the underlying fund. The value of each pooled separate account is determined using various inputs, such as the net asset value (NAV) of the shares of the underlying mutual fund held at year end adjusted for administrative expenses and other charges. As of December 31, 2019 and 2020, there is no unfunded commitments related to these investments and investor may redeem these assets daily.

Money market funds

Valued at cost which approximates fair value.

Mutual funds

Valued at the daily closing price as reported by the mutual fund. The mutual funds are registered with the SEC and are required to publish their daily net asset value ("NAV") and transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective Investment Trusts (CITs)

A collective investment trust that is composed primarily of fully benefit-responsive investment contractors that are valued at the NAV of units of the collective trust. The net asset value is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value. Participant transactions (purchases and sales) may occur daily. As of December 31, 2020 and 2019, there is no unfunded commitment.

The following table sets forth by level, within the fair value hierarchy, the Plan's fair value as of December 31, 2020 and 2019:

	Assets at Fair Value as of December 31, 2020			
	Level 1	Level 2	Level 3	Total
Mutal funds	$ -	$ -	$ -	$ -
Pool separated accounts (a)				3,496
Collective investment trust (a)				526,521
Investments at fair value				$ 530,017

	Assets at Fair Value as of December 31, 2019			
	Level 1	Level 2	Level 3	Total
Mutal funds	$ -	$ -	$ -	$ -
Pool separated accounts (a)				6,048
Collective investment trust (a)				165,975
Investments at fair value				$ 172,023

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit a reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2020 AND 2019

Note 5 – Plan Termination

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants became 100% vested in their employer contributions.

Note 6 – Tax Status

The Company had adopted a prototype defined contribution plan and trust agreement with Principal Life Insurance Company who performed plan recordkeeping and administrative functions. The Internal Revenue Service had determined and informed Principal Life Insurance Company by a letter dated August 8, 2014, that the prototype plan and related trust were designed in accordance with applicable sections of the IRC.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken uncertain positions that would more likely than not would not be sustained upon examination by the Internal Revenue Service (IRS). The Plan is subject to routine audits by the taxing jurisdictions; however, there were currently no audits for any tax periods in progress.

Note 7 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 8 - Related-Party and Party-In-Interest Transactions

All Plan investments were managed by Principal Life Insurance Company. Principal Life Insurance Company was an investment advisor and custodian of the Plan's assets and provided the Plan with certain administrative services and, therefore, the purchases and sales of these investments and resulting balances qualified as party-in-interest transactions. Fees paid by the Plan for administrative services amounted to $4,677 and $982 for year ended December 31, 2020 and 2019, respectively.
