Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Retirement Income Plan for Employees of Trinity East, which comprise the statements of net assets available for benefits as of December 31, 2020 and 2019, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in conformity with U.S. generally accepted accounting principles; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the certified investment information described in Note 5, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the entity that certified the investment information meets the requirements of 29 CFR 2520.103-8. The plan administrator has obtained certifications as of December 31, 2020 and 2019, and for the years then ended, stating that the investment information provided to the plan administrator is complete and accurate.

Disclaimer of Opinion on Financial Statements

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Disclaimer of Opinion on Supplemental Schedules

The accompanying supplemental schedules of assets (held at end of year) as of December 31, 2020, and reportable transactions for the year then ended, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedules referred to above.

Report on Compliance of Form and Content with Department of Labor's Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the certified investment information, have been audited by us in accordance with auditing standards generally accepted in the United States and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Retirement Income Plan for Employees of Trinity East

Notes to Financial Statements

December 31, 2020

1. Description of the Plan

The following description of the Retirement Income Plan for Employees of Trinity East (the Plan) provides only general information. Participants should refer to the Summary Plan Description for a more complete description of the Plan's provisions, a copy of which is available from the plan administrator.

General

The Plan is a noncontributory, defined benefit plan that covers certain employees of the Trinity Health System (the Sponsor) who were formerly members of a collective bargaining unit and new non-union employees of Trinity East as they become eligible, as well as those non-union employees of Trinity Health System and Tri-State Health Services, Inc. and provides for retirement benefits. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

At its November 2019 meeting, the CommonSpirit Health Human Resources and Compensation Committee of the Board of Stewardship Trustees approved the Charter for the CommonSpirit Health Retirement Plan Sub-Committee (the Sub-committee) delegating plan administrative oversight to the Sub-committee. The Sub-committee has overall responsibility for the operation and administration of the Plan. After the merger of Catholic Health Initiatives (CHI) with Dignity Health in February 2019, the CommonSpirit Health Investment Committee was created, which directly reports to Board of Stewardship Trustees. The CommonSpirit Health Investment Committee determines the appropriateness of the Plan's investment offerings and monitors investment performance.

In October 2017, Trinity adopted a master trust agreement with CHI (the Master Trust). The Master Trust for Trinity opened in January 2018 with an \$8.2 million contribution. In February 2018, the plan assets were transferred from KeyBank National Association to the Master Trust. In connection with this transfer, The Bank of New York Mellon (BNY Mellon), which also serves as trustee of the CHI Master Trust, became the trustee of the Plan.

Effective May 31, 2014, the Plan was frozen; thus, there will be no new participants after that date and benefit accruals were frozen at that date, except for participants eligible for certain transition benefits as described in the Plan Document.

1. Description of the Plan (continued)

2020 Developments

Effective May 1, 2020, the trustee of the Plan was changed from BNY Mellon to The Northern Trust Company, and on October 19, 2020, the CHI Master Trust was renamed the CommonSpirit Health Retirement Master Trust (CSH Master Trust).

On November 2, 2020, the Plan withdrew its participation in the CSH Master Trust and established its own stand-alone trust solely comprising the assets of the Plan. The Plan's share in the CSH Master Trust was liquidated and cash proceeds used to acquire common collective trusts.

Funding Policy

The Sponsor has agreed to voluntarily contribute such additional amounts as are necessary to provide assets sufficient to meet the benefits to be paid to plan members. The Plan has met the ERISA minimum funding requirements for the years December 31, 2020 and 2019.

Although it has not expressed an intention to do so, the Sponsor reserves the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Upon termination, the net assets of the Plan will be allocated for payment to the participants in an order of priority as prescribed by ERISA and its related regulations and the Plan Document.

Should the Plan terminate at some future time, its net assets will generally not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC) at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guarantee, while other benefits may not be provided for at all.

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Sponsor. Expenses that are paid directly by the Sponsor are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions on the accompanying statements of changes in net assets available for benefits. In addition, certain investment-related expenses are included in net appreciation of fair value of investments presented on the accompanying statements of changes in net assets available for benefits.

1. Description of the Plan (continued)

Pension Benefits

On termination of service, a participant under the normal form of benefits will receive monthly income for life, a qualified joint and contingent benefit for married employees, or a lump-sum distribution if the lump-sum value of the benefit is less than \$50,000. Employees are eligible for early retirement if the participant has attained age 55.

Upon the death of a participant, his or her beneficiary will receive a monthly retirement income, payable for life thereafter beginning on the first day of the month coincident with or next following the date of death. Upon total and permanent disability of a participant, he or she will be entitled to a monthly income, payable for life.

Vesting

Vesting service is equal to the total period of elapsed time, computed in years and days, from first date of employment until normal retirement date or date of termination of employment, if earlier, less that portion of any absence that is in excess of 12 months. A participant's initial vesting date at 100% is the earlier of (a) the date the participant has completed five years of vesting service or (b) the date the participant attains age 65. When the plan was frozen, all participants were granted 100% vesting regardless of the number of years of service.

2. Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Payment of Benefits

Benefits are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes and supplemental schedules. Actual results could differ from those estimates.

2. Significant Accounting Policies (continued)

Investment Valuation

The Plan's investments, including those investments held in the CSH Master Trust, formerly the CHI Master Trust, are stated at estimated fair value in accordance with Accounting Standards Codification (ASC) Topic 820, *Fair Value Measurement*. The guidance provides a consistent definition of fair value that focuses on an exit price, which is the price that would be received upon the sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. ASC Topic 820 prioritizes, with respect to the measurement of fair value, the use of market-based information over entity-specific information and establishes a three-level hierarchy for fair value measurements based on the nature of inputs used in the valuation of an asset or a liability as of the reporting date.

The three-level hierarchy for fair value measurements is as follows:

- Level 1 – Fair value is based on inputs that reflect unadjusted quoted prices in active markets for identical assets or liabilities that the Plan and CSH Master Trust have the ability to access at the measurement date. Investments whose values are based on quoted market prices in active markets, and are therefore classified by the Plan and CSH Master Trust within Level 1, generally include actively traded equities, government bonds, mutual funds, and exchange-traded funds. The Plan and CSH Master Trust do not adjust the quoted price for such investments, even in situations where the Plan and CSH Master Trust hold a large position and a sale could reasonably impact the quoted price.
- Level 2 – Fair value is based on inputs, other than Level 1, that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the asset or liability through corroboration with observable market data. Investments that trade in less liquid public markets or derive market value through corroboration with observable market data (e.g., fixed-income securities) are classified by the Plan and CSH Master Trust in Level 2 of the fair value hierarchy. The fair value of Level 2 instruments was determined through evaluated bid prices based on recent trading activity and other relevant information, including market interest rate curves and referenced credit spreads. Estimated prepayment rates, where applicable, are used for valuation purposes and provided by third-party services where quoted market values are not available. Common collective trust funds in CSH Master Trust that have a published price are considered to have a readily determinable fair value. Level 2 instruments include fixed-income funds, corporate bonds, and asset-backed securities.

Retirement Income Plan for Employees of Trinity East

Notes to Financial Statements (continued)

2. Significant Accounting Policies (continued)

- Level 3 – Fair value is based on inputs to the valuation methodology that are unobservable and significant to the fair value measurement. The CSH Master Trust's Level 3 investments consist of term loans. The valuation of these investments requires significant judgment due to the absence of quoted market values, the inherent lack of liquidity, changes in market conditions, and the long-term nature of such investments. Because these investments are not publicly traded, market quotations are generally not available to be used for valuation purposes. Accordingly, the CSH Master Trust's valuations of these investments are generally equal to or based upon the fair value of these investments as of the reporting date, as reported by fund managers.

In situations where inputs used to determine fair value fall into different levels of the fair value hierarchy, the level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement in its entirety.

The fair value of the CSH Master Trust's alternative investments is not publicly traded and readily available market quotations are generally not available to be used for valuation purposes. Accordingly, the CSH Master Trust's valuations of alternative investments are measured at the net asset value (NAV) practical expedient as of the reporting date, as reported by fund managers, and are excluded from the three-level hierarchy for fair value measurements in accordance with ASC Topic 820.

The fair value of common collective trusts held directly by the Plan at December 31, 2020, is not publicly traded; therefore, readily available market quotations are generally not available to be used for valuation purposes. Accordingly, the Sponsor's valuation of these common collective trusts is measured at the NAV practical expedient as of the reporting date and is excluded from the three-level hierarchy for fair value measurements in accordance with ASC Topic 820.

While CommonSpirit Health believes that its valuation methods are appropriate and consistent with those used by other market participants, the use of different methodologies or assumptions to estimate the fair value of Level 3 investments could result in a different estimate of fair value at the reporting date. Those fair value estimates and alternative investments and common collective trusts measured at NAV may differ significantly from the values that would have been determined had a readily available market for such investments existed, or had such investments been liquidated or sold to external investors, and these differences could be material to the financial statements.

Notes to Financial Statements (continued)

2. Significant Accounting Policies (continued)

For additional information on the fair value measurements of the investment securities within the Plan and CSH Master Trust fair value measurements, see Notes 4 and 6, respectively.

Income Recognition

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits (see Note 3) represent the actuarial present value of estimated future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to services rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits are based on employees' compensation and years of credited service. Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included, to the extent they are deemed attributable to employee services rendered to the valuation date.

3. Accumulated Plan Benefits

An independent actuary estimated the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

3. Accumulated Plan Benefits (continued)

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

4. Fair Value Measurements

The following tables set forth by level, within the fair value hierarchy as described in Note 2, the Plan's assets carried at fair value as of December 31:

Assets at Fair Value				
	Level 1	Level 2	Level 3	Total
2020				
Interest-bearing cash	\$ 299,910	\$ –	\$ –	\$ 299,910

Total assets at fair value	<u>\$ 695,895</u>	<u>\$ –</u>	<u>\$ –</u>	<u>\$ 695,895</u>

The following sets forth additional disclosures of the Plan's investments, whose fair value is estimated using NAV per share (or its equivalent):

	December 31		Redemption Frequency	Redemption Notice Period
	2020 Fair Value	2019 Fair Value		
Common collective trusts ^(a)	\$ 77,480,239	\$ –	Daily	3 days

^(a) The common collective trusts held by the Plan are not subject to any redemption restrictions and do not have any unfunded commitment balances. Each investment can be fully or partially redeemed with prior notice to the manager of 3 business days.

5. Investments

All investment information disclosed in the accompanying financial statements, footnotes, and supplemental schedules, including investments held at December 31, 2020 and 2019, net investment gain from plan interest in the CSH Master Trust, formerly the CHI Master Trust, net appreciation in fair value of investments, and interest and dividend income for the years then ended, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the Northern Trust Company, the trustee of the Plan as of December 31, 2020, and for the period from May 1, 2020 through December 31, 2020, and BNY Mellon, the trustee of the Plan as of and for the year ended December 31, 2019, and for the period from January 1, 2020 through April 30, 2020.

6. CSH Master Trust, Formerly the CHI Master Trust

Certain of the Plan's investments were held in the CSH Master Trust, formerly the CHI Master Trust, which was established for the investment of assets of the Plan and several other CHI-sponsored retirement plans through November 2, 2020.

The CSH Master Trust consists of a three-pool structure (growth, inflation hedging, and long duration). Details of these three pools are as follows:

Growth pool – The growth pool seeks asset growth through capital appreciation and income reinvestment. Underlying investments of this pool consist of public and private equity, real assets, real estate, hedge funds, and bank loans.

Inflation hedging pool – The inflation hedging pool seeks to meet or exceed the inflation portion of the interest crediting rate. Asset classes within this pool consist of core plus fixed income, TIPS, and other inflation hedging strategies.

Long duration pool – The long duration pool seeks to match duration of liabilities through the use of long duration fixed income. Asset classes within this pool consist of long duration fixed-income investments and other liability hedging strategies.

Alternative Investment Strategies

The goal of the alternative investments' allocation is to enhance the diversification profile of the CSH Master Trust. Exposure to hedge funds is derived through investments in fund of funds and deploy strategies such as relative value, event driven, and long/short. Real estate exposure is primarily derived through open-end funds that invest in core commercial properties within the United States. Venture capital/private equity exposure is primarily derived through investments in fund of funds that pursue a variety of strategies.

Alternative Investment Redemptions

The CSH Master Trust's ability to sell certain alternative investments is limited, and redemptions may not be allowed. In these circumstances, the general partners of the alternative investments control the timing of underlying investment realizations and the timing of related distributions. Redemptions are generally permitted for certain alternative investments, primarily hedge fund investments, quarterly with at least 95 days' prior written notice.

Alternative Investment Commitments

The CSH Master Trust's allocation to alternative investments is based upon contractual commitment levels to various funds. These commitments are drawn by the fund managers as opportunities arise to invest the capital.

Investments at fair value at December 31, 2019	<u>\$ 194,036</u>

Derivatives

The CSH Master Trust invests in derivative financial instruments primarily to adjust portfolio risk and asset class exposures. The CSH Master Trust only utilizes derivative instruments that have well-understood risk/return patterns, documented market liquidity, and a recognized pricing mechanism. Investment in such instruments is limited to the extent that the instruments are fully collateralized to avoid any leverage from such positions. Individual investment manager guidelines may further restrict the use of derivatives within the portfolio.

The following table summarizes the CSH Master Trust's derivative instruments:

	Derivative Assets Fair Value	Derivative Liabilities Fair Value

6. CSH Master Trust, Formerly the CHI Master Trust (continued)

Concentration of Market, Credit, and Industry Risk

The CSH Master Trust's investments in alternative investments are illiquid, non-publicly traded securities. The underlying investments of these alternative investments are subject to various risk factors, including market, credit, and industry risk. Market risk represents the potential loss in value of financial instruments caused by movements in market variables, such as interest rates. Other risks affecting these underlying investments include, but are not limited to, increasing competition, rapid changes in technology, and changes in economic conditions. These risk factors could have a material effect on the ultimate realizable value of the CSH Master Trust's alternative investments.

7. Tax Status

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated December 5, 2013, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and, therefore, the related trust is tax-exempt. Subsequent to the determination by the IRS, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The plan administrator believes that the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan, and has concluded that there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Related-Party and Party-in-Interest Transactions

Certain of the Plan's assets are invested in funds managed by the trustee of the Plan. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transactions rules under ERISA.

Retirement Income Plan for Employees of Trinity East

Notes to Financial Statements (continued)

9. Risks and Uncertainties

The Plan and CSH Master Trust invest in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported on the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

10. Subsequent Events

Management evaluated subsequent events for the Plan through December 20, 2021, the date the accompanying financial statements were available to be issued.

Effective December 20, 2021, the Plan merged into the St. Luke's Health System Retirement Plan, which will subsequently be renamed CommonSpirit Health ERISA Retirement Plan. On September 14, 2021, the Human Resources and Compensation Committee of the Plan Sponsor voted to terminate the surviving merged plan effective at a date determined by the Chief Human Resources Officer or the Senior Vice President, Benefits.

Methods	
Valuation date	First day of plan year
Funding target	Present value of accrued benefits.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year.
Actuarial value of assets for determining minimum required contributions	Average of the fair market value of assets on the valuation date and the date 6 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year.) The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets
Benefits not valued	Willis Towers Watson has reviewed the plan provisions with CommonSpirit Health and, based on that review, is not aware of any significant benefits required to be valued that were not.
Change in assumptions and methods since prior valuation	■ The segment interest rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC 430. ■ The base mortality table used to calculate the funding target and target normal cost was updated as required by IRC 430. In addition, the projection scale was updated to include one additional year of projected mortality improvement, as required by IRC 430. ■ The assumed plan-related expenses added to the target normal cost were changed to reflect current year expected experience and current year PBGC premiums. ■ The mortality used for lump sum conversion was updated to the applicable mortality table under IRC 417e provided in IRS notice 2017-60. ■ The 417(e)(e)(3) interest rates used for lump sum/annuity conversion

Data Sources

CommonSpirit Health, through its third party administrator, furnished participant data as of January 1, 2020. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date.

Willis Towers Watson is not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations. The following assumptions for unavailable data were approved by CommonSpirit Health and reflected in the data:

Missing date of birth	Participants who are missing their date of birth were assigned an average age based on the participant's status. Beneficiaries who are missing their date of birth were assigned the participant's date of birth plus 3 years for male participants and minus 3 years for female participants, when the participant's date of birth was available.
Missing sex code	A female sex code is assigned to a participant and a male sex code is assigned to a beneficiary when their sex code is unavailable. For those participants missing their beneficiary's sex code and have a joint and survivor form of payment, the beneficiary is assigned a sex code opposite to the participant's sex code.
Missing frozen accrued benefit	Active participants with missing frozen accrued benefits are assigned a \$655 monthly frozen accrued benefit which is based on the average benefit for actives.
Missing deferred vested benefit	Participants with missing deferred vested benefit amounts are assigned a \$385 monthly frozen accrued benefit which is based on the average benefit for deferred participants.
Vesting Service	Participants with missing vesting service are assigned 13.8 which is based on the average vesting service for active participants.

Discount rate The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.

417(e)(3) applicable interest rate This conversion rate is based on the Annual Applicable Interest Rate. The assumption is equal to the segment rates as noted above under 'Discount rate' since 417(e)(3) assumptions for funding purposes are prescribed by IRC §430 and related regulations.

Plan Related Expenses Administrative expenses are estimated by determining the expected expense for the coming year

Assumptions Rationale - Significant Demographic Assumptions

Mortality Assumptions used for funding purposes are as prescribed by IRC §430(h).

Termination Termination rates were based on a published table for pension participants believed to have similar characteristics to the plan population.

Retirement Retirement rates are based on plan sponsor expectations for the future with periodic monitoring of observed gains and losses caused by retirement patterns different than assumed.

Benefit commencement date for deferred benefits Deferred vested participants' assumed commencement age is a single age intended to capture the average age at commencement. Deferred vested early commencement factors are not subsidized so that the difference between this approach and using assumed commencement rates at multiple ages is not expected to be significant.

Form of payment The automatic form of payment for unmarried participants is a life annuity. The automatic form for married participants is a 50% joint and survivor annuity. A lump sum up to \$50,000 is also available. The form of payment assumption is based upon expectations of the future with periodic monitoring of experience.

Percent married The assumed percentage married is based on general population on the marital status of individuals of retirement age.

Spouse age The assumed age difference for spouses is based on general population

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

1.75% of earnings.

Accruals under the career average formula above are frozen as of May 31, 2014. Thereafter, participants who satisfy eligibility for transition benefits, for whom age plus service as of May 31, 2014 total more than 55 (and who have accrued at least five years of service excluding certain named officers) accrue a 5% per year increase to the accrued benefit for up to five years (stopping upon termination), prorated monthly for credited service of less than one year.

Former AFSCME plan

The monthly normal retirement benefit is equal to 1/12th of the sum of the following annual additions based on Pensionable Earnings and Credited Service for each plan year:

- (a) June 1, 1962 – May 31, 1965;
\$36 per year of service plus 1.50% of earnings in excess of \$4,800.
- (b) June 1, 1965 – May 31, 1989;

SCHEDULE SB ATTACHMENTS

For all participants, the monthly normal retirement benefit may never be less than \$4.80 for each year of Credited Service up to and including 25 years. Also, in no event will the accrued benefit be less than it was as of May 31, 1989. Other minimum benefits related to years of service that apply to employees retiring at or beyond normal retirement age are detailed in the plan document.

Early retirement

Accrued benefit is reduced by $1/180^{\text{th}}$ for each of the first 60 months and $1/360^{\text{th}}$ for each month of the next 60 months that the early retirement date precedes the normal retirement date

Late retirement

If a participant attained age 65 prior to June 1, 1988, the greater of the accrued benefit at normal retirement increased by 8% per year for each year the late retirement date follows the normal retirement date and the accrued benefit at the time of actual retirement.

For any other participant who retires on a late retirement date, the greater of the accrued benefit at the time of late retirement, or the accrued benefit as of the normal retirement date increased actuarially through the date that the suspension of benefits notice was provided.

Deferred vested

Accrued benefit payable at the participant's normal retirement or, if paid at age 55 reduced as for Early retirement. If commencing prior to age 55, actuarially reduced.

Disability

None

Pre-retirement death

If a participant that is married for at least 1 year dies prior to commencing benefits, the surviving spouse will receive his or her portion of a 50% Joint and Survivor annuity beginning on the date the participant would have been eligible for early retirement or in the month of death, if later.

Effective December 1, 1994, the same benefit was added for unmarried participants for the former Nurses and Non Union plans.

Post-retirement death

The surviving spouse shall be entitled to any benefits due under the form of benefit elected by participant upon retirement.
