Gabriel Performance Products, LLC Savings Plan

Notes to Financial Statements

Note 1. Description of Plan

The following description of the Gabriel Performance Products, LLC Savings Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

Plan merger: In January 2021, the Plan Sponsor was acquired by Huntsman International LLC. As a result, the Plan merged into the Huntsman Salary Deferral Plan (Huntsman Plan) effective May 3, 2021. As a result, the Plan transferred net assets of approximately \$14.6 million into the Huntsman Plan, and the transfer is reflected on the 2021 statement of changes in net assets available for benefits. Legal control was assumed by the Huntsman Plan on May 3, 2021.

General: The Plan was established on July 1, 2001, as a defined contribution plan covering substantially all employees of Gabriel Performance Products, LLC (the Company) and its wholly owned subsidiaries or affiliates who have adopted the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions: Generally, upon the completion of an hour of service, as defined by the Plan, participants are eligible to make voluntary pre-tax contributions, by means of a salary deferral agreement, of up to 75% of their compensation, subject to Internal Revenue Service (IRS) limitations. Participants direct the investment of their contributions into various investment options offered by the Plan. Participants who meet certain age requirements are eligible to contribute additional catch-up contributions subject to certain dollar limits. In addition, participants may contribute amounts representing distributions from other qualified plans.

The Company may make a discretionary matching contribution based on a fixed formula communicated to the participants. The Company may also make a discretionary profit-sharing contribution. Participants must be employed at the end of the Plan year to be eligible for the employer discretionary profit-sharing contribution allocation. Employer contributions are subject to certain limitations.

Participant accounts: Each participant account is adjusted for the participant's contributions, the Company's contributions, if any, and Plan earnings thereon, and charged with an allocation of the Plan's administrative expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company's discretionary matching and profit-sharing contributions is based on years of service with the Company, as defined in the Plan document. Prior to 2018, vesting was determined using a 5-year graded vesting schedule. In July 2018, the Plan document was amended to determine vesting using a 3-year graded vesting schedule. Participants are immediately vested in the Company's contributions at the time of death or disability.

Notes receivable from participants: Participants may borrow from their accounts up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. A maximum of three loans can be outstanding at any one time. The loans are secured by the balance in the participant's account and bear interest at rates commensurate with local prevailing rates as determined by the Plan Administrator. Principal and interest is paid ratably through payroll deductions.

Benefit payments: On termination of service, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in a lump-sum. Employees may withdraw their vested interest in the Plan upon attainment of age 59 ½ and under certain other circumstances, as defined in the Plan document.

Gabriel Performance Products, LLC Savings Plan

Notes to Financial Statements

Note 1. Description of Plan (Continued)

Forfeited accounts: Forfeitures of non-vested Company contributions may be used to restore forfeitures, reduce Company contributions, or pay Plan expenses. Forfeitures of \$45,981 and \$58,236 were used to reduce Company contributions during the period ended May 3, 2021 and the year ended December 31, 2020, respectively. Unapplied forfeitures amounted to \$0 and \$24,671 as of May 3, 2021 and December 31, 2020, respectively.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the period/year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the Plan document.

Benefit payments: Benefits are recorded when paid.

Administrative expenses: Expenses of the Plan are paid by the Company or the Plan, at the discretion of the Company.

Risks and uncertainties: The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits. At December 31, 2020, two pooled separate accounts comprised approximately 36% of the Plan's investments (each individually greater than 10%). At December 31, 2019, three pooled separate accounts comprised approximately 47% of the Plan's investments (each individually greater than 10%). This concentration represents a credit risk.

Subsequent events: The Plan Administrator has evaluated subsequent events for potential recognition and/or disclosure through December 20, 2021, the date the financial statements were available to be issued.

Note 4. Fair Value Measurements

Accounting standards established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at May 3, 2021, December 31, 2020 and 2019.

Pooled separate accounts: Valued at the total of the net asset value of shares of mutual funds and cash held by the account at year-end. The Plan's interests in the pooled separate accounts are valued based on the information reported by the investment advisor.

Common/collective trust fund: A stable value fund that is composed primarily of fully benefit-responsive investment contracts that is valued at the net asset value of units of the bank collective trust. The net asset value is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methodologies are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Plan management evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits.

Note 4. Fair Value Measurements (Continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2020 and 2019. There were no assets available for benefits measured at fair value at May 3, 2021. There were no transfers in or out of Level 3 for the period ended May 3, 2021 and year ended December 31, 2020.

Note 5. Tax Status

Effective July 1, 2018, the Plan adopted a volume submitter plan document sponsored by Kadish, Hinkel & Weibel. The volume submitter plan received a determination letter from the IRS as to the Plan's qualified status. The volume submitter plan's opinion letter is being relied upon by this Plan. Although the Plan has been amended since receiving the determination letter, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the Internal Revenue Code and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
