1. Description of Plan

The following description of The Lia Group ("Company") 401(k) Plan ("Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

a. General

In January 2020, Congress passed the Setting Every Community Up for Retirement Enhancement Act of 2020 ("SECURE Act") that contained the largest package of retirement system reform in over a decade. Many of the provisions of the SECURE Act are effective on January 1, 2020 and will require significant changes to plan administration and recordkeeping.

In March 2020, the World Health Organization officially declared the Coronavirus Disease 2020 (COVID-19) outbreak a global pandemic.

The COVID-19 outbreak in the United States has caused business disruption through mandated and voluntary closings of businesses in numerous industries. As of March 27, 2020, Congress passed the Coronavirus Aid, Relief, and Economic Security Act ("CARES Act") that included numerous employee benefit plan provisions to assist plan sponsors and participants.

On December 27, 2020, The Consolidated Appropriations Act of 2021 was signed into law. The Act enhances and expands certain provisions of the Coronavirus Aid, Relief and Economic Security Act.

Suspension of employee contributions is no longer permitted in connection with hardship distributions made on or after January 1, 2020, in accordance with the Bipartisan Budget Act of 2018.

b. Contributions

Each year, participants may contribute up to 85% of their pretax annual compensation, as defined in the Plan. Contributions are subject to certain IRS limitations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollovers). Participants direct the investment of their contributions into various investment options offered by the Plan. An employee is eligible to participate in Elective Deferral portions of the Plan upon one year of service, working at least 1,000 hours during that period and having attained 21 years of age. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 3% of eligible compensation and their contributions invested in various target date funds based on the participants' ages.

The Plan includes a matching contribution provision based on 50% of the participant's deferrals up to 4% of a participant's compensation with a maximum contribution of $500. The matching Company contributions are invested directly in the investment funds selected by the participants for their voluntary deferrals proportionally. During the year ended December 31, 2020, the Company made matching contributions totaling $303,891.

1. **Description of Plan (continued)**

c. Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of the Company's matching contributions and Plan earnings (losses). Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

d. Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after six years of credited service.

e. Notes Receivable From Participants

The Plan was amended as of July 10, 2020, in accordance with provisions in the "CARES Act" to permit loans for qualifed individuals as defined in the "CARES Act". The maximum permitted loan was up to the lesser of $100,000 or the individual's entire vested benefit. This special loan policy expired on September 22, 2020. Under the "CARES Act" all loan repayments were suspended until December 31, 2020.

f. Payment of Benefits

On termination of service due to death, disability, retirement or for other reasons, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or other form of payment permitted under the Plan. If the vested account balance is less than $5,000, a participant may receive a distribution in cash or elect to rollover their distribution to an IRA or other qualified plan. If consent is not given, the vested benefit automatically will be rolled over to an IRA selected by the Plan Administrator. If the total vested benefit is $1,000 or less, the entire vested benefit will be distributed in a lump sum without participant consent.

g. Forfeited Accounts

At December 31, 2020 and 2019, forfeited non-vested accounts totaled $24,854 and $3,133, respectively. In 2020, $12,953 was used to pay for plan expenses. The Plan sponsor is permitted to use the forfeiture account to (a) pay plan expenses or (b) reduce future Employer matching contributions under the Plan.

h. Plan Amendment

Effective April 8, 2020, the Plan was amended and restated, with a new trustee, custodian, record keeper and investment advisor appointed. Plan assets were transferred to the new trustee and custodian and were invested in funds comparable to those previously offered. The prior trustees were replaced with Great-West Trust Company, LLC ("GWTC") as a directed Trustee. The custodian was changed from Nationwide Trust Company, FSB ("NTC") to GWTC and the record keeper was changed from NTC to Empower Retirement. The conversion initiated a "Black Out" period beginning April 8, 2020 and ending May 7, 2020. During this period, employee contributions continued to be made through payroll deductions and contributions were deposited and invested into a default fund selected by the Trustee. During this period, funds could not be applied to specfic participant directed investment options or withdrawn from the Plan until the Trustee had time to accurately conplete the transfer. At the end of the Black Out period, the balance in the default fund was allocated to the new investment options chosen by the participants for their accounts.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value (except for the fully benefit-responsive investment contract, which is reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Trustees determine the Plan's valuation policies utilizing information provided by the investment advisors, custodians and insurance company. See Note 3 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in the fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2020.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Service ("IRS") are recorded as a liability. The Plan distributed 2020 excess contributions to the applicable participants prior to March 15, 2021.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Investment related expenses are included in the net appreciation of fair value of investments.

3. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include: Quoted prices for similar assets or liabilities in active markets; Quoted prices for identical or similar assets or liabilities in inactive markets; Inputs other than quoted prices that are observable for the asset or liability; Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020 and 2019.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective trust funds: Valued at the NAV of units of an insurance company collective trust. The NAV, as provided to the trustee by the fund, is used as a practical expedient to estimate fair value. The NAV is based on the fair market value of the underlying investments held by the fund less its liabilities. Participant transactions (purchases and sales) may occur daily.

3. **Fair Value Measurements (continued)**

Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement. The following assets held by the Plan were valued using NAV as a practical expedient.

Assets at Fair Value as of December 31, 2020

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 15,315,107	$ -	$ -	$ 15,315,107
Investments measured at net asset value **(a)**				1,783,639
Investments at fair value	$ 15,315,107	$ -	$ -	$ 17,098,746

Assets at Fair Value as of December 31, 2019

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 16,261,477	$ -	$ -	$ 16,261,477
Investments at fair value	$ 16,261,477	$ -	$ -	$ 16,261,477

(a) In accordance with FASB ASC 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

4. Investment Contracts With Insurance Companies

The Plan holds a fully benefit-responsive guaranteed investment contract with Great-West Life & Annuity Insurance Company ("GWL&A") and Nationwide Life Insurance Company ("NLIC") totaling $1,688,876 for 2020 and $644,884 for 2019. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The contract does not have a maturity date and remains in force until all assets have been distributed, or no further payments are due.

The fully benefit-responsive guaranteed investment contract is held inside a group annuity contract with GWL&A at December 31, 2020 and with NLIC at December 31, 2019. The contract includes an investment in the Key Guaranteed Portfolio Fund, which is part of the general account of GWL&A. The methodology for calculating the interest crediting rate is based on the earnings of the underlying assets compared to the minimum interest crediting rate (which will never be less than 0% as stated in the contract), and prevailing market conditions. The interest crediting rate is reset quarterly. As of December 31, 2020, the Key Guaranteed Portfolio Fund's fair value equaled its contract value. As of December 31, 2019, the fair value of the contract with "NLIC" equaled its contract value. As described in Note 2, contract value is the relevant measurement attribute for this investment.

The contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by GWL&A and NLIC, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA (5) premature termination of the contract. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

5. Information Certified by the Trustees

Plan management has elected the method of compliance as permitted by Section 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan management instructed the plan's independent auditors not to perform any auditing procedures with respect to the following information certified by GWTC and NTC, the plan trustees, except for comparing such information certified by the trustees to information included in the plan's financial statements and supplemental Schedule H, line 4i- Schedule of Assets (Held At End of Year).

Statements of net assets available for benefits:	**2020**	**2019**
Investments at fair value	$ 17,098,746	$ 16,261,477
Investment at contract value	1,688,876	644,884

The trustee also certified to the completeness and accuracy of the net investment earnings as shown in the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2020.

Statement changes of net assets available for benefits:	**2020**
Net appreciation in fair value of investments	$ 1,871,659
Interest	127
Dividends	367,039

6. **Related-Party Transactions and Party in Interest Transactions**

The Plan allows for transactions with certain parties who may perform services or have fiduciary responsibilities to the Plan, including, the Company. Plan investments include a variable group annuity contract with various mutual fund options and a guaranteed investment contract managed by GWL&A, included in the general assets of GWL&A. Custodial functions are provided to the Plan by GWTC. Fees paid to GWTC and NTC directly by the Plan totaled $45,515 in 2020.

Creative Pension Consultants is the third party administrator and fees paid to them were $37,418.

7. **Plan Termination**

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

8. **Tax Status**

The IRS has determined and informed the Company by a letter dated March 31, 2014, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the opinion letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by applicable taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. **Risks and Uncertainties**

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

10. **Subsequent Events**

The Plan has evaluated subsequent events through December 6, 2021, which is the date the financial statements were available to be issued.
