EAST MANUFACTURING CORPORATION 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

Note 1. Description of Plan

The following description of the East Manufacturing Corporation 401(k) Plan (Plan) provides only general information. Participants should refer to the Plan document or the Summary Plan Description for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution 401(k) plan covering all full-time employees of East Manufacturing Corporation (Company or Plan Sponsor). The Plan is intended to satisfy the requirements for a qualified retirement plan under the appropriate provisions of the Internal Revenue Code (IRC) and similar state tax laws. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility: Employees are eligible to participate in the Plan after six months of service. Employees are automatically enrolled into the Plan at a deferral rate of 5% on the first day of each month once eligibility requirements are met. Participants may affirmatively elect a different percentage or elect not to make an elective deferral contribution.

Contributions: Each year, participants may make salary deferral contributions of pre-tax and after-tax annual compensation, as defined in the Plan, up to 60% of eligible compensation subject to the Internal Revenue Code. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. The Plan Sponsor contributes non-discretionary matching contributions in an amount equal to 20% of participant deferral contributions subject to a maximum of 5% of the participant's eligible compensation contributed to the Plan. The Plan Sponsor may also make discretionary contributions to the Plan. There were no discretionary contributions for the year ended May 31, 2021.

Participant accounts: Each participant's account is (a) credited with the participant's contributions, (b) credited with the Company's contributions, (c) credited (reduced) with actual earnings (losses) thereon, (d) reduced by the participant's withdrawals, and (e) reduced by administrative expenses. Allocations are based on a participant's account balance or eligible compensation, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their deferral contributions as defined by the Plan document plus actual earnings thereon. Participants become 100% vested in the Company's matching contributions and actual earnings thereon based on a six-year graded schedule. Additionally, participants become fully vested, regardless of vesting table, upon attainment of normal retirement age, upon retirement due to disability, upon death, or upon termination of the Plan.

Notes receivable from participants: A participant may borrow from his or her account a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of his or her vested account balance. Loans are collateralized by the participant's vested account balance. Loan terms range up to five years, with the exception of loans for the purchase of a principal residence, which may exceed five years. Interest rates are equal to 1% over the prime rate on the first day of the month in which the loan is requested. Interest rates on outstanding loan balances are 4.25% as of the date of the most recent loan. Principal and interest shall be paid at least quarterly through payroll deductions. For the fiscal year ended May 31, 2020, the Company adopted the provisions of the Coronavirus Aid, Relief, and Economic Security (CARES) Act which allows participants to receive a loan in an amount not to exceed the lesser of 100% of the participant's vested account balance or \$100,000. The CARES Act also permitted suspension of loan repayments for new and existing Plan loans for a period of up to one year and for extension of the term of the loan for a period of up to one year without violating the maximum five year term for qualified individuals. Plan management has not had to alter the repayment terms of any notes receivable as permitted by the CARES Act through May 31, 2021.

Payment of benefits: On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, a direct rollover to another plan, or a direct rollover to an Individual Retirement Account (IRA). For termination of service due to other reasons, a participant may receive the value of the vested

EAST MANUFACTURING CORPORATION 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

interest in his or her account as a lump-sum distribution. Account balances of \$1,000 or less for terminated participants are automatically cashed out and distributed to the terminated participant (Note 11). For the fiscal year ended May 31, 2020, the Company adopted the provisions of the CARES Act, which allows participants to receive a distribution in an amount not to exceed \$100,000 to satisfy an immediate and heavy financial need. Also, participants who will attain age 72 during 2020, with required beginning dates through April 1, 2021, can waive the Required Minimum Distribution for 2020. Under the CARES Act, qualified participants of the Plan may receive coronavirus-related distributions of up to \$100,000 that are exempt from the 10% early withdrawal tax and for which the income tax is deferred over a three year period. Additionally, under the CARES Act, the participant may repay the distribution over a three year period without incurring any additional income tax burden. The Plan has paid 64 coronavirus-related distributions to qualified participants in the amount of \$352,776 through May 31, 2021. It is unknown as to whether or not any of these distributions will be repaid to the Plan.

Forfeited accounts: Forfeiture of non-vested accounts arising from employee terminations and withdrawals may be used to offset employer contributions or pay Plan expenses, as provided by the Plan document. As of May 31, 2021 and 2020, forfeited non-vested accounts totaled \$10,398 and \$13,821, respectively. During the year ended May 31, 2021, there were \$7,020 in forfeitures used to pay Plan expenses.

Investment options: Participants are permitted to direct the investment of their account balances into a variety of investment choices as more fully described in the Plan's literature. Participants may change their investment allocations on a daily basis.

Note 2. Summary of Accounting Policies

The accounting policies followed by the Plan and the method of applying those policies which materially affect the determination of net assets available for benefits and changes in net assets available for benefits are as follows:

Basis of accounting: The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Investment valuation and income recognition: Investments are reported at fair value (except for the benefit-responsive investment contract, which is reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Fully benefit-responsive investment contracts held by a defined contribution plan are required to be reported at contract value. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

Purchases and sales of securities are recorded on a trade date basis. Dividend income is recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation (depreciation) includes the Plan's gains and (losses) on investments bought and sold as well as held during the year.

Use of estimates: The preparation of financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets available for Plan benefits and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. No allowance for credit losses has been recorded as of May 31, 2021 and 2020. Delinquent notes receivable from participants are recorded as distributions based upon the terms of the Plan document.

EAST MANUFACTURING CORPORATION 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

Payments of benefits: Benefits are recorded when paid.

Administrative expenses: Except for loan origination fees associated with notes receivable from participants, the Plan's administrative expenses are paid by the Plan Sponsor as provided by the Plan document.

Subsequent events: The Plan has evaluated subsequent events through October 26, 2021, the date the financial statements were available to be issued.

Recent Accounting Pronouncement

Fair Value Measurement: In August 2018, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2018-13, *Fair Value Measurement* (Topic 820): *Disclosure Framework - Changes to the Disclosure Requirements for Fair Value Measurement*. The amendments in this Update modify the disclosure requirements on fair value measurements in *Topic 820, Fair Value Measurement*, based on the concepts in the Concepts Statement, including the consideration of costs and benefits. In addition, the amendments eliminate *at a minimum* from the phrase *an entity shall disclose at a minimum* to promote the appropriate exercise of discretion by entities when considering fair value measurement disclosures and to clarify that materiality is an appropriate consideration of entities and their auditors when evaluating disclosure requirements. The amendments on changes in unrealized gains and losses, the range and weighted average of significant unobservable inputs used to develop Level III fair value measurements, and the narrative description of measurement uncertainty should be applied prospectively for only the most recent interim or annual period presented in the initial fiscal year of adoption. All other amendments should be applied retrospectively to all periods presented upon their effective date. The Plan adopted this guidance during the year ended May 31, 2021. Adoption of this guidance did not have a material impact on the Plan's financial statements.

Note 3. Information Certified by Fidelity Management Trust Company (Fidelity), Trustee

The following is a summary of the investment information as of May 31, 2021 and 2020, and for the year ended May 31, 2021, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the Trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the Trustee that information provided to the Plan Administrator by the Trustee related to the following investments is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under the ERISA, the Plan Administrator instructed the Plan's independent auditor not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following investments as of May 31:

	2021	2020
Investments:		
Registered investment companies, at fair value	\$ 7,292,377	\$ 5,517,748
Common/collective trust, at contract value	975,472	716,720
	<u>\$ 8,267,849</u>	<u>\$ 6,234,468</u>

The Trustee also certified the completeness and accuracy of \$1,603,782 of net appreciation in fair value of registered investment companies and contract value of common/collective trust, \$374,139 in interest and dividends related to the aforementioned investments, and \$5,687 of interest income on notes receivable from participants for the year ended May 31, 2021. Notes receivable from participants that were certified by the Trustee as of May 31, 2021 and 2020, amounted to \$146,900 and \$159,421, respectively.

NOTES TO FINANCIAL STATEMENTS

Note 4. Investments and Fair Value Measurements

Authoritative guidance regarding *Fair Value Measurements* establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level I measurements) and the lowest priority to unobservable inputs (Level III measurements). The three levels of the fair value hierarchy under the authoritative guidance are described as follows:

Level I Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level II Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level II input must be observable for substantially the full term of the asset or liability.

Level III Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There has been no change in the methodology used as of May 31, 2021 or 2020:

Registered investment companies: Valued based on quoted market prices.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's net assets at fair value as of May 31:

Assets at Fair Value as of May 31, 2021				
	Total	Level I	Level II	Level III
Registered investment companies	\$ 7,292,377	\$ 7,292,377	\$ -	\$ -

Assets at Fair Value as of May 31, 2020				
	Total	Level I	Level II	Level III
Registered investment companies	\$ 5,517,748	\$ 5,517,748	\$ -	\$ -

EAST MANUFACTURING CORPORATION 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

Note 5. Fully Benefit-Responsive Investment Contract

The Plan has a traditional investment contract with Fidelity. The Managed Income Portfolio fund meets the fully benefit-responsive investment criteria and, therefore, is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. The issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The contract value as of May 31, 2021 and 2020, amounted to \$975,472 and \$716,720, respectively.

The crediting interest rate is based on the earnings of the underlying assets in the entire portfolio compared to the minimum interest crediting rate, as stated in the contract, and prevailing market conditions. Interest crediting rate is reset annually, but in no event is the crediting interest rate less than one percent. Withdrawals are permitted at any time without penalty. The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Certain events limit the ability of the Plan to transact at contract value with the contract issuer. Such events include the following: (i) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan); (ii) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions; (iii) bankruptcy of the Plan Sponsor or other Plan Sponsor events (e.g., divestitures or spin-offs of a subsidiary) which cause a significant withdrawal from the Plan; or (iv) the failure of the Plan to qualify for exemption from federal income taxes or any required prohibited transaction exemption under the ERISA. The Plan Administrator does not believe that the occurrence of any such events, which would limit the Plan's ability to transact at contract value with participants, is probable.

Note 6. Related Party Transactions

Certain Plan investments are investments in registered investment companies and a common/collective trust managed by Fidelity. Fidelity is the Plan Trustee and, therefore, these transactions qualify as party-in-interest transactions.

Fees paid by the Plan to Fidelity for administrative expenses amounted to \$12,547 for the year ended May 31, 2021. Certain Plan administrative fees are paid by the Company for which it is not reimbursed. Certain administrative functions are performed by officers or employees of the Company. No such officers or employees receive compensation from the Plan.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of the ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

Note 8. Tax Status

The Plan has adopted a pre-approved plan. The sponsor of the pre-approved plan has received an opinion letter, dated June 30, 2020, from the Internal Revenue Service (IRS) as to the pre-approved plan's qualified status. The pre-approved plan opinion letter has been relied upon by this Plan. The Plan Administrator believes the Plan is designed and is currently being operated in compliance with the applicable provisions of the Internal Revenue Code.

U.S. GAAP requires plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the appropriate taxing authority. The Plan is subject to routine audits by taxing authorities; however, there are currently no audits for any tax periods in progress. Generally, tax returns for the years ended May 31, 2018, and thereafter remain subject to examination by the appropriate taxing authorities.

EAST MANUFACTURING CORPORATION 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

Note 9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported on the statements of net assets available for benefits.

Note 10. Reconciliation of Federal Forms 5500 to Financial Report

Differences occur between the federal Form 5500 filed with the Internal Revenue Service and the financial report. These differences are due to recording the adjustment from fair value to contract value of the common/collective trust in the financial report. The following is a reconciliation of Forms 5500 to the financial report as of and for the years ended May 31:

	2021	2020
Net assets available for benefits per federal Forms 5500	\$ 8,440,191	\$ 6,420,449
(Subtract):		
Adjustment from fair value to contract value for fully benefit-responsive investment contract	(25,442)	(26,560)
Net assets available for benefits per financial reports	\$ 8,414,749	\$ 6,393,889
Net increase in assets available for benefits per federal Form 5500	\$ 2,019,742	
Add/(subtract):		
Adjustment from fair value to contract value for fully benefit-responsive contract for prior year	26,560	
Adjustment from fair value to contract value for fully benefit-responsive contract for current year	(25,442)	
Net increase in net assets available for benefits per financial report	\$ 2,020,860	

Note 11. Subsequent Event

Effective July 8, 2021, the Plan was amended to allow the Plan Sponsor to involuntarily initiate distributions greater than \$1,000 but less than or equal to \$5,000 for terminated participants, without the participant's consent, before the terminated participant's normal retirement age to be rolled over into an IRA designated by the Plan Administrator.
