1. DESCRIPTION OF PLAN:

The following description of the CompuNet Clinical Laboratories Retirement & Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was a defined contribution plan covering all employees of CompuNet Clinical Laboratories, LLC (the Company and Employer). Employees were immediately eligible to participate in the Plan and make salary deferral contributions. Employees were eligible for Company contributions upon attaining one year of credited service, as defined. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan was amended effective December 31, 2020 to freeze the Plan. No further contributions were permitted in the Plan.

Effective January 1, 2021, the Company approved the merger of the Plan with The Employer Retirement Savings Plan – Premier Health Partners (the Employer Retirement Savings Plan) and employees became eligible to participate in the Employer Retirement Savings Plan. The Plan's assets were transferred to the Employer Retirement Savings Plan on March 1, 2021.

Contributions

Prior to December 31, 2020, participants could contribute up to 60% of pre-tax annual compensation, as defined in the Plan. Participants who had attained age 50 before the end of the Plan year were eligible to make catch-up contributions. Participants could also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollovers). Participants direct the investment of their contributions into various investment options offered by the Plan.

The Company made matching contributions in the amount of 50% of the first 6% of eligible compensation that a participant contributed to the Plan. In addition, the Company made a non-elective fixed contribution in the amount of 1% of eligible compensation and could make an additional non-elective discretionary contribution based upon total annual compensation. Participants must have worked at least 1,000 hours during the plan year and be employed on the last day of the plan year to receive non-elective contributions. The Company elected not to make an additional non-elective discretionary contribution during 2021. Contributions were subject to certain Internal Revenue Service (IRS) limitations.

Participant accounts

Each participant's account was credited with the participant's contributions and Company contributions, as well as allocations of plan earnings. Participant accounts were charged with an allocation of administrative expenses that were paid by the Plan. Allocations were based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant was entitled was the benefit that could be provided from the participant's vested account.

Vesting

Participants were vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts was based on years of continuous service. A participant was 100% vested after four years of credited service.

Notes receivable from participants

Participants could borrow from their fund accounts up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. The notes were secured by the balance in the participant's account. The interest rate, determined semiannually, was determined by the Plan administrator at a rate commensurate with local prevailing rates. Principal and interest were paid ratably through monthly payroll deductions.

Payment of benefits

Distributions could generally be made to a participant upon the participant's death, disability, retirement or termination of his or her employment with the Company. Additionally, prior to termination from employment, a participant could withdraw all or a portion of his or her vested account balance at their election upon reaching age 59½. The Plan allowed hardship distributions if certain financial requirements are satisfied. Benefits were paid to participants in the form of lump sum or installment payments upon termination of employment.

Forfeited accounts

At March 1, 2021 and December 31, 2020, forfeited nonvested accounts totaled \$-0- and \$3,982, respectively. These accounts could have been used to reduce future Company contributions or pay administrative expenses. No forfeitures were used to pay administrative expenses during the period ended March 1, 2021.

2. SUMMARY OF ACCOUNTING POLICIES:

Basis of accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting.

Use of estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Benefits Committee determines the Plan's valuation policies utilizing information provided by the investment advisers and trustee.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of March 1, 2021 or December 31, 2020.

Payment of benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Subsequent events

The Plan has evaluated subsequent events through December 10, 2021, the date the financial statements were available to be issued.

3. INFORMATION PREPARED AND CERTIFIED BY THE PLAN'S TRUSTEE:

Management has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company, the trustee of the Plan, has certified to the completeness and accuracy of all investments reflected on the accompanying statements of net assets available for benefits as March 1, 2021 and December 31, 2020 and the related investment activity reflected in the statement of changes in net assets available for benefits for the period ended March 1, 2021.

4. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common collective trust: Valued at the NAV of units of the bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to require 12 months' notification in order to ensure that securities liquidations will be carried out in an orderly business manner.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2020. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement:

Assets at Fair Value at December 31, 2020					
	Level 1	Level 2	Level 3	Assets at NAV	Total
Mutual funds	\$ 49,329,279	-	-	-	49,329,279
Common collective trust	-	-	-	2,298,889	2,298,889
Total investments at fair value	49,329,279	-	-	2,298,889	51,628,168

Investments Measured Using the Net Asset Value per Share Practical Expedient

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2020. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

December 31, 2020	Fair Value	Unfunded Commitments	Redemption Frequency (if currently eligible)	Redemption Notice Period
Common collective trust	\$2,298,889	N/A	Daily	12 months

5. TAX STATUS:

The Plan operated under a volume submitter plan document which received a favorable opinion letter from the IRS on March 31, 2014, that stated that the Plan, as designed, was in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan did not obtain its own determination letter. The plan administrator believed that the Plan was designed and operated in compliance with the applicable requirements of the IRC and therefore believed that the Plan was qualified and the related trust was tax-exempt.

6. RELATED PARTY AND PARTY IN INTEREST TRANSACTIONS:

Certain Plan investments were funds managed by affiliates of, or by Fidelity Management Trust Company, the trustee as defined by the Plan, and, therefore, these transactions qualified as party in interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of the investment, as they were paid through revenue sharing, rather than direct payment.

7. RECONCILIATION TO FORM 5500:

The following is a reconciliation of net assets available for benefits per the financial statements at March 1, 2021 and December 31, 2020, to Form 5500:

8. PLAN OPERATIONS IMPACTED BY COVID-19:

On March 27, 2020, the U.S. Congress passed the Coronavirus Aid, Relief, and Economic Security (CARES) Act. The CARES Act provided temporary relief for retirement plan sponsors and their participants with respect to distributions and participant loans during 2020. The provisions of the CARES Act could be effective and operationalized immediately, prior to amending the plan document. The Plan Administrator adopted the distribution relief provisions included in the CARES Act which permitted qualified individuals to request a pre-approved distribution, through participant self-certification of eligibility. The maximum dollar amount that could be requested per participant was \$100,000 up through December 31, 2020. The Company intends to formally amend the Plan before the end of the applicable remedial amendment period to reflect such provisions.
