NOTES TO FINANCIAL STATEMENTS
AS OF DECEMBER 31, 2020 AND 2019 AND FOR THE YEAR ENDED DECEMBER 31, 2020

1. PLAN DESCRIPTION

The following brief description of the University Orthopaedic Services, Inc. Retirement Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

The Plan is a defined contribution plan sponsored by University Orthopaedic Services, Inc. (the "Company" or "Plan Sponsor"). The Plan covers eligible employees of the Plan Sponsor. The Plan consists of employer discretionary contributions and rollover contributions. Employees are eligible to receive employer discretionary contributions on the first day of the calendar month following attaining age 21, provided they are an eligible employee on that date. The Plan was established on January 1, 1999, and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions – The Plan Sponsor may, in its sole discretion, make a contribution to the Plan on the employee's behalf, provided the employee has completed at least 1,000 hours of service during the Plan year and is employed by the Company on the last day of the Plan year. All participants are categorized into groups and each group may receive a different amount. Contributions are allocated in the proportion that each participant's compensation bears to all participants' compensation. Total contributions made on behalf of each participant may not exceed limits imposed by the Internal Revenue Code ("IRC"). Participants may direct the investment of the contributions into various investment options offered by the Plan.

Participant Accounts – Individual accounts are maintained for each Plan participant. Participant accounts are increased by Plan Sponsor contributions, and the participant's share of Plan earnings (allocated daily). Participant accounts are decreased by participant distributions and the participant's share of Plan expenses and losses. The allocation of earnings and losses to participant accounts is based upon the value of an individual account in relation to the total assets of the Plan. Upon retirement or termination, a participant is entitled to the vested balance in his or her account.

Vesting – Participants are fully vested in their accounts upon completing 1,000 hours of service per year for two years.

Payment of Benefits – On termination of service due to death, disability or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount, or in annual installments. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Plan Termination – Although it has not expressed any intent to do so, the Plan Sponsor has the right to terminate the Plan at any time, subject to the provisions of ERISA.

Forfeitures – Participants not fully vested in employer contributions upon termination of employment forfeit their non-vested balances. Forfeitures of $11,482 were used to reduce Plan Sponsor contributions for the year ended December 31, 2020. Forfeitures available to reduce future Plan expenses or Plan Sponsor contributions amounted to $513 and $11,644 as of December 31, 2020 and 2019, respectively.

Administrative Expenses – Costs of administering the Plan are paid by the participants and the Plan Sponsor.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The accompanying financial statements have been prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition – The Plan determines the fair value of assets and liabilities which are subject to reporting at fair value based on standards established within generally accepted accounting principles. These standards establish a hierarchy for the determination of fair value, as well as disclosure requirements relative to those assets and liabilities. The hierarchy identified three levels of input. Level 1 inputs are generally quoted market prices for identical assets or liabilities, which are actively traded on an exchange. Level 2 inputs generally consist of market prices for identical assets which are not actively traded or market prices of similar assets or liabilities which are actively traded on an exchange. Level 3 inputs are referred to as unobservable inputs and consist primarily of information derived by management where Level 1 and Level 2 inputs are not available. These may include such things as present value of expected future cash flows or other valuation methodologies. Under the hierarchy, Level 1 inputs are the most preferred followed by Level 2, and Level 3. Level 3 inputs are to be used when neither Level 1 nor Level 2 inputs are available.

An investment's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for investments measured at fair value as of December 31, 2020 and 2019:

Registered investment companies: Valued based on the quoted market prices available on an active market, which represents net asset values of the shares held by the Plan at year end.

Guaranteed annuity account: Valued based on the contracted amount and is not fully-benefit responsive. The Plan Sponsor has determined that the contract value for the guaranteed annuity account approximates fair value. The contract value equals the accumulated cash contributions, interest credited to the Plan's contracts, and transfers in less any withdrawals and transfers out. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 2.50%. The Plan's investment in the TIAA Traditional Annuity account yielded investment gains of approximately 4.00% for each of the years ended December 31, 2020 and 2019.

Collective trust fund: The fund primarily holds guaranteed and other similar investment contracts, that are fully-benefit responsive. The fund is valued based on the net asset values ("NAV") of the shares held by the Plan at year-end using NAV contract value. The fund generally has no redemption restrictions or unfunded capital commitments.

Pooled separate account: Valued based on the NAV of the underlying real estate holdings or other real estate-related investments. The fair value is measured using external appraisals, which are estimates of property values based on a professional's opinion. Although the underlying assets cannot be quickly sold and converted to liquid assets, the TIAA general account ensures that the pooled separate account has funds available to meet participant redemption, transfer or cash withdrawal requests executed at quoted unit values. The pooled separate account has been measured at fair value using the NAV practical expedient as of December 31, 2020 and 2019, and generally has no redemption restrictions or unfunded capital commitments.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different fair value measurements at the reporting date.

The Plan presents in the statement of changes in net assets available for benefits the net appreciation in fair value of investments, which includes unrealized and realized gains and losses on investments that were held or sold during the year.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividend income is recognized on the ex-dividend date.

Payment of Benefits – Benefits paid to participants are recorded when paid.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts and disclosures that are included in these financial statements. Actual results could differ from management's estimates and assumptions.

Subsequent Events – Management has evaluated the effects of all subsequent events through October 9, 2021, the date the financial statements were available to be issued, to determine if events or transactions occurring through that date require potential adjustment or disclosure in the financial statements.

3. FAIR VALUE MEASUREMENTS

The Plan uses fair value measurements to record fair value adjustments to certain assets and to determine fair value disclosures (as discussed in Note 2). The following table sets forth, by level within the fair value hierarchy, the Plan's assets that are measured at fair value as of December 31, with the exception of the collective trust fund and pooled separate account, which are measured at fair value using the NAV practical expedient. The fair value of the collective trust fund and pooled separate account is provided below to permit reconciliation of the fair value hierarchy to the amounts presented in the Statements of Net Assets Available for Benefits.

	2020	2019
Level 1:		
Registered investment companies	$ 42,235,446	$ 34,359,061
Level 3:		
Guaranteed annuity account	2,925,041	2,670,242
Investments measured at net asset value:

Pooled separate account	821,534	764,529
Total investments at fair value	$ 47,277,394	$ 39,124,304

3. FAIR VALUE MEASUREMENTS (continued)

The following sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2020:

Balance, beginning of year	$ 2,670,242
Contributions	76,511
Interest	107,883
Transfers, net	106,525
Benefits paid to participants	(35,988)
Fees	(132)
Balance, end of year	$ 2,925,041

The following table presents information about significant unobservable inputs related to the Plan's investment in the guaranteed annuity account at December 31, 2020:

	Fair value	Valuation technique	Significant unobservable inputs	Range
Guaranteed annuity account	$ 2,925,041	Discounted cash flow	Risk-adjusted discount rate applied	RA – 3.00% - 4.45% SRA – 3.00% - 3.70% GRA – 3.00% - 4.45%
		Theoretical transfer (exit value)		GSRA – 3.00% - 3.70% RC – 2.50% - 4.40% RCP – 1.75% - 3.65%

The following table presents information about significant unobservable inputs related to the Plan's investment in the guaranteed annuity account at December 31, 2019:

	Fair value	Valuation technique	Significant unobservable inputs	Range
Guaranteed annuity account	$ 2,670,242	Discounted cash flow	Risk-adjusted discount rate applied	RA – 3.00% - 4.40% SRA – 3.00% - 3.65% GRA – 3.00% - 4.40%
		Theoretical transfer (exit value)		GSRA – 3.00% - 3.65% RC – 3.25% - 4.25% RCP – 2.50% - 3.50%

4. TRANSACTIONS WITH PARTIES IN INTEREST

Matrix Trust Company and TIAA-CREF, custodians of the Plan, manage certain investments of the Plan, and therefore, transactions with both parties qualify as party in interest transactions.

5. INCOME TAX STATUS

The Plan is utilizing a prototype plan, which received a favorable determination letter from the IRS stating that the Plan is qualified under applicable sections of the IRC and therefore, the related trust net investment income is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualifications. The Plan was amended subsequent to the IRS determination letter. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan and the related trust investment income are tax exempt.

6. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net assets Available for Benefits.

7. SUMMARY OF CUSTODIAN INFORMATION

The following is a summary of unaudited information regarding the Plan, included in the Plan's financial statements and supplemental schedule. The information was prepared by TIAA-CREF and Matrix Trust Company and furnished to the Plan Sponsor.
