INDEPENDENT AUDITORS' REPORT

To the Plan Administrator of the
Kelley-Clarke, LLC Employees' Defined Benefit Pension Plan and Trust
Jacksonville, Florida

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2021 Financial Statements

We have performed an audit of the financial statements of the Kelley-Clarke LLC, Employees' Defined Benefit Pension Plan and Trust (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C), which comprise the statement of net assets available for benefits as of March 31, 2021, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements (2021 financial statements).

Management, having determined it is permissible in the circumstances, has elected to have the audit of the 2021 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA (ERISA Section 103(a)(3)(C) audit). As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency (qualified institution), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained a certification from a qualified institution as of March 31, 2021, and for the year then ended, stating that the certified investment information, as described in Note 7 to the financial statements, is complete and accurate.

Opinion on the 2021 Financial Statements

In our opinion, based on our audit and the procedures performed as described in the *Auditor's Responsibilities for the Audit of the 2021 Financial Statements* section of our report

- the amounts and disclosures in the accompanying 2021 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP); and
- the certified investment information in the accompanying 2021 financial statements agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meet the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2021 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the 2021 Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Management's Responsibilities for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2021 Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2021 Financial Statements* section of our report, our objectives are to obtain reasonable assurance about whether the 2021 financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2021 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the 2021 financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedules Required by ERISA

The supplemental schedule of assets (held at end of year) and schedule of reportable transactions (held at end of year) as of March 31, 2021, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- the certified investment information in the supplemental schedules agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meet the requirements of ERISA Section 103(a)(3)(C).

Other Matter — Report on the 2020 Financial Statements

We were engaged to audit the statement of net assets available for benefits of the Plan as of March 31, 2020 and the statement of changes in net assets available for benefits for the year then ended. As permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information certified by the qualified institution. Our audit report, dated January 15, 2021, indicated that (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an opinion and accordingly, we did not express an opinion on the 2020 financial statements, and (b) the form and content of the information included in the 2020 financial statements other than that derived from the information certified by the qualified institution were presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

1. DESCRIPTION OF PLAN:

The following description of the Kelley-Clarke LLC, Employees' Defined Benefit Pension Plan and Trust (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined benefit pension plan covering substantially all employees over age 20 ½ who have greater than six months of service and who are not members of any collective bargaining unit whose retirement benefits are the subject of good faith bargaining. The Plan is subject to the provisions of the Employee Retirement Income Security Act (ERISA) of 1974, as amended.

Kelley-Clarke, Inc. was acquired by Acosta, Inc. (the Company) in June 1999. In connection with the acquisition, Acosta, Inc. now serves as the Plan Sponsor.

Benefit Accruals

As of March 31, 1994, Kelley-Clarke, Inc. amended the Plan to cease future benefit accruals. As a result, the participants' benefits have been frozen such that future service and salary are not considered, and no further benefits will accrue.

Pension Benefits

Employees with five or more years of service are entitled to annual pension benefits beginning at age 65 or after 35 years of service, whichever is earlier. The Plan provides benefits equal to the greater of:

a) The frozen accrued benefit computed at September 25, 1991, as 40% of their annual compensation averaged over the five highest consecutive calendar years reduced by (i) 22% of their projected annual Social Security retirement benefits, and (ii) 1/20 of each year of service less than 20 that employees have completed at their normal retirement age, or

b) 30% of their annual compensation averaged over the five highest consecutive calendar years reduced by (i) 22% of their projected annual Social Security retirements benefits, and (ii) 1/20 of each year of service less than 20 that employees have completed at their normal retirement age.

1. DESCRIPTION OF PLAN (CONTINUED):

Pension Benefits (Continued)

Employees may elect to receive their pension benefits in the form of a joint and survivor annuity or as a life annuity. If employees terminate prior to reaching their normal retirement date, they shall be entitled to receive a deferred retirement income benefit equal to the vested interest in their accrued benefits earned to the date of their termination.

CARES Act

On March 27, 2020, the Coronavirus Aid, Relief and Economic Security Act (CARES Act) was signed into law. The CARES Act allows retirement plans to provide participants who are impacted by the coronavirus (as defined in the CARES Act) with greater access to their savings. The Plan did not implement any provisions related to the CARES Act.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

New Accounting Pronouncement

In August 2018, the Financial Accounting Standards Board issued Accounting Standards Update No. 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework – Changes to the Disclosure Requirements for Fair Value Measurement*. This standard adds, modifies, and removes several disclosure requirements relative to the three levels of inputs used to measure fair value in accordance with Topic 820. This amendment was effective for fiscal years beginning after December 15, 2019 with early adoption permitted. The guidance was adopted for the year ended March 31, 2021 and did not have a material effect on the Plan's financial statements and related disclosures.

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED):

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by its investment advisors and trustees. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Fees

The Plan's expenses are paid either by the Plan or the Company, as provided by the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. In addition, certain investment related expenses are included in the net appreciation (depreciation) of fair value of investments presented in the accompanying statements of changes in net assets available for benefits.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED):

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are accumulated based on employees' compensation during each year of credited service. The accumulated plan benefits for active employees will equal the accumulation, with interest, of the annual benefit accruals as of the benefit information date. Benefits payable under all circumstances - retirement, death, disability, and termination of employment - are included, to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from plan assets are excluded from accumulated plan benefits.

The actuarial present value of accumulated plan benefits is determined by the Plan's independent enrolled actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability or retirement) between the valuation date and the expected date of payment. These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The significant actuarial assumptions used in the valuation are as follows:

a) Life expectancy of participants – Pri-2012, MP-2019
b) Retirement age (assumed average) – 65 years
c) Investment return (assumed average) – 6.00% per annum
d) Salary increase assumption – 0% due to amendment to cease future benefit accruals

See Note 6 for a presentation of the actuarial present value of accumulated plan benefits and changes therein as of and for the year ended March 31, 2020.

Subsequent Events

The Plan's management has evaluated subsequent events for adjustment to or disclosure in the Plan's financial statements through January 13, 2022 the date the financial statements were available to be issued. No recordable or disclosable events occurred through this date.

3. FUNDING POLICY:

All contributions are made by the Company. The Company contributes such amounts as are necessary on an actuarial basis to provide the Plan with assets sufficient to meet the benefits to be paid to Plan participants. The Plan's funding policy is for the Company to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement. The Company did not make any minimum funding contributions for the years ended March 31, 2021 and 2020, as the Plan met the minimum funding requirements of ERISA.

4. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specific (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

4. FAIR VALUE MEASUREMENTS (CONTINUED):

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at March 31, 2021 and 2020.

Mutual funds – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Money market fund – Valued at cost plus accrued interest, which approximates fair value.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value, as of March 31, 2021:

Description	Level 1	Level 2	Level 3	Total
Mutual funds	$ 20,219,124	$ ---	$ ---	$ 20,219,124
Money market fund	1,522,014	---	---	1,522,014
Total investments, at fair value	$ 21,741,138	$ ---	$ ---	$ 21,741,138

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value, as of March 31, 2020:

Description	Level 1	Level 2	Level 3	Total
Mutual funds	$ 15,771,055	$ ---	$ ---	$ 15,771,055
Money market fund	1,198,380	---	---	1,198,380
Total investments, at fair value	$ 16,969,435	$ ---	$ ---	$ 16,969,435

5. PRIORITIES UPON TERMINATION OF PLAN:

The Company reserves the right to terminate the Plan at any time subject to the provisions of ERISA. In the event that the Plan is terminated, the Plan's net assets will be allocated to provide the following benefits in the order indicated:

a) Annuity benefits that participants and beneficiaries have been receiving for at least three years, or those employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable during those three years).
b) All other benefits (if any) of participants under the Plan guaranteed under Title IV of ERISA (determined without regard to Section 4022(b)(5) thereof, and to the additional benefit (if any) which would be determined if Section 4022(b)(6) of ERISA did not apply).
c) All other non-forfeitable benefits under the Plan.
d) All other benefits.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

6. ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS:

The most recent actuarial report was prepared as of April 1, 2020, using the Traditional Unit Credit to calculate the present value of accumulated plan benefits. Had the valuations been performed as of March 31, 2020, there would be no material differences.

The following is a reconciliation of the present value of accumulated plan benefits for the year ended March 31, 2020:

Present value of accumulated plan benefits as of March 31, 2019	$ 17,340,159
Increase (decrease) during the year attributable to:	
Benefits paid	(1,363,283)
Change in discount period	999,511
Changes in actuarial assumptions	(229,628)
Other	(612,770)
Net decrease	(1,206,170)
Present value of accumulated plan benefits as of March 31, 2020	$ 16,133,989

6. ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS (CONTINUED):

The present value of accumulated plan benefits as of March 31, 2020 is as follows:

Vested benefits:	
Retired participants	$ 11,832,824
Active and terminated participants	4,301,165
Total vested benefits	16,133,989
Nonvested benefits	---
Present value of accumulated plan benefits	$ 16,133,989

7. INFORMATION CERTIFIED BY THE PLAN'S TRUSTEES:

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosures under ERISA. Accordingly, Charles Schwab Bank and Charles Schwab Trust Bank, the trustees, have certified that the following data included in the accompanying financial statements and supplemental schedules is complete and accurate at March 31:

	2021	2020
Cash	$ 1,653	$ 595
Investments, at fair value	21,741,138	16,969,435
Net appreciation (depreciation) in fair value of investments	5,759,648	(1,635,760)
Dividend and interest income	692,747	720,852

The Plan's independent auditor did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

8. TRANSACTIONS WITH PARTIES-IN-INTEREST:

As described in Note 2, the Company paid certain expenses related to Plan operations and investment activity to various service providers. These transactions are considered parties-in-interest transactions under ERISA.

9. RISKS AND UNCERTAINTIES:

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported, based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

10. TAX STATUS:

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated August 30, 2013, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

11. CONCENTRATIONS:

Two investments comprised 39% of net assets available for benefits as of March 31, 2021 and 2020.

The following is a summary of the major provisions of the above plan as of the valuation date. Please refer to the plan document for a more complete description of the most recent plan provisions.

1. Effective Date: Originally effective April 1, 1989; restated effective April 1, 2007

2. Plan Year (§1.30): April 1st through March 31st

3. Eligibility (§2.01): March 31st coinciding with or next following the later of six months after employment commencement or age 20½. Effective April 1, 1994, participation into the plan was frozen.

4. Normal Retirement Age (§1.25): Age 65

5. Normal Retirement Date (§1.26): First day of the month coinciding with or next following the date a Participant reaches Normal Retirement Age.

6. Early Retirement (§5.02): Thirty five (35) years of Vesting Service

7. Vesting (§4.01): 100% vested after five (5) years of Vesting Service

8. Pre-Retirement Death Benefit (§7.01):

    a. In the case of a Participant who dies on or after his Normal Retirement Date, the benefit that would have been payable as a 100% Joint & Survivor Annuity

    b. In the case of any other Participant, the benefit that would have been payable to the Spouse, as a Qualified Joint and Survivor Annuity

9. Normal Form of Payment (§6.01): Life Annuity

10. Normal Retirement Benefit (§5.01): The greater or (a) or (b):

    a. Frozen Accrued Benefit as of September 25, 1991

    b. (i) minus (ii) minus (iii):
        i. 30% of Average Monthly Compensation
        ii. 22% of Social Security Benefit
        iii. The result of (i) minus (ii) multiplied by one-twentieth for each year that Vesting Service is less than 20

    Effective April 1, 1994, benefits under the plan are frozen

11. Early Retirement Benefit (§5.02): The monthly benefit equal to the monthly benefit the Participant would be entitled if he or she retired on or after Normal Retirement Age.

9. Asset Valuation Method: Actuarial Value (averaging of Fair Market Value)

Schedule SB, Part V – Summary of Actuarial Assumptions and Methods (continued)

10. Funding Method:

Traditional Unit Credit

The actuarial cost method used in the valuation was the unit credit cost method.

The normal cost is the sum of all the individual normal costs for each participant. For active participants, the individual normal cost is the present value of the benefit earned during the year being valued. For active participants whose credited service equals or exceeds the plan maximum, if any, and for non-active participants, the normal cost is zero.

The actuarial accrued liability is the sum of the individual accrued liabilities for all participants. The individual accrued liability for an active participant is the present value of the accrued benefit as of the valuation date. The unfunded liability is the actuarial accrued liability less the valuation assets.

The total annual cost of the plan is the normal cost plus the shortfall amortization charge.

Projected Unit Credit

The actuarial cost method used in the development of the maximum contribution and the at-risk liabilities was the projected unit credit cost method.

Under this method, the normal cost is the sum of the individual normal costs for all participants. For an active participant, the individual normal cost is the present value at the current age of the projected benefit at the assumed retirement age, based on the actuarial assumptions, divided by the participant's expected years of credited service at that age. For a non-active participant, the normal cost is zero.

The actuarial accrued liability is the sum of the individual accrued liabilities for all plan participants. For an active participant, the individual accrued liability is the product of the normal cost and the total years of credited service at the current age. For non-active participants, the individual accrued liability is the present value at the current age of future benefits. The unfunded actuarial accrued liability equals the actuarial accrued liability less the valuation assets.
