IG Design Group Americas, Inc. 401(k) Plan

Notes to Financial Statements

1. Description of the Plan

The following brief description of the IG Design Group Americas, Inc. 401(k) Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General

The Plan was a defined contribution plan sponsored by IG Design Group Americas, Inc. (the Company). The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Plan Merger

Effective March 15, 2021, the Plan was merged into the IG Design Group Americas Inc. 401(k) Plan (formerly the CSS Industries, Inc. 401(k) Plan). The CSS Industries, Inc. 401(k) Plan, had a plan name change to IG Design Group Americas, Inc. 401(k) Plan - Plan number 005. The Plan included in these financial statements was IG Design Group Americas Inc. 401(k) Plan - Plan number 001. On March 12, 2021, all investments were liquidated and transferred to, and received by, the acquiring plan on March 15, 2021. After the merger and transfer of assets, the Plan will cease to exist.

Eligibility

All employees of the Company, except those covered under a collective bargaining agreement, nonresident aliens, leased employees, or those part-time employees whose regularly scheduled service was less than 20 hours per week, who had at least sixty days of service and had attained age 18 were eligible to participate. Enrollment was allowed on the first day of the month subsequent to the above conditions being met.

Contributions

Each year, participants may have contributed up to 100% of pretax annual eligible compensation, as defined by the Plan, not to exceed the dollar limitation set forth in Section 402(g) of the Internal Revenue Code (IRC) in effect at the beginning of the Plan year. Participants who had attained age 50 before the close of the Plan year, were allowed to make catch-up contributions up to the maximum allowed by the IRC. Participants were also allowed to contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollovers). Participants directed the investment of their contributions into various investment options offered by the Plan. The Plan included an auto-enrollment provision whereby all newly eligible employees were automatically enrolled in the Plan unless they affirmatively elected not to participate in the Plan or elected a contrary election. Automatically enrolled participants had their deferral rate set at 3% with no automatic annual increases.

The Company provided a discretionary matching contribution equal to either 25% of deferrals up to 6% of the participant's annual compensation contributed to the Plan for participants previously merged into the Plan from the Lang Companies, Inc. 401(k) Profit Sharing Plan or 60% of the first 10% of compensation that a participant contributed to the Plan (all other participants). Effective June 1, 2020, the Company suspended the discretionary match. An additional discretionary profit-sharing contribution may have been made by the Company. Any discretionary contribution was allocated in the same ratio as each participant's compensation bears to the total of such compensation of all participants. The Company did not make a discretionary contribution in 2021. Company contributions were subject to certain limitations as defined by the IRC and the Plan document.

IG Design Group Americas, Inc. 401(k) Plan

Notes to Financial Statements

1. Description of the Plan (cont.)

Participant Accounts

Each participant's account was credited with the participant's contribution and allocations of the Company's contribution and Plan earnings (losses). Participant accounts were charged with an allocation of administrative expenses that were paid by the Plan. Allocations were based on participant compensation, account balances, or specific participant transactions, as defined. The benefit to which a participant was entitled was the benefit that could have been provided from the participant's vested account balance.

Notes Receivable from Participants

A participant was allowed to borrow a minimum of \$1,000 and a maximum of the lesser of \$50,000 or 50% of his or her vested account balance. Such loans were repayable through normal payroll deductions and were secured by the participant's account balance. The interest rate was determined by the Plan administrator in a nondiscriminatory manner and was fixed over the life of the note. Loans were repaid over a period not to exceed five years with exceptions for the purchase of a primary residence.

Payment of Benefits

Participant accounts could have been withdrawn upon retirement, death, disability, or termination of employment. The participant may have elected to receive their balance in a single lump-sum payment, or monthly, quarterly, or annual installments, or may have remained in the Plan until the participant reached age 70½. The Plan also allowed for in-service withdrawals at age 59½, along with withdrawals in the event of a financial hardship.

Vesting

Participants were immediately vested in their voluntary contributions plus actual earnings thereon. Participants vested in Company contributions plus actual earnings, as follows:

Years of Service	Percentage Vested
Less than 1	0%
1	34%
2	67%
3 or more	100%

Forfeitures

Forfeited non-vested accounts totaled \$0 and \$83,020 at March 15, 2021 and December 31, 2020, respectively. Matching and profit-sharing contribution amounts forfeited, plus earnings (losses) thereon, could have been used to reduce Company contributions and/or pay Plan expenses. During the period ended March 15, 2021, forfeited funds of \$1,686 were used to pay Plan expenses. Approximately \$84,240 of forfeitures were transferred out as part of the Plan Merger.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan were prepared using the accrual basis of accounting. The Plan followed accounting standards set by the Financial Accounting Standards Board (FASB). The FASB sets accounting principles generally accepted in the United States of America (GAAP).

Notes to Financial Statements

2. Summary of Significant Accounting Policies (cont.)

Use of Estimates

The preparation of financial statements in conformity with GAAP requires the Plan administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The investments of the Plan were reported at fair value with the exception of the fully benefit-responsive investment contract which was valued at contract value. There were no investments held by the Plan as of March 15, 2021. Contract value was the relevant measurement for this portion of the net assets available for benefits because contract value was the amount participants normally would receive if they initiated permitted transactions under the terms of the Plan.

Fair value was the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (the exit price). See Note 4 for discussion of the fair value measurements.

Purchases and sales were recorded on a trade-date basis. Interest was recorded when earned, and dividends were recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable

Notes receivable from participants were measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income was recorded on the accrual basis. Related fees were recorded as administrative expenses and were expensed when they were incurred. No allowance for credit losses had been recorded as of March 15, 2021 and December 31, 2020. If a participant ceased to make loan repayments and the Plan administrator deemed the participant loan to be in default, the participant loan balance was reduced, and a benefit payment was recorded.

Payment of Benefits

Benefit payments to participants were recorded upon distribution.

Plan Expenses

Certain administrative expenses of the Plan were paid by the Plan. Certain other administrative expenses of the Plan were paid by the Company and were excluded from these financial statements. Investment fees were paid by the Plan and were included in net appreciation or depreciation of fair value of investments.

Notes to Financial Statements

3. Certified Information

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Massachusetts Mutual Life Insurance Company (MassMutual) and Reliance Trust Company (Reliance) held the Plan's investment assets and executed investment transactions. The Plan administrator has obtained a certification from MassMutual and Reliance as of March 12, 2021 (date of transfer of investments) and December 31, 2020, and for the period of January 1, 2021 through March 12, 2021, that the information provided to the Plan administrator by MassMutual and Reliance was complete and accurate. The information as to investment assets and transactions therein, and investment income included in the accompanying financial statements as of March 15, 2021 and December 31, 2020, and for the period from January 1, 2021 through March 15, 2021, was covered by such certifications.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements.

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs in which little or no market data exists (Level 3 measurements).

Basis of Fair Value Measurement

Level 1 - Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2 - Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly;

Level 3 - Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

The asset or liability's fair value measurement level within the fair value hierarchy was based on the lowest level of any input that was significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodology used for assets measured at fair value.

Pooled Separate Accounts - The fair value of the pooled separate accounts as of December 31, 2020 was based on the NAV of the accounts calculated based on the NAV of the underlying investments. The NAV was used as a practical expedient to estimate fair value.

The method described above may have produced a fair value calculation that may not have been indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believed its valuation methods were appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could have resulted in a different fair value measurement at the reporting date.

4. Fair Value Measurements (cont.)

The following tables set forth by level, within the fair value hierarchy, the Plan's investment assets at fair value as of December 31, 2020. There were no investments held on March 15, 2021.

<i>December 31, 2020</i>	Level 1	Level 2	Level 3	Total
Self-directed brokerage	\$ 520,423	\$ -	\$ -	\$ 520,423
Investments measured at NAV*				34,719,568
Total investments at fair value				\$ 35,239,991

* Certain investments that were measured at fair value using the NAV per share (or its equivalent) practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value to the amounts presented in the statements of net assets available for benefits.

Fair value of investments in certain entities that calculate NAV per share (or its equivalent) follows:

Investment	Fair Value at December 31, 2020	Unfunded Commitments	Redemption Frequency (if Currently Eligible)	Redemption Notice Period
Pooled separate accounts				
Asset allocation	\$ 13,001,223	None	Daily	N/A
Growth	11,990,422	None	Daily	N/A
Intermediate term bond	2,635,472	None	Daily	N/A
Large cap core	5,516,968	None	Daily	N/A
Small cap core	1,416,787	None	Daily	N/A
Stable value	158,696	None	Daily	N/A
Total pooled separate accounts	\$ 34,719,568			

5. Investment Contract with Insurance Company

The Plan held a fully benefit-responsive guaranteed investment contract with MassMutual. MassMutual maintained the contributions in a general account. The account was credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. MassMutual was contractually obligated to repay the principal and a specified interest rate that was guaranteed to the Plan. The crediting rate was based on a formula agreed upon with MassMutual, but it could not be less than three percent. The crediting rate was reviewed on a semi-annual basis for resetting. The investment contract did not permit MassMutual to terminate the agreement prior to the scheduled maturity date.

As described in Note 2, because the guaranteed investment contract was fully benefit-responsive, contract value was the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by MassMutual, represented contributions made under the contract, plus earnings (losses), less participant withdrawals and administrative expenses. Participants may have ordinarily directed the withdrawal or transfer of all or a portion of their investment at contract value.

5. Investment Contract with Insurance Company (cont.)

Certain events limited the Plan's ability to transact at contract value. Such events included the following: amendments to the Plan documents, changes to Plan's prohibition on competing investment options or deletion of equity wash provisions, bankruptcy of the Plan sponsor or other Plan sponsor events that cause a significant withdrawal from the Plan, or the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator did not believe that the occurrence of any such event, which would have limited the Plan's ability to transact at contract value with Plan participants, was probable. The contract transferred as an investment as part of the Plan merger and there was no change in value due to any of the events noted above.

6. Tax Status

The Plan was based on the Volume Submitter Profit-Sharing Plan with CODA sponsored by Qualified Plans LLC (QP). The Internal Revenue Service (IRS) had opined and informed QP with an opinion letter dated March 31, 2014, that the Volume Submitter Profit-Sharing Plan with CODA was designed in accordance with applicable sections of the IRC. Although the Plan had been amended since the date of the opinion letter, the Plan administrator believed that the Plan was designed, and was being operated, in compliance with the applicable requirements of the IRC and, therefore, believed the Plan was qualified, and the related trust was tax-exempt.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan had taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of March 15, 2021, there were no uncertain positions taken or expected to be taken. The Plan had recognized no interest or penalties related to uncertain tax positions. The Plan was subject to routine audits by taxing jurisdictions; however, there were no audits for any tax periods in progress.

7. Risks and Uncertainties

The Plan's investments included funds which invested in various types of investment securities and in various companies within various markets. Investment securities were exposed to several risks such as interest rate, market and credit risks.

Due to the level of risk associated with certain investment securities, it was at least reasonably possible that changes in the values of investment securities would occur in the near term and those changes could have materially affected the amounts reported in the statement of net assets available for benefits.

8. Related Parties and Party-In-Interest Transactions

Parties-in-interest are defined under DOL regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. The Plan invested in products provided by MassMutual and Reliance, who were the custodians of the Plan; therefore, these transactions qualified as party-in-interest transactions. Notes receivable from participants are also defined by ERISA as party-in-interest transactions. Certain administrative functions were performed by officers or employees of the Company. No such officer or employee received compensation from the Plan. Some administrative expenses of the Plan were paid directly by the Company.

9. COVID Considerations

The COVID-19 outbreak was declared a worldwide pandemic on March 11, 2020, by the World Health Organization (WHO). The full impact of the COVID-19 outbreak continues to evolve as of the date of this report. On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security Act (CARES Act) was passed into law. The CARES Act expanded the ability of certain 401(k) plan participants to withdraw, penalty free, funds from their vested retirement plan accounts, increased the participant loan limit, and delayed loan repayments for up to one year, subject to the certain participant eligibility criteria. The Plan adopted certain provisions of the CARES Act.

10. Subsequent Events

The Plan has evaluated, for consideration of recognition or disclosure, subsequent events that have occurred through the date of issuance, January 12, 2022, and has determined that no significant events occurred after March 15, 2021, but prior to the issuance of these financial statements, that would have a material impact on these financial statements.
