i. Notes Receivable from Participants

Participants may borrow from their accounts. Each participant may have no more than one loan outstanding at any one time. Loan fees and interest due are paid by the participants. Minimum loan amount is \$500; the maximum loan amount cannot exceed the lesser of:

- one-half of the present value of the vested accrued benefit of the participants; or

The maximum repayment period is generally not more than 5 years for a general-purpose loan. If the loan is obtained for purchasing a primary residence, the loan will be repaid within a period not to exceed 30 years. The loan will bear interest at the prime rate plus 2%. Principal and interest is paid ratably through each pay period. All loans must be secured by not more than 50% of the participant's vested account balance.

A loan to an active participant is considered in default on the last business day of the calendar quarter following the calendar quarter in which the loan repayment was due. In accordance with Internal Revenue Service ("IRS") regulations, a participant who repays a loan after a deemed distribution will receive tax basis credits for repayment of a loan pursuant to IRS rules.

Note 3 - Summary of Significant Accounting Policies

a. Basis of Accounting

The financials statements of the Plan are prepared in accordance with the US Generally Accepted Accounting Principles.

b. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

c. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

d. Investment Valuation and Income Recognition

The Plan's investments are stated at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians, and insurance company. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments purchased and sold as well as held during the year.

e. Note Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of March 31, 2021 and December 31, 2020. Delinquent participant loans are recorded as benefit payments based on terms of the plan document.

f. Excess Contributions Payable

Account payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. There was no excess contribution for the 2021 plan year.

h. Payment of Benefits

Benefits are recorded when paid.

i. Expenses

Certain expenses of maintaining the Plan are paid by the Company and are therefore excluded from these financial statements. Fees for the administration of notes receivable from participants are included in administrative expenses and charged directly to the participant's account. Investment related expenses are included in net appreciation of fair value of investments.

j. Date of Management's Review of Subsequent Events

The Coronavirus Disease 2019 ("COVID-19") has adversely affected, and may continue to adversely affect economic activity globally, nationally and locally. These economic and market conditions and other effects of the COVID-19 pandemic may adversely affect the volatility of Plan assets. The extent of any adverse impact of the COVID-19 pandemic on the Plan's participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits are unknown at this time. Operation of the Plan has not been adversely impacted.

Management has evaluated subsequent events through January 14, 2022, the date at which the financial statements were available to be issued.

Note 5 - Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and lowest priority to unobservable inputs (level 3).

The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Note 5 - Fair Value Measurements (continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020:

Mutual fund. Valued at daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Stable value collective trust fund. A stable value fund that is composed primarily of fully benefit-responsive investment contracts, which are issued by insurance companies and other financial institutions, fixed income securities, and money market funds and valued at the net asset value of units of the underlying investments. The net asset value is used as practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to require 12 months' notification in order to ensure that securities liquidations will be carried out in an orderly business manner. The plan has concluded that the NAVs reported by investment companies approximate the fair value of the investments. There are currently no redemption restrictions or unfunded commitments on those investments.

The following table lists the fair value of investment assets as of December 31, 2020:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Mutual funds	<u>\$204,801</u>	<u>\$0</u>	<u>\$0</u>	<u>\$204,801</u>
Investments measured at fair value	<u>\$204,801</u>	<u>\$0</u>	<u>\$0</u>	<u>\$204,801</u>
Investments measured at net asset value				\$ 691
Investments at fair value				<u>\$205,492</u>

Note 6 - Tax Status of the Plan

The Plan was adopted as a prototype plan, which received a determination letter from the Internal Revenue Service stating that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and therefore believe that the plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan administrator to evaluate tax positions taken by the plan and recognize a tax liability if the Plan has taken an uncertain position is more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 7 - Party-in-Interest Transactions

Certain Plan investments are managed by ADP Company. ADP Company is the trustee and recordkeeper for the Plan, and, therefore, these transactions qualify as party-in-interest transactions. The Sponsor Company pays directly for other expenses related to the Plan's operation.

All of these party-in-interest transactions are exempt from the prohibited transaction rules of ERISA.

Note 8 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts. Any unallocated asset of the Plan should be allocated to participant account and distributed in such a manner as the Company may determine.
