Independent Auditor's Report

January 10, 2022

To the Trustees, Participants and Plan Administrator of the
JPW Riggers, Inc. Retirement Savings Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the JPW Riggers, Inc. Retirement Savings Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2020 and 2019, and the related statement of changes in net assets available for benefits for the year ended December 31, 2020, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or Federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of December 31, 2020 and 2019, and for the year ended December 31, 2020, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the ***Auditor's Responsibilities for the Audit of the Financial Statements*** section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the ***Auditor's Responsibilities for the Audit of the Financial Statements*** section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the ***Scope and Nature of the ERISA Section 103(a)(3)(C) Audit*** section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material

misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users made on the basis of these financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

The supplemental Schedule H, Line 4a - Schedule of Delinquent Participant Contributions as of December 31, 2020, and Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2020, are presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to, the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

JPW RIGGERS, INC. RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

Note 1 - Description of plan

The following description of the JPW Riggers, Inc. Retirement Savings Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a qualified defined contribution profit sharing plan under Section 401(a) of the Internal Revenue Code with a Section 401(k) provision. Employees of JPW Riggers, Inc., JPW Structural Contracting, Inc., and JPW Erectors, Inc. (collectively the "Company") are eligible to participate in the Plan after completing a year of service and attaining age twenty-one. All assets acquired under the Plan are the result of employee and employer contributions thereto and all income and other additions thereto are administered, distributed, forfeited or otherwise governed by the provisions of the Plan and ERISA.

Plan amendment - Effective July 1, 2021, the Plan was amended to add JPW Erectors, Inc. as a participating employer.

Contributions - Participants are allowed to make elective 401(k) salary deferrals up to the maximum amount allowed by the Internal Revenue Code. Participants are automatically enrolled in the Plan with an initial deferral rate of 6% of their annual compensation to the 401(k) plan, which is increased automatically by 1% each year, up to a maximum of 10%, unless the participant elects a different percentage or expressly elects not to participate in the Plan. Participants are allowed to make rollover contributions to the Plan.

Employer contributions are made up of three different type of contributions, profit sharing, employer matching and prevailing wage contributions, as follows:

- Under the profit-sharing contribution, the Company will match $0.50 per hour up to a maximum of forty hours per week with a maximum contribution of $1,000 annually. Total profit-sharing contributions amounted to $90,360, of which the Company paid $74,627 for the year ended December 31, 2020, and used available forfeitures for the remainder as discussed below under forfeitures.

- Under the employer matching contribution, the Company will match 50% of contributions up to 6%, or a maximum contribution of $1,000 annually. Total employer matching contributions amounted to $83,427 for the year ended December 31, 2020.

- Under the prevailing wage contribution, the Plan allows eligible participants to elect to allocate a portion of their prevailing wage fringe benefits to the Plan. These contributions to the Plan are considered employer contributions; however, participants shall be 100% vested in these contributions at all times. Total prevailing wage contributions amounted to $21,213 for the year ended December 31, 2020.

The Company may make additional discretionary employer profit sharing contributions. These additional discretionary employer contributions are determined annually by the Board of Directors of the Company. There were no additional discretionary employer contributions for the year ended December 31, 2020.

Excess employer contributions payable - Excess employer contributions payable represents employer contributions originally credited to certain participants, but later determined by the third-party administrator that these participants had been credited with employer contributions which were over the maximum contribution amount allowed by the Plan. Therefore, these excess employer contributions were removed from the affected participants' accounts and reported as excess employer contributions payable. These excess employer contributions will be used to reduce future employer contributions in 2021.

Participant accounts - The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited with the participant's elective salary deferral contributions, company contributions, plan earnings and an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined in the plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account balance. Participants can access their account information via Voya Retirement Insurance and Annuity Company's (VOYA) website, where they have the ability to change their elective deferrals and investment options as well as apply for participant notes receivable and request distributions.

Investment options - Upon enrollment in the Plan, a participant may direct contributions to the Plan in various investment options. Participants may change their investment options daily through online access, as discussed above.

Vesting - Participants are immediately vested in their elective salary deferral contributions and prevailing wage contributions plus actual earnings thereon. Vesting in the remainder of their account is based on years of continuous service. A participant vests at a rate of 20% after two years of service and 20% each year thereafter, with full vesting upon completion of six years of service for any employer contributions.

Forfeitures - Forfeitures occur on the earlier of the distribution of a participant's entire vested account balance or the last day of the plan year in which the participant incurs five consecutive one-year breaks in service. The plan administrator can elect to use all or a portion of these amounts to reduce future employer contributions or pay administrative costs of the Plan. There were approximately $600 and $3,900 of forfeited non vested accounts as of December 31, 2020 and 2019, respectively. The Plan used $15,717 of forfeited non vested accounts to reduce employer contributions for the year ended December 31, 2020.

Notes receivable from participants - Participants may borrow from their fund accounts up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The notes are secured by the balance in the participant's account. Interest rates on outstanding loans range from 5.25% and 7.50% as of December 31, 2020. Principal and interest is repaid ratably through payroll deductions. According to requirements of the participant note receivable program, the plan administrator will consider a note in default if any scheduled payment remains unpaid beyond the last day of the calendar quarter following the calendar quarter in which the participant missed the scheduled payment. Any notes that are in default as defined by the plan document are reported as either deemed distributions or benefit payments.

Deemed distributions - Deemed distributions represent the amount of unpaid principal on notes receivable from participants who are actively participating in the Plan and have not continued to make payments on the outstanding notes as required under the notes receivable from participants program. There were $20,541 deemed distributions for the years ended December 31, 2020.

Payment of benefits - Upon termination of service due to death, disability, retirement or other reasons, a participant or beneficiary may receive the value of the vested interest in his or her account as a lump sum distribution.

Plan termination - Although the Company has not expressed any intent to do so, the Company has the right under the plan agreement to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, all participants will become 100% vested in their account balances.

Note 2 - Summary of accounting policies

Method of accounting - The Plan maintains its accounting records and financial statements on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires plan management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of plan income and expenses during the reporting period. Accordingly, actual results may differ from those estimates.

Risks and uncertainties - The Plan provides for various investment securities in any combination of pooled separate accounts and other investment securities. Investment securities are exposed to various risks, such as interest rate, credit and overall market volatility (including risks and volatility from the COVID-19 pandemic). Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

Investment valuation and income recognition - Investments held by the Plan are stated at net asset value (see below), with the exception of the Voya Fixed Account Fund investment, which is fully benefit responsive and therefore valued at contract value (see Note 3). All investment values have been determined and certified by VOYA, the Trustee of the Plan, (see Note 4). Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Pooled separate accounts invest primarily in registered investment securities (i.e., mutual funds), which are mainly publicly traded securities. Pooled separate accounts are valued at net asset value (NAV) per unit, which serves as a practical expedient to estimate its fair value as reported by the sponsor of the fund. This practical expedient would not be used if it were determined to be probable that the fund will sell the investment for an amount different from the reported net asset value. The NAV of each pooled separate account is not publicly quoted in the active markets. Each pooled separate account can be redeemed at NAV as of the measurement date and can be redeemed on a daily basis. There were no unfunded commitments or redemption restrictions on these investments as of December 31, 2020 and 2019. Investments measured at net asset value per share used as a practical expedient are not required to be classified in the fair value hierarchy.

Economic dependency and concentration of credit risk - All of the Plan's investments are invested with and managed by VOYA as of December 31, 2020 and 2019. Accordingly, the Plan is dependent upon the financial condition of VOYA.

Notes receivable from participants - Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Management individually reviews all notes receivable balances that exceed ninety days from the date of the most recent payment and based on the assessment of credit worthiness, estimates the portion, if any, of the balance that will not be collected. Currently, there is no valuation allowance recorded; however, management will record an allowance, if and when potentially uncollectible participant notes receivable become material. If a participant defaults on a note receivable and distribution from the participant account has been made during the plan year because the participant has left the Plan, the defaulted note receivable will be reported as benefits paid to participants on the statement of changes in net assets available for benefits and deducted from the receivable balance.

Payment of benefits - Benefits are recorded when paid.

Administrative costs - Administrative costs, including maintaining participant accounts, legal and auditing costs, are the obligation of the Plan; however, the plan sponsor may pay for or reimburse the Plan for any payment of these expenses. Costs of managing the investments are paid directly out of the plan assets (see Note 5).

Subsequent events - Management has evaluated subsequent events through January 10, 2022, the date that the financial statements were available for issue.

Note 3 - Fully benefit-responsive investment contract

The Plan holds an investment in The Voya Fixed Account Fund, a fully benefit-responsive investment contract, which is reported in accordance with the Financial Accounting Standards Board's authoritative guidance regarding accounting for fully benefit responsive investment contracts held by certain investment companies, which states that contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under the contract, plus earnings, less withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value. There are no reserves against contract value for credit risk of the contract issuer or otherwise. Investments measured at contract value are not required to be classified in the fair value hierarchy.

The crediting interest rates of the contract are based on agreed upon formulas with the issuer, as defined in the contract agreements, but cannot be less than 0%. Such interest rates are reviewed on a periodic basis for resetting. The key factors that influence future interest crediting rates could include the following: the level of market interest rates, the amount and timing of participant contributions, transfers and withdrawals into/out of the contract and the duration of the underlying investments backing the contract.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (i) amendments to the plan documents (including complete or partial plan termination or merger with another plan); (ii) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions; (iii) bankruptcy of the sponsor or other sponsor event (e.g., divestures or spin-offs of a subsidiary) that causes a significant withdrawal from the Plan; (iv) the failure of the trust to qualify for exemption from Federal income taxes or any required prohibited transaction exemption under ERISA; or (v) premature termination of the contract. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuer and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Such events include (i) an uncured violation of the Plan's investment guidelines; (ii) a breach of material obligation under the contract; (iii) a material misrepresentation; and (iv) a material amendment to the agreement without the consent of the issuer.

Note 4 - Investments

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, VOYA has certified that the trusteed investments and investment income included in the accompanying financial statements as of December 31, 2020 and 2019, and for the year ended December 31, 2020, and supplemental schedules as of

December 31, 2020, are complete and accurate. Furthermore, the Plan's independent accountants did not perform auditing procedures with respect to this information, except to compare such information to the related information included in the financial statements and supplemental schedules.

Note 5 - Related party transactions

The Plan's investments are managed by VOYA, the Plan's Trustee. Investment fees paid for these services qualify as party-in-interest transactions and are reported in the administrative expenses on the accompanying statement of changes in net assets available for benefits.

The Plan has contracted with Actuarial Pension Analysts, Inc. to provide recordkeeping and certain third-party administrative services. Fees paid for these services are paid for by the plan sponsor. VOYA processes participant notes receivable and distribution requests, which are paid by the Plan. In addition, the Plan contracts with HD Vest Advisory Services (HD Vest) for other advisory services, which are paid by the Plan. Fees paid to VOYA and HD Vest for these services qualify as party-in-interest transactions and are reported as administrative expenses in the accompanying statement of changes in net assets available for benefits.

Note 6 - Tax status of plan

The Plan has adopted the DATAIR Cash or Deferred Profit-Sharing Plan Volume Submitted Adoption Agreement. The Internal Revenue Service has determined that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (the "Code"). Accordingly, the Plan has been accounted for as a tax-exempt plan. The Plan has been amended since receiving the determination letter. The plan administrator and the Trustees believe that the Plan is currently being operated in compliance with the applicable requirements of the Code.

The Plan has reviewed its operations for uncertain tax positions and believes there are no significant exposures. The Plan will include penalties and interest on income tax liabilities in administrative expenses if such amounts arise. The Plan did not incur any penalties and interest for the year ended December 31, 2020. The Plan is no longer subject to regulatory examinations by tax authorities for the closed years before 2017.

Note 7 - Prohibited transactions

The Company failed to remit to the Plan's Trustee employee contributions of $7,617 within the period prescribed by the United States Department of Labor for the year ended December 31, 2020. Delays in remitting contributions to the Trustee were due to an administrative oversight and the Company remitted these contributions plus applicable investment earnings to the affected participants' accounts during 2021.
