Note A
Description of Plan

The following description of the Time Out America, LLC 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established by Time Out America, LLC (the "Company"). The Plan covers all employees of the Company who have attained the age of 21. Effective May 1, 2015, the Plan adopted a provision allowing Eligible Employees no minimum service requirement to participate in deferral contributions. Temporary or part-time employees are required to complete one year of Eligibility Service determined using the 1,000 Hours of Service Method. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions

Each year, participants are permitted to contribute an amount not to exceed the dollar limit set by the Internal Revenue Code annually. In 2020, the limit was $19,500. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions up to an additional $6,500. Participants may also contribute amounts representing distributions from other qualified retirement plans. Participants direct the investments of their contributions as well as Company contributions into various investment options offered by the Plan. The Company may elect to make discretionary matching contributions. The matching contributions formula is applied and determined on each payroll period.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of plan earnings or losses, the Company's discretionary contributions and allocations of charged administrative expenses. Allocations are based on participant earnings, account balances or specific transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their voluntary contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after four years of credited service.

Note A
Description of Plan (Continued)

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000, up to a maximum equal to the lesser of $50,000 or 50% of their vested account balances. The loans are secured by the balance in the participant's account. Principal and interest are paid ratably through payroll deductions, on an after-tax basis. Generally, loan terms range over a period not extending beyond five years from the date of the loan, unless such loan is used to acquire a dwelling unit that within a reasonable time (determined at the time the loan is made) will be used as the principal residence of the participant. The interest rate is commensurate with local prevailing rates as determined generally by the Plan Administrators and will be established in the month the loan is effective.

Payment of Benefits

Participants may receive distributions if: (1) the employee terminates employment before normal retirement age (65), (2) the employee terminates due to death or disability, (3) the employee reaches normal retirement age but continues to work, and (4) the employee reaches age 59 ½ and continues to work. Distributions can be made in the form of a lump sum and rollovers to other qualified plans.

Hardship Withdrawals

Hardship withdrawals are allowed for qualified expenses (certain medical expenses, purchase of a principal residence, tuition payment for post-secondary education, and payments to prevent eviction from a primary residence) as defined in the plan document. A participant’s hardship withdrawal will preclude the participant from making additional employee before-tax contributions to the Plan for a six-month period after the hardship withdrawal.

Forfeitures

At December 31, 2020 and 2019, forfeited non-vested accounts totaled $30,886 and $54,529, respectively. Forfeiture accounts will be used to reduce future employer contributions and certain administrative expenses. During the plan year, participant forfeitures totaled $37,847. Forfeitures used to reduce employer contribution totaled $42,632. Forfeitures used to pay plan expenses totaled $19,000.

Note B
Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America (“GAAP”).

Note B
Summary of Significant Accounting Policies (Continued)

Estimates

The preparation of financial statements, in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value (except for the fully benefit-responsive investment contract, which is reported at contract value). Fair value measurements are based on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's management determines the Plan's valuation policies utilizing information provided by the investment advisors, third-party service providers and trustee. See Note 4 for discussion of fair value measurements.

Investments in fully benefit-responsive investment contracts are reported at contract value. Contract value is the relevant measure for the portion of the net assets available for the benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. Delinquent participant loans are recorded as a distribution based upon the terms of the Plan Document.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Although not required by the Plan, the Company has elected to pay some of the administrative expenses of the Plan, including legal, audit and other administrative expenses. Expenses that are paid by the Company are excluded from these financial statements. Notwithstanding the foregoing, the Company may direct that administrative expenses, that are allocable to the account of a specific participant, be paid from that account. All other investment fees applicable to each investment fund are netted against the related investment income before the investment income is allocated to participants' accounts.

Note B
Summary of Significant Accounting Policies (Continued)

Subsequent Events

The Plan has evaluated subsequent events through January 11, 2022, the date the financial statements were available to be issued.

Note C
Fair Value Measurements

U.S. GAAP provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include: – Quoted prices for similar assets or liabilities in active markets; – Quoted prices for identical or similar assets or liabilities in inactive markets; – Inputs on other than quoted prices that are observable for the asset or liability; – Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020 and 2019.

Cash: Consists of a money market account, valued at cost, which approximates fair value.

Mutual funds: Valued at daily closing price as reported by the fund. Mutual funds held by the Plan are registered with the U.S. Securities and Exchange Commission and are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Note C
Fair Value Measurements (Continued)

Pooled Separate Accounts: Valued based upon the units of such pooled separate accounts held by the Plan at year-end multiplied by the respective unit value. As of December 31, 2020 and 2019, pooled separate accounts held by Voya Retirement Insurance and Annuity Company ("Voya") are valued at their Accumulated Unit Value ("AUV"). These are valued daily as the number of accumulation units held are multiplied by the AUV. The AUV is determined daily based on the net asset value of shares of the underlying fund, the fund's dividends and the contract's separate account charges.

The preceding methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level within the fair value hierarchy the Plan's assets accounted for at fair value on a recurring basis as of December 31, 2020 and 2019.

	Assets at Fair Value as of December 31, 2020			
	Level 1	**Level 2**	**Level 3**	**Total**
Cash	$ 30,886	$ -	$ -	$ 30,886
Mutual funds	3,809,526	-	-	3,809,526
Total investments at fair value	$ 3,840,412	$ -	$ -	$ 3,840,412

	Assets at Fair Value as of December 31, 2019			
	Level 1	**Level 2**	**Level 3**	**Total**
Cash	$ 54,529	$ -	$ -	$ 54,529
Mutual funds	3,386,376	-	-	3,386,376
Total investments in the fair value hierarchy	3,440,905	-	-	3,440,905
Investments measured at net asset value[(a)]				15,312
Total investments at fair value	$ 3,440,905			$ 3,456,217

(a) In accordance with ASC 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Note C
Fair Value Measurements (Continued)

Fair Value of Investments in Entities that Use NAV

The following table summarizes investments measured at fair value based on NAV per share as of December 31, 2019.

Pooled separate account				
Voya Mid-Cap Growth Equity Fund 8	$ 15,312	N/A	Daily	None
Total pooled separate account	$ 15,312			

Note D
Investments

Information prepared and certified by the trustee

Certain information related to investments disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2020 and 2019, and net appreciation in fair value of investments, interest and dividends for the year ended December 31, 2020, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Voya Retirement Insurance and Annuity Company (the trustee of the Plan).

Investment Options

Participants direct the investment of their contributions as well as any Company discretionary contributions into various mutual funds, pooled separate account, fixed income account and a money market fund offered by the Plan. Participants may change the allocations of their investments daily.

Note E
Investment Contract with Insurance Company

The Plan invests in a fully benefit-responsive investment contract ("Voya Fixed Account") with the Voya Retirement Insurance and Annuity Company ("Voya") (the "Issuer"). The amounts invested, as of December 31, 2020 and 2019, were $349,378 and $436,110, respectively. The Issuer maintains the contributions in its general account with no maturity date. The account is credited with earnings and charged for participant withdrawals and administrative expenses.

The contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by the Issuer, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Note E
Investment Contract with Insurance Company (Continued)

The Plan's ability to receive amounts due is dependent on the Issuer's ability to meet its financial obligations. The Issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments. Generally, there are no events that limit the ability of the Plan to transact at contract value with the Issuer. There are no events or circumstances that would allow the Issuer to terminate the fully benefit-responsive contract with the Plan and settle at an amount different from contract value.

Note F
Excess Contributions Payable

At December 31, 2020 and 2019, amounts payable to participants totaling $- and $10,862, respectively, for contributions in excess of amounts allowed by the IRS are recorded as a liability with corresponding increase to distributions. The Plan distributed the excess contributions to the applicable participants in the following year.

Note G
Related Party and Party-In-Interest Transactions

All Plan investments were managed by Voya, the trustee and custodian of the Plan assets. Voya provides record keeping and administrative services to the Plan. The Company also utilizes a third-party record-keeper, Angel Pension Group, Inc., to provide certain other administrative services. Therefore, the purchases and sales of these investments and resulting balances qualify as party-in-interest transactions.

Note H
Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their employer contributions.

Note I
Non-Exempt Transactions

As reported on the Schedule of Delinquent Participant Contributions (Schedule H, Line 4a), certain Plan contributions were not remitted to the trust within the time frame specified by the Department of Labor's Regulation 29 (CFR 2510.3-102), thus constituting nonexempt transactions between the Plan and the Company for the year ended December 31, 2020. The Company believes that these transactions should not affect the tax-qualified status of the Plan.

Note J
Tax Status

The Internal Revenue Service has determined and informed the Plan's third-party administrator, by a letter dated September 30, 2014, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan Administrators and the Plan's legal counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the tax authorities. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2020, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by the tax authorities; however, there are currently no audits for any tax periods in progress.

Note K
Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

As a result of the spread of COVID-19 coronovirus, economic uncertainties have arisen which have led to heightened market risk and volatility. This could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits. Because of these market uncertainties, Plan management is unable to estimate the total impact the pandemic will have.
