The Company made safe harbor matching contributions of $91,125 for the year ended December 31, 2020.

The Company may also elect to make an additional discretionary, non-elective profit-sharing contribution to Participants with one year of service and who are employed on the last day of the Plan year. The Company did not elect to make a discretionary, non-elective contribution for the year ended December 31, 2020.

Participants direct the investment of their contributions into various investment options offered by the Plan. Contributions are subject to certain IRS limitations.

Participant Accounts. Each Participant's account is credited with the Participant's contributions and Company safe harbor matching contributions, as well as allocations of the Company's discretionary, non-elective contributions, if any, and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on Participant earnings, account balances, or specific Participant transactions, as defined. The benefit to which a Participant is entitled is the benefit that can be provided from the Participant's vested account.

Vesting. Participants are vested immediately in their contributions and the safe harbor matching contributions plus actual earnings thereon. Vesting in the Company's discretionary, non-elective contributions, and any actual earnings thereon is determined using a progressive schedule based on years of continuous service. Participants are 100% vested after six years of credited service.

Notes Receivable from Participants. Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance. The loans are secured by the balance in the Participant's account. The loan interest rates are determined by the Plan Administrator. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits. On termination of service due to death, disability, or retirement, a Participant may elect to receive a lump-sum amount equal to the value of the Participant's vested interest in his or her account. For termination of service for other reasons, a Participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

A Participant may also request a withdrawal upon attainment of age 59½ or upon demonstration by the Participant to the Plan Administrator that the Participant is suffering from "hardship". Hardship is defined in applicable regulations promulgated or to be promulgated pursuant to Section 401(k) of the Internal Revenue Code or standards established by the Secretary of the Treasury or his delegate.

Forfeited Accounts. As of December 31, 2020 and 2019, forfeited, non-vested accounts totaled $0 and $0, respectively. These accounts will be used to reduce future employer contributions and administrative expenses. During 2020, administrative fees were reduced by $0 and employer contributions were reduced by $0.

B. SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting. The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates. The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition. Investments are valued at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisors and custodians. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants. Notes receivable from Participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis.

Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2020 and 2019. Delinquent Participant loans are recorded as distributions on the basis of the terms of the Plan agreement.

Excess Contributions Payable. Amounts payable to Participants for contributions in excess of amounts allowed by the Internal Revenue Service are recorded as a liability with a corresponding reduction to contributions. The Plan had no excess contributions for the year ended December 31, 2020.

Payment of Benefits. Benefits are recorded when paid.

Administrative Expenses. Certain expenses of maintaining the Plan are paid directly by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from Participants are charged directly to the applicable Participant's account and are included in administrative expenses. Investment-related expenses are included in the net appreciation (depreciation) of the fair value of investments.

Reclassifications. Certain amounts in the financial statements have been reclassified to conform to the 2020 presentation. These reclassifications had no effect on the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2019.

Subsequent Events. The Plan has evaluated subsequent events through December 27, 2021, the date the financial statements were available to be issued.

C. INFORMATION CERTIFIED BY THE CUSTODIAN AND TRUSTEE

Certain information related to investments disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2020 and 2019, and the net appreciation (depreciation) in the fair value of investments, interest, and dividends for the year ended December 31, 2020, was obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by Mid Atlantic Trust Company and Ascensus Trust Company, the Custodian and Trustee of the Plan, respectively.

D. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2020 and 2019.

Mutual Funds - Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2020 and 2019:

	Investments at Fair Value as of December 31, 2020			
	Level 1	Level 2	Level 3	Total
Mutual Funds	$ 351,364	$ -	$ -	$ 351,364

	Investments at Fair Value as of December 31, 2019			
	Level 1	Level 2	Level 3	Total
Mutual Funds	$ 44,087	$ -	$ -	$ 44,087

E. PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are mutual funds managed by Mid Atlantic Trust Company and Ascensus Trust Company ("Ascensus"). Mid Atlantic Trust Company and Ascensus are the Custodian and Trustee, respectively, as well as the recordkeepers for the Plan and, therefore, these transactions qualify as party-in-interest transactions.

Fees incurred by the Plan for the investment management services are included in the net appreciation (depreciation) in the fair value of investments, as they are paid through revenue-sharing, rather than a direct payment. The Plan Sponsor pays directly any other fees related to the Plan's operations.

F. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, Participants would become 100% vested in their employer contributions.

G. TAX STATUS

The Plan was adopted based upon a prototype plan sponsored by the Trustee and recordkeeper. The Trustee and recordkeeper received a determination letter from the Internal Revenue Service ("IRS") dated March 31, 2014, which states that the prototype document satisfies the applicable provisions of the Internal Revenue Code ("IRC"). Although the Plan has been amended since the Trustee and recordkeeper received the determination letter, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related Trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more like than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan was established in 2019, therefore all periods may be subject to income tax examinations.

H. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect Participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.
