NFO RESEARCH, INC. PENSION PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2020 AND 2019

1. DESCRIPTION OF THE PLAN

The following brief description of the NFO Research, Inc. Pension Plan (the “Plan”) is provided for general information only. Participants should refer to the Plan document for more complete information.

General

The Plan is a noncontributory defined benefit plan sponsored by Kantar LLC (the “Company”). The Plan covers all eligible employees who are not covered by a collective bargaining unit, and who are at least 21 years of age and have completed at least 1,000 hours of service in the 12 months preceding the participants’ anniversary date as of the end of the Plan year. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”). In 2004, the Plan was amended to freeze future participation and future benefit accruals, effective January 1, 2005. Effective January 1, 2015, the Plan was amended and restated in accordance with Internal Revenue Service (“IRS”) requirements for the continued favorable tax treatment of the Plan.

The administrative duties and responsibilities of the Plan are delegated to the Retirement Committee per the Plan document. Wells Fargo Bank, N.A. (“Wells Fargo”) was the trustee and record-keeper for the Plan until December 20, 2020. Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company (“Principal”), a member of the Principal Financial Group (“PFG”), is the Trustee and record-keeper effective December 21, 2020.

Funding Policy

The Plan’s funding policy is for the Company to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement as determined by the Plan’s actuary, Mercer Human Resource Consulting (“Mercer”).

Quarterly contributions were not required for the 2020 or 2019 Plan year due to the Plan’s funding status.

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

Vesting

A participant is 100% vested in their benefit upon attainment of Normal Retirement Age.

Benefits

The monthly benefit to a participant is calculated based on the accumulated accrued benefit as of December 31, 1988, under the terms of the Plan as of that date, actuarially adjusted to a life-only payment form, plus 1.5% of Compensation for each year of Credited Service over the period from January 1, 1989 through December 31, 2004. Effective January 1, 2005, pursuant to the 2004 Plan amendment, no further benefits shall accrue to participants.

Early Retirement

Early retirement can begin on or after age 55, with ten years of Credited Service. The accrued benefit is determined as of the date of termination of employment, reduced by 6.66% for each of the first five years commencement precedes age 65, and further reduced by 3.33% for each of the next five years commencement precedes age 60.

1. DESCRIPTION OF THE PLAN – (continued)

Benefits – (continued)

Normal Retirement

Normal retirement begins at age 65. The Plan offers an automatic benefit in the form of a single life annuity to unmarried participants, and a joint and 50% survivor annuity to married participants. A reduced benefit is available under optional forms of benefit including a joint and 66 2/3% survivor annuity, a joint and 100% survivor annuity, a 10-year certain and life annuity or a lump sum cash distribution. The Plan also provides for benefits to the beneficiaries of deceased participants as well as to permanently disabled participants.

Late Retirement

Late retirement begins for a participant who continues employment after the normal retirement date. The benefit is calculated as of the participant's normal retirement date, actuarially increased from normal retirement date to the participant's late retirement date.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates

The preparation of financial statements in accordance with GAAP, requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for a discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

2. SIGNIFICANT ACCOUNTING POLICIES – (continued)

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying Statements of Changes in Net Assets Available for Benefits. In addition, certain other investment related expenses are included in net appreciation (depreciation) in fair value of investments presented in the accompanying Statements of Changes in Net Assets Available for Benefits.

Subsequent Events

The Plan has evaluated subsequent events through December 21, 2021, the date the financial statements were available to be issued.

3. ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated Plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated Plan benefits include benefits expected to be paid to: (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are accumulated based on the participant's accrued benefit including each year's credited service amount as defined under the Plan. Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included, to the extent they are deemed attributable to employee service rendered to the valuation date. The actuarial present value of accumulated Plan benefits is determined by Mercer and is that amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuations as of January 1, 2020 and 2019 ("Valuation Dates") were: (a) Mortality tables were updated to Pri-2012 White Collar Generational table with future mortality improvements based on Scale MP-2019; (b) retirement age assumptions (varying retirement rates based on graduated scale of retirement ages from age 55 to age 65 and above). Retirement rates range from 5% to 15% through age 62, 10% for ages 63 and 64 then 100% thereafter; and (c) investment return. The 2020 and 2019 valuations included assumed average rates of return of 4.07% and 4.65%, respectively, to reflect updates in the capital market environment. Interest discounts and mortality rates were updated from 2019 to 2020 in accordance with sponsor elections under the Pension Protection Act. The expense component of normal cost increased from \$89,000 to \$183,000 to reflect expectations for the current Plan year. The foregoing actuarial assumptions are based on the presumption that the Plan will continue.

Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits. The computations of the actuarial present value of accumulated Plan benefits were made as of January 1, 2020 and 2019.

**NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2020 AND 2019**

4. ACCUMULATED PLAN BENEFITS AND CHANGES IN ACCUMULATED PLAN BENEFITS

Mercer, the actuary for the Plan, determined the actuarial present value of accumulated plan benefits.

The actuarially determined present value of accumulated plan benefits as of January 1, 2020 and 2019, are as follows:

	<u>2020</u>	<u>2019</u>
Vested benefits:		
Active participants	\$ 2,843,861	\$ 2,682,538
Inactive participants with deferred benefits	14,953,585	14,197,674
Inactive participants receiving benefits	<u>2,500,801</u>	<u>2,222,305</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 20,298,247</u>	<u>\$ 19,102,517</u>

The changes in the actuarial present value of the Plan's accumulated plan benefits for the valuation year ended January 1, 2020 are as follows:

Actuarial present value of accumulated plan benefits, as of January 1, 2019	<u>\$ 19,102,517</u>
Increase (decrease) during the year attributable to:	
Benefits accumulated and losses	(550,478)
Increase for interest due to the decrease in the discount period	872,719
Change in actuarial assumptions	1,490,776
Benefits paid	<u>(617,287)</u>
Net increase	<u>1,195,730</u>
Actuarial present value of accumulated plan benefits, as of January 1, 2020	<u>\$ 20,298,247</u>

5. PLAN TERMINATION

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Benefits attributable to employee contributions, taking into account those paid out before termination.

5. PLAN TERMINATION – (continued)

2. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of an annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
3. Other vested benefits insured by the Pension Benefit Guaranty Corporation ("PBGC", a U.S. government agency), up to the applicable limitations.
4. All other vested benefits (that is, vested benefits not insured by the PBGC).
5. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

6. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows: Level 1 inputs consist of unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access; Level 2 inputs include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability, or inputs that are derived principally from, or corroborated by, observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability. Level 3 inputs are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

6. FAIR VALUE MEASUREMENTS – (continued)

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020 and 2019.

Mutual Funds

Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (“NAV”) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Principal Global Investors Money Market Separate Account and the Wells Fargo/BlackRock Short-Term Investment Fund

The 2020 investment in the Principal Global Investors Money Market Separate Account (“PGISA”) is offered through a group annuity contract with the Principal Life Insurance Company (“PLIC”), a member of PFG and is valued at the NAV or equivalent based on units of the pooled separate accounts. The 2019 investment in the Wells Fargo/Blackrock Short-Term Investment Fund (“WFSTIF”) is composed of high-quality, short-term instruments of domestic and foreign issuers that are valued at the NAV of the bank collective fund. This practical expedient would not be used if it is determined to be probable that the fund or the separate account will sell the investment for an amount different from the reported NAV. Participant transactions (purchases and sales) may occur daily.

The following table sets forth by level, within the fair value hierarchy, the Plan’s investments at fair value as of December 31, 2020 and 2019.

	Investments at Fair Value as of December 31,			
	2020		2019

6. FAIR VALUE MEASUREMENTS – (continued)

Investments Measured at Fair Value Using the Practical Expedient

The following table summarizes investments for which fair value is measured using the NAV per share practical expedient for the PGISA and WFSTIF as of December 31, 2020 and 2019, respectively. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

<u>As of December 31, 2020</u>				
	<u>Fair Value</u>	<u>Unfunded Commitments</u>	<u>Redemption Frequency (If Currently Eligible)</u>	<u>Redemption Notice Period</u>
PGISA	\$544,743	Not applicable	Daily	Not applicable

WFSTIF	\$299,828	Not applicable	Daily	Not applicable

7. MODULAR GROUP ANNUITY CONTRACT WITH INSURANCE COMPANY

In 2020, the Plan entered into a Modular Group Annuity Contract with PLIC. PLIC maintains the contributions in a separate account. The Separate Account consists of funds PLIC receives under group annuity contracts or policies which permit deposit in the Plan's Separate Account. All income gains and losses (whether or not realized), and expenses from the assets allocated to a Separate Account will be credited to or charged against that Separate Account. PLIC may invest the assets of any Separate Account in short-term money market instruments, cash, or cash equivalents in order to provide liquidity or while awaiting investment or reinvestment.

The investment return based on total assets invested for this modular group annuity contract from December 22, 2020, to December 31, 2020 was 0.65%.

8. RELATED-PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are managed by PFG and Wells Fargo. As described in Note 2, the Plan paid certain other expenses related to investment activity and Plan operations to service providers. These transactions qualify as permitted party-in-interest transactions, which are exempt from the prohibited transaction rules of ERISA.

9. TAX STATUS

The Plan obtained its latest determination letter on April 13, 2017, in which the IRS states that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). The Plan Administrator believes that the Plan is currently designed and is being operated in compliance with the applicable requirements of the IRC.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2017.

10. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

Plan contributions are made, and the actuarial present value of accumulated Plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

11. UNAUDITED INFORMATION CERTIFIED BY THE TRUSTEE

The December 31, 2020 and 2019 Statements of Net Assets Available for Benefits, the investment activities included on the Statements of Changes in Net Assets Available for Benefits for the years ended December 31, 2020 and 2019, and the accompanying notes to the financial statements were prepared in part or entirely from information certified by the trustee in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The information certified includes total investments of \$19,519,150 and \$18,580,495 at December 31, 2020 and 2019, respectively, and related net investment income of \$2,093,248 and \$2,192,694, respectively, for the years then ended.

12. COVID-19

In March 2020, the World Health Organization declared COVID-19 a pandemic. The COVID-19 pandemic has resulted in economic uncertainty and extreme volatility in financial markets and may continue to affect the value of Plan assets. The duration and impact of COVID-19 continues to evolve, and at this time, the Plan is not able to estimate the full impact on these financial statements.

**NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2020 AND 2019**

13. NEW AUDITING STANDARDS

The AICPA Auditing Standards Board ("ASB") issued Statements on Auditing Standards ("SAS") Nos. 136-140 during 2019 and 2020. These interrelated standards affect the auditor reporting model and disclosures in the audit of financial statements and should be implemented concurrently. *SAS No. 141, Amendment to the Effective Dates of SAS Nos. 134-140* issued in May 2020 delayed the effective dates of SAS No. 134-140 for years beginning after December 15, 2020, to December 15, 2021, in light of the effect of the COVID-19 pandemic. Plan Management will implement these standards in accordance with the extended effective date.

• First 5 years	3.64%	2.79%

Rationale: Per IRS requirements		
Mortality sponsor elections		
• Healthy participants	Section 430(h)(3) prescribed separate static annuitant and non-annuitant mortality tables. These tables are based on the RP-2014 mortality tables backed off to 2006 and then projected with mortality improvements using Scale MP-2018 in accordance with IRS regulation 1.430(h)(3)-1.	
• Pre-1995 disabilities	Same as healthy	
• Post-1994 disabilities	Same as healthy	
Rationale: Per IRS requirements		
• 417(e) lump sums	Liabilities are determined based on the underlying annuity used by the plan to determine the lump sum amount, rather than valuing the lump sum amount. This amount is valued based on funding interest rates and current year unisex 417 (e) rates.	
Other economic assumptions		
• Salary increases	N/A – Plan is frozen	
• Flat-dollar benefit increases	N/A	
• Social Security taxable wage base increases	N/A	
• Inflation	N/A	
• Expected investment return	4.77% per year for 2018 and 4.65% per year for 2019.	
• Expenses	\$183,000 added to current year normal cost	

Rationale for economic assumptions

- Expected investment return – The expected rate of return on plan assets is based on the median simulated investment return using capital market assumptions published in Mercer Investment Consulting's Capital Markets Outlook for the plan's current target asset mix, net of an adjustment of 20 bps for expenses assumed to be paid from plan assets
- Expenses – Based on prior year administrative expenses adjusted to reflect expected PBGC premiums.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Rationale for demographic assumptions**

- **Withdrawal/Retirement age/Benefit Commencement age** – These are historical assumptions whose reasonableness are evaluated each year as part of the valuation process by determining whether consistent gains or losses occur each year. These assumptions have been used historically and do not produce large gains/losses.
- **Spouse assumptions** – The assumptions regarding percent married/spouse age difference at benefit commencement age are based on the actuary's experience with many plans and discussions with employer representatives
- **Form of payment** – The assumed form of payment rates was developed based on the results of an experience study undertaken in 2012, using data from 2009 through 2012, and the expectation that future form of payment patterns will not differ significantly from the period studied.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Actuarial methods for funding****Asset methods**

The asset valuation method is an average of the adjusted market value over the last 24 months preceding the valuation date using annual determination dates. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for non-vested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

Minimum funding methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Schedule SB, Part V — Summary of Plan Provisions**Benefits included or excluded**

Unless noted below, all benefits provided by the plan, as restated effective January 1, 2010, and amended effective December 3, 2015, are included in this valuation.

- **Plan amendments excluded:** None
- **Late retirement increases:**
 - *Active participants:* The plan applies late retirement actuarial increases for all participants who defer retirement beyond their normal retirement date and this valuation includes those increases.
 - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.

Plan provision changes since prior valuation

Maximum compensation amounts and maximum benefit amounts under IRS rules were updated from 2019 to 2020.
