Note 1 - Description of Plan

The following description of the Idea Nuova, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan document or summary plan description for a more complete description of the Plan's provisions, which are available from the plan administrator.

General

The Plan is a qualified defined contribution plan covering all eligible employees of Idea Nuova, Inc. and certain of its affiliates (the "Company"), except for certain members of a collective bargaining unit and nonresident aliens with no U.S. source income, who have attained the age of twenty-one and have completed one year of service consisting of at least 1,000 hours during the twelve-month period. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

On March 27, 2020, President Trump signed into law the Coronavirus Aid, Relief, and Economic Security ("CARES") Act. The CARES Act, among other things, includes several relief provisions available to tax-qualified retirement plans and their participants. Plan management has evaluated the relief provisions available to plan participants under the CARES Act and has implemented the following provisions:

- Special coronavirus distributions up to $100,000
- Increased the available loan amount as described in Note 1 to the lesser of $100,000 or 100% of the participant's vested account balance
- Extended the period for loan repayments, if applicable, up to one year
- Required minimum distributions for the calendar year 2020 have been temporarily waived

The Plan will be amended for the provisions implemented under the CARES Act by the time prescribed.

Note 1 - Description of Plan (Continued)

Participant Contributions

Each participant of the Plan can elect to contribute up to 100% of pre-tax eligible annual compensation provided such amount will not cause the Plan to exceed certain limitations prescribed by the Internal Revenue Code ("IRC"). Additionally, participants age fifty or older who are making contributions to the Plan are allowed to make catch-up contributions as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

Employer Contributions

The Company has elected the Safe Harbor Matching provisions permitted under the Pension Protection Act of 2006. The Company matches 100% of the amount of the participant's elective deferrals that do not exceed 3% of the participant's compensation for the plan year, plus 50% of the amount of the participant's elective deferrals that exceed 3% of the participant's compensation but do not exceed 5% of the participant's compensation. In addition, the Company may, at its discretion, make a non-elective and matching contribution for the plan year not to exceed certain limitations prescribed by the IRC. The Company did not make any discretionary non-elective or matching contributions for the plan year ended December 31, 2020.

Participant Investment Account Options

Upon enrollment in the Plan, a participant may direct their elective and employer contributions into various investment options offered by the Plan. The Plan currently offers various pooled separate investment accounts and one guaranteed interest account as investment options for participants. Participants may change their investment options daily.

Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's contributions, plan earnings, and a charge for plan expenses. The expenses, if any, are allocated based on account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note 1 - Description of Plan (Continued)

Vesting

Participants are immediately vested in their voluntary contributions and rollover accounts and the employer's Safe Harbor Matching contributions plus actual earnings thereon. Vesting in the Company's discretionary non-elective and matching contributions is based on years of continuous service. A participant is 100% vested after six years of credited service according to the following schedule:

After Years of Service	Vested Interest
1	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Notes Receivable from Participants

Participants may borrow from their vested accrued benefits up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The minimum loan amount is $1,000 and the maximum number of loans outstanding per participant at any one time is one. The loans are secured by the balance in the participant's account and bear interest at the prime rate plus 1.00% as of the date of the loan unless otherwise determined by the plan administrator. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

In the event of a participant's retirement, the participant or their beneficiary shall be entitled to receive the participant's entire accrued benefit as a lump-sum payment upon request. On termination of service for any other reason, a participant shall receive a lump-sum amount equal to the value of the participant's vested interest in his or her account if the vested interest is $5,000 or less.

Note 1 - Description of Plan (Continued)

Forfeitures

At December 31, 2020 and 2019, forfeited non-vested accounts totaled $57,333 and $57,175, respectively. These accounts may be used to restore eligible participant accounts, to reduce future employer contributions or to pay administrative expenses.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2020 and 2019.

Payment of Benefits

Benefits are recorded when paid.

Note 2 - Summary of Significant Accounting Policies (Continued)

Administrative Expenses

Certain expenses of the Plan are paid by the Company and are not included in the statement of changes in net assets available for benefits. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statement of changes in net assets available for benefits. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are included in net appreciation in fair value of investments.

New Accounting Pronouncement

In August 2018, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2018-13, *Fair Value Measurement - Disclosure Framework (Topic 820)*. The updated guidance improves the disclosure requirements on fair value measurements. The updated guidance is effective for fiscal years beginning after December 15, 2019. Early adoption is permitted for any removed or modified disclosures. The adoption of ASU 2018-13 did not have a material impact on the Plan's financial statements.

Note 3 - Information Prepared and Certified by the Custodian

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Voya Retirement Insurance and Annuity Company ("Voya"), the custodian of the Plan, has certified that the following data included in the accompanying financial statements and supplemental schedules is complete and accurate:

- Investments at fair value
- Net appreciation in fair value of investments
- Interest income on guaranteed interest account
- Schedule of assets (held at end of year)

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

Note 4 - Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB Accounting Standards Codification ("ASC") 820, *Fair Value Measurement*, are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in inactive markets; inputs other than quoted market prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020 and 2019.

Pooled separate accounts: Valued at the net asset value ("NAV") of units of the separate account. The NAV, as provided by the custodian, is used as a practical expedient to estimate fair value. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the separate account, the investment advisor reserves the right to temporarily delay withdrawal from the account in order to ensure that securities liquidations will be carried out in an orderly business manner. Additionally, there are no unfunded commitments.

Note 4 - Fair Value Measurements (Continued)

Guaranteed interest account: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer. The guaranteed interest account promises contract value for a benefit event (termination, death, disability and retirement); however, there is a possible market value adjustment when funds are withdrawn prior to maturity. Therefore, the guaranteed interest account is not considered benefit-responsive and is valued at estimated fair value as determined by Voya. The crediting interest rate was 1% for the year ended December 31, 2020. For the year ended December 31, 2020, the average net return for the guaranteed interest account was 1%.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2020 and 2019:

	Investments at Fair Value as of December 31, 2020			
	Level 1	Level 2	Level 3	Total
Assets in the fair value hierarchy:				
Guaranteed interest account	$ -	$ 679,681	$ -	$ 679,681
Investments measured at NAV practical expedient[(a)]				6,869,748
Total investments at fair value				$ 7,549,429

	Investments at Fair Value as of December 31, 2019			
	Level 1	Level 2	Level 3	Total
Assets in the fair value hierarchy:				
Guaranteed interest account	$ -	$ 183,739	$ -	$ 183,739
Investments measured at NAV practical expedient[(a)]				6,266,145
Total investments at fair value				$ 6,449,884

(a) In accordance with FASB ASC Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) using the practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

Note 5 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

Note 6 - Tax Status

The Plan has adopted a volume submitter plan which has received a letter dated March 31, 2014 from the Internal Revenue Service ("IRS") that the volume submitter plan, as then designed, was in compliance with the applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 7 - Related Party and Party-in-Interest Transactions

Certain plan investments are units of pooled separate accounts and a guaranteed interest account managed by Voya. Voya is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for investment management services are included in net appreciation in fair value of investments, as they are paid through revenue sharing, rather than a direct payment. The Plan paid certain expenses related to the Plan's operations and investment activity to various service providers. These transactions are party-in-interest transactions. The plan sponsor pays directly any other fees related to the Plan's operations.

Note 8 - Nonparticipant-Directed Investments

Information about the net assets and the significant components of the changes in net assets relating to the nonparticipant-directed investments is as follows:

	December 31, 2020	December 31, 2019
Net assets:		
Voya Gv Mny Mkt F A	$ 57,333	$ 57,175

	Year Ended December 31, 2020
Changes in net assets:	
Investment income	$ 158

Note 9 - Delinquent Participant Contributions

Defined contribution plans are required to remit employee contributions to the plan as soon as they can be reasonably segregated from the employer's general assets. For the year ended December 31, 2020, $45,106 of participant contributions and loan repayments was not remitted within the required time period. The Company has remitted approximately $31,000 of these delinquent employee contributions during the year ended December 31, 2020, with the remaining balance remitted in 2021.

Note 10 - Risks, Uncertainties and Concentrations

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities, it is possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported herein the statements of net assets available for benefits.

At December 31, 2020 and 2019, approximately 29% and 28%, respectively, of the Plan's investments were invested in the Vangrd Trgt Retire 2020 Fd Inv pooled separate account.

On January 30, 2020, the World Health Organization ("WHO") announced a global health emergency because of the coronavirus (the "COVID-19 outbreak") creating risks to the international community as the virus spread globally. On March 11, 2020, the WHO classified the COVID-19 outbreak as a pandemic, based on the rapid increase in exposure globally.

The full impact of the COVID-19 outbreak continues to evolve as of the date of this report. The pandemic has adversely affected global economic activity and greatly contributed to significant instability in financial markets. As a result, there has been a heightened market risk and the Plan's investment portfolio has experienced significant volatility in fair value in response to changing market conditions, which has been reflected within net appreciation in fair value of investments reported in the statement of changes in net assets available for benefits. Plan management will continue to monitor the impact COVID-19 has on the Plan and will reflect the results as appropriate in the Plan's financial records.

Note 11 - Subsequent Events

The Plan has evaluated subsequent events through February 14, 2022, which is the date the financial statements were available to be issued. No significant matters were identified for disclosure during this evaluation.
