The Company is the Plan administrator and retains the services of third parties to assist in the administration of the Plan. The Plan's third party administrator is Alliance Benefit Group – Rocky Mountain (ABG) and the Plan's custodian is Fidelity Personal Trust Company (Fidelity).

Employee Contributions

Participants elect to have amounts withheld from their paychecks and contributed to the Plan by the Company. Participants who have attained age 50 before the end of the Plan year are eligible to make catch up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollovers). The Plan includes an automatic enrollment provision whereby newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rates set initially at 4% of eligible compensation. Additionally, the Plan has an escalation clause that increases automatically enrolled participants' deferrals annually by 2% until a deferral rate of 12% is reached unless they affirmatively elect not to participate.

Note 1: Description of Plan (Continued)

Employer Contributions

The Plan provides for discretionary employer matching contributions and profit sharing contributions to be determined by the employer. The Company has the right to discontinue and reinstate the discretionary employer matching and profit sharing contributions. Such discretionary Company contributions are allocated to each participant who is eligible for the Plan, is employed on the last day of the Plan year, and completed 1,000 hours during the Plan year. The Company made discretionary matching contributions of $1,259,479 and made discretionary profit sharing contributions of $1,309,289 for the year ending September 30, 2021.

Participant Accounts

Each participant's account is credited with the participant's own contributions, an allocation of the Company's contributions, and an allocation of net earnings from investments and changes in investment values. Allocations are based on each participant's contributions, earnings, or account balances, as defined by the Plan agreement. The benefit to which a participant is entitled is limited to the benefit that can be provided from the participant's account. Participants select the investments into which their contributions are invested.

Vesting

Participants are always fully vested in their own contributions. Participants vest in Company contributions at the rate of 20% for each year of service until fully vested, beginning after one year of credited service. Participants are fully vested in Company contributions after five years of credited service.

Forfeitures

Contributions by the Company that are forfeited by participants upon termination may be used by the Company to pay Plan administrative expenses or may be allocated to the remaining participants in the Plan. Forfeitures remaining in the Plan as of September 30, 2021 and 2020 were $21,764 and $31,213 respectively. For the year ended September 30, 2021 approximately $61,979 of forfeitures were used to pay administrative expenses.

Payment of Benefits

Upon termination of employment due to retirement, death, disability or separation from service, the balances in the participants' accounts will be immediately distributed to the participants or to their beneficiaries in a lump sum if the participant's balance is less than $5,000. Participants with balances greater than $5,000 may either elect to take a lump sum distribution or rollover their balance to a qualifying plan or IRA.

Note 1: Description of Plan (Continued)

Administrative Expenses

The Organization, as Plan sponsor, pays certain administrative expenses on behalf of the Plan. Participants' accounts are adjusted for fees pertaining to termination processing, and are charged for expenses incurred by the custodian in the performance of their duties.

Notes Receivable from Participants

Loans to participants consist of promissory notes received from participants in exchange for the distribution of cash from the Plan. A participant is allowed to borrow a minimum of $1,000, up to one half of the vested balance of their Plan account, up to a maximum of $50,000. Loans must be repaid over no more than a five-year period with the exception of a loan for the participants' principal residence that may have a repayment period beyond five years. Principal and interest is paid ratably through payroll deductions. Loans to participants are stated at the principal amount outstanding, which approximates fair value.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition

Investments are stated at fair value as certified by the Plan's custodian. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Use of Estimates

In preparing the financial statements in accordance with accounting principles generally accepted in the United States of America, management makes estimates and assumptions which affect the reported amounts of net assets available for benefits at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Subsequent Events

In preparing the accompanying financial statements, management has considered events that have occurred after September 30, 2021, through January 25, 2022, the date these financial statements were available for issuance.

Note 2: Summary of Significant Accounting Policies (Continued)

COVID-19

In March 2020, the World Health Organization declared COVID-19 a pandemic. The COVID-19 pandemic and resulting global disruptions have caused significant economic uncertainty and volatility in financial markets. The potential economic impact to the Plan and its sponsor is difficult to assess and will depend upon future developments that cannot be reasonably predicted.

Note 3: Information Certified by the Custodian (Unaudited)

Certain information contained in the accompanying financial statements and supplemental schedule that was certified by the Fidelity as to completeness and accuracy includes:

- Details (cost, market, and contract value) and summaries of investments held at September 30, 2021 and 2020.

- Summaries of investment income and transactions for the year ended September 30, 2021

Note 4: Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC Topic 820 are described as follows:

Level 1) Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2) Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3) Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Note 4: Fair Value Measurements (Continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at September 30, 2021 and 2020.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective investment funds: Investments in collective investment funds are valued at the NAV of the units of the collective investment fund. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the account less its liabilities.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of September 30, 2021and 2020:

	2021			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 13,018,883	-	-	13,018,883
Total assets in the fair value hierarchy	13,018,883	-	-	13,018,883
Investments measured at NAV (practical expediant)				42,382,083
Investments at fair value				$ 55,400,966

Note 4: Fair Value Measurements (Continued)

	2020			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 9,391,263	-	-	9,391,263
Total assets in the fair value hierarchy	9,391,263	-	-	9,391,263
Investments measured at NAV (practical expediant)				33,583,268
Investments at fair value				$ 42,974,531

Note 5: Plan Termination

Although it has not expressed any intent to do so, the Plan sponsor reserves the right to terminate the Plan at any time. In the event of Plan termination, all accounts become fully vested and non-forfeitable. Plan assets would first be used to pay any expenses properly charged to the Plan. The remainder would then be distributed to participants in a lump sum.

Note 6: Tax Status

The Plan Sponsor adopted a Volume Submitter Profit Sharing Plan (VSPS Plan) with CODA sponsored by a third party trust company. The Internal Revenue Service (IRS) has determined and informed the VSPS Plan sponsor by a favorable opinion letter dated March 31, 2014, that the VSPS Plan is designed in accordance with the applicable sections of the IRC. The VSPS Plan's opinion letter is being relied on by the Plan.

Plan management believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified and the related trust is tax-exempt.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognizes tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 7: Party-In-Interest Transactions

Certain Plan investments are managed by Fidelity. Fidelity is the custodian as defined by the Plan. Additionally, the Plan held investments in funds managed by ABG, the Plan's third party administrator. These transactions qualify as party-in-interest transactions.

Note 8: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
