1. DESCRIPTION OF PLAN

General

The following description of the Codecademy 401(k) Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

The Plan is a 401(k)-profit sharing plan, established by Ryzac, Inc. (the “Company” or “Plan Sponsor”) on January 1, 2017 in accordance with the provisions of Internal Revenue Code (“IRC”) Section 401. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Eligibility

An employee of the Company becomes an eligible participant in the Plan upon reaching the age of 21 and completing 1,000 hours of eligible service, unless covered by a collective bargaining agreement that does not provide for participation in the Plan or is a non-resident alien who received no earned income that constitutes income from services performed within the United States.

Contributions

Participant

Each year, participants may contribute up to 100% of their pre-tax and post-tax annual compensation not to exceed the maximum amount allowed under current tax law, as defined in the Plan. Participants who have attained the age of 50 before the end of the Plan year may contribute in 2020 up to an additional \$6,500 as catch-up contributions. In addition, a participant may rollover amounts from other qualified plans.

Employer

The Company may make profit sharing contributions at the discretion of the Company for qualifying employees who are employed on the last day of the Plan year and have completed at least 1,000 hours of service during the Plan year. In addition, the Company may make additional qualified non-elective contributions at the discretion of the Company.

Participant Accounts

Each participant’s account is credited with the participant’s contributions, Company contributions, the Plan’s earnings (losses), participant withdrawals and administrative expenses, if applicable. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Vesting

Participants are immediately vested in their contributions, plus actual earnings thereon, as well as Company profit sharing contributions and qualified non-elective contributions.

Investment Options

Each participant directs participant and employer contributions to any of the investment options offered by the Plan. Participants may change their investment elections amongst these options at any time.

Payment of Benefits

Upon termination of employment, retirement, disability, or death, if a participant’s vested account balance does not exceed \$1,000, participants will receive their vested account balances in a single lump sum payment. If the amount of the distribution is more than \$1,000, the participant must consent to the timing and form of payment. The Plan permits normal withdrawals of the participant’s vested account balance beginning at age 65, with provisions for early withdrawal after attaining age 59½, and for certain “hardships” prior to that.

Codecademy 401(k) Plan
Notes to Financial Statements
December 31, 2020 (Audited) and 2019 (Unaudited)

Notes Receivable From Participants

Participants may obtain loans based upon their vested account balances. The minimum loan permitted is \$1,000 and the maximum is the lesser of 50% of the participant's vested account balance or \$50,000, reduced by the highest outstanding balance of loans in the past 12 months. Interest on such loans is determined by the Plan administrator at the time loans are initiated and are repayable in substantially equal installments over a term of up to five years.

Administrative Expenses

The Plan is responsible for management fees relating to the investments which reduce investment returns, and fees related to loan processing and distributions. Substantially all other fees related to the Plan for administration, legal, audit, and other sources are paid by the Employer.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan at any time, subject to the provisions of ERISA. If the Plan were to terminate, participants are entitled to their entire account balance.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements of the Plan have been prepared in compliance with the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates

The preparation of financial statements in conformity with GAAP requires the Company to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein at the date of the financial statements and disclosures of contingent assets and liabilities. Actual results could differ from these estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's trustee determines the Plan's valuation policies utilizing information provided by the investment advisers, trustee, and insurance company. See Note 4 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis and dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the Plan year.

Payment of Benefits

Benefit payments are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Administrative expenses include certain recordkeeping fees paid by the Plan. Investment related expenses are included in net appreciation of fair value of investments.

3. INVESTMENTS AND INFORMATION PROVIDED AND CERTIFIED BY CUSTODIANS (UNAUDITED)

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the custodians of the Plan have certified the completeness and accuracy of all investments and related investment activity in the accompanying financial statements and supplemental schedule. No auditing procedures were performed with respect to the information certified by the trustees as complete and accurate.

4. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board ("FASB") guidance relating to fair value measurements establishes a framework for measuring fair value and clarifies that fair value is an estimate of the exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants (i.e., the exit price at the measurement date). That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurement). The three levels of the fair value hierarchy are described below:

Level 1 – Quoted prices in active markets for identical assets or liabilities.

Level 2 – Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 – Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodology used for assets measured at fair value:

Shares of Registered Investment Companies (mutual funds): Valued at the daily closing price on a national stock exchange, which may or may not be the same as the NAV of the shares. The funds held by the Plan are registered with the Securities and Exchange Commission and are deemed to be actively traded.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Notes to Financial Statements
December 31, 2020 (Audited) and 2019 (Unaudited)

The following tables sets forth by level, within the fair value hierarchy, the Plan's assets and investment categories at fair value as of December 31, 2020 and 2019:

2020				
	Level 1	Level 2	Level 3	Total
Investments at fair value				
Shares of registered investment companies (mutual funds)	\$ 3,169,287	\$ -	\$ -	\$ 3,169,287
2019				
	Level 1	Level 2	Level 3	Total
Investments at fair value				
Shares of registered investment companies (mutual funds)	\$ 1,826,141	\$ -	\$ -	\$ 1,826,141

5. PARTIES-IN-INTEREST TRANSACTIONS

The Plan's assets, including investments and notes receivable, if any were held by the Plan's trustees. Transactions involving these custodians are transactions with a party-in-interest. The Plan paid administrative fees of \$14,808. In addition, there are transaction fees charged by the custodians that are absorbed in investment income that are not readily determinable.

6. INCOME TAX STATUS

The Plan Sponsor adopted a defined contribution volume submitter plan with CODA. The Internal Revenue Service ("IRS") determined and informed the company by advisory letter, dated March 31, 2014, that the Plan is acceptable under applicable sections of the IRC. The Plan Sponsor relies on the advisory letter and the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan Sponsor believes the Plan is currently operated in compliance with applicable requirements of the IRC and, therefore, believes the Plan is qualified and the related trust is exempt from federal income taxes as of the financial statement date.

Plan management has evaluated tax positions taken by the Plan and recognizes a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2020 and 2019, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. Furthermore, there are no tax related interest or penalties for the periods presented in these financial statements.

7. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

The 2019 novel coronavirus (or "COVID-19") has adversely affected, and may continue to adversely affect economic activity globally, nationally, and locally. Following the COVID-19 outbreak in March 2020, the financial markets have experienced significant volatility, therefore affecting the values of investment securities.
