1. PLAN DESCRIPTION

General

The following description of the CWB Holdings, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Summary Plan Description for a more complete description of the Plan's provisions, a copy of which is available from CWB Holdings, Inc. (the Company or Employer). The Plan is a defined contribution plan and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Administration

The plan administrator is responsible for oversight of the Plan and determining the appropriateness of the Plan's investment offerings and monitoring investment performance. T. Rowe Price serves as the Plan's recordkeeper and asset custodian.

Eligibility

Employees are eligible to make elective salary deferral contributions after three consecutive months of employment, as defined in the Plan. Employees who were employed on January 1, 2018, the effective date of the Plan, became eligible to participate in the Plan immediately as of that date. Eligibility for Employer safe-harbor matching is the same as for employee elective salary deferrals. An employee is eligible for Employer discretionary profit-sharing contributions after completing 1,000 hours of service and must be employed by the Company on the last day of the Plan year. Employees may enter the Plan on the first day of the Plan month coinciding with or following the date they satisfy the Plan's eligibility requirements.

Contributions

Participants may contribute up to 100% of their eligible compensation as pre-tax 401(k) deferrals or Roth 401(k) deferrals subject to certain limits prescribed by law. Employees are automatically enrolled at a 3% deferral rate upon becoming eligible to participate in the Plan and may elect to change or discontinue deferrals at any time. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute rollover amounts, representing distributions from other qualified plans.

The Company contributes a safe-harbor match of 100% of the first 3% of the participant's elective deferral, and 50% of each additional percentage not to exceed 5% of the participant's compensation, as defined by the Plan. The Plan allows for the Company to make discretionary profit-sharing contributions. There were no discretionary profit sharing contributions for the year ended December 31, 2020.

Participant Accounts

Each participant's account is credited with the participant's and Company's contributions and an allocation of plan earnings or losses and charged with an allocation of administrative expenses. Allocations are based on participant earnings, account balances, or specifically identified participant transactions, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Each participant directs the investment of his or her account to any of the investment options available under the Plan.

1. PLAN DESCRIPTION (Continued)

Vesting

Participants are immediately vested in their contributions and the Company's safe-harbor matching contributions, plus actual earnings thereon. A participant's portion of the Company's profit-sharing contributions and related investment income vests according to the following schedule:

Full years of service:	Vested Percentage
Less than two years	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 or more years	100%

Benefit Payments

Upon termination from active service, if a participant's vested account balance is more than $1,000 but does not exceed $5,000, unless the participant makes a timely election to roll over the vested account to an Individual Retirement Account (IRA) or another eligible retirement plan, or elects to have the vested account balance distributed, the vested account balance will be transferred to an IRA established in the participant's name. If a participant's vested account balance does not exceed $1,000, the balance will be distributed to the participant in cash.

If a participant's vested account balance exceeds $5,000 upon termination from active service, the participant may defer his/her distribution election under the Plan. He/she may also elect to rollover the vested account balance to an IRA or another qualified retirement plan or elect a distribution in the form of a lump sum payment. Distributions may be made at the participant's election prior to termination upon attainment of age 59½, or hardship, as defined by the Plan.

A participant is entitled to 100% of his or her account balance upon retirement, death or disability.

Forfeitures

Forfeitures represent the nonvested Employer's discretionary contribution portion of a participant's account who terminates employment prior to becoming fully vested under the Plan's vesting schedule. Participant forfeitures may be used to reduce future Employer contributions or to pay administrative expenses of the Plan. At December 31, 2020 and 2019, forfeited nonvested accounts were not material. Forfeitures used during the 2020 plan year to reduce Employer contributions or pay administrative expenses of the Plan were not material.

1. PLAN DESCRIPTION (Continued)

Participant Loans

Participants may borrow from their accounts a minimum of $1,000, up to the lesser of $50,000 less the participant's highest outstanding loan balance during the preceding 12 months or 50% of their vested account balance, reduced by any outstanding loan balance on the date the new loan is made. The rate of interest on the notes is determined, based on rates available for similar loans from commercial lending institutions. The loan repayment term shall be for a period not to exceed five years and is secured by the portion of the participant's accounts from which the loan is made. Principal and interest are paid through payroll deductions. Participating employees may have a maximum of one loan outstanding at any time.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Should the Plan terminate, participant accounts would become 100% vested and disbursed to participants in accordance with the Plan's provisions.

Administrative Expenses

Certain administrative fees are paid by the Plan and are reflected in the financial statements as administrative expenses of the Plan. Investment management fees are charged to the Plan as a reduction of investment return and included in net appreciation in fair value of investments reported by the Plan. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. All other expenses of the Plan are paid by the Company.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements of the Plan have been prepared under the accrual basis of accounting in accordance with accounting principles generally accepted in the United States (U.S. GAAP). Benefit payments are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes and supplemental schedules. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price).

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

of investments includes realized gains and losses on investments bought, sold, and held during the year.

Notes Receivable from Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2020 or 2019. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

Risks and Uncertainties

The Plan provides for investments in various investment securities which, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits and participant account balances.

3. FAIR VALUE MEASUREMENTS

The fair value framework establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below.

- Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets or liabilities.

- Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:

  - Quoted prices for similar assets and liabilities in active markets

  - Quoted prices for identical or similar assets or liabilities in markets that are not active

  - Observable inputs other than quoted prices that are used in the valuation of the assets or liabilities (i.e., interest rate and yield curve quotes at commonly quoted intervals)

  - Inputs that are derived principally from or corroborated by observable market data by correlation or other means

- Level 3 – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumption about the

assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level of input that is significant to the fair value measurement in its entirety.

The following is a description of the valuation techniques and inputs used for each general type of asset measured at fair value.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded and are classified within Level 1 of the valuation hierarchy.

Common collective trust fund: Valued at the NAV of units held by the Plan. The NAV, as provided by the issuer, is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth, by fair value hierarchy level, the Plan's assets at fair value:

	Assets at Fair Value December 31, 2020			
	Level 1	Level 2	Level 3	Total
Mutual Funds	$5,299,960	$ —	$ —	$ 5,299,960
Investments measured at NAV[(a)]				$ 18,120
Total investments				$ 5,318,080

	Assets at Fair Value December 31, 2019			
	Level 1	Level 2	Level 3	Total
Mutual Funds	$2,386,473	$ —	$ —	$ 2,386,473
Investments measured at NAV[(a)]				$ 1,793
Total investments				$ 2,388,266

[(a)]This is a common collective trust fund. The objective of the fund is to maximize current income consistent with maintaining principal. Participant-directed redemptions have no restrictions; however, the Plan can be required, in certain instances, to provide a 12-month redemption notice to liquidate its entire share in the fund.

4. INCOME TAX STATUS

The underlying prototype plan has received an opinion letter from the Internal Revenue Service (IRS) dated March 31, 2014, stating that the written form of the underlying prototype document is qualified under Section 401 of the Internal Revenue Code (IRC). Any employer adopting this form of the plan will be considered to have a plan qualified under Section 401 of the IRC, and, therefore, the related trust is tax-exempt. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualified status. The plan administrator has indicated it will take the necessary steps, if any, to bring the Plan's operations into compliance with the IRC.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan and has concluded that there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

5. RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under DOL regulations as any fiduciary of the Plan, any party rendering service to the Plan, the Employer, and certain others. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Some administrative expenses of the Plan are paid directly by the Company.

Certain Plan investments are managed by T. Rowe Price. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transactions rules under ERISA.

6. SUBSEQUENT EVENTS

On January 1, 2021, the Plan was amended such that employees are no longer automatically enrolled at a 3% deferral rate upon becoming eligible to participate in the Plan. Further, the amendment to the Plan also modified the Company's safe-harbor match to a discretionary match with a one year cliff vesting based on years of service.

On January 13, 2021, Reliance Trust was appointed the discretionary trustee of the Plan.

The Company has evaluated subsequent events through _____, 2022, which is the date the accompanying financial statements were available to be issued.
