Hiram College Retirement Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Hiram College Retirement Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2020 and 2019, the related statement of changes in net assets available for benefits for the year ended December 31, 2020, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matters described in the Basis for Disclaimer of Opinion paragraphs, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified or provided by Teachers Insurance and Annuity Association (TIAA) and College Retirement Equities Fund (CREF), the custodians for certain investments of the Plan, except for comparing this information with the related information included in the financial statements. We have been informed by the Plan Administrator that TIAA and CREF hold the Plan's assets and execute transactions. The Plan Administrator has obtained certifications from TIAA and CREF as of December 31, 2020 and 2019, and for the year ended December 31, 2020, that the information provided to the Plan Administrator by TIAA and CREF is complete and accurate.

In addition, the Plan has not maintained sufficient accounting records and supporting documents relating to certain annuity and custodial accounts issued to current and former employees prior to January 1, 2009. Accordingly, we were unable to apply auditing procedures sufficient to determine the extent to which the financial statements have been affected by these conditions.

Further, as described in Note 10, the Plan has excluded from investments in the accompanying statements of net assets available for benefits certain annuity and custodial accounts issued to current and former employees prior to January 1, 2009, as permitted by the Department of Labor's Field Assistance Bulletin No. 2009-02, *Annual Reporting Requirements for 403(b) Plans*. The investment income and distributions related to such accounts have also been excluded from the accompanying statement of changes in net assets available for benefits. Under accounting principles generally accepted in the United States of America, these accounts and the related income and distributions should have been included in the accompanying financial statements. The effects of these excluded annuity and custodial accounts and the related income and distributions are not determinable.

Disclaimer of Opinion

Because of the significance of the matters described in the Basis for Disclaimer of Opinion paragraphs, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter - Supplemental Schedules

The supplemental schedules of assets (held at end of year) and delinquent participant contributions as of or for the year ended December 31, 2020 are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purposes of additional analysis and are not a required part of the financial statements. The supplemental schedules are the responsibility of the Plan's management. Because of the significance of the matters described in the Basis for Disclaimer of Opinion paragraphs, we do not express an opinion on the supplemental schedules.

Hiram College Retirement Plan

Notes to Financial Statements

Note 1. Plan Description

The following description of the Hiram College Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution retirement plan covering professional staff, non-exempt staff, faculty and adjunct faculty of Hiram College (the College). The Plan has two basic parts – a defined contribution part (DC part) and an employee elective deferral part (EE part). All employees, except for adjunct faculty and enrolled students, that have attained the age of 18 and have completed one year of service, as defined in the Plan document, are required to participate in the DC part. All employees, except for enrolled students, are eligible immediately to participate in the EE part. The Plan is subject to provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions: Participants in the DC part of the Plan are required to contribute a percentage of pretax annual compensation ranging from 2% to 5% based on years of eligible service, as defined in the Plan document. Participants may elect to contribute the maximum required contribution of 5% when they first become eligible to participate in the Plan. Employer matching contributions of the Plan range from 2% to 3% of pretax annual compensation with the range dependent upon a participant's years of service.

Eligible participants in the EE part of the Plan may elect to contribute up to the maximum amount of pretax annual compensation as defined in the Plan document and as allowable under the Internal Revenue Code (IRC). Participants who have attained age 50 before the end of the Plan year are eligible to contribute additional catch-up contributions, as allowable under the IRC. Also, any participant who has 15 years of service with a qualified organization may make Special Code Section 403(b) Catch-up Contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

Participant accounts: Each participant's account is credited with the participant's contributions, the College's contributions and Plan earnings. Allocations are based on participant account balances or employee compensation, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in all contributions plus actual earnings thereon.

Investment options: Upon enrollment in the Plan, a participant may direct their contributions in a variety of investment choices as more fully described in the Plan's literature and participants may change their investment options at any time. The Plan currently offers guaranteed annuity contracts, a pooled separate account and several variable annuity contracts and registered investment companies (mutual funds), as investment options.

Payment of benefits: On termination of service due to death, disability, or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account, a partial payout, or installment payments. A participant is also entitled to apply their individual account toward the purchase of an annuity contract. If service terminates for other reasons and the vested account balance exceeds \$1,000, a participant must consent to receive payment of benefits. A participant may also make an in-service withdrawal from the EE part of the Plan upon attainment of age 59.5 or due to financial hardship.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements are prepared under the accrual method of accounting. Investment contracts held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: Except for certain contracts held by TIAA and CREF described in Notes 4 and 5, investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The College determines the Plan's valuation policies utilizing information provided by the investment custodians and insurance company. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Effective May 1, 2019, participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the vested balance in the participant's account and bear interest at rates commensurate with local prevailing rates as determined by the Plan Administrator. Principal and interest is paid ratably.

Prior to May 1, 2019, the Plan did not allow for participant loans. TIAA and CREF would only issue loans to Plan participants outside the scope of the Plan. For such loans, participants pledge as security a portion of their balance as security for the loan. The maximum loan amount may be the lesser of \$50,000 or 50% of their account balance. The loans bear interest at rates that range from 4.00% to 4.36%, which are commensurate with local prevailing rates as determined periodically by TIAA and CREF. Principal and interest is paid ratably through monthly or quarterly payments by the participants to TIAA and CREF. The Plan Administrator has concluded that these loans are not Plan assets and that such arrangements are exempt transactions. These loan balances outside of the Plan as of December 31, 2020 and 2019 were \$55,404 and \$78,558, respectively. Participant loans are coordinated between the participant and TIAA and CREF. Under the borrowing terms, Plan assets totaling these outstanding loan balances serve as collateral to these loans. In the event of default, such loans are reportable to participants as taxable income but remain outstanding and continue to accrue interest until repaid by the participant or the participant becomes eligible to receive a distribution under the terms of the Plan. During the year ended December 31, 2020, no loans went into default.

Contributions: Participant and employer contributions are recognized when the participant contributions are withheld from the participant's earnings.

Payment of benefits: Benefits are recorded when paid.

Administrative expenses: Administrative expenses are paid by the College or the Plan, at the discretion of the College. The expenses paid by the College are not reflected in the accompanying financial statements.

Note 2. Summary of Significant Accounting Policies (Continued)

Recently issued accounting pronouncement: In August 2018, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework—Changes to the Disclosure Requirements for Fair Value Measurement*, which modifies the disclosure requirements for fair value measurements by removing, modifying, and adding certain disclosures. ASU 2018-13 was effective for the Plan for fiscal years beginning after December 31, 2019. The Plan adopted ASU 2018-13 during the year ended December 31, 2020. The adoption of ASU 2018-13 did not have a material impact on the Plan's financial statements.

Subsequent events: The Plan Administrator has evaluated subsequent events for potential recognition and/or disclosure through February 14, 2022, the date the financial statements were available to be issued.

Note 3. Information Certified and Provided by Teachers Insurance and Annuity Association (TIAA) and College Retirement Equities Fund (CREF)

The following is a summary of the Plan's asset information as of December 31, 2020 and 2019 and for the year ended December 31, 2020, included throughout the Plan's financial statements and supplemental schedules, that was prepared by or derived from information provided by TIAA and CREF, the custodians of certain investments of the Plan. The Plan Administrator has obtained certifications from the custodians that information provided to the Plan Administrator by the custodians related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedules related to the following assets.

Note 4. Fair Value Measurements

Accounting standards established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020 and 2019.

Variable annuity contracts: Valued at the daily unit value published on NASDAQ. The funds are not traded on this exchange. The value of the unit holder's investment rises and falls with the returns on the underlying assets in the fund.

Registered investment companies: Valued at quoted market prices on the active markets in which they are traded at year end.

Pooled separate account: The TIAA Real Estate fund is a pooled separate account in which daily unit values are published on NASDAQ. The fund is not traded on this exchange. The value of the unit holder's investment rises and falls with the return on the underlying assets in the account.

Guaranteed annuity contracts: The non-fully benefit responsive portion of the fixed annuity contract is reported at contract value which approximates fair value. This determination is based on TIAA and CREF's credit rating and yield during 2020 and 2019 being comparable to similar alternative investments and the interest rate which resets annually being comparable to a ten-year U.S. treasury bond.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4. Fair Value Measurements (Continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets measured at fair value at December 31:

	2020			
	Level 1	Level 2	Level 3	Total
Variable annuity contracts	\$ 26,334,919	\$ -	\$ -	\$ 26,334,919

Pooled separate account	1,710,468	-	-	1,710,468
Investments, at fair value	<u>\$ 42,993,875</u>	<u>\$ -</u>	<u>\$ 17,263,119</u>	<u>\$ 60,256,994</u>
	2019			
	Level 1	Level 2	Level 3	Total
Variable annuity contracts	\$ 23,981,551	\$ -	\$ -	\$ 23,981,551
Guaranteed annuity contracts - non-fully benefit responsive	-	-	18,038,303	18,038,303
Registered investment companies	12,186,307	-	-	12,186,307
Pooled separate account	1,858,262	-	-	1,858,262
Investments, at fair value	<u>\$ 38,026,120</u>	<u>\$ -</u>	<u>\$ 18,038,303</u>	<u>\$ 56,064,423</u>

Changes in Fair Value Levels

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Plan evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2020, there were no significant transfers in or out of Level 3.

During the year ended December 31, 2020, purchases of Level 3 investments amounted to \$106,465 and sales of Level 3 investments amounted to \$1,828,059.

Hiram College Retirement Plan

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table represents the Plan's Level 3 assets as of December 31, 2020 and 2019, the valuation techniques used to measure the fair value of those assets and the significant unobservable inputs and the ranges of values of those inputs.

Instrument	Fair Value		Principal Valuation Technique	Unobservable Inputs	Range of Significant Input Values
	2020	2019			
TIAA Traditional Annuity	\$ 17,263,119	\$ 18,038,303	Discounted Cash Flow Theoretical Transfer (exit value)	Risk-adjusted discount rate applied	3.5% - 3.8%

In estimating fair value of the investments in Level 3, the College has various processes and controls in place to ensure fair value is reasonably estimated. The retirement plan oversight committee, which reports to the College's Board of Trustees, sets valuation policies for Plan assets and is responsible for the determination of the fair value. The retirement plan oversight committee (1) compares price changes between periods to current market conditions, (2) compares trade prices of securities to fair value estimates, (3) compares prices from multiple pricing sources and (4) performs ongoing due diligence to confirm that independent pricing services use market-based parameters for valuation. Valuation approaches are reviewed on an ongoing basis and revised as necessary based on changing market conditions to ensure values represent a reasonable exit price.

Note 5. Investment Contracts with TIAA-CREF

The Plan has a guaranteed annuity contract with TIAA-CREF. Under this contract are sub-contracts, some of which are fully benefit-responsive while others are not. TIAA-CREF maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Each premium allocated to the guaranteed fixed annuity investment contract buys a guaranteed minimum amount of lifetime income based on the rate schedule in effect at the time the premium is credited.

For investment contracts that are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. An investment contract must meet certain criteria to be considered fully benefit-responsive which includes, among other criteria, a requirement that all permitted participant-initiated transactions occur at contract value with no conditions, limits, or restrictions. These contracts are included in the financial statements at contract value, as reported to the Plan by TIAA-CREF. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Hiram College Retirement Plan

Notes to Financial Statements

Note 5. Investment Contracts with TIAA-CREF (Continued)

Certain events can limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 3%. Such interest rates are reviewed on an annual basis for resetting.

The contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

The following information relates to the non-fully benefit responsive investment contracts:

	2020	2019
Average yields:		
Based on actual earnings	3.93%	4.07%
Based on interest rate credited to participants	4.08%	3.72%

Investment contracts that are not fully benefit responsive are included in the financial statements at fair value as reported by TIAA-CREF. TIAA-CREF indicates that contract value approximates fair value for these investments at December 31, 2020 and 2019.

Note 6. Related Party Transactions

Certain Plan investments are managed by TIAA and CREF, the custodians of certain investments, and therefore these transactions qualify as party-in-interest. Fees paid to the custodians amounted to \$23,919 for the year ended December 31, 2020.

Certain employees of the College provide administrative services for the Plan and are not reimbursed for their services from the Plan.

Note 7. Tax Status

The Plan has been designed to qualify under Section 403(b) of the Internal Revenue Code (Code). The terms of the Plan have been prepared to conform with the sample language provided by the Internal Revenue Service (IRS) in Revenue Procedure 2007-71. The Plan is required to operate in conformity with the Code to maintain the tax-exempt status for plan participants under Section 403(b). No provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Hiram College Retirement Plan

Notes to Financial Statements

Note 8. Plan Termination

Although it has not expressed any intent to do so, the College has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Note 9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

The fully benefit responsive guaranteed annuity contract has been certified at contract value, which approximates fair value, as reported to the Plan by TIAA-CREF. In subsequent periods, if market conditions change, such as the insurance company credit rating or interest rate environment, the difference between contract value and fair value could become significant causing the financial statements to become materially misstated.

Note 10. Excluded Contracts

The Plan Administrator has elected to exclude from investments certain annuity and custodial accounts which may have been issued to current and former employees without the Plan Administrator's knowledge prior to January 1, 2009, as permitted by the Department of Labor's Field Assistance Bulletin No. 2009-02, *Annual Reporting Requirements for 403(b) Plans*. The investment income and distributions related to such accounts have also been excluded from the statements of changes in net assets available for benefits. Accounting principles generally accepted in the United States of America require that these accounts and the related income and distributions be included in the accompanying financial statements. The Plan Administrator is not able to determine the amount of these excluded annuity and custodial accounts and the related income and distributions because records relating to these are not available or do not exist.

Note 11. Prohibited Transactions

During 2018, the Plan sponsor inadvertently failed to deposit \$122,944 of participant contributions within the required timeframe as stated by the United States Department of Labor (DOL) regulations. The DOL considers the late deposits to be prohibited non-exempt transactions. For these late deposits, the Plan sponsor calculated and deposited lost earnings to correct this failure during 2020.

Notes to Financial Statements

Note 12. CARES Act

In March 2020, the World Health Organization categorized Coronavirus Disease 2019 (COVID-19) as a pandemic, and the President of the United States declared the COVID-19 outbreak a national emergency. The COVID-19 pandemic has led to volatility in financial markets and has affected, and may continue to affect, the Plan assets. The potential economic impact brought by, and the duration of, COVID-19 is difficult to assess or predict and will depend on future developments that are highly uncertain and cannot be predicted.

On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security Act (CARES Act) was enacted to, amongst other provisions, provide emergency assistance for individuals, families and businesses affected by the coronavirus pandemic. The CARES Act also provides for certain optional relief measures that can be adopted by qualified retirement plans, including increased levels of participant loans for affected individuals for a limited time, and distributions with special tax treatment for affected individuals. Plans must also allow participants who are affected by the coronavirus to suspend loan payments through December 31, 2020, and required minimum distributions for participants over age 70 ½ can be omitted for 2020.
