Urbana University Defined
Contribution Retirement Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Urbana University Defined Contribution Retirement Plan (the "Plan"), which comprise the statement of net assets in liquidation as of June 21, 2021 and December 31, 2020 and the related statement of changes in net assets in liquidation for the period from January 1, 2021 through June 21, 2021, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matters described in the *Basis for Disclaimer of Opinion* paragraphs, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Teachers Insurance and Annuity Association (TIAA) and College Retirement Equities Fund (CREF) (collectively, TIAA-CREF) and TIAA, as agent for TIAA, FSB, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that TIAA-CREF and TIAA, FSB held the Plan's investment assets and executed related transactions. The plan administrator has obtained certifications from TIAA-CREF and TIAA, as agent for TIAA, FSB, as of June 21, 2021 and December 31, 2020 and for the period from January 1, 2021 through June 21, 2021 that the information provided to the plan administrator was complete and accurate.

As described in Note 7, because of the unavailability of the Plan's prior year records with respect to certain annuity and custodial accounts issued to current and former employees, we were unable to perform auditing procedures with respect to individual participant account balances accumulated from inception of the Plan or to satisfy ourselves as to the propriety of the distributions to participants who terminated and withdrew from the Plan during the year then ended.

Disclaimer of Opinion

Because of the significance of the matters described in the *Basis for Disclaimer of Opinion* paragraphs, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Emphasis of Matters

As discussed in Note 8 to the financial statements, the plan sponsor terminated the Plan effective July 24, 2020. The financial statements are prepared on the liquidation basis of accounting. Our opinion is not modified with respect to this matter.

To the Plan Administrator
Urbana University Defined
Contribution Retirement Plan

As explained in Note 6, the financial statements include investments valued at approximately \$3.6 million (34 percent of net assets) as of December 31, 2020, whose fair values have been estimated by management in the absence of readily determinable market values. There were no assets held by the Plan as of June 21, 2021. Management's estimates are based on information provided by TIAA-CREF. Our opinion is not modified with respect to this matter.

Urbana University Defined Contribution Retirement Plan

Notes to in Liquidation Financial Statements

June 21, 2021 and December 31, 2020

Note 1 - Plan Description

The following description of Urbana University Defined Contribution Retirement Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

As discussed in Note 8, the university approved termination of the Plan effective July 24, 2020. The descriptions below are provisions of the Plan prior to termination.

General

The Plan is a defined contribution plan covering all employees of Franklin University - Urbana, LLC dba Urbana University (the "University"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

The Plan provides for employee salary 403(b) or Roth contributions up to a maximum of 6 percent of compensation subject to certain limitations established by the Internal Revenue Code. Participants may also make contributions to the Plan in the form of a rollover of funds from another qualified plan and catch-up contributions.

Prior to January 1, 2019, the Plan provided for employer matching contributions of 100 percent of the participant's contribution, not to exceed 6 percent of the employee's compensation. Subsequent to January 1, 2019, the Plan provides for required employer matching contributions of 7 percent of employee compensation when a minimum 5 percent pretax contribution is made by the employee. Any employee contributing less than 5 percent pretax contributions does not receive an employer matching contribution. Further, any employee contributions in excess of 5 percent pretax will not be eligible for an additional matching contribution.

The final contribution was made to the Plan during July 2020, and, as discussed in Note 8, the Plan was terminated and the assets were distributed during 2021.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of the University's contributions and plan earnings and charged with an allocation of administrative expenses. Allocations are based on participants' compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Plan Loans

Effective June 11, 2020, Teachers Insurance and Annuity Association (TIAA) ceased issuance of any new policy loans. Existing policy loans will continue to be in effect. Prior to June 11, 2020, participants may borrow from Teachers Insurance and Annuity Association using their TIAA Traditional Annuity account balances as collateral for the loan. Collateral is required in an amount equal to 110 percent of the outstanding loan balance. Participants may borrow a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 45 percent of their TIAA Traditional Annuity account balances subject to annuity contract and plan provisions. Loans bear interest at market rates. Principal and interest are paid ratably by the participant to TIAA, and each payment will reduce amounts collateralized by the participant's TIAA Traditional Annuity account balance. The amount of these outstanding loans was \$30,870 and \$37,232 at June 21, 2021 and December 31, 2020, respectively. These loans are not included as assets in the accompanying financial statements. Plan loan balances of \$20,078 were in default as of December 31, 2020. There were no plan loan balances in default as of June 21, 2021.

Note 1 - Plan Description (Continued)

Benefit Payments

Upon termination of employment, the incurrence of a disability, death, or attainment of age 59½, a participant may elect to receive the value of his or her account in the form of a lump-sum payment, partial payments, installment payments, or annuity amount. Certain amounts invested in the TIAA Traditional Annuity group annuity contracts may not be distributed in a lump sum (see redemption restrictions below).

Participants may request that all or a portion of their accounts be distributed in the case of severe financial hardship, as defined in the plan document. The University must approve any such hardship withdrawals.

Redemption Restrictions

Certain contracts under the TIAA Traditional Annuity investment have limits on the ability of the participant to transfer or withdraw from the fund. Transfers from the Retirement Annuity (RA) and Transfer Payout Annuity (TPA) contracts must be paid out in 10 annual installments. Transfers from the Retirement Choice (RC) contract must be paid over 84 monthly systematic payments. Withdrawals from the RA contract must be paid out in 10 annual installments. Withdrawals from the RC contract are available within 120 days after termination of employment subject to a 2.5 percent surrender charge; otherwise, they must be paid over 10 annual installments or 84 monthly systematic payments. The remaining contracts under the TIAA Traditional Annuity investment do not have restrictions related to transfers and withdrawals. However, there are equity wash provisions that prevent the immediate transfer of amounts to any competing funds available in the Plan.

Vesting

All participants hired prior to April 1, 2019 are immediately vested in all employee and employer contributions plus actual earnings thereon. For those employees hired after April 1, 2019, participants are immediately vested in all employee contributions plus actual earnings thereon, and participants are fully vested in employer contributions plus actual earnings thereon after three years of employment.

As discussed in Note 8, the University approved termination of the Plan effective July 24, 2020. As a result, all participants became 100 percent vested in all employer contributions plus actual earnings thereon.

Party-in-interest Transactions

All plan assets are in investment funds managed by Teachers Insurance and Annuity Association and College Retirement Equities Fund (CREF) (collectively, TIAA-CREF) and TIAA, FSB or their affiliates. TIAA-CREF is a service provider of the Plan, and TIAA, FSB is a custodian of the Plan; therefore, these transactions qualify as party-in-interest transactions, as defined under ERISA guidelines.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

As discussed in Note 8 to the financial statements, the plan sponsor terminated the Plan effective July 24, 2020. As a result, the Plan uses the liquidation basis of accounting. Under the liquidation basis of accounting, assets are measured to reflect the estimated amount of cash expected to be collected in settling or disposing of the assets during the liquidation process, and liabilities are measured using the accrual basis of accounting and would include any expected costs of the disposal of assets and other costs expected to be incurred during the liquidation process.

Investment Valuation

The Plan's investments are stated at fair value except as noted below.

Notes to in Liquidation Financial Statements

June 21, 2021 and December 31, 2020

Note 2 - Summary of Significant Accounting Policies (Continued)

The registered investment companies are valued at net asset value per share (NAV) (or its equivalent) of the funds, which is based on the fair value of the funds' underlying net assets. There are no redemption restrictions or unfunded commitments on these investments. The pooled separate account is valued at net asset value per share or its equivalent of the fund, which is based on the fair value of the fund's underlying assets, which consist primarily of rental property subject to long-term leases and has been estimated on the basis of future rental receipts and estimated residual values discounted at interest rates commensurate with risks involved. There are no redemption restrictions or unfunded commitments on this investment.

The TIAA Traditional Annuity is a guaranteed annuity account issued by TIAA that invests in the general assets of TIAA. TIAA considers the Retirement Choice Plus (RCP) contracts to be benefit responsive. TIAA considers the following contracts to be non-benefit responsive: Retirement Annuity, Interest Payment (IP), Transfer Payout Annuity, and Retirement Choice. The non-benefit-responsive portion is recorded at fair value. The benefit-responsive portion is recorded at contract value. Since there are no specific securities in TIAA's general account related to these contracts, contract value is the best estimate of fair value for the non-benefit-responsive contracts. For all portions, contract value represents principal invested, plus interest earned, less any withdrawals.

All other investments are valued based on quoted market prices reported in active markets. See Note 6 for additional information.

Allocated Insurance Contracts

The Plan has allocated insurance contracts for retirees who were covered under the Plan in prior years. The activity related to the allocated insurance contracts for retirees receiving benefits is excluded from the financial statements. The Plan receives no income from these allocated insurance contracts.

Benefit Payments

Benefits are recorded when paid. There were benefit payments requested but not paid (due to redemption restrictions) totaling \$651,194 as of December 31, 2020. There were no benefit payments requested but not paid as of June 21, 2021.

Administrative Expenses

Various administrative costs are paid by the University.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including March 1, 2022, which is the date the financial statements were available to be issued.

Urbana University Defined Contribution Retirement Plan

Notes to in Liquidation Financial Statements

June 21, 2021 and December 31, 2020

Note 3 - Unaudited Information

TIAA-CREF holds the Plan's investments, except mutual funds, and executes related transactions. TIAA, FSB holds the mutual fund investments and executes all related transactions. TIAA has the authority to certify the investment balances and related investment activity on behalf of TIAA, FSB. The investment balances and related income included in the accompanying financial statements are based solely on information certified by TIAA-CREF, including TIAA, as agent for TIAA, FSB.

The Plan has excluded certain assets from the statement of net assets in liquidation at June 21, 2021 and December 31, 2020 (see Note 7).

Note 4 - Tax Status

The Plan, as adopted, is a volume submitter plan, which does not require an application for a determination letter from the Internal Revenue Service (IRS). The volume submitter plan has received a favorable notification letter from the IRS dated August 7, 2017. The Plan has not individually sought its own determination letter.

Note 5 - Annuity Contracts

Based on the terms of the contracts, a portion of the TIAA Traditional Annuity is considered benefit responsive. The total balance in the TIAA Traditional Annuity was \$3,764,773 as of December 31, 2020. The benefit-responsive portion of the TIAA Traditional Annuity totaled \$340,707 as of December 31, 2020. There was no balance in the TIAA Traditional annuity account as of June 21, 2021. The contract issuers maintain the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Interest is credited on contract balances using a vintages approach. Under this methodology, TIAA groups the dollars it receives over defined time periods into vintages and determines a crediting rate for the applicable vintage. Interest crediting rates are determined during the accumulation phase of the applicable declaration year. When establishing interest crediting rates for this product, TIAA considers many factors, including the net investment earnings rate of the TIAA assets supporting that vintage, administrative expenses during the time period, and required contingency reserves. The minimum crediting rate for the benefit-responsive contracts is generally 3.00 percent; however, in some recent contracts, it has been between 1.00 and 3.00 percent.

Generally, there are no events, including the plan termination discussed further in Note 8, that limit the ability of the Plan to transact at contract value paid within 90 days or, in rare circumstances, contract value paid over time. There are no events that allow the issuer to terminate the contract and that require the plan sponsor to settle an amount different than contract value paid either within 90 days or over time.

As described in Note 2, because a portion of the contract is fully benefit responsive, contract value is the relevant measurement attribute for that portion of the net assets attributable to the investment contract. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value.

Note 6 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

Urbana University Defined Contribution Retirement Plan

Notes to in Liquidation Financial Statements

June 21, 2021 and December 31, 2020

Note 6 - Fair Value Measurements (Continued)

Level 1

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances where inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The Plan has excluded certain assets from the statement of net assets in liquidation at June 21, 2021 and December 31, 2020 (see Note 7).

The following table presents information about the included plan assets measured at fair value on a recurring basis at December 31, 2020. There were no plan assets measured at fair value on a recurring basis at June 21, 2021.

- (4) This class represents investments in actively managed registered investment company that invest primarily in money market funds, with the objective of providing high current income consistent with the preservation of capital and maintenance of liquidity.

Note 7 - Excluded Investments

Due to the lack of sufficient accounting records and supporting documents relating to certain annuity and custodial accounts issued to current and former employees, the extent to which individual participant account balances accumulated from inception until inclusion in the Plan's financial statements may be misstated is not determinable. As a result, the propriety of the related participant balances at June 21, 2021 and December 31, 2020 and related participant distributions to participants who terminated and withdrew from the Plan during the period from January 1, 2021 through June 21, 2021 is not determinable. Exclusion of these balances related to current and former employees prior to January 1, 2009 is permitted by the Department of Labor's Field Assistance Bulletin No. 2009-02, *Annual Reporting Requirements for 403(b) Plans*.

Note 8 - Termination - Liquidation Basis

Effective July 24, 2020, the plan sponsor adopted a resolution to terminate the Plan and the Plan adopted the liquidation basis of accounting. Under the liquidation basis of accounting, assets are recorded at the amount expected to be collected, and liabilities are recorded at amounts expected to be paid during the course of liquidation.

In connection with the termination, participants with active balances had the option to make a distribution in the form of a lump-sum payment or rollover to a qualified plan. Additionally, the participant could choose no action and TIAA would distribute the participant's balance in-kind to an individually owned annuity account.

If the participant had a Retirement Annuity, Supplemental Retirement Annuity (SRA), Group Retirement Annuity (GRA), or Group Supplemental Retirement Annuity (GSRA) contract, the in-kind distribution would be made to the same contract as an individually owned asset. If the participant held a Retirement Choice or Retirement Choice Plus contract, these contracts would be transferred to a new GRA or GSRA contract, respectively, and placed in the CREF Money Market. Liquidation through lump-sum, rollover, and in-kind distributions was completed on June 21, 2021.
