On October 1, 2020, the Company entered into a participation agreement to become a participating employer in the Employer Flexible 401(k) Plan (the PEO Plan). The participation agreement has an effective date of November 1, 2020, whereas all Plan assets were to be transferred to the PEO Plan as of the effective date or as soon as practicable thereafter. On November 12, 2020, participants account balances were liquidated, and the Plan transferred $7,298,961 in assets to the PEO Plan, consisting of $7,158,233 in cash and $140,728 in receivables.

Significant provisions of the Plan are summarized below. Participants should refer to the plan document and summary plan description for a more complete description of the Plan's provisions.

Eligibility – The Plan covered employees of the Company, except non-resident aliens and employees covered under a collective bargaining agreement. Participants who were age 21 were eligible to enter the Plan on the first day of the month coinciding with or next following the date that they have completed one month of service.

Contributions – Participants could elect to reduce their compensation and contribute to the Plan on a pre-tax or Roth basis as an elective deferral contribution (up to 100% of compensation), not to exceed the dollar amount set by law. Participants could elect to start, increase, or reduce their elections to contribute to the Plan effective as of the first day of the Plan year and the first day of the fourth, seventh, and tenth month of the Plan year. Participants could suspend their elections at any time.

The Company would make a safe harbor matching contribution to each participant equal to 100% of each participant's contributions to the Plan, which do not exceed 5% of their eligible compensation. These Company matching contributions were made to the Plan and allocated to the matching contribution accounts of the participants as soon as administratively feasible after the end of each pay period. Participants became eligible to participate for purposes of safe harbor matching contributions on the first day of the month coinciding with or next following the date that they have completed one year of service and attained age 21.

In addition, the Company could, in its sole discretion, make qualified nonelective contributions (QNECs) to the Plan on a participant's behalf. QNECs are special contributions made by the Company to help the Plan pass special discrimination tests established by ERISA and the Internal Revenue Service (IRS). The allocation of nonelective contributions was based on the following three classifications: owners, management, and all other eligible employees on a pro rata basis. Participants must have been employed on the last day of the Plan year and must have completed 1,000 hours of service to have been eligible for the QNEC allocation. There were no QNEC contributions made during 2020.

Rollover contributions from qualified retirement plans and certain IRAs were also permitted by the Plan.

All contributions were subject to certain limitations of the Internal Revenue Code (IRC).

Participant Accounts – Each participant's account was credited with the participant's contributions, rollovers, employer contributions, and Plan earnings or losses. Participant accounts were charged with an allocation of administrative expenses that were paid by the Plan. Allocations were based on participant earnings, account balances, or specific participant transactions. The benefit to which a participant was entitled was the benefit that could be provided from the participant's vested account.

Investment Options – Participants decided how to invest their accounts in the Plan into various investment securities. The Plan offered mutual funds and a stable value fund as investment options. Participants could modify elections, transfer existing balances, and obtain information regarding investments on a daily basis.

Vesting – Each participant had a 100% vested, nonforfeitable right to their elective contributions, rollover contributions, and safe harbor contributions in the Plan. Participants were vested in the Company qualified nonelective contributions as follows: 20% vested after one year of service; 40% vested after two years of service; 60% vested after three years of service; 80% vested after four years of service; and 100% vested after five years of service. Participants were also 100% vested in nonelective contributions if they were employed on or after normal retirement age or if employment was terminated because of the participant's death or disability.

Notes Receivable From Participants – Participants could borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of 50% of their vested account balance, or $50,000 reduced by the highest outstanding loan balance in the last 12 months. The loans were secured by the balance in the participant's account. Principal and interest were paid ratably through after-tax payroll deductions within a period of 60 months from the date of the loan unless the loan was to be used to acquire a principal residence. The maximum number of loans that a participant could have outstanding at one time was one loan. The loan would become payable in full on the participant's termination of employment.

Payment of Benefits – The Plan would make a mandatory maximum distribution of $5,000 following severance from employment if the participant had not attained the later of age 62 or normal retirement age. A mandatory distribution to a participant before attaining the later of age 62 or normal retirement age was subject to an automatic rollover only if it exceeded $1,000. Distributions were made immediately following severance from employment as was administratively possible.

Participants who were active employees and who had not yet attained age 59½ could withdraw up to the entire balance of their rollover account, after-tax rollover account, and Roth rollover account as an in-service distribution. Participants who were active employees and who had attained age 59½ could withdraw up to the entire vested balance of their Plan accounts.

Under certain circumstances, a participant could request a hardship withdrawal for an immediate and heavy financial need.

CARES Act – On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security (CARES) Act was enacted and signed into law. Certain provisions of the CARES Act permit participants to request penalty-free distributions of up to $100,000 for qualifying coronavirus-related reasons through December 31, 2020. These reasons include adverse financial consequences due to being quarantined, furloughed, laid off, having work hours reduced, being unable to work due to a lack of childcare due to COVID-19, or through a diagnosis of COVID-19 for the employee, spouse, or dependent. Participants may spread the tax consequences of these distributions over three years and they may pay these distributions back to the Plan within three years to avoid taxation on the portion that is repaid. The Company has elected to allow the distribution provisions of the CARES Act. The amendment for the CARES Act elections must be adopted by the end of calendar year 2022.

Forfeited Accounts – Any unvested portion of a terminated participant's account was forfeited. Forfeitures could be used to pay administrative expenses or to reduce employer contributions. At December 31, 2019, forfeited accounts totaled $3,112. During the period ended November 12, 2020, forfeitures of $3 were used to reduce employer contributions. On November 12, 2020, forfeitures of $3,460 were transferred to the PEO Plan.

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting – The financial statements of the Plan are prepared on the liquidation basis of accounting.

Use of Estimates – The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) requires the Company to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition – Investments were reported at fair value. Fair value was the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See *Note 3* for discussion of fair value measurements. Purchases and sales of securities were recorded on a trade-date basis. Dividends were recorded on the ex-dividend date. Net appreciation included the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants – Notes receivable from participants were measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income was recorded on an accrual basis. Related fees were recorded as administrative expenses and were expensed when they were incurred. No allowance for credit losses has been recorded as of November 12, 2020 or December 31, 2019.

Payment of Benefits – Benefits were recorded when paid.

Administrative Expenses – Certain expenses of maintaining the Plan were paid by the Plan, unless otherwise paid by the Company. Expenses that were paid by the Company were excluded from these financial statements. Investment related expenses were included in net appreciation in fair value of investments.

Subsequent Events – The Plan has evaluated subsequent events through October 12, 2021, the date the financial statements were available to be issued.

NOTE 3 – FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- **Level 1** – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

- **Level 2** – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

- **Level 3** – Inputs in the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy was based on the lowest level of any input that was significant to the fair value measurement. Valuation techniques maximized the use of observable inputs and minimized the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual Funds – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan were open-end mutual funds that were registered with the SEC. These funds were required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan were deemed to be actively traded.

Collective Trust Fund – The Plan held an investment in a collective trust fund, the Putnam Stable Value Fund (the Fund). Valued using NAV as reported by the Fund. The NAV was used as a practical expedient to estimate fair value. The practical expedient would not have been used if it was determined to be probable that the Fund would sell the underlying investments for an amount different from the reported NAV. Participant transactions (purchases and sales) may occur daily.

In accordance with ASU 2015-07, *Fair Value Measurement (Topic 820)*, these investments that were measured at fair value using NAV per share practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in the fair value table below are intended to permit reconciliation of the fair value hierarchy to amounts presented in the statements of net assets available for benefits in liquidation.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019:

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 6,289,963	$ -	$ -	$ 6,289,963
Total assets in the fair value hierarchy	$ 6,289,963	$ -	$ -	6,289,963
Investment measured at NAV as practical expedient				102,108
Total investments at fair value				$ 6,392,071

Investments Measured Using NAV per Share Practical Expedient – The fair value of the investments for which fair value was measured using NAV per share practical expedient was $102,108 as of December 31, 2019. There were no participant redemption restrictions or unfunded commitments for this investment. The redemption frequency was daily, and the redemption notice period was applicable only to the Plan.

NOTE 4 – INFORMATION CERTIFIED BY TRUSTEE

The Company has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor (DOL)'s Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Great-West Trust Company, LLC, the trustee, has certified to the completeness and accuracy of all investments reflected on the accompanying statements of net assets available for benefits in liquidation as of November 12, 2020 and December 31, 2019, and the related investment activity reflected in the statement of changes in net assets available for benefits in liquidation for the period ended November 12, 2020.

Accordingly, as permitted under such election, the Company instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information certified by the trustee, except for comparing such information certified by the trustee with information included in the Plan's financial statements and supplemental schedule.

NOTE 5 – RELATED PARTY TRANSACTIONS AND PARTY IN INTEREST TRANSACTIONS

Certain administrative fees related to the administration of the Plan were paid by the Plan or by the Company. Such transactions were permitted under the provisions of the Plan and were exempt from the prohibited transactions rules under ERISA. Fees paid by the Plan for investment management services were included as a reduction of the return earned on each fund.

NOTE 6 – TAX STATUS

The Company adopted a volume submitter profit sharing plan with a cash or deferred arrangement provided by Great-West Trust Company, LLC. The volume submitter plan received its latest opinion letter dated March 31, 2014, in which the IRS stated the volume submitter plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the opinion letter; however, the Company believes that the Plan was designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes was included in the Plan's financial statements.

U.S. GAAP requires the Company to evaluate tax provisions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan was subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax year in progress.

NOTE 7 – RISKS AND UNCERTAINTIES

The Plan invested in various investment securities. Investment securities were exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it was at least reasonably possible that changes in the values of investment securities would have occurred in the near term and that such changes could have materially affected participants' account balances and the amounts reported in the statement of net assets available for benefits in liquidation.

NOTE 8 – RECONCILIATION OF FINANCIAL STATEMENTS TO THE FORM 5500

The following is a reconciliation of net assets available for benefits in liquidation per the financial statements at December 31, 2019, to the Form 5500:

Net assets available for benefits per the financial statements	$ 6,457,251
Employer contributions receivable	(10,352)
Net assets available for benefits per the Form 5500	$ 6,446,899

The following is a reconciliation of the employer contributions per the financial statements for the period ended November 12, 2020, to the Form 5500:

Employer contributions per the financial statements	$ 301,564
Add: employer contributions receivable at December 31, 2019	10,352
Employer contributions per the Form 5500	$ 311,916

NOTE 9 – NONEXEMPT TRANSACTIONS

During 2020 and 2019, the Company failed to remit to the trustee certain participant contributions and loan repayments totaling $29,858 and $28,894, respectively, within the timeframe called for within the DOL's regulations. Delays in remitting participant contributions were due to unintentional administrative errors. The Company plans to calculate and remit lost earnings on the 2020 and 2019 participant contributions and loan repayments to the PEO Plan in 2021. These contributions were considered nonexempt party in interest transactions. The Company believes these nonexempt transactions did not affect the tax status determination of the Plan.
