Part III Accountant's Opinion

3 Complete lines 3a through 3c if the opinion of an independent qualified public accountant is attached to this Form 5500. Complete line 3d if an opinion is not attached.

a The attached opinion of an independent qualified public accountant for this plan is (see instructions):

(1) ☐ Unmodified (2) ☐ Qualified (3) ☒ Disclaimer (4) ☐ Adverse

b Check the appropriate box(es) to indicate whether the IQPA performed an ERISA section 103(a)(3)(C) audit. Check both boxes (1) and (2) if the audit was performed pursuant to both 29 CFR 2520.103-8 and 29 CFR 2520.103-12(d). Check box (3) if pursuant to neither.

(1) ☒ DOL Regulation 2520.103-8 (2) ☐ DOL Regulation 2520.103-12(d) (3) ☐ neither DOL Regulation 2520.103-8 nor DOL Regulation 2520.103-12(d).

c Enter the name and EIN of the accountant (or accounting firm) below:

(1) Name: **DELOITTE & TOUCHE LLP**

(2) EIN: **13-3891517**

d The opinion of an independent qualified public accountant is **not attached** because:

(1) ☐ This form is filed for a CCT, PSA, or MTIA. (2) ☐ It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l.

During the plan year:

a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)

	Yes	No	Amount
4a		X	

	Yes	No	Amount
b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)			
4b		X	
c Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)			
4c		X	
d Were there any nonexempt transactions with any party-in-interest? (Do not include transactions reported on line 4a. Attach Schedule G (Form 5500) Part III if "Yes" is checked.)			
4d		X	
e Was this plan covered by a fidelity bond?	X		10000000
f Did the plan have a loss, whether or not reimbursed by the plan's fidelity bond, that was caused by fraud or dishonesty?		X	
4f		X	
g Did the plan hold any assets whose current value was neither readily determinable on an established market nor set by an independent third party appraiser?		X	
4g		X	
h Did the plan receive any noncash contributions whose value was neither readily determinable on an established market nor set by an independent third party appraiser?		X	
4h		X	
i Did the plan have assets held for investment? (Attach schedule(s) of assets if "Yes" is checked, and see instructions for format requirements.)		X	
4i		X	
j Were any plan transactions or series of transactions in excess of 5% of the current value of plan assets? (Attach schedule of transactions if "Yes" is checked and see instructions for format requirements.)		X	
4j		X	
k Were all the plan assets either distributed to participants or beneficiaries, transferred to another plan, or brought under the control of the PBGC?		X	
4k		X	
l Has the plan failed to provide any benefit when due under the plan?		X	
4l		X	
m If this is an individual account plan, was there a blackout period? (See instructions and 29 CFR 2520.101-3.)		X	
4m		X	
n If 4m was answered "Yes," check the "Yes" box if you either provided the required notice or one of the exceptions to providing the notice applied under 29 CFR 2520.101-3.

INDEPENDENT AUDITORS' REPORT

To The Procter & Gamble U.S. Business Services Company and Plan Participants:

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of The Procter & Gamble Master Retirement Plan (the "Plan"), which comprise the statements of net assets available for pension benefits as of June 30, 2021 and 2020, and the related statements of changes in net assets available for pension benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 9, which was certified by Northern Trust Company, the trustee of the Plan as of June 30, 2021 and for the period November 1, 2020 to June 30, 2021, and State Street Bank & Trust Company as of June 30, 2020, and for the period July 1, 2020 to October 31, 2020 and for the year ended June 30, 2020, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustees hold the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustees as of June 30, 2021 and 2020, and for the years then ended, that the information provided to the plan administrator by the trustees is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Report on Form and Content in Compliance with Department of Labor Rules and Regulations

The form and content of the information included in the financial statements, other than that derived from the information certified by the trustees, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

THE PROCTER & GAMBLE MASTER RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

AS OF AND FOR THE YEARS ENDED JUNE 30, 2021 AND 2020

1. DESCRIPTION OF THE PLAN

The following description of The Procter & Gamble Master Retirement Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for more complete information.

General — The Plan is a defined benefit pension plan which covers certain employees of The Procter & Gamble Company (the “Company”) and its wholly owned subsidiaries. The Plan consists of various merged plans of former employers acquired by the Company. The Plan provides for a uniform body of provisions that are applicable to all participants in the Plan, except where specified in a supplement to the Plan. Each supplement describes specific benefits provided to the eligible employees of each of the various merged plans.

Effective November 1, 2020, Northern Trust Company (“Northern”) became trustee for the Plan and trustee and custodian for the Procter & Gamble Master Retirement Trust (the “Master Trust”). Prior to November 1, 2020, State Street Bank and Trust Company (“State Street”) served as trustee for the Plan and trustee and custodian for the Master Trust. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

All accruable benefits of Plan participants are frozen. Therefore, no future accruals of benefits are earned by participants under the Plan. In conjunction with the freezing of benefits for all merged plans, each participant became fully vested in his or her pension benefits without regard to vesting requirements. However, participants continue to remain eligible for early retirement subsidies which become available at the participant’s retirement upon fulfillment of criteria established by the Plan.

Pension Benefits — Generally, participants are entitled to monthly pension benefits beginning at the normal retirement age of 65. Benefits are calculated based on a formula specific to each merged plan. The maximum years of benefit service is generally 35 years.

The Plan generally permits early retirement if criteria specific to each merged plan is met. The Plan also permits participants who become permanently and totally disabled to receive benefits based upon the participant’s accrued benefit calculated on the date the disability commenced. Death benefits are provided to the surviving spouse and beneficiaries depending upon the participant’s eligibility for the normal retirement benefit.

401(h) Account — The Plan holds a separate account in accordance with Section 401(h) of the Internal Revenue Code (IRC) to fund a portion of the Company’s postretirement obligations for retired Plan participants, who were employees of The Gillette Company, satisfying certain requirements specified in the Plan document. The assets held in the 401(h) account are held in the Master Trust which holds assets for the Plan and other plans sponsored by the Company and are to be used solely to fund retiree healthcare benefits. The change in the 401(h) account for the years ended June 30, 2021 and 2020 was comprised of investment income, benefit payments, and administrative expenses. The related obligations for health benefits are not included in the Plan’s obligations (in Note 5) but reflected as an obligation in the financial statements of the Gillette Retiree Medical Plan.

2. DESCRIPTION OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting — The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates — The preparation of financial statements in conformity with GAAP requires Plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits and changes therein at the date of the financial statements. Actual results could differ from those estimates.

Risks and Uncertainties — The Plan utilizes various investment securities held in the Master Trust. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could be material to the financial statements.

The novel corona virus (COVID 19) has adversely affected, and may continue to adversely affect economic activity globally, nationally and locally. Following the COVID 19 outbreak in January 2020, the values of certain investment securities have declined significantly. These economic and market conditions and other effects of the COVID 19 outbreak may continue to adversely affect the Plan.

Investment Valuation and Income Recognition — The Plan's investment in the Master Trust is presented at fair value, which has been determined based on the fair value of the underlying investments of the Master Trust. Fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date. Net appreciation includes the gains and losses on investments bought and sold as well as held during the year on the underlying investments of the Master Trust.

Management fees and operating expenses charged for investments in common collective trust funds were deducted from income earned on a daily basis and were not separately reflected. Consequently, management fees and operating expenses were reflected as a reduction of investment return for such investments.

Administrative Expenses — Fees charged by the Trustee for the management and investment of Plan assets, actuarial fees and routine administrative fees are paid by the Plan. All other expenses of the Plan are paid by the Company.

Payment of Benefits — Benefit payments to participants are recorded upon distribution.

New Accounting Standards — In August 2018, the Financial Accounting Standards Board issued Accounting Standards Update No. 2018-13, Fair Value Measurement (Topic 820): Disclosure Framework — Changes to the Disclosure Requirements for Fair Value Measurement. This ASU clarifies the fair value measurement disclosure requirements of ASC 820 by adding, eliminating, and modifying disclosures. The new guidance is effective for fiscal years beginning after December 15, 2019. The Plan adopted this guidance as of June 30, 2021.

Subsequent Events — For the year ended June 30, 2021, subsequent events were evaluated through March 21, 2022, the date the financial statements were available to be issued.

3. FAIR VALUE MEASUREMENTS

ASC 820, *Fair Value Measurements and Disclosures*, provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value, as follows: Level 1, which refers to securities valued using unadjusted quoted prices from active markets for identical assets; Level 2, which refers to securities not traded on an active market but for which observable market inputs are readily available; and Level 3, which refers to securities valued based on significant unobservable inputs. There are no Level 3 investments in this plan. Assets are valued in their entirety based on the lowest level of input that is significant to the fair value measurement.

Asset Valuation Methodology — Valuation methodologies maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2021 and 2020.

Cash Equivalents — Held primarily in short-duration, highly liquid securities, which are valued at cost plus accrued interest.

Fixed Income Securities — Level 2 investments estimated by using pricing models or quoted prices of securities with similar characteristics.

Common Collective Trust Funds — Valued at the net asset value of units of a bank collective trust. The net asset value is used as a practical expedient to estimate fair value. The net asset value is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported net asset value. Transactions (purchases and sales) may occur daily. Redemption for common collective trusts is permitted daily with no other restrictions or notice periods and there are no unfunded commitments. In accordance with GAAP, the common collective trust funds measured at net asset value have not been classified in the fair value hierarchy. The fair value amounts presented in the table below are intended to permit reconciliation to the investments presented in Note 6.

The following table sets forth by level, within the fair value hierarchy, the Master Trust's assets at fair value as of June 30, 2021 and 2020:

	2021	2020
Master Trust Investments —		
Interest bearing cash - Level 1	\$ 38,833,794	\$ 129,226,238
Fixed income securities - Level 2	1,652,151,063	1,762,697,703
Subtotal	<u>1,690,984,857</u>	<u>1,891,923,941</u>
Investments measured at NAV —		
Common collective trusts	<u>100,103,017</u>	<u>77,792,978</u>
Total assets — at fair value	<u>\$ 1,791,087,874</u>	<u>\$ 1,969,716,919</u>

4. FUNDING POLICY

Contributions to provide benefits under the Plan are made solely by the Company. The Company's funding policy is to make cash contributions to the Plan in amounts as determined by the Plan's independent actuary. The Company met the minimum funding requirements of ERISA for the Plan for the years ended June 30, 2021 and 2020. No contributions to the Plan were required in 2021 or 2020.

5. ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the services rendered by employees as of the valuation date. Accumulated plan benefits include benefits expected to be paid to (1) retired or terminated employees or their beneficiaries, (2) beneficiaries of employees who have died, and (3) present employees or their beneficiaries. Benefits payable under all circumstances — retirement, death, disability and termination of employment — are included to the extent they are deemed attributable to employee service rendered prior to the valuation date. The actuarial present value of accumulated plan benefits is determined by an independent actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment. The actuarial present value of accumulated plan benefits are presented using beginning of year benefit information date.

The actuarial present value of accumulated plan benefits as of June 30, 2020, the measurement date, is as follows:

	2020
Vested benefits:	
Participants and/or beneficiaries currently receiving benefits	\$ 1,124,638,288
Other participants	<u>368,384,054</u>
Total vested benefits	1,493,022,342
Nonvested benefits	<u>7,573,834</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 1,500,596,176</u>

The changes in the actuarial present value of the Plan's accumulated plan benefits for the year ended June 30, 2020, are as follows:

	2020
Actuarial present value of accumulated plan benefits — beginning of period	\$ 1,482,024,912
(Decrease)/increase attributable to:	
Actuarial (gains)/losses	(3,253,988)
Interest due to the decrease in the discount period	78,353,624
Benefits paid	(114,827,093)
Assumption changes	58,298,721
	<hr/>
Actuarial present value of accumulated plan benefits — end of period	\$ 1,500,596,176
	<hr/>

The significant actuarial assumptions used in the June 30, 2020 and 2019, valuations were:

Mortality — 2020: The Pri-2012 Healthy White Collar Mortality Tables with separate mortality rates for annuitants and non-annuitants rolled back to 2006 with MP-2014, then projected generationally using Scale MP-2019 was used for healthy lives.

2019: The RP-2014 Healthy White Collar Mortality Tables with separate mortality rates for annuitants and non-annuitants rolled back to 2006 with MP-2014, then projected generationally using Scale MP-2018 was used for healthy lives.

Retirement — Active participants are assumed to retire at the following rates, provided they are eligible at such age:

Age	Retirement Rate	Age	Retirement Rate
<55	0.0%	63	20.0%
55	7.5%	64	20.0%
56	7.5%	65	50.0%
57	7.5%	66	30.0%
58	7.5%	67	30.0%

The foregoing actuarial assumptions are based on the presumption that the Plan will continue indefinitely. If the Plan were to be terminated, different actuarial assumptions and other factors would be applicable in determining the actuarial present value of accumulated plan benefits.

6. INTEREST IN MASTER TRUST

The Plan's investment assets are held in a trust account at the Trustee and consist of an undivided interest in an investment account of the Master Trust, a master trust established by the Company and administered by the Trustee. Use of the Master Trust permits the commingling of trust assets with the assets of the Procter & Gamble Puerto Rico Pension Plan and The Gillette Company Retirement Plan for Collectively-Bargained Employees for investment and administrative purposes. The Trustee maintains supporting records for the purpose of allocating the net gain or loss of the investment account to the participating plans. The net investment income/(loss) of the investment assets is allocated by the Trustee to each participating plan based on the relationship of the interest of each plan to the total of the interests of the participating plans.

The net assets and investments of the Master Trust and the Plan's interest in the Master Trust at June 30, 2021 and 2020, are summarized as follows:

	2021		2020	
	Master Trust	Plan's Interest in Master Trust*	Master Trust	Plan's Interest in Master Trust*

7. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

The Company is a party-in-interest, as defined by ERISA. However, the administrative exemption provided under ERISA allows the Company to provide administrative services to the Plan. There were no fees paid by the Plan to the Company for administrative services for the years ended June 30, 2021 and 2020.

State Street served as the asset custodian of the Master Trust. The Plan invested in funds that were managed by State Street through the Plan's investment in the Master Trust. Therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan to State Street for the investment management and custodial services were \$391,963 and \$624,208 for the years ended June 30, 2021 and 2020, respectively.

Effective November 1, 2020, Northern was appointed custodian of the Master Trust. Fees paid to Northern for investment management and custodial services were \$60,399 for the year ended June 30, 2021.

8. FEDERAL INCOME TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated March 27, 2017, that the Plan was designed in accordance with the applicable regulations of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter from the IRS. The Plan is subject to routine audits by taxing jurisdictions at any time. The Company and the Plan administrator have concluded that the Plan, as designed and operated, complies with the applicable requirements of the IRC and the Plan remains tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

9. INFORMATION CERTIFIED BY THE TRUSTEES

The following is a summary of the unaudited information regarding the Plan as of June 30, 2021 and 2020 and for the years then ended, included in the Plan's financial statements that was prepared by or derived from information prepared by the Trustees and furnished to the Plan administrator. The Plan administrator has obtained certifications from the Trustees that such information is complete and accurate.

* Includes the net appreciation in value of the Plan's investments (including securities bought and sold as well as held during the years ended June 30, 2021 and 2020).

10. PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan, in certain circumstances, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event the Plan is terminated, the net assets of the Plan will be allocated for payment of plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations thereunder, and the Plan documents.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early

retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty while other benefits may not be provided for at all.

11. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net investments per the financial statements to the Form 5500 as of June 30, 2021 and 2020:

Actuarial value of assets for determining minimum required contributions

An average value of assets is determined based on the market value as of the valuation date and the market values on the two preceding 12 month periods. Adjustments are made to the asset values for contributions, benefit payments, expenses, and expected investment returns over the period between the respective preceding determination dates and the current valuation date, as applicable.

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued.

Data Sources

Procter & Gamble and other persons or organizations designated by Procter & Gamble furnished participant data as of July 1, 2020. Data were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Source of Prescribed Methods

Funding methods

The methods used for funding purposes, including the method of determining plan assets, are "prescribed methods set by law," as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in assumptions since prior valuation

- The segment interest rates used to calculate the funding target and target normal cost were updated from an applicable month of March 2019 to March 2020 and subsequently revised by applying the corridors of HATFA to determine minimum funding requirements and benefit restrictions.
- The required mortality table used to calculate the funding target and target normal cost was updated to reflect the tables prescribed by the IRS for 2020.
- The assumed plan-related expenses added to the target normal cost were changed from \$3,180,030 for the prior valuation to \$3,000,000 for the current valuation.

Quantify

Quantify is the Willis Towers Watson centrally developed, tested and maintained Global actuarial valuation system. It is used to perform valuations of clients' benefit plans.

Quantify provides the ability to process data, calculate benefits and value benefit liabilities, develop results using applicable standards, and generate client reports.

Quantify parameters provide significant flexibility to model populations and plan designs. Various demographic, economic and benefit related assumptions exist for users to model multiple demographic and economic situations.

Plan liabilities are calculated based on standard actuarial techniques, developing actuarially reasonable results using the population and parameters entered. The calculation and presentation of liabilities in Quantify relies on the assumptions used and the reasonability of the assumptions selected.

Quantify incorporates standard liability methodologies that are intended to reasonably reflect a variety of economic or demographic conditions. The model itself does not evaluate any assumptions entered for reasonableness, consistency or probability of occurrence.

Quantify is designed specifically for these purposes, and we know of no material limitations that would prevent the system from being suitable for these intended purposes. The actuaries signing this report have relied on the actuaries who develop, test and maintain this system, and have also performed a limited review of results to ensure that system parameters have been set appropriately and plan provisions coded correctly.

Quantify FR

Quantify Financial Reporting (FR) is intended to calculate funding results, accounting results and produce the associated client reports under selected accounting standards. The calculations and reports are based on various user specified inputs including liability results and asset values.

Quantify FR develops valuation results for various accounting and funding purposes using standard actuarial techniques.

Calculation of disclosure liabilities and results are based on roll forward liabilities.

SCHEDULE SB ATTACHMENTS

Liability roll-forwards are used in accounting scenarios where the date as of which liabilities are valued does not coincide with the fiscal year measurement date. The roll-forwards consist of adjusting liabilities for the passage of time.

The estimate of the following year's expense is calculated based on the obligations and assets used for disclosure and incorporates service cost that may be based on a projection in the associated Quantify liability run, depending on the relationship of the liability valuation date to the fiscal year.

The Roll Forward accounting calculations assume that applicable rules will not change during the roll-forward period. Actuaries make adjustments to the data, plan provisions and assumptions reflected in the calculation of the liabilities that are rolled forward so that the results reflect conditions at the measurement date, and/or make similar adjustments to the results of the roll forward, including reflecting any changes in applicable accounting standards.

is limited to 50 years. No benefit service will be credited after July 30, 1991.

Vesting service	Vesting service is used to determine a participant's eligibility for vested benefits under the plan. It is determined in completed full years and months, and is based on the period of employment from date of hire, subject to the break-in-service provisions of the Plan.
Compensation	Compensation is defined as total W-2 pay before any salary reduction, with certain specified exclusions, (including payments pursuant to the Procter & Gamble Profit Incentive Plan) and with certain specified adjustments. Compensation includes salesperson bonus payments and executive additional compensation.
Final average monthly compensation	Final average monthly compensation is 1/36 of compensation during the three consecutive calendar years (out of the last ten completed before retirement or termination) during which pay was highest.
Final monthly compensation	One-twelfth of the compensation in the highest-paid year used in determining final average monthly compensation.
Primary social security benefit	The Primary Social Security benefit is the monthly amount available at age 65 under the Federal Social Security Act in effect at the earlier of termination of employment or normal retirement age. Wage increases prior to hire are assumed from the later of age 22 or January 1, 1951, to be in accordance with national average wage increases (as determined by the Social Security Administration) to the rate in effect when hired. For participants who terminate after attaining early retirement age or becoming eligible for disability benefits, no future earnings are assumed after termination. For other participants, constant earnings are assumed to age 65 at the rate in effect at termination. Participants are deemed to have terminated on the earlier of their termination date or July 30, 1991. No wages paid after December 31, 1990, shall be included.
Normal retirement date (NRD)	First day of the calendar month following the month in which a participant attains normal retirement age.
Monthly pension benefit	The monthly normal retirement benefit is the greater of (a), (b), and (c): (a) 50% of final average monthly compensation less 50% of the Primary Social Security benefit, multiplied by the ratio of benefit service (maximum 35) to 30.

(b) 1% of final average monthly compensation multiplied by benefit service (maximum 35), with a maximum of 80% of final monthly compensation less 100% of the Primary Social Security benefit.

(c) \$20 per month per year of service.

Benefit accruals were frozen effective July 30, 1991.

Minimum benefit

For employees who were retirement eligible as of January 1, 1987, a minimum benefit is provided. This minimum is equal to the benefit which the employee would have received if the plan as in effect December 31, 1987, had continued without change.

Frozen benefit:

Greenville

Benefits for the Greenville salaried employees were frozen as of July 1, 1987. Benefits were calculated based on service accrued to June 30, 1987, and on average final earnings calculated as of June 30, 1987. The monthly benefit is payable at normal retirement age and is reduced 5/9% for each month (maximum of 60) by which payments precede age 65 and 5/18% for each month by which payments precede age 60.

Norwich Salaried

Benefits for the Norwich Salaried employees were frozen as of July 30, 1991. Benefits were calculated based on service accrued to July 30, 1991, and on average final earnings calculated as of July 30, 1991. The monthly benefit is payable at normal retirement age and is reduced by 1/3% for each month by which the first payment precedes age 62. The maximum reduction is 28% at age 55.

Eligibility for Benefits

Normal retirement

A participant is eligible for normal retirement at age 65 and after reaching the 5th anniversary of plan participation.

Early retirement

A participant who has attained age 55 and completed five years of vesting service is eligible for a retirement benefit.

Postponed retirement

Retirement after NRD

Deferred vested termination

A participant whose employment terminates after at least five years of vesting service is eligible for a benefit beginning no earlier than age 55.

Special Vesting Provision: All employees who were participants as of June 30, 1991, are fully vested in the benefit accrued as of June 30, 1991, under provisions of the plan as in effect on that date.

Disability There is no specific disability benefit under the plan, but a disabled participant (one receiving long-term disability benefits under an employer plan) with at least 15 years of service may count such period of disability as service towards his eventual retirement benefit.

Preretirement death benefit If a participant dies after attaining age 55 or completing five years of vesting service, but before his normal retirement age and after being married at least one year, his spouse is eligible for a preretirement spouse's death benefit. This applies to active participants, disabled participants with at least five years of service at time of disability, terminated vested participants, and early retirees.

Benefits Paid Upon the Following Events

Normal retirement The monthly pension benefit determined as of NRD

Early retirement For the Greenville salaried employees and other salaried employees who terminated prior to January 1, 1987: The monthly benefit is computed as for normal retirement and then reduced 5/9% for each month (maximum of 60) by which the first payment precedes age 65 and 5/18% for each month by which the first payment precedes age 60.

For salaried employees who terminated after January 1, 1987: The monthly benefit is computed as for normal retirement and then reduced by 1/3% for each month by which the first payment precedes age 62.

Postponed retirement The monthly benefit is computed as for normal retirement, recognizing pay and service credited after normal retirement age.

Deferred vested termination The monthly benefit is computed as for early retirement.

Disablement Not applicable.

Preretirement death The monthly annuity is equal to 50% of the actuarially equivalent joint and 50% spouse's annuity which would have been payable to the participant at the later of normal retirement age or his date of death. Payments to the spouse will commence no earlier than the date that the employee would have first been eligible for early retirement benefits.

Primary Social Security benefit

The Primary Social Security benefit is the monthly amount available at age 65 under the Federal Social Security Act in effect at the earlier of the termination of employment or normal retirement age. Wage increases prior to hire are assumed from the later of age 22 or January 1, 1951, to be in accordance with national average wage increases (as determined by the Social Security Administration) to the rate in effect when hired. For an early retirement benefit, no future earnings are assumed after termination. For other benefits, constant earnings are assumed to age 65, at the rate in effect at termination.

Normal retirement date (NRD)

First day of the calendar month following the month in which a participant attains normal retirement age.

Monthly pension benefit

The monthly normal retirement benefit is 52% of final average monthly compensation less 50% of Primary Social Security benefit, reduced proportionately for credited service of less than 30 years. Up to 34/30^{ths} of the benefit formula can be earned based on service for employees active on October 31, 1976.

Minimum benefit

The minimum monthly benefit is equal to the product of years of benefit service, up to a maximum of 30* years, times the applicable monthly minimum benefit factor from the table below:

A participant who becomes incapable of fully performing the duties of his employment after completing ten years of service and after attaining age 55 is eligible for an incapacity benefit.

Preretirement death benefit If a participant dies after attaining age 55 or completing five years of vesting service, but before his normal retirement age and after being married at least one year, his spouse is eligible for pre-retirement spouse's death benefit. This applies to active participants, disabled participants with at least five years of service at time of disability, terminated vested participants, and early retirees.

Benefits Paid Upon the Following Events

Normal retirement The monthly pension benefit determined as of NRD.

Early retirement *For hourly non-bargained (Greenville) employees and other hourly employees who terminated prior to April 1, 1986:*
The monthly benefit is computed as for normal retirement and then reduced 5/9% for each month (maximum of 60) by which the first payment precedes age 65 and 5/18% for each month by which the first payment precedes age 60.

For hourly employees who terminated between April 1, 1986 and January 22, 1989:

The monthly benefits is computed as for normal retirement and then reduced by 4% per year prior to age 65.

For hourly employees who terminated after January 22, 1989:

The monthly benefit is computed as for normal retirement and then reduced by 10% at age 61 and 5% per year from age 61 to age 55.

Postponed retirement The monthly benefit is computed as for normal retirement, recognizing pay and service credited after normal retirement age.

Early retirement	The monthly benefit as computed for normal retirement, based on years of service and average annual compensation as of the employee's early retirement date. The benefit for the first 25 years of service is reduced for early commencement by the lesser of (i) 1/4% for each month by which the commencement precedes normal retirement date, or (ii) 1½% multiplied by the difference between 100 and the sum of the employee's age and service. At normal retirement date the benefit is recomputed to reduce this early retirement benefit by 75% of the employee's Social Security benefit under the Social Security Act as in effect on the employee's early retirement date and to take into account the Plan's minimum annual benefit.
Postponed retirement	The monthly benefit is the benefit as for normal retirement, based on years of service, average annual compensation, and the primary Social Security benefit as of the employee's normal retirement date.
Deferred vested termination	A vested benefit based upon the normal benefit formula, average annual compensation and service up to date of termination is payable commencing at normal retirement date. In these computations, the applicable minimum rule would apply and an estimated Social Security benefit would be taken into account. The applicable minimum is the projected normal retirement benefit (assuming participant worked until age 65), multiplied by a fraction, the numerator of which is the participant's credited service at termination date, and the denominator of which is the credited service the participant would have accrued had he continued employment and participation in the plan until age 65.
Disablement	The monthly benefit as computed for normal retirement, based on average annual compensation and service as of date of disability, less 64% of the employee's Social Security disability benefit; no reduction is applied to this benefit for commencement prior to normal retirement date.
Preretirement death	The benefit equals 50% of the employee's accrued benefit reduced for early commencement, reduced for joint and survivor option and under prior election further reduced for the joint and survivor option in excess of 50%.

Other Plan Provisions

Optional reduced benefit	Provisions are made for employees to elect an option whereby the pension is reduced but is continued for the life of a designated beneficiary if such beneficiary survives the retired employee. In the event that an employee is married upon his date of retirement and does not elect another option, he will be considered to have elected a 50% joint and survivorship benefit with his spouse as beneficiary.
Pension benefit increases	<p>A 6% benefit increase was extended to pensioners in September 1986. This increase was subject to an annual minimum increase of \$300 and an annual maximum increase of \$960.</p> <p>A 7% benefit increase was extended to pensioners in February 1990. This increase was subject to an annual minimum increase of \$360 and an annual maximum increase of \$1,200 (the \$360 increase was payable from February 1990 through July 1991; effective August 1991, increase amounts in excess of \$360 up to \$1,200 were payable from the Plan).</p> <p>An 8% benefit increase was extended to pensioners in May 1993. This increase was subject to an annual minimum increase of \$360 and an annual maximum increase of \$1,200.</p> <p>A 7% benefit increase was extended to pensioners in June 1998 (excluding former vested terminated participants). This increase was subject to an annual minimum increase of \$360 and an annual maximum increase of \$1,200.</p> <p>Effective January 1, 2002, retirees whose pensions are limited by the Internal Revenue Code Section 415 defined benefit plan limitation had their benefits indexed up to reflect changes in benefit limits under EGTRRA.</p>
Limitation on compensation and benefits	The Internal Revenue Code Section 401(a)(17) pension pay limitation and the Section 415 defined benefit plan maximum dollar limitation restrict the amount of pension payable from the Plan.

The Procter & Gamble Master Retirement Plan Retirement Plan for Employees of the Wella Corporation

Supplement O, Part B

Plan Provisions

Covered employees	The plan covers all eligible employees of the Wella Corporation.
Participation date	Covered employees hired on or before December 31, 2000 are eligible to participate in the plan. Employees hired after December 31, 2000 who are employed at a United States location are not eligible for the Plan. Employees of Sebastian International, Inc. are not eligible to participate in the Plan.

Definitions

Benefit service	Benefit Service is used to determine the amount of a participant's benefit. Each Active Member receives one month of Benefit Service for each month he or she is employed by the Company. No additional benefit service will be credited after December 31, 2008 for employees at the California location.
Vesting service	Vesting Service is used to determine a participant's eligibility for vested benefits under the plan. It is determined in completed full years and months, and is based on the period of employment from date of hire, subject to the break-in-service provisions of the Plan and excluding service before age 18.
Compensation	<p>Compensation is defined as basic wages, excluding overtime pay, bonuses, and other forms of extra compensation.</p> <p>Compensation during a period of absence due to an approved leave of absence or Disability shall include imputed Compensation. Imputed Compensation shall be based on Compensation reasonably representative of what such Member would have received during the period if the Member had continued to perform services. Compensation after December 31, 2008 will not be recognized for employees at the California location.</p>
Average compensation	The compensation averaged over the 36 consecutive months which produce the highest average of the last 120 months.

SCHEDULE SB ATTACHMENTS

Normal retirement date (NRD)	First day of the calendar month following the month in which a participant attains normal retirement age (age 65).
Monthly pension benefit	<p>The monthly normal retirement benefit is equal to 1% of Average Compensation times the full and fractional years of Benefit Service.</p> <p>This benefit is offset by any pension benefits provided under other pension plans sponsored by the Parent Corporation of The Wella Corporation or any affiliates or subsidiaries of the Parent Corporation.</p>

Eligibility for Benefits

Normal retirement	A participant is eligible for normal retirement at age 65.
Early retirement	A participant who has attained age 55 and completed five years of vesting service is eligible for a retirement benefit.
Postponed retirement	Retirement after NRD.
Deferred vested termination	A participant whose employment terminates after at least five years of vesting service is eligible for a benefit beginning no earlier than age 55.
Disability	There is no specific disability benefit under the plan.
Preretirement death benefit	If a participant dies after attaining age 55 or completing five years of vesting service, but before his normal retirement age and after being married at least one year, his spouse is eligible for a pre-retirement spouse's death benefit. This applies to active participants and terminated vested participants.

Benefits Paid Upon the Following Events

Normal retirement	The monthly pension benefit determined as of NRD
Early retirement	The monthly benefit is computed as for normal retirement, except based on earnings and service as of Early Retirement. The benefit is then reduced 5/9% for each month (maximum of 60) by which the first payment precedes age 65 and 5/18% for each month by which the first payment precedes age 60.

SCHEDULE SB ATTACHMENTS

Postponed retirement	The monthly benefit is the greater of: 1) the benefit computed as for normal retirement, recognizing pay and service credited after normal retirement age and 2) the age 65 benefit actuarially increased for each year that retirement is delayed.
Deferred vested termination	The monthly benefit is computed as for normal retirement, except based on earnings and service as of termination of Employment. Benefits beginning before Normal Retirement Age are reduced 5/9% for each month (maximum of 60) by which the first payment precedes age 65 and 5/18% for each month by which the first payment precedes age 60.
Disablement	Not applicable.
Preretirement death	The monthly annuity is equal to 50% of the actuarially equivalent Joint and 50% Survivor annuity which would have been payable to the participant at the later of normal retirement age or his date of death. Payments to the spouse will commence no earlier than the date that the employee would have first been eligible for early retirement benefits.

Other Plan Provisions

Normal form of payment	Life annuity with 120 payments guaranteed. However, unless a married participant otherwise elects, the benefit is automatically converted to an actuarially equivalent Joint and 50% Survivor annuity.
Optional forms of payment	<ul style="list-style-type: none">■ Straight Life Annuity■ 50%, 75% or 100% Joint and Survivor Annuity
