Wrike 401(k) Plan

Notes to Financial Statements

NOTE 1 – DESCRIPTION OF PLAN

The following description of the Wrike 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement, as amended, for a more complete description of Plan provisions.

General – The Plan was a 401(k) salary deferral plan covering substantially all employees of Wrike, Inc. (the “Company”) and was subject to provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”). The Company was the Plan’s sponsor and served as plan administrator.

The Company had contracted with Vanguard Retirement Plan Services (“Vanguard”), a subsidiary of Vanguard Group, Inc., to process and maintain records and participant data through Ascensus, a subcontractor for Vanguard.

Ascensus, LLC, an affiliate of Ascensus Trust Company, a subsidiary of Ascensus, acted as the trustee and custodian.

During 2021, in conjunction with the acquisition of the Company by Citrix Systems, Inc., the Board of Directors of the Company, voted to terminate the Plan effective February 25, 2021. All participants became fully vested as of the termination date. All assets were liquidated and fully distributed as of June 4, 2021 in accordance with ERISA.

Eligibility – Employees of the Company were eligible to participate in the Plan upon reaching age 21 and after completing two months of service.

Contributions

Participant contributions – Prior to February 25, 2021, participants were able to contribute between 1% and 90% of pre-tax annual compensation, as defined in the Plan. Participants were also able to elect to make Roth contributions utilizing after-tax contributions. Participants who had attained age 50 before the termination of the Plan were eligible to make catch-up contributions. Participants were also able to contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Plan included an auto-enrollment provision whereby all newly eligible employees were automatically enrolled in the Plan unless they affirmatively elected not to participate in the Plan. Automatically enrolled participants had their deferral rate set at 4% of eligible compensation and their contributions invested in a designated fund until elected otherwise by the participant.

Contributions were subject to regulatory limitations.

Participant accounts – Each participant’s account was credited with the participant’s contributions. Allocations were based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled was the benefit that could have been provided from the participant’s account. Participants directed the investment of their accounts into various investment options offered by the Plan.

Vesting – Participants were vested immediately in their contributions plus actual earnings thereon.

Notes receivable from participants – Participants were able to borrow from their accounts a minimum of \$500 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. The loans were issued by the Plan and secured by the balance in the participant's account. All loans were required to be repaid within a period of five years, unless the loan was used to purchase a principal residence, in which case, the loan were required to be repaid within a reasonable period of time not to exceed 30 years. Under the terms of the Plan Agreement, Plan loans bore an interest rate of prime rate plus 2% determined by the plan administrator. Following the termination of the Plan, certain eligible participants were able to elect to roll their outstanding notes receivable balance into the Citrix 401(k) Plan. Any outstanding notes receivable balances that were not rolled into the Citrix 401(k) Plan are included in the distribution on the statement of changes.

Payment of benefits – Upon termination of service due to death, disability, or retirement, a participant could have elected to receive either a lump sum, installments, or partial amount equal to the value of the participant's interest in his or her account. For termination of service for other reasons, a participant could have received the value of the interest in his or her account as a lump-sum distribution. The Plan allowed for automatic lump-sum distribution for accounts with less than \$1,000. Following the termination of the Plan, all participants were given 60 days to request a distribution of their account balances. Certain eligible participants hired by Citrix were able to elect to rollover their account balances into the Citrix 401(k) Plan. Any participant account balances remaining as of June 4, 2021 were automatically distributed into an individual retirement account (IRA) account. All participant account balances were distributed from the Plan by June 4, 2021.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting – The financial statements are prepared on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP). As all assets were liquidated on June 4, 2021, in accordance with U.S. GAAP, the Plan used the liquidation basis of accounting in presenting the 2021 financial statements.

Use of estimates – The preparation of financial statements in conformity with U.S. GAAP requires the use of estimates and assumptions that may affect certain amounts and disclosures. Accordingly, actual results could differ from those estimates.

Investment valuation – The investments were reported at fair value. The Plan's trustee, Ascensus, as agent for Ascensus Trust Company, certified the fair value of all investments. If available, quoted market prices were used to value investments.

Fair value was the price that would be received to sell an asset or paid to transfer a liability (the "exit price") in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Income recognition – Purchases and sales of securities were recorded on a trade-date basis. Dividends were recorded on the ex-dividend date. Interest income was recorded on the accrual basis. The net appreciation in fair value of investments consisted of both the realized gains and losses and unrealized appreciation and depreciation on those investments.

Wrike 401(k) Plan

Notes to Financial Statements

Notes receivable from participants – Notes receivable from participants were measured at amortized cost, which represents unpaid principal balance plus accrued but unpaid interest. Delinquent notes receivable from participants were reclassified as distributions upon the occurrence of a distributable event, based upon the terms of the plan document.

Payment of benefits – Benefits were recorded when paid.

Expenses – The Plan's administrative expenses may be paid out of the forfeiture account or paid by the Company. Investment management, distribution, and loan transaction fees were paid by the Plan participants.

NOTE 3 – FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation techniques used for assets measured at fair value.

Registered investment companies (mutual funds and money market funds) – Valued at the daily closing price as reported by the fund. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The funds held by the Plan are deemed to be actively traded. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission.

Wrike 401(k) Plan Notes to Financial Statements

The table discloses the fair value hierarchy of the Plan's assets by level as of December 31, 2020:

	Fair Value Measurement at December 31, 2020			
	Level 1	Level 2	Level 3	Total
Registered investment companies	\$ 8,702,355	\$ -	\$ -	\$ 8,702,355
Total assets in the fair value hierarchy	<u>\$ 8,702,355</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 8,702,355</u>

NOTE 4 – TAX STATUS

The plan document was a prototype standardized defined contribution plan that received a favorable opinion letter from the Internal Revenue Service dated July 1, 2018, which stated that the Plan, as then designed, was in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since the date of the opinion letter, the plan administrator believed that the Plan was designed and was being operated in compliance with the applicable requirements of the IRC.

In accordance with guidance on accounting for uncertainty in income taxes, the plan administrator had evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 5 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility, and credit risks. It is reasonably possible, given the level of risk associated with investment securities, that changes in the values of the investments in the near term could materially affect a participant's account balance and the amounts reported in the statement of net assets available for benefits.

NOTE 6 – INFORMATION CERTIFIED BY THE TRUSTEE

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Ascensus, as agent for Ascensus Trust Company, the trustee of the Plan, has certified to the completeness and accuracy of:

- Investments and notes receivable from participants reflected on the accompanying statements of net assets available for benefits as of June 4, 2021 and December 31, 2020.
- Net appreciation in fair value of investments, dividends, and interest, and interest income on notes receivable from participants reflected on the accompanying statement of changes in net assets available for benefits for the period January 1, 2021 through June 4, 2021.
