1. Description of the Plan

The following description of the Boettcher-Hlavinka 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of Boettcher-Hlavinka Company (the "Company") who have one year of service and 1,000 hours of service, as defined by the Plan, and are age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Company is the Sponsor of the Plan.

Contributions

Each year, participants may contribute up to 15% of pretax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers a money market fund and a selection of mutual funds provided by the Plan trustee, Hartford Life Insurance Company. The Plan provides for discretionary matching contributions on pre-tax contributions in an amount determined on an annual basis by the Company. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of Plan earnings and the Company's contribution and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants vest immediately in their contributions, rollover contributions and actual earnings thereon. Vesting in the Company's contribution portion of their accounts and actual earnings thereon is based on years of continuous service. A participant is 100% vested after six years of service.

Participant Loans

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of the lesser of $50,000 or 50% of their vested account balance. The $50,000 loan limit is reduced by the highest outstanding loan balance(s) of any similar loans to the participant during the one-year period ending before the loan date. All loans must be repaid within five years by monthly withdrawals from the participant's paycheck. Loan interest rates are determined by the Plan administrator at the time of request, based on market rates for similar loans.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum distribution equal to the vested interest of his or her account, or annual installments over a ten-year period. For termination of service due to other reasons, a participant may receive the value of the vested interest of his or her account as a lump-sum distribution.

Forfeitures
In the event a participant terminates before becoming 100% vested in the employer contributions, the nonvested employer contribution amounts held in the participant's account will be forfeited. If the terminated participant receives a distribution from the vested portion of his account, the nonvested amounts remaining in the participant's account are treated as a forfeiture. Forfeited amounts are used to reduce future employer contributions. At June 30, 2021 and 2020, there was $7,879 and $7,322, respectfully, in forfeited funds.

Expenses
All expenses of administration will be paid by the Plan unless paid by the Company. The Company may reimburse the Plan for administrative expenses. Such reimbursement, if any, is not considered an employer contribution.

2. Summary of Significant Accounting Policies

Basis of Accounting
The Plan's financial statements are prepared on the accrual basis of accounting. Benefits paid to participants are recorded when paid.

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition
Investments in registered investment companies are valued at quoted market prices, which represent the net asset value of shares held by the Plan as of the balance sheet date. Participant loans are valued at cost, which approximates fair value.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded at ex-dividend date. Interest income is recorded on the accrual basis. Capital gain distributions are included in interest and dividend income.

Net Appreciation (Depreciation) in Fair Value of Investments
Net appreciation (depreciation) in fair value of investments includes realized gains and losses on the sale of investments and unrealized appreciation (depreciation) of investments in accordance with the rules enacted by the Department of Labor. The computation of realized gains and losses on the sale of investments is based on the fair value (rather than historical cost) of Plan assets at the beginning of the year or at the time of purchase if purchased during the year, compared to the sale price of the investment. The computation of unrealized appreciation (depreciation) of investments is based on the difference, if any, between the fair value at the beginning of the year plus current purchases compared to the fair value at the end of the year.

Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1
Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2
Inputs to the valuation methodology include • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability; • inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3
Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30,, 2021 and 2020.

Common stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

Corporate bonds: Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

U.S. government securities: Valued using pricing models maximizing the use of observable inputs for similar securities.

All of the Plan's investments aggregating $6,054,190 and $4,583,654 at June 30, 2021 and 2020, respectively, were held in Mutual Funds. Accordingly, all of the Plan's investments were Level 1 under the fair value hierarchy.

Risks and Uncertainties

The Plan's investments, in general, are exposed to various risks, such as interest rate, credit and overall market volatility risk. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and amounts presented in the statements of net assets available for plan benefits.

3. Investment Contract with Insurance Company

The Plan entered into a group annuity contract with Hartford Life Insurance Company ("Hartford"). Hartford maintains the contributions in pooled separate accounts. Each participant owns units of participation in the investments they choose for their contributions. Contributions are pooled for investment purposes. Contributions that have not been directed by the participant are held in the general fund of the insurance company, until such direction is received.

4. Investments

The following presents investments at fair value that represent 5% or more of the Plan's net assets. All plan investments are offered through a group annuity contract (Note 3). Investments are held in pooled separate accounts and are directed by the participants in the Plan.

5. Related Party Transactions

Certain Plan investments are managed by Hartford Life Insurance Company ("Hartford"). Hartford is the trustee and recordkeeper for the Plan and, therefore, these transactions qualify as related party transactions.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

7. Tax Status

The Internal Revenue Service has determined and informed the Company by letter that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC).
