General

The Plan was adopted on January 1, 2015 and qualifies as a defined contribution retirement plan covering substantially all eligible employees of Rahi System Inc. This Plan was established for the purpose of providing retirement benefits to eligible employees in accordance with the Plan. The Plan is intended to satisfy the provisions of Section 401(a) of the Internal Revenue Code (“IRC”) of 1986, as amended. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Plan Administration

Rahi System, Inc. is the Plan’s sponsor and serves as plan administrator. Reliance Trust Company is the Asset Custodian (the “Custodian”) of the Plan.

Participant Eligibility

Each of the Company’s employees is eligible to participate in the Plan if they have completed 6 months of Service. Once the eligibility requirements have been met, employees may enroll in the Plan on the date of eligibility.

Contributions

The Company’s eligible employees may contribute up to the 402(g) limit and/or the Actual Deferral Percentage (ADP) test limit for highly compensated employees. The 402(g) limit for 2019 was \$19,000. Participants may also rollover amounts representing distributions from other qualified plans. In addition, all eligible employees who have attained age 50 before the close of the Plan year shall be eligible to make catch-up contributions in accordance with, and subject to the limitations of, Code Section 414(v). For 2019, the maximum catch-up contribution limit was \$6,000.

The Company will make a Safe Harbor Matching Contribution equal to 100% on the first 3% of the eligible earnings that an employee defer as an Elective Deferral and an additional 50% on the next 2% of the eligible earnings that an employee defer as an Elective Deferral.

An employee must make Elective Deferrals in order to receive the Safe Harbor Matching Contribution. The matching contributions made on behalf of all eligible employees for the year ended December 31, 2019 is \$439,040.

Participant Accounts

Each participant’s account is credited with the participant’s allocation of (a) the participant’s contribution, (b) rollover contribution from other qualified plans, (c) employer’s matching contribution, and (d) Plan earnings. Contributions made on behalf of the participants are invested in various funds according to participant elections. Participants may change investment elections at any time via internet access or submit election change forms to the Plan Administrator.

NOTE 1 - SUMMARY OF THE PLAN (CONTINUED)

Investment Options

All accounts are invested in accordance with the terms of the Plan document and investment options elected by participants. Participants direct the investment of their contributions into various investments offered by the Plan.

Vesting

Participants are one hundred percent (100%) vested in their contributions plus actual earnings thereon. Participants become vested in their Company matching contributions and non-elective contribution account and any earnings as follows:

<u>Employer Matching</u>	
Years of Service	Vested Interest (%)
Less than 2 years	0%
At least 2 years, but less than 3	20%
At least 3 years, but less than 4	40%
At least 4 years, but less than 5	60%
At least 5 years, but less than 6	80%
6 Years or more	100%

Company contributions and related earnings become fully vested if the participant becomes permanently disabled or dies.

Notes Receivable from Participants

A participant may borrow a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of his or her vested account balance. The notes must be repaid within 5 years, unless for the purchase of a primary residence. The notes are secured by the balance of the participant's account. Principal and interest is paid ratably through payroll deductions. All notes must be adequately secured and accrue interest at the current prime rate plus 2% per annum as of the date of the loan.

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative costs and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2019 and 2018. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced, and a benefit payment is recorded. The current interest rates on existing loans are ranging from 6.00% to 7.50%.

Payment of Benefits

In the event of retirement, hardship, death, disability or termination, the participants or beneficiary may elect to receive a lump-sum payment, make a partial withdrawal, or rollover the balance in their account to an eligible retirement plan as soon as administratively possible. If upon termination, the participant has not elected to receive or rollover their balance and, if the balance does not exceed \$5,000, the trustee will follow the Plan's provisions for a mandatory distribution.

Any withdrawals made prior to the participant attaining age 59½ for any reason are subject to a 10% federal excise tax.

NOTE 1 - SUMMARY OF THE PLAN (CONTINUED)

Hardship Distributions

A participant may elect a hardship distribution if it is deemed that the participant has an immediate and heavy financial need as described by the Plan. Any hardship withdrawals made prior to the participant attaining age 59½ will be subject to the applicable federal and states taxes and/or penalties.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan have been prepared in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP"). A summary of the significant accounting policies applied in the preparation of the accompanying financial statements follows.

Accounting Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of income and deductions during the reporting period. Actual results could differ from estimates.

Payment of Benefits

Benefits payments to participants are recorded upon distribution.

Administrative Expenses

A portion of the Plan's administrative expenses are absorbed by the Company. The Plan incurred \$1,995 of administrative expenses during the year ended December 31, 2019.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's investment committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and trustee.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments, bought and sold as well as held during the year. The mutual funds are recorded at quoted market prices.

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment Valuation and Income Recognition (Continued)

The three levels of the fair value hierarchy under the Financial Accounting Standards Boards (“FASB”) Accounting Standards Codification (“ASC”) 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability’s fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Mutual Funds: Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (“NAV”) and to transact at the price. The mutual funds held by the Plan are deemed to be actively traded and are classified as Level 1 investments.

Common collective trust: Valued based on the net asset value (“NAV”) of an insurance company separate account on which the crediting rate is based. The underlying fixed income securities of the separate accounts are valued on the basis of valuation furnished by approved independent pricing services. These services determine valuations for normal institutional-size trading units of such securities using model or matrix pricing.

Non-Discrimination for Employee and Employer Contributions

The Plan, as required by the IRC, performs annual tests between highly compensated participants versus non-highly compensated participants to ensure that highly compensated participants are not disproportionately favored under the Plan. If the Plan fails the tests, it must refund excess deferral contributions or make a Qualified Non-Elective Contribution (“QNEC”) for the non-highly compensated employees. Excess contributions that are refunded within two and a half months of the Plan year end are accrued as a liability on the statement of net assets available for benefits.

NOTE 6 - TAX STATUS

The Internal Revenue Service made a favorable determination in a letter dated March 31, 2014 stating that the Prototype Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Trustee, Plan sponsor and Plan administrator are not aware of any course of action or series of events that have occurred that would adversely affect the qualified status of the Plan. Therefore, no provision for income taxes has been included in the Plan's financial statements.

NOTE 7 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 8 - RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The information contained in the financial statements does not agree to the information contained in the Form 5500 as of and for the years ended December 31, 2019. The difference is due to the recording of employee contributions receivable, employer contributions receivable, and corrective distributions.

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500:

	<u>As of December 31,</u> <u>2019</u>
Net assets available for benefits per the financial statements	\$ 3,600,316
Less: employee contributions receivable	(42,150)
Less: employer contributions receivable	(16,379)
Add: corrective distributions payable	<u>4,925</u>
Net assets available for benefits per the Form 5500	\$ <u><u>3,546,712</u></u>

The following is a reconciliation of the change in net assets available for plan benefits per the financial statements to Form 5500 for the year ended December 31, 2019:

Change in net assets available for benefits per the financial statements	\$ 1,789,009
Less: employee contributions receivable - current year	(42,150)
Less: employer contributions receivable - current year	(16,379)
Add: corrective distribution payable -current year	<u>4,925</u>
Change in net assets available for benefits per the Form 5500	\$ <u><u>1,735,405</u></u>

NOTE 9 - SUBSEQUENT EVENTS

The COVID-19 pandemic impacted the United States during 2020 and significantly disrupted financial markets, economies, and continues to have impacts subsequent to December 31, 2019. As noted in the risk and uncertainties note, investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits. The Plan has evaluated and determined that no other events have occurred subsequent to the date of the statement of net assets available for benefits through March 29, 2022 the date which the financial statements were available to be issued, which require recording or disclosure in these financial statements.
