FNF CONSTRUCTION, INC. 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

PERIOD ENDED SEPTEMBER 30, 2021

1. Description of plan:

The following description of the FNF Construction, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions. The Plan was established in October 1989, and has been amended several times since that date.

General:

The Plan includes employees of FNF Construction, Inc. and FNF New Mexico, LLC, collectively referred to as the Sponsor.

The Plan is a defined contribution retirement plan with 401(k) provisions and covers all employees of the Sponsor who have completed one year of service and have been credited 1,000 hours of service and are not represented by a collective bargaining agreement or a nonresident alien living in the United States of America. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Plan termination:

Management of the Plan Sponsor voted to terminate the Plan effective February 4, 2021. At that time, all participants became 100% vested in their accounts. Final benefit payments to participants were completed on September 17, 2021. As of September 30, 2021, the Plan has no uncleared benefit payments.

Participants' contributions:

Under the 401(k) provisions of the Plan, the participants may elect to defer a portion of their pre-tax compensation up to current statutory limits determined annually and prescribed by the Internal Revenue Service (IRS). The Plan also permits participants to make additional voluntary contributions of qualified rollovers from other retirement plans.

The Plan also provides for Roth elective deferrals. Roth deferrals give participants the ability to make after-tax deferrals to the Plan.

Employer contributions:

The Plan allows for discretionary matching contributions on a pay period basis based on a dollar for dollar match with a maximum of \$2,500 for each plan year. The employer may also make discretionary profit-sharing contributions. Employees must be employed on the last day of the plan year and complete service requirements during the plan year in order to receive a discretionary profit-sharing contribution. There were no profit-sharing contributions made during the current plan year.

1. Description of plan (continued):

Participant accounts:

Each participant's account is credited with the participant's elective deferral, employer, and rollover contributions, actual earnings thereon, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting:

Participants are immediately vested in their elective deferral and any rollover contributions made to the Plan, plus actual earnings thereon. Vesting in the employer's discretionary matching and profit-sharing contribution portion of the participant's accounts, plus actual earnings thereon, is based on years of credited service. Prior to plan termination, participants vested at 20% annually, beginning with the completion of their first year and were fully vested after five years of credited service, or upon the normal retirement date. The Plan defines a year of credited service to be a Plan year (January 1 through December 31) with the participant rendering at least 1,000 hours of service. Upon death or total disability of a participant prior to retirement, the participant's account balance shall become fully vested.

Participants' loans:

The Plan allows for participants to obtain loans from the Plan. All loans require written spousal consent, cannot exceed 50% of the vested portion of the participant's account (or \$50,000 if less), and must be a minimum of \$1,000. The loan must be repaid within five years unless the entire proceeds are used to purchase the participant's primary residence, in which case the loan may be repaid over a ten-year period for new loans issued after July 31, 2017. Prior to July 31, 2017, repayment of loans for principal residence had a repayment period of twenty years. All loans will provide for the repayment of interest at rates commensurate with local prevailing rates, as determined by the Plan Administrator, on the date of the loan. The participant's individual account serves as collateral for the loan and, in the event of default, death, disability, or termination of employment, the entire outstanding principal and accrued interest shall be immediately due and payable. Because the participant's account collateralizes the loan in its entirety, the credit quality of the participant is not assessed by the Plan Administrator. Unpaid loans will be treated as a taxable distribution from the Plan.

For financial reporting purposes, participants' loans are included in the statement of net assets available for benefits as notes receivable from participants.

Investment options:

Upon enrollment in the Plan, a participant may direct contributions in any increments into any of several investment options. Participants may change their investment options inside the platform at any time.

1. Description of plan (continued):

Payment of benefits:

On termination of service due to disability, retirement, or other reasons, a participant whose vested account balance exceeds \$5,000 may elect to receive a lump-sum amount equal to the value of the participant's vested interest in their account, or installments under a systematic withdrawal plan, or may receive distributions in substantially equal installments, or partial withdrawals, provided the minimum withdrawal is \$1,000. Participants with account balances less than \$5,000 must take a lump-sum distribution as soon as practicable following termination. Mandatory automatic distributions under the Plan may be automatically rolled over to an IRA established on behalf of participants who do not affirmatively consent to receive their distributions. The plan document should be consulted for additional distribution methods available.

Forfeited accounts:

Forfeitures of terminated participants' non-vested account balances are to be used to reduce future payments of the employer's matching contributions and pay plan expenses.

Hardship withdrawals:

If approved by the Plan Administrator, a participant may withdraw a portion of their elective deferral account balance to satisfy any of the following immediate and heavy financial needs: unreimbursed medical expenses for qualified persons, purchase of a principal residence, to prevent eviction from or foreclosure on a principal residence, to pay for post-secondary education expenses for qualified persons, funeral expenses or for expenses that qualify as a casualty deduction under the Internal Revenue Code (IRC).

Coronavirus Aid, Relief, and Economic Security Act:

The Plan was amended to include the provisions of the Coronavirus Aid, Relief, and Economic Security (CARES) Act, which was signed into law on March 27, 2020, permitting coronavirus-related distributions and participant loan relief to eligible participants.

Setting Every Community Up for Retirement Enhancement Act:

The Plan was amended to include the provisions contained in the Setting Every Community Up for Retirement Enhancement (SECURE) Act, which was signed into law on December 20, 2019.

2. Summary of significant accounting policies:

Basis of accounting:

The financial statements of the Plan are prepared using the liquidation basis of accounting. There were no accounting adjustments required as a result of the switch from the accrual method (going concern basis) used in 2020 to the liquidation basis used for 2021.

FNF CONSTRUCTION, INC. 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

PERIOD ENDED SEPTEMBER 30, 2021

2. Summary of significant accounting policies (continued):

Estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition:

The Plan's investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of the fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Net appreciation in the fair value of investments includes both realized and unrealized gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants:

Notes receivable from participants are measured at their unpaid principal balance, plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the plan document. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred.

Payments of benefits:

Benefits paid to participants are recorded when paid.

Expenses:

Certain expenses of maintaining the Plan are paid by the Plan unless otherwise paid for by the Sponsor. Investment related expenses are included in net appreciation in fair value of investments.

Subsequent events:

The Plan has evaluated the events that have occurred subsequent to September 30, 2021 through March 18, 2022, the date that the financial statements were available to be issued. The Plan has no responsibility to update these financial statements for events and circumstances occurring after this date.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

3. Federal income tax status:

The Sponsor has adopted a volume submitter plan as published by the Standard Retirement Services, Inc. who obtained its latest advisory letter on March 31, 2014, in which the IRS stated that the Plan, as then designed, was in compliance with applicable sections of the IRC. The Plan has been amended since receiving the advisory letter. However, the Plan Administrator and the Sponsor believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified, and the related trust is tax-exempt.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

4. Fair value measurements:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets or active markets that the Plan does not have access to;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used maximize the use of observable inputs and minimize the use of unobservable inputs.

4. Fair value measurements (continued):

At December 31, 2020, the fair value of assets measured on a recurring basis is as follows:

	<u>Fair value</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>
Registered investment companies	<u>\$ 12,967,480</u>	<u>\$ 12,967,480</u>	<u>\$ -</u>	<u>\$ -</u>

The assets in the preceding tables were measured primarily using the market approach. Following is a description of the valuation methodologies used for assets measured at fair value.

Registered investment companies: Valued at the closing price reported in the active market in which the individual securities are traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. Investments:

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements, including investments and notes receivable from participants held at September 30, 2021 and December 31, 2020, and net appreciation in fair value of investments, interest, and dividends for the period ended September 30, 2021, was obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by Charles Schwab Trust Bank and Standard Insurance Company, the custodian and insurance company of the Plan.

FNF CONSTRUCTION, INC. 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

6. Investment contract with insurance company:

The Plan entered into benefit-responsive guaranteed investment contracts with the Standard Insurance Company (the Standard). The Standard maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and specified interest rate that is guaranteed to the Plan. The crediting interest rate is based on a formula established by the contract issuer but may not be less than 1% annually. The crediting rate is reviewed on a quarterly basis for resetting.

Because this guaranteed investment contract is benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to this guaranteed investment contract. Contract value, as reported to the Plan, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The Standard stable asset contract issuer is contractually obligated to repay the principal and a specific interest rate that is guaranteed to the Plan. The Standard stable asset contract does not have a redemption notice period and the redemption frequency is daily.

Certain events might limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA.

The fund was liquidated in 2021.

7. Related party and party in interest transactions:

Certain plan investments are managed by Charles Schwab Bank. The Plan paid certain expenses to Standard, the recordkeeper, and other service providers during 2021 related to plan administration and investments activity. These transactions qualify as exempt party in interest transactions under ERISA.

Expenses that are paid directly by the Sponsor are excluded from these financial statements. Employees of the Sponsor perform certain accounting and administrative functions for the Plan, however, no employee receives compensation from the Plan.
