Note 1 – Description of plan

The following description of Epic Sheet Metal, Inc. Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan. Employees of Epic Sheet Metal, Inc. (the "Company") become eligible to participate in the Plan on the first day of each calendar month following the date the employee completes two months of service, providing they are at least eighteen years of age and they are not a non-resident alien with no U.S. source income or subject to a collective bargaining agreement.

Contributions

Each year participants may contribute their eligible compensation, as defined in the Plan document, up to the annual limit allowed by the Internal Revenue Code. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Company may make non-elective contributions equal to a percentage of compensation or dollar amount per hour of service based on the Participant's classification. The non-elective contribution for the year ended December 31, 2019 was $0.50 per service hour for all eligible employees.

Rollover contributions

The Plan provides for rollover contributions, which represents contributions by participants from other tax qualified retirement plans. The maximum amount of a participant's rollover contribution is not affected by the limits otherwise applicable to participant contributions.

Participant accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contribution, and (b) Plan earnings, and charged with an allocation of administrative expenses. The contributions are allocated within each participant account based upon the participant's investment elections. All amounts in participant accounts are participant-directed. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their elective deferral contributions plus actual earnings thereon. Vesting in the Company's non-elective contribution portion of their accounts plus actual earnings thereon is based on years of service. A year of service is obtained upon completion of at least 1,000 hours of service. A participant vests in Company contributions at the rate of 20% per year beginning in year one and is 100% vested after five years of credited service.

Note 1 – Description of plan (continued)

Payment of benefits

Benefits are payable to participants or designated beneficiaries upon retirement, termination, death, disability, hardship or in-service if the participant has attained age 59 ½. Distributions may be paid in a lump-sum amount equal to the value of the participant's vested interest in his or her account, or they may be rolled over into another plan or an Individual Retirement Account.

Hardship withdrawals

Participants may withdraw their elective deferral contributions in the event of hardship as defined by the plan agreement.

Administrative expenses

The Plan's administrative fees are paid directly by the participants.

Forfeitures

Upon termination of employment, the unvested portion of a participant's Company contribution account is forfeited. Forfeitures of non-elective contributions are used to reduce Company contributions and pay Plan expenses. At December 31, 2019, forfeited accounts available were $11,089. No forfeitures were used during 2019.

Note 2 – Summary of accounting policies

Basis of accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Investment valuation and income recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits

Benefits are recorded when paid.

Note 2 – Summary of accounting policies (continued)

Subsequent events

Management evaluates events occurring subsequent to December 31, 2019 in determining the accounting for and disclosure of events that affect the financial statements. Subsequent events were evaluated through April 26, 2022, which is the date the financial statements were available to be issued. See Note 10 for disclosure of subsequent events.

Note 3 – Information prepared and certified by custodian

The following is a summary of the information included in the accompanying financial statements and supplemental information, which was prepared by or derived from information prepared and furnished to the plan administrator by the custodian, Nationwide Financial Services, Inc., at December 31, 2019 and 2018 and for the year ended December 31, 2019. The plan administrator has obtained certification from the custodian that such information is complete and accurate.

	2019	2018
Investments at fair value:		
U.S. Government securities	$ 26,452	$ 12,889
Mutual funds	641,862	326,657
Total investments at fair value	668,314	339,546
Total assets certified by custodian	$ 668,314	$ 339,546
Investment income:		
Net appreciation in fair value of investments	$ 82,391	
Total investment income	$ 82,391	

Note 4 – Fair value measurements

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Note 4 – Fair value measurements (continued)

Level 1 Fair Value Measurements

The fair value of mutual funds is based on the quoted net asset value of the shares held by the Plan at year end.

Gains and losses (realized and unrealized) included in changes in net assets available for benefits for the year ended December 31, 2019 are reported in net appreciation in fair value of investments in the statement of changes in net assets available for benefits.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019 and 2018:

	Fair Value Measurements Using	
	Fair Value	Significant Observable Inputs (Level 1)
December 31, 2019		
U.S. Government securities	$ 26,452	$ 26,452
Mutual funds	641,862	641,862
Total assets at fair value	$ 668,314	$ 668,314

	Fair Value Measurements Using	
	Fair Value	Significant Observable Inputs (Level 1)
December 31, 2018		
U.S. Government securities	$ 12,889	$ 12,889
Mutual funds	326,657	326,657
Total assets at fair value	$ 339,546	$ 339,546

Note 5 – Income tax status

The Plan document is a Volume Submitter Profit Sharing Plan with CODA with an Internal Revenue Service (IRS) opinion letter dated March 31, 2014, in which the IRS stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the opinion letter. The Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax exempt.

The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2019, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions. The Plan's annual return/report of employee benefit plan filings for the past three years are subject to examination by tax authorities, and may change upon examination.

Note 6 – Plan termination

Although it has not expressed intent to do so, the Company has the right under the Plan to discontinue contributions at any time and terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their Company contribution accounts.

Note 7 – Risks and uncertainties

The Plan invests in various types of investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 8 – Related party and party-in-interest transactions

Certain Plan investments were managed by Nationwide Financial Services, Inc. Nationwide Financial Services, Inc. was the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. There were no administration fees paid by the Plan to Nationwide for the year ended December 31, 2019.

Note 9 – Prohibited transactions

Participant contributions of $33 were withheld from participants pay on various pay dates during October 2017 and January 2018 but were not remitted to the Plan's trust within the time required by the Department of Labor. The lost earnings of $3 on participant contributions were based on interest rates determined by the Internal Revenue Code and were remitted to the Plan's trust in December 2019.

Note 10 – Subsequent events

In March 2020, the outbreak of a novel strain of coronavirus ("COVID-19") became widespread in the United States and was declared a National Emergency. State and local authorities recommended social distancing and imposed quarantine and isolation measures on large portions of the population, including mandatory business closures. These measures are designed to protect the overall public health, however, as a result of COVID-19, there has been heightened market risk and volatility associated with the pandemic, and this could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits. Because of the uncertainty of the markets during this time, Plan management is unable to estimate the total impact the pandemic will have.
