NOTES TO FINANCIAL STATEMENTS

JULY 15, 2021 AND DECEMBER 31, 2020

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Method of accounting - The plan follows the accrual method of accounting wherein additions and deductions are reflected in the period earned or incurred.

Accounting estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

Plan merger - Skyline Technologies, Inc., the plan sponsor, was acquired by Core BTS, Inc. during February 2021. Subsequently, the plan trustees elected to merge the plan into the Core BTS 401(k) Retirement Plan. The net assets of the plan were transferred to the Core BTS 401(k) Retirement Plan in July 2021 and the plan was terminated on July 15, 2021.

Subsequent events - The financial statements include management's evaluation of the events and transactions occurring subsequent to July 15, 2021 through December 31, 2021, which is the date the financial statements were available to be issued.

Key parties of the plan - Skyline Technologies, Inc. was the plan sponsor/employer and the plan administrator. National Administration, Inc. was the third party administrator and performed various compliance tests as tax counsel. Two members of management of Skyline Technologies, Inc. were the plan trustees. Oarsman Capital, Inc. was the plan's investment advisor. Transamerica Life Insurance Company ("Transamerica") was the custodian of plan assets and investment agent that maintained investment and participant records.

Investments - The plan sponsor/employer determined the investments available to plan participants. The participants allocated their contributions and transferred existing balances among the available investment options. The net appreciation (depreciation) in fair value of investments bought, sold and held during the period ended July 15, 2021 and year ended December 31, 2020 is reflected in the statements of changes in net assets available for benefits. Participants should refer to the investment account summaries and prospectuses for more information.

Fair value measurements - GAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical investments (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows.

- Level 1 - Valuation is based upon quoted prices in active markets for identical investments.
- Level 2 - Valuation is based upon other significant observable inputs (including quoted prices for similar investments).
- Level 3 - Valuation is based upon significant unobservable inputs (including the plan's assumptions in determining the fair value of investments).

Following is a description of the valuation methodologies used for investments measured at fair value.

Pooled separate accounts - The pooled separate accounts, which are direct filing entities, were valued at net asset value ("NAV") as provided by Transamerica. The NAV was generally based on the fair value of the underlying investments held by the pooled separate accounts less its liabilities and was used as a practical expedient to estimate fair value. This practical expedient would not have been used if it was determined to be probable that the pooled separate accounts would sell the investment for an amount different than the reported NAV.

The plan administrator determined by level, within the fair value hierarchy, the plan's investments at fair value as set forth below.

Investments at fair value as of December 31, 2020				
	Level 1	Level 2	Level 3	Total
Total investments in the fair value hierarchy	\$ -	\$ -	\$ -	\$ -
Investments measured at NAV (a)				25,416,249
Total investments at fair value				\$25,416,249

- (a) In accordance with GAAP, certain investments that are measured at NAV were not classified in the fair value hierarchy. The fair value amounts presented in the above table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the 2020 statement of net assets available for benefits.

The following table summarizes investments for which NAV was used as a practical expedient to measure fair value. There were no participant redemption restrictions for these investments; the redemption notice period, if any, was applicable only to the plan.

December 31, 2020	Fair value	Unfunded commitments	Redemption frequency	Redemption notice period
Pooled separate accounts	\$25,416,249	n/a	Daily	Daily

Investment at contract value - The plan had a fully benefit-responsive investment contract through an annuity contract issued by Transamerica. This was an investment based on the general unallocated account of Transamerica. Transamerica paid interest and guaranteed the plan's capital deposit regardless of the activity in the general account. The investment was not considered a Guaranteed Investment Contract (GIC) or Common Collective Trust (CCT) as there were no specific underlying securities and no stated minimum or maximum interest rate. The investment, as a deposit liability of Transamerica with no underlying assets, had no direct investments on behalf of the plan. The investment value was based on the general unallocated account of Transamerica and the risk of investment was based on Transamerica's insurance ratings. The effective annual interest rate was established every six months. Interest was credited, based upon the daily balance, at a rate that was the daily equivalent of the effective annual rate of interest applicable for the six month period. The average yield earned by the fund was 0.72% during the period ended July 15, 2021 and 1.55% during the year ended December 31, 2020.

This contract met the fully benefit-responsive investment contract criteria and therefore was reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the plan. Contract value, as reported to the plan by Transamerica, represented contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants were able to ordinarily direct the withdrawal of all or portions of the investment at contract value at any time. Amounts were able to be transferred from the participants' account balances in the fund at any time.

2. DESCRIPTION OF PLAN

The following brief description of the plan is provided for general information purposes only. Participants should refer to the plan documents for more complete information.

General - The plan was established on January 1, 1995 as a defined contribution plan with a 401(k) salary deferral arrangement. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") and subsequent amendments.

Eligibility - Employees were eligible to participate in elective deferral contributions and receive employer matching contributions once they had completed two months of employment and had reached age 21. An employee could enter the plan on the first day of each calendar month after meeting the eligibility requirements. Participants who were eligible to make elective deferral contributions and receive employer matching contributions were also eligible to receive profit sharing contributions if they completed at least 1,000 hours of service and were employed on the last day of the year.

Contributions - Contributions to the plan could be made as follows.

- a. Participants could contribute a percentage of their compensation subject to certain limitations (elective deferral contributions). The plan also permitted Roth elective deferrals. After meeting the eligibility requirements, employees were automatically enrolled in the plan and had 6% of compensation withheld as deferral contributions. Such employees had the option to increase, decrease or stop the deferral by completing the necessary documentation.
- b. Rollover contributions were accepted by the plan from other qualified plans.
- c. A matching contribution could be made equal to a discretionary percentage of the employee's elective deferral contribution, determined by the employer's board of directors. The discretionary matching percentage was 30% of the first 10% of compensation that a participant contributed to the plan through June 30, 2021 and in 2020.
- d. Additional profit sharing contributions may be made at the employer's discretion. There were no such contributions in 2021 or 2020.

Participant accounts - Earnings, including the fair value appreciation or depreciation, were allocated to participant accounts on a daily basis based upon the performance of the investment options selected. Each participant's account was credited with the participant's elective deferral and rollover contributions and an allocation of the employer's contributions. Participants were allowed to transfer funds between the various investment options daily and change their deferral percentage each pay period.

Vesting - Participants were always 100% vested in their entire account balances.

Payment of benefits - Benefit payments could commence upon termination of employment, death, disability or attainment of normal retirement age (defined by the plan as 65). Distributions could be in the form of a single lump sum or installment payments. In addition, hardship withdrawals were permitted under certain circumstances. In-service withdrawals could commence upon attaining age 59 ½.

Administrative fees - Certain administrative costs of the plan were absorbed by the plan sponsor. Certain other administrative fees are paid by the plan from plan assets and recorded as administrative expenses in the accompanying financial statements. Such expenses generally consist of nonparticipant directed service fees.

Notes receivable from participants - Participants could obtain a loan against their accounts with the approval of the plan administrator. Each participant could only have one loan outstanding at any time. The minimum loan amount was \$1,000 and the maximum amount was the lesser of one-half of the participant's vested account balance or \$50,000. The repayment term generally could not exceed 5 years, the exception being when the loan was for the purchase of a primary residence. As of December 31, 2020, the interest rates charged on loans ranged from 4.25% to 5.50%. The loans were scheduled to mature at various dates through November 2025. The notes receivable from participants were valued at their unpaid principal balances plus any accrued but unpaid interest, which approximates fair value. The loan balances as of July 15, 2021 were transferred to the Core BTS 401(k) Retirement Plan as a result of the plan merger.

3. PARTY-IN-INTEREST TRANSACTIONS

The plan's investments were managed by Transamerica. Transamerica was the custodian of plan assets and investment agent for the plan and, therefore, these transactions qualified as party-in-interest transactions.

Transamerica provided certain administrative services to the plan pursuant to a service agreement between the plan sponsor and Transamerica. Transamerica received revenue from investment service providers for services Transamerica provided to the funds. This revenue was partially used to offset certain amounts that would otherwise be owed by the plan to Transamerica for its administrative services to the plan.

If the revenue received by Transamerica from the investment service providers exceeded the amount owed under the service agreement, Transamerica remitted the excess, in the form of service credits, to the plan on a monthly basis. These service credits were recorded by the plan as other income when received. Such service credits could be applied to pay plan administrative expenses or allocated to the accounts of the participants. An expense budget account had been established to trace this activity. This account was an unallocated account included in the Transamerica Stable Value Core Account investment.

Below is a summary of activity relating to this account for the period ended July 15, 2021 and year ended December 31, 2020.

	2021	2020
Balance, beginning of period/year	\$ 24,000	\$ 21,000
Service credits received from Transamerica	35,000	106,000
Administrative expenses paid through this account	(14,000)	(53,000)
Allocated to the accounts of the participants	-	(50,000)
Transfer to Core BTS 401(k) Retirement Plan	(45,000)	-
	<hr/>	<hr/>
Balance, end of period/year	<u>\$ -</u>	<u>\$ 24,000</u>

Notes receivable from participant transactions also qualified as party-in-interest transactions.

All of these party-in-interest transactions are exempt from the prohibited transaction rules of ERISA.

4. INCOME TAX STATUS

The plan adopted a CCH Incorporated volume submitter profit sharing plan. The volume submitter profit sharing plan received its most recent favorable opinion letter on March 31, 2014 in which the Internal Revenue Service stated that the plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The plan administrator did not obtain a separate Internal Revenue Service opinion or determination letter for the plan. However, the plan administrator and tax counsel believe that the plan was designed and operated in compliance with the applicable requirements of the Internal Revenue Code.

GAAP requires plan management to evaluate tax positions taken by the plan and recognize tax liabilities (or assets) for any uncertain tax positions taken that more likely than not would not be sustained upon examination by the applicable authorities. Plan management analyzed the requirements for accounting for such uncertain tax positions taken and determined the plan was not required to recognize any tax liabilities (or assets) related to uncertain tax positions taken as of July 15, 2021 and December 31, 2020. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits in progress for any tax periods.

5. INFORMATION CERTIFIED BY THE AGENT

The plan's investment agent, Transamerica, held the plan's investment assets and executed transactions in those assets. The investment agent has certified certain information as set forth below to be complete and accurate.

- a. Investments held by the agent for the plan and the fair values and contract value of such as of July 15, 2021 and December 31, 2020;
- b. Interest income and net appreciation (depreciation) in fair values of investments during the period ended July 15, 2021 and the year ended December 31, 2020;
- c. Purchases and sales of investments during the period ended July 15, 2021 and the year ended December 31, 2020; and
- d. Contributions to, investment income credited to, benefits paid from and transfers between investment accounts during the period ended July 15, 2021 and the year ended December 31, 2020.

Since the investment agent certified the above investment information, Department of Labor regulations allow these investments and related activity to be excluded from the scope of the independent auditors' auditing procedures. All noninvestment activity for the plan, including contributions, benefit payments and participant account activity, has been subject to the independent auditors' auditing procedures. See the independent auditors' report.
