INDEPENDENT AUDITOR'S REPORT

To the Administrative Committee of the
Producers Cooperative Association Profit Sharing 401(k) Plan:

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Producers Cooperative Association Profit Sharing 401(k) Plan (the "Plan"), which comprise the Statements of Net Assets Available for Benefits as of July 31, 2021 and 2020 and the related Statement of Changes in Net Assets Available for Benefits for the year ended July 31, 2021, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Talcott Resolution Life Insurance Company (the "Custodian"), the custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that the Custodian holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained certifications from the Custodian as of July 31, 2021 and 2020 and for the year ended July 31, 2021, that the information provided to the Plan administrator by the Custodian is complete and accurate.

Disclaimer of Opinion

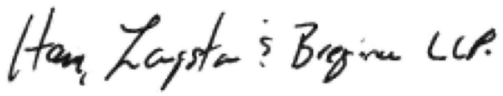

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule, Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of July 31, 2021, is required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the Custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

PRODUCERS COOPERATIVE ASSOCIATION PROFIT SHARING 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS

1. Description of the Plan

The following description of the Producers Cooperative Association Profit Sharing 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan, effective August 1, 2000, that provides benefits to eligible employees, covering substantially all employees of Producers Cooperative Association (the "Company") who have attained the age of 21 years and have completed one year of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Administration

The Company is responsible for the administration and operation of the Plan. An employee of the Company serves as trustee of the Plan and Talcott Resolution Life Insurance Company (the "Custodian" or "Talcott") serves as the custodian and recordkeeper. Merrill Lynch serves as the third-party administrator.

Participant Contributions

Each year, participants may contribute up to 100% of their annual compensation, not to exceed the limitation ($19,500 in 2021) set forth in Section 402(g) of the Internal Revenue Code ("IRC"). Additionally, participants may make catch-up contributions (pre-tax contributions that exceed the annual elective deferral limit) during any calendar year ending on or after the participant's 50th birthday. Participants' total catch-up contributions are limited to a maximum of $6,500 for 2021. Participants may also make rollover contributions from other qualified plans under ERISA. Participants direct the investment of their contributions into various investment options offered by the Plan.

Company Contributions

The Company, at its discretion, makes matching contributions equal to 100% of the participant's elective deferrals that do not exceed 4% of the participant's compensation. The Company may also make non-elective profit-sharing contributions in an amount to be determined by the Company. Participants must complete 1,000 hours of service each Plan year and be employed at the end of the year to be eligible to share in the allocation of such contributions. During the year ended July 31, 2021 and 2020, the Company made matching contributions in the amount of $147,742 and $138,722, respectively. The Company made non-elective profit-sharing contributions during the year ended July 31, 2021 and 2020 in the amount of $145,239 and $138,947, respectively.

Participant Accounts

Each participant's account is credited with the participant's contributions and Company matching contributions, as well as allocations of the Company's profit-sharing contributions and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their elective contributions, rollover contributions, and earnings thereon.

Vesting in Company matching contributions and non-elective profit-sharing contributions is based on a participant's years of continuous service as follows:

Years of Service	Vesting Percentage
2	20%
3	40%
4	60%
5	80%
6	100%

1. Description of the Plan, continued

Payment of Benefits

Upon termination of employment, retirement, death or disability, a participant (or his or her beneficiary in the event of death) will be entitled to receive a distribution in the form of a lump-sum payout, rollover, or, if the vested balance is greater than $5,000, it may be left in the Plan for future investment.

Forfeited Accounts

Plan forfeitures generally result from terminating participants that are not fully vested in their Company discretionary matching and non-elective profit-sharing contributions. Any forfeitures are used to pay administrative expenses and or reduce any employer contributions. For the year ended July 31, 2021, forfeitures totaling $22,538, respectively, were used to pay Plan expenses. At July 31, 2021 and 2020, the forfeiture account balance was $8,054 and $17,475, respectively.

2. Summary of Significant Accounting Policies

Basis of Presentation

The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The investments in pooled separate accounts are valued at fair value based on the quoted market prices of the underlying assets and the number of units owned by the Plan at the reporting date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan invests in a fully benefit-responsive investment contract ("FBRIC"), which is accounted for at contract value. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to FBRICs because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes realized gains and losses on investments sold during the year and unrealized appreciation of investments held at the end of the year.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Service ("IRS") are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2021 excess contributions to the applicable participants prior to March 15, 2022.

Benefit Payments

Benefit payments are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Investment related expenses are included in net appreciation in fair value of investments.

2. Summary of Significant Accounting Policies, continued

Expense Offset Arrangements

Fees incurred by the Plan for investment management services are included in net appreciation in fair value of investments, as they are paid through revenue sharing, rather than a direct payment.

3. Fair Value Measurements

ASC 820 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

In determining the fair value of assets and liabilities, the Plan generally uses the market approach, which uses prices and other relevant data based on market transactions involving identical or comparable assets and liabilities.

Following is a description of the valuation methodology used by the Plan for investments measured at fair value. There has been no change in the methodology used at July 31, 2021 and 2020.

Pooled separate accounts: Valued at the net asset value ("NAV") of units based on the quoted market price of the underlying securities and the number of units owned by the Plan at year end. The NAV, as provided by the Custodian, is used as a practical expedient to estimate fair value.

The methodology described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while Plan management believes its valuation methodology is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

In accordance with ASU No. 2015-07, *Fair Value Measurements (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*, investments measured at NAV per share (or its equivalent) as a practical expedient, are not classified in the fair value hierarchy. At both July 31, 2021 and 2020, all investments are either reported at contract value or are in pooled separate accounts and are measured at fair value, using NAV as a practical expedient. Accordingly, no fair value hierarchy is presented.

3. **Fair Value Measurements, continued**

Fair Value of Investments in Entities That Use NAV

Investment Strategies

(a) The investment seeks conservation of capital, current income and long-term growth of capital and income. The fund uses a balanced approach to invest in a broad range of securities, including common stocks and investment-grade bonds. It also invests in securities issued and guaranteed by the U.S. government and by federal agencies and instrumentalities. In addition, the fund may invest a portion of its assets in common stocks, most of which have a history of paying dividends, bonds and other securities of issuers domiciled outside the United States.

(b) The investment seeks maximum total return, consistent with preservation of capital and prudent investment management. The fund invests at least 65% of its total assets in a diversified portfolio of Fixed Income Instruments of varying maturities, which may be represented by forwards or derivatives such as options, futures contracts, or swap agreements. It invests primarily in investment-grade debt securities, but may invest up to 20% of its total assets in high yield securities. It may invest up to 30% of its total assets in securities denominated in foreign currencies, and may invest beyond this limit in U.S. dollar-denominated securities of foreign issuers.

(c) The investment seeks the highest total return consistent with its asset mix. The fund is a "fund of funds," meaning that it seeks to achieve its objective by investing in other American Century mutual funds (the underlying funds) that represent a variety of asset classes and investment styles. The target date in the fund name refers to the approximate year an investor plans to retire and likely would stop making new investments in the fund.

(d) The investment seeks growth of capital. The fund invests primarily in common stocks and seeks to invest in companies that appear to offer superior opportunities for growth of capital. It may invest up to 25% of its assets in securities of issuers domiciled outside the United States. The investment adviser uses a system of multiple portfolio managers in managing the fund's assets. Under this approach, the portfolio of the fund is divided into segments managed by individual managers.

3. Fair Value Measurements, continued

Fair Value of Investments in Entities That Use NAV, continued

Investment Strategies

(e) The investment seeks capital appreciation. The fund normally invests at least 80% of the fund's net assets in issuers with medium market capitalizations. The adviser generally defines medium market capitalization issuers as issuers with market capitalizations similar to those of issuers included in the Russell Midcap Value Index over the last 13 months at the time of purchase. It normally invests the fund's assets primarily in equity securities.

(f) The investment seeks long-term growth of capital. The fund invests, under normal circumstances, at least 80% of its net assets (plus any borrowings for investment purposes) in securities of small-capitalization issuers. It invests primarily in equity securities. The principal type of equity security in which the fund invests is common stock. The fund's manager considers an issuer to be a small-capitalization issuer if it has a market capitalization, at the time of purchase, no larger than the largest capitalized issuer included in the Russell 2000 Index.

(g) The investment seeks long-term growth of capital. The fund seeks to take advantage of investment opportunities generated by changes in international trade patterns and economic and political relationships by investing in common stocks of companies located around the world. In pursuing its investment objective, it invests primarily in common stocks that the investment adviser believes have the potential for growth.

(h) The investment seeks to track the performance of the CRSP US Mid Cap Index that measures the investment return of mid-capitalization stocks. The fund employs an indexing investment approach designed to track the performance of the CRSP US Mid Cap Index, a broadly diversified index of stocks of mid-size U.S. companies. The advisor attempts to replicate the target index by investing all, or substantially all, of its assets in the stocks that make up the index, holding each stock in approximately the same proportion as its weighting in the index.

(i) The investment seeks to provide capital growth and appreciation. The fund seeks to achieve its objective by investing, under normal circumstances, at least 80% of its net assets in equity securities. Such companies primarily will be located in, or principally traded in, developed European and Asian/Pacific Basin markets. In seeking to enhance potential return, it also may invest in issuers located or doing business in emerging market countries, which generally will include the more developed of the emerging market countries. It also may invest in depositary receipts of foreign issuers.

(j) The investment seeks long-term growth of capital. The fund invests primarily in common stocks of issuers in Europe and the Pacific Basin that the investment adviser believes have the potential for growth. Growth stocks are stocks that the investment adviser believes have the potential for above-average capital appreciation. It normally will invest at least 80% of its net assets in securities of issuers in Europe and the Pacific Basin. The fund may invest a portion of its assets in common stocks and other securities of companies in emerging markets.

(k) The investment seeks a high level of current income consistent with growth of capital. The fund invests primarily in a portfolio of equity securities that typically have above average dividend yields and whose prospects for capital appreciation are considered favorable by the sub-adviser. Under normal market and economic conditions, at least 80% of its net assets are invested in dividend paying equity securities. The fund may invest up to 20% of its net assets in securities of foreign issuers and non-dollar securities.

(l) The investment seeks long-term growth of capital and income. The fund seeks to achieve its investment objective by normally investing at least 80% of its net assets (plus borrowings made for investment purposes) in common stocks and other equity securities of companies that pay or are expected to pay dividends. Under normal conditions, it will invest primarily in common stocks of companies with market capitalizations greater than $3.5 billion.

(m) The investment seeks long-term growth of capital while providing current income. The fund invests primarily in common stocks of well-established companies located around the world, many of which have the potential to pay dividends. It invests, on a global basis, in common stocks that are denominated in U.S. dollars or other currencies. Under normal market circumstances the fund will invest a significant portion of its assets in securities of issuers domiciled in a number of countries outside the United States, and such investments may include securities domiciled in developing countries.

(n) The investment seeks maximum real return, consistent with preservation of capital and prudent investment management. The fund normally invests at least 80% of its net assets in inflation-indexed bonds of varying maturities issued by the U.S. and non-U.S. governments, their agencies or instrumentalities, and corporations, which may be represented by forwards or derivatives such as options, futures contracts or swap agreements.

(o) The investment seeks long-term capital growth. Under normal circumstances, the fund invests at least 80% of its net assets, plus borrowings for investment purposes, if any, in equity securities, or other investments with similar economic characteristics, of medium capitalization companies. The fund may invest up to 20% of its assets in equity securities of companies other than medium capitalization companies. The fund may also invest up to 25% of its net assets in securities of foreign issuers.

3. Fair Value Measurements, continued

Fair Value of Investments in Entities that use NAV, continued

Investment Strategies, continued

(p) The investment seeks long-term growth of capital. The fund invests at least 80% of its assets in common stocks of mid-capitalization companies. The sub-adviser defines mid-capitalization companies as companies with market capitalizations within the collective range of the Russell Midcap and S&P MidCap 400 Indices.

(q) The investment seeks total return with an emphasis on current income, but also considering capital appreciation. The fund normally invests at least 80% of its net assets in U.S. government securities. U.S. government securities include mortgage-backed securities and other types of securitized instruments issued or guaranteed by the U.S. Treasury, by an agency or instrumentality of the U.S. government, or by a U.S. government-sponsored entity. It generally invests substantially all of its assets in investment grade quality debt instruments. The fund may invest a significant percentage of the fund's assets in a single issuer or a small number of issuers.

(r) The investment seeks long-term total return. The fund normally invests at least 80% of its net assets in investments of small-capitalization (small-cap) companies. Small-cap companies are companies with market capitalizations not exceeding either: 1) the highest market capitalization in the Russell 2000 Index; or 2) the 12-month average of the highest market capitalization in the Russell 2000 Index. It generally invests in equity securities that the fund's investment manager believes are undervalued at the time of purchase and have the potential for capital appreciation. It may invest up to 25% of its total assets in foreign securities.

(s) The investment seeks to track the performance of the Standard & Poor's 500 Index that measures the investment return of large-capitalization stocks. The fund employs an indexing investment approach designed to track the performance of the Standard & Poor's 500 Index, a widely recognized benchmark of U.S. stock market performance that is dominated by the stocks of large U.S. companies. The advisor attempts to replicate the target index by investing all, or substantially all, of its assets in the stocks that make up the index, holding each stock in approximately the same proportion as its weighting in the index.

(t) The investment seeks an attractive total return comprised of income from dividends and long-term capital appreciation. Under normal market conditions, the fund invests at least 80% of its net assets in dividend-paying common stocks and preferred securities. It may, from time to time, have a greater exposure to these higher dividend-yield sectors and industries than the broad equity market. The fund may invest up to 25% of its net assets in non-U.S. equity securities that are U.S. dollar-denominated.

(u) The investment seeks capital growth and current income. The fund invests mainly in common stocks of U.S. companies, with a focus on value stocks that offer the potential for capital growth, current income, or both. Value stocks are issued by companies that the adviser believes are currently undervalued by the market. The adviser may consider, among other factors, a company's valuation, financial strength, growth potential, competitive position in its industry, projected future earnings, cash flows and dividends when deciding whether to buy or sell investments.

(v) The investment seeks to track the performance of the CRSP US Small Cap Index that measures the investment return of small-capitalization stocks. The fund employs an indexing investment approach designed to track the performance of the CRSP US Small Cap Index, a broadly diversified index of stocks of small U.S. companies. The advisor attempts to replicate the target index by investing all, or substantially all, of its assets in the stocks that make up the index, holding each stock in approximately the same proportion as its weighting in the index.

4. Group Annuity Contract with Insurance Company

The Plan invests in a fully benefit-responsive guaranteed interest contract with Talcott and maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed interest contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed interest contract is fully benefit-responsive, contract value is the relevant measurement attribute for net assets available for benefits attributable to the guaranteed interest contract. Contract value, as reported to the Plan by Talcott, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Certain events may limit the ability of the Plan to transact at contract value with the issuer. Such events include, but may not be limited to the following: (i) the complete or partial termination of the Plan, (ii) the establishment of, or material change in, any Plan investment fund, or (iii) an amendment to the Plan or a change in the administration or operation of the Plan. The Plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

4. Group Annuity Contract with Insurance Company, continued

The guaranteed interest contract may be terminated by Talcott upon the Plan's establishment, activation, or material change to the Plan or its investments that Talcott determines will prevent its ability to continue to operate the contract under the current terms. Termination of the guaranteed interest contract by Talcott may result in the settlement of the outstanding balance at an amount that differs from contract value.

5. Information Certified by the Plan's Custodian (Unaudited)

The Plan Administrator has elected the method of annual reporting and compliance permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, certain information related to investments disclosed in the accompanying financial statements and supplemental schedule, including investments held at July 31, 2021 and 2020, and net appreciation in the fair value of investments, interest and dividends for the year ended July 31, 2021, was obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by the Custodian.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

6. Tax Status

The Plan adopted by the Company is a volume submitter ("VS") plan that is designed to comply with provisions of the IRC's Economic Growth and Tax Reconciliation Act of 2001 ("EGTRRA"). Such VS plans are pre-approved by the IRS by reference to the Cumulative List of Changes in Plan Qualification Requirements (the "Cumulative List") provided under EGTRRA. Accordingly, the Plan was eligible for a six-year remedial amendment cycle. Because the Plan is a VS plan, the Company is not authorized to amend the Plan except to comply with changes in the Cumulative List. The Plan received a favorable determination letter from the IRS on March 31, 2014. Management of the Company and the Plan administrator believe the Plan complies with and is being operated in accordance with the applicable requirements of the IRC.

U. S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of July 31, 2021 and 2020, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate risk, market risk, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits.

The COVID-19 outbreak, which was declared a pandemic by the World Health Organization on March 11, 2020, has triggered volatility in financial markets and a significant negative impact on the global economy. However, because the values of the Plan's individual investments have and will fluctuate in response to changing market conditions, the amount of losses that will be recognized in subsequent periods, if any, cannot be determined. The full impact of the COVID-19 outbreak continues to evolve and is unknown at the date of this report.

8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants become 100% vested in their account balances.

9. Party-in-Interest Transactions

Certain Plan investments are in accounts managed by the Custodian. These transactions qualify as party-in-interest transactions, as defined by ERISA. However, such transactions are permitted under the provisions of the Plan and are exempt from the prohibition of party-in-interest transactions under ERISA.

10. Reconciliation of Plan Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of July 31, 2021 and 2020:

	2021	2020
Net assets available for benefits per the financial statements	$ 6,250,013	$ 4,957,737
Employer non-elective profit-sharing contributions receivable	(145,239)	(138,947)
Excess contributions payable	6,188	7,489
Other	1	-
Net assets available for benefits per Form 5500	$ 6,110,963	$ 4,826,279

The following is a reconciliation of the changes in net assets available for benefits per the financial statements to the Form 5500 for the year ended July 31, 2021:

Net increase in net assets available for benefits per the financial statements	$ 1,292,276
Change in employer non-elective profit-sharing contributions receivable	(6,292)
Change in excess contributions payable	(1,301)
Other	1
Net increase in net assets available for benefits per Form 5500	$ 1,284,684

11. Subsequent Events

Plan management has evaluated all subsequent events through May 11, 2022, which is the date the financial statements were available to be issued, noting other than the below no additional subsequent events were noted.

The Plan changed to Voya Financial as Custodian of the Plan and Raymond James Financial as the Third Party Administrator during March 2022.

INDEPENDENT AUDITOR'S REPORT

To the Administrative Committee of the
Producers Cooperative Association Profit Sharing 401(k) Plan:

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Producers Cooperative Association Profit Sharing 401(k) Plan (the "Plan"), which comprise the Statements of Net Assets Available for Benefits as of July 31, 2021 and 2020 and the related Statement of Changes in Net Assets Available for Benefits for the year ended July 31, 2021, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Talcott Resolution Life Insurance Company (the "Custodian"), the custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that the Custodian holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained certifications from the Custodian as of July 31, 2021 and 2020 and for the year ended July 31, 2021, that the information provided to the Plan administrator by the Custodian is complete and accurate.

Disclaimer of Opinion

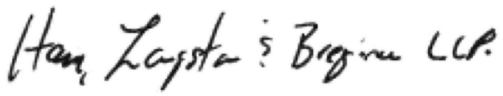

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule, Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of July 31, 2021, is required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the Custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

PRODUCERS COOPERATIVE ASSOCIATION PROFIT SHARING 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS

1. Description of the Plan

The following description of the Producers Cooperative Association Profit Sharing 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan, effective August 1, 2000, that provides benefits to eligible employees, covering substantially all employees of Producers Cooperative Association (the "Company") who have attained the age of 21 years and have completed one year of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Administration

The Company is responsible for the administration and operation of the Plan. An employee of the Company serves as trustee of the Plan and Talcott Resolution Life Insurance Company (the "Custodian" or "Talcott") serves as the custodian and recordkeeper. Merrill Lynch serves as the third-party administrator.

Participant Contributions

Each year, participants may contribute up to 100% of their annual compensation, not to exceed the limitation ($19,500 in 2021) set forth in Section 402(g) of the Internal Revenue Code ("IRC"). Additionally, participants may make catch-up contributions (pre-tax contributions that exceed the annual elective deferral limit) during any calendar year ending on or after the participant's 50th birthday. Participants' total catch-up contributions are limited to a maximum of $6,500 for 2021. Participants may also make rollover contributions from other qualified plans under ERISA. Participants direct the investment of their contributions into various investment options offered by the Plan.

Company Contributions

The Company, at its discretion, makes matching contributions equal to 100% of the participant's elective deferrals that do not exceed 4% of the participant's compensation. The Company may also make non-elective profit-sharing contributions in an amount to be determined by the Company. Participants must complete 1,000 hours of service each Plan year and be employed at the end of the year to be eligible to share in the allocation of such contributions. During the year ended July 31, 2021 and 2020, the Company made matching contributions in the amount of $147,742 and $138,722, respectively. The Company made non-elective profit-sharing contributions during the year ended July 31, 2021 and 2020 in the amount of $145,239 and $138,947, respectively.

Participant Accounts

Each participant's account is credited with the participant's contributions and Company matching contributions, as well as allocations of the Company's profit-sharing contributions and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their elective contributions, rollover contributions, and earnings thereon.

Vesting in Company matching contributions and non-elective profit-sharing contributions is based on a participant's years of continuous service as follows:

Years of Service	Vesting Percentage
2	20%
3	40%
4	60%
5	80%
6	100%

1. Description of the Plan, continued

Payment of Benefits

Upon termination of employment, retirement, death or disability, a participant (or his or her beneficiary in the event of death) will be entitled to receive a distribution in the form of a lump-sum payout, rollover, or, if the vested balance is greater than $5,000, it may be left in the Plan for future investment.

Forfeited Accounts

Plan forfeitures generally result from terminating participants that are not fully vested in their Company discretionary matching and non-elective profit-sharing contributions. Any forfeitures are used to pay administrative expenses and or reduce any employer contributions. For the year ended July 31, 2021, forfeitures totaling $22,538, respectively, were used to pay Plan expenses. At July 31, 2021 and 2020, the forfeiture account balance was $8,054 and $17,475, respectively.

2. Summary of Significant Accounting Policies

Basis of Presentation

The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The investments in pooled separate accounts are valued at fair value based on the quoted market prices of the underlying assets and the number of units owned by the Plan at the reporting date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan invests in a fully benefit-responsive investment contract ("FBRIC"), which is accounted for at contract value. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to FBRICs because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes realized gains and losses on investments sold during the year and unrealized appreciation of investments held at the end of the year.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Service ("IRS") are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2021 excess contributions to the applicable participants prior to March 15, 2022.

Benefit Payments

Benefit payments are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Investment related expenses are included in net appreciation in fair value of investments.

2. Summary of Significant Accounting Policies, continued

Expense Offset Arrangements

Fees incurred by the Plan for investment management services are included in net appreciation in fair value of investments, as they are paid through revenue sharing, rather than a direct payment.

3. Fair Value Measurements

ASC 820 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

In determining the fair value of assets and liabilities, the Plan generally uses the market approach, which uses prices and other relevant data based on market transactions involving identical or comparable assets and liabilities.

Following is a description of the valuation methodology used by the Plan for investments measured at fair value. There has been no change in the methodology used at July 31, 2021 and 2020.

Pooled separate accounts: Valued at the net asset value ("NAV") of units based on the quoted market price of the underlying securities and the number of units owned by the Plan at year end. The NAV, as provided by the Custodian, is used as a practical expedient to estimate fair value.

The methodology described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while Plan management believes its valuation methodology is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

In accordance with ASU No. 2015-07, *Fair Value Measurements (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*, investments measured at NAV per share (or its equivalent) as a practical expedient, are not classified in the fair value hierarchy. At both July 31, 2021 and 2020, all investments are either reported at contract value or are in pooled separate accounts and are measured at fair value, using NAV as a practical expedient. Accordingly, no fair value hierarchy is presented.

3. **Fair Value Measurements, continued**

Fair Value of Investments in Entities That Use NAV

The following table summarizes the investments in pooled separate accounts, as of July 31, 2021 and 2020, which are measured at fair value based on NAV per share as a practical expedient:

Investment Strategies

(a) The investment seeks conservation of capital, current income and long-term growth of capital and income. The fund uses a balanced approach to invest in a broad range of securities, including common stocks and investment-grade bonds. It also invests in securities issued and guaranteed by the U.S. government and by federal agencies and instrumentalities. In addition, the fund may invest a portion of its assets in common stocks, most of which have a history of paying dividends, bonds and other securities of issuers domiciled outside the United States.

(b) The investment seeks maximum total return, consistent with preservation of capital and prudent investment management. The fund invests at least 65% of its total assets in a diversified portfolio of Fixed Income Instruments of varying maturities, which may be represented by forwards or derivatives such as options, futures contracts, or swap agreements. It invests primarily in investment-grade debt securities, but may invest up to 20% of its total assets in high yield securities. It may invest up to 30% of its total assets in securities denominated in foreign currencies, and may invest beyond this limit in U.S. dollar-denominated securities of foreign issuers.

(c) The investment seeks the highest total return consistent with its asset mix. The fund is a "fund of funds," meaning that it seeks to achieve its objective by investing in other American Century mutual funds (the underlying funds) that represent a variety of asset classes and investment styles. The target date in the fund name refers to the approximate year an investor plans to retire and likely would stop making new investments in the fund.

(d) The investment seeks growth of capital. The fund invests primarily in common stocks and seeks to invest in companies that appear to offer superior opportunities for growth of capital. It may invest up to 25% of its assets in securities of issuers domiciled outside the United States. The investment adviser uses a system of multiple portfolio managers in managing the fund's assets. Under this approach, the portfolio of the fund is divided into segments managed by individual managers.

Investment Strategies

(e) The investment seeks capital appreciation. The fund normally invests at least 80% of the fund's net assets in issuers with medium market capitalizations. The adviser generally defines medium market capitalization issuers as issuers with market capitalizations similar to those of issuers included in the Russell Midcap Value Index over the last 13 months at the time of purchase. It normally invests the fund's assets primarily in equity securities.

(f) The investment seeks long-term growth of capital. The fund invests, under normal circumstances, at least 80% of its net assets (plus any borrowings for investment purposes) in securities of small-capitalization issuers. It invests primarily in equity securities. The principal type of equity security in which the fund invests is common stock. The fund's manager considers an issuer to be a small-capitalization issuer if it has a market capitalization, at the time of purchase, no larger than the largest capitalized issuer included in the Russell 2000 Index.

(g) The investment seeks long-term growth of capital. The fund seeks to take advantage of investment opportunities generated by changes in international trade patterns and economic and political relationships by investing in common stocks of companies located around the world. In pursuing its investment objective, it invests primarily in common stocks that the investment adviser believes have the potential for growth.

(h) The investment seeks to track the performance of the CRSP US Mid Cap Index that measures the investment return of mid-capitalization stocks. The fund employs an indexing investment approach designed to track the performance of the CRSP US Mid Cap Index, a broadly diversified index of stocks of mid-size U.S. companies. The advisor attempts to replicate the target index by investing all, or substantially all, of its assets in the stocks that make up the index, holding each stock in approximately the same proportion as its weighting in the index.

(i) The investment seeks to provide capital growth and appreciation. The fund seeks to achieve its objective by investing, under normal circumstances, at least 80% of its net assets in equity securities. Such companies primarily will be located in, or principally traded in, developed European and Asian/Pacific Basin markets. In seeking to enhance potential return, it also may invest in issuers located or doing business in emerging market countries, which generally will include the more developed of the emerging market countries. It also may invest in depositary receipts of foreign issuers.

(j) The investment seeks long-term growth of capital. The fund invests primarily in common stocks of issuers in Europe and the Pacific Basin that the investment adviser believes have the potential for growth. Growth stocks are stocks that the investment adviser believes have the potential for above-average capital appreciation. It normally will invest at least 80% of its net assets in securities of issuers in Europe and the Pacific Basin. The fund may invest a portion of its assets in common stocks and other securities of companies in emerging markets.

(k) The investment seeks a high level of current income consistent with growth of capital. The fund invests primarily in a portfolio of equity securities that typically have above average dividend yields and whose prospects for capital appreciation are considered favorable by the sub-adviser. Under normal market and economic conditions, at least 80% of its net assets are invested in dividend paying equity securities. The fund may invest up to 20% of its net assets in securities of foreign issuers and non-dollar securities.

(l) The investment seeks long-term growth of capital and income. The fund seeks to achieve its investment objective by normally investing at least 80% of its net assets (plus borrowings made for investment purposes) in common stocks and other equity securities of companies that pay or are expected to pay dividends. Under normal conditions, it will invest primarily in common stocks of companies with market capitalizations greater than $3.5 billion.

(m) The investment seeks long-term growth of capital while providing current income. The fund invests primarily in common stocks of well-established companies located around the world, many of which have the potential to pay dividends. It invests, on a global basis, in common stocks that are denominated in U.S. dollars or other currencies. Under normal market circumstances the fund will invest a significant portion of its assets in securities of issuers domiciled in a number of countries outside the United States, and such investments may include securities domiciled in developing countries.

(n) The investment seeks maximum real return, consistent with preservation of capital and prudent investment management. The fund normally invests at least 80% of its net assets in inflation-indexed bonds of varying maturities issued by the U.S. and non-U.S. governments, their agencies or instrumentalities, and corporations, which may be represented by forwards or derivatives such as options, futures contracts or swap agreements.

(o) The investment seeks long-term capital growth. Under normal circumstances, the fund invests at least 80% of its net assets, plus borrowings for investment purposes, if any, in equity securities, or other investments with similar economic characteristics, of medium capitalization companies. The fund may invest up to 20% of its assets in equity securities of companies other than medium capitalization companies. The fund may also invest up to 25% of its net assets in securities of foreign issuers.

(p) The investment seeks long-term growth of capital. The fund invests at least 80% of its assets in common stocks of mid-capitalization companies. The sub-adviser defines mid-capitalization companies as companies with market capitalizations within the collective range of the Russell Midcap and S&P MidCap 400 Indices.

(q) The investment seeks total return with an emphasis on current income, but also considering capital appreciation. The fund normally invests at least 80% of its net assets in U.S. government securities. U.S. government securities include mortgage-backed securities and other types of securitized instruments issued or guaranteed by the U.S. Treasury, by an agency or instrumentality of the U.S. government, or by a U.S. government-sponsored entity. It generally invests substantially all of its assets in investment grade quality debt instruments. The fund may invest a significant percentage of the fund's assets in a single issuer or a small number of issuers.

(r) The investment seeks long-term total return. The fund normally invests at least 80% of its net assets in investments of small-capitalization (small-cap) companies. Small-cap companies are companies with market capitalizations not exceeding either: 1) the highest market capitalization in the Russell 2000 Index; or 2) the 12-month average of the highest market capitalization in the Russell 2000 Index. It generally invests in equity securities that the fund's investment manager believes are undervalued at the time of purchase and have the potential for capital appreciation. It may invest up to 25% of its total assets in foreign securities.

(s) The investment seeks to track the performance of the Standard & Poor's 500 Index that measures the investment return of large-capitalization stocks. The fund employs an indexing investment approach designed to track the performance of the Standard & Poor's 500 Index, a widely recognized benchmark of U.S. stock market performance that is dominated by the stocks of large U.S. companies. The advisor attempts to replicate the target index by investing all, or substantially all, of its assets in the stocks that make up the index, holding each stock in approximately the same proportion as its weighting in the index.

(t) The investment seeks an attractive total return comprised of income from dividends and long-term capital appreciation. Under normal market conditions, the fund invests at least 80% of its net assets in dividend-paying common stocks and preferred securities. It may, from time to time, have a greater exposure to these higher dividend-yield sectors and industries than the broad equity market. The fund may invest up to 25% of its net assets in non-U.S. equity securities that are U.S. dollar-denominated.

(u) The investment seeks capital growth and current income. The fund invests mainly in common stocks of U.S. companies, with a focus on value stocks that offer the potential for capital growth, current income, or both. Value stocks are issued by companies that the adviser believes are currently undervalued by the market. The adviser may consider, among other factors, a company's valuation, financial strength, growth potential, competitive position in its industry, projected future earnings, cash flows and dividends when deciding whether to buy or sell investments.

(v) The investment seeks to track the performance of the CRSP US Small Cap Index that measures the investment return of small-capitalization stocks. The fund employs an indexing investment approach designed to track the performance of the CRSP US Small Cap Index, a broadly diversified index of stocks of small U.S. companies. The advisor attempts to replicate the target index by investing all, or substantially all, of its assets in the stocks that make up the index, holding each stock in approximately the same proportion as its weighting in the index.

4. Group Annuity Contract with Insurance Company

The Plan invests in a fully benefit-responsive guaranteed interest contract with Talcott and maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed interest contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed interest contract is fully benefit-responsive, contract value is the relevant measurement attribute for net assets available for benefits attributable to the guaranteed interest contract. Contract value, as reported to the Plan by Talcott, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Certain events may limit the ability of the Plan to transact at contract value with the issuer. Such events include, but may not be limited to the following: (i) the complete or partial termination of the Plan, (ii) the establishment of, or material change in, any Plan investment fund, or (iii) an amendment to the Plan or a change in the administration or operation of the Plan. The Plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

4. Group Annuity Contract with Insurance Company, continued

The guaranteed interest contract may be terminated by Talcott upon the Plan's establishment, activation, or material change to the Plan or its investments that Talcott determines will prevent its ability to continue to operate the contract under the current terms. Termination of the guaranteed interest contract by Talcott may result in the settlement of the outstanding balance at an amount that differs from contract value.

5. Information Certified by the Plan's Custodian (Unaudited)

The Plan Administrator has elected the method of annual reporting and compliance permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, certain information related to investments disclosed in the accompanying financial statements and supplemental schedule, including investments held at July 31, 2021 and 2020, and net appreciation in the fair value of investments, interest and dividends for the year ended July 31, 2021, was obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by the Custodian.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

6. Tax Status

The Plan adopted by the Company is a volume submitter ("VS") plan that is designed to comply with provisions of the IRC's Economic Growth and Tax Reconciliation Act of 2001 ("EGTRRA"). Such VS plans are pre-approved by the IRS by reference to the Cumulative List of Changes in Plan Qualification Requirements (the "Cumulative List") provided under EGTRRA. Accordingly, the Plan was eligible for a six-year remedial amendment cycle. Because the Plan is a VS plan, the Company is not authorized to amend the Plan except to comply with changes in the Cumulative List. The Plan received a favorable determination letter from the IRS on March 31, 2014. Management of the Company and the Plan administrator believe the Plan complies with and is being operated in accordance with the applicable requirements of the IRC.

U. S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of July 31, 2021 and 2020, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate risk, market risk, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits.

The COVID-19 outbreak, which was declared a pandemic by the World Health Organization on March 11, 2020, has triggered volatility in financial markets and a significant negative impact on the global economy. However, because the values of the Plan's individual investments have and will fluctuate in response to changing market conditions, the amount of losses that will be recognized in subsequent periods, if any, cannot be determined. The full impact of the COVID-19 outbreak continues to evolve and is unknown at the date of this report.

8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants become 100% vested in their account balances.

9. Party-in-Interest Transactions

Certain Plan investments are in accounts managed by the Custodian. These transactions qualify as party-in-interest transactions, as defined by ERISA. However, such transactions are permitted under the provisions of the Plan and are exempt from the prohibition of party-in-interest transactions under ERISA.

10. Reconciliation of Plan Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of July 31, 2021 and 2020:

	2021	2020

Excess contributions payable	6,188	7,489
Other	1	-
Net assets available for benefits per Form 5500	$ 6,110,963	$ 4,826,279

The following is a reconciliation of the changes in net assets available for benefits per the financial statements to the Form 5500 for the year ended July 31, 2021:

Net increase in net assets available for benefits per the financial statements	$ 1,292,276
Change in employer non-elective profit-sharing contributions receivable	(6,292)
Change in excess contributions payable	(1,301)
Other	1
Net increase in net assets available for benefits per Form 5500	$ 1,284,684

11. Subsequent Events

Plan management has evaluated all subsequent events through May 11, 2022, which is the date the financial statements were available to be issued, noting other than the below no additional subsequent events were noted.

The Plan changed to Voya Financial as Custodian of the Plan and Raymond James Financial as the Third Party Administrator during March 2022.
