1. DESCRIPTION OF THE PLAN

The following description of the Keeton Corrections Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was established by Keeton Corrections, Inc. on September 3, 2003, for the benefit of its employees and those of its affiliate, Non-Secure Programs, Inc. The Plan is a defined contribution plan covering all full-time employees of the two participating employers who have one year of service and are age 21 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Employees may contribute a specific percentage or dollar amount of their compensation up to the Internal Revenue Service (IRS) limitation established by the IRC. Individuals who attain the age of 50 by the end of the Plan year are permitted to make “catch-up” contributions of up to $6,500 per year. The limit for 2021 401(k) employee contributions was $19,500 per participant. The percentage of contribution may be changed at the beginning of each calendar quarter.

Matching contributions are made by the Company on behalf of the employees, who have agreed to have their taxable wages or salaries reduced. The Company may elect annually to match 100% of the first 3% and 50% of the next 2%, of base compensation that a participant contributes to the Plan.

Participant Accounts

Each participant’s account is credited with the participant’s contribution, the Company’s matching contribution and an allocation of plan earnings (losses). Allocations are based on the participant’s account balance as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Investment Elections

Each participant may direct all contributions into one or more investment options offered by the Plan.

Vesting

Participants are immediately vested in their contributions and the employer’s matching contributions, plus actual earnings thereon.

Notes Receivable

Participants may borrow from their fund accounts up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participants’ accounts and bear interest rates, which are commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest are paid on a pro rata basis through payroll deductions.

1. DESCRIPTION OF THE PLAN – CONTINUED

Payment of Benefits
On termination of service or in the event of death, disability or retirement, a participant (or participant's beneficiary in the event of death) may elect to receive an amount equal to the value of the participant's vested interest in his or her account in a lump-sum amount. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution or have the option of a rollover to another qualified plan.

Expenses
The Plan's administrative expenses are paid by the Company. Expenses recorded in the Plan are related to participant loans and distributions and are paid by the participant. During 2021, expenses paid by the Plan and allocated to participant accounts for 2021 totaled $8,952.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting
The accompanying financial statements have been prepared on the accrual basis of accounting.

Use of Estimates
The preparation of financial statements in conformity with generally accepted accounting principles accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Payment of Benefits
Benefits are recorded when paid.

Investment Valuation and Income Recognition
Investments are reported at fair value, except the guaranteed interest account, which is stated at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (the exit price).

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation in fair value of investments includes the Plan's realized and unrealized gains and losses on investments bought and sold, as well as held during the year.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued, but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of July 31, 2021 and 2020. If a participant defaults on a loan and has reached a distributable event, the defaulted loan is considered a distribution and included with benefits paid to participants.

Subsequent Events
The Plan has evaluated subsequent events as of May 12, 2022, the date the financial statements were available to be issued.

3. INFORMATION CERTIFIED BY CUSTODIAN

Certain investment information regarding the Plan as of July 31, 2021 and 2020, and for the year ended July 31, 2021, included in the Plan's financial statements and supplemental schedule, was prepared by or derived from information provided by John Hancock Life Insurance Company, the custodian of the Plan, and furnished to the plan administrator. The plan administrator has obtained certifications from the custodian that such information is complete and accurate:

Investments:	2021	2020
Investments at fair value	$ 1,659,577	$ 1,282,186
Investments at contract value	6,805	6,245
Investment income		
Net appreciation in fair value of investments	$ 372,630	
Interest income	55	

4. FAIR VALUE MEASUREMENTS

The fair value measurement accounting literature establishes a framework for measuring fair value that provides a fair value hierarchy that prioritizes the inputs to valuation techniques to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurement.)

4. FAIR VALUE MEASUREMENTS – CONTINUED

- Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 – Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value at July 31, 2021 and 2020:

Pooled separate accounts: Based upon net asset value (NAV) as a practical expedient. The NAV of a pooled separate account is based on the market value of its underlying investments. The pooled separate account's NAV is not a publicly-quoted price in an active market.

The following tables set forth by level, within the fair value hierarchy, the Plan's investment assets at fair value as of July 31, 2021 and 2020:

	Assets at Fair Value as of July 31, 2021			
	Level 1	**Level 2**	**Level 3**	**Total**
Interest bearing cash	$ 413	$ -	$ -	$ 413
Investments measures at NAV (a)	-	-	-	1,659,164
	$ 413	$ -	$ -	$ 1,659,577

	Assets at Fair Value as of July 31, 2020			
	Level 1	**Level 2**	**Level 3**	**Total**
Interest bearing cash	$ 413	$ -	$ -	$ 413
Investments measures at NAV (a)	-	-	-	1,281,773
	$ 413	$ -	$ -	$ 1,282,186

(a)In accordance with Financial Accounting Standards Board Accounting Standards Codification Subtopic 820-10, certain investments held in a pooled separate account that was measured at NAV per share (or its equivalent) has not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

4. FAIR VALUE MEASUREMENTS – CONTINUED

The following tables summarize investments measured at fair value based on NAV per share as of July 31, 2021 and 2020:

4. FAIR VALUE MEASUREMENTS – CONTINUED

The redemption frequency and the period of the above investments are on a daily basis. There are no unfunded commitments or redemption restrictions.

5. GUARANTEED INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan invests in the Fixed Income Account, a group annuity contract offered by John Hancock USA (JH) that is fully benefit-responsive. JH maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses.

Because the group annuity contract meets the criteria to be considered fully benefit responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the group annuity contract. The group annuity contract is presented on the face of the statement of net assets available for benefits at contract value. Contract value, as reported to the Plan by JH, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 0%. Such interest rates are reviewed on a quarterly basis for resetting. There are no other restrictions that affect the ability of the Plan to transact at contract value. John Hancock is contractually obligated to pay the principal and specified interest rate that is guaranteed to the Plan.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (a) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (b) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the Plan Sponsor or other Plan Sponsor events that cause a significant withdrawal from the Plan or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that any events, which would limit the Plan's ability to transact at contract value with participants, are probable of occurring.

6. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

As of July 31, 2021 and 2020, there were certain plan investments managed by John Hancock Life Insurance Company. As John Hancock served as the custodian, as defined by the Plan, these transactions qualified as party-in-interest transactions and are exempt from the prohibited transactions rules. Notes receivable from participants are also party-in-interest transactions, which are exempt from the prohibited transaction rules.

7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

8. RISKS AND UNCERTAINTIES

The Plan invests in a variety of investment funds. Investments in general are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

9. TAX STATUS

The underlying non-standardized prototype plan has received an opinion letter from the IRS dated March 31, 2014, stating that the form of the Plan is qualified under Section 401(a) of the IRC, and therefore, the related trust is tax-exempt. The Plan Administrator has determined that it is eligible to and has chosen to rely on the current IRS non-standardized prototype plan opinion letter. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan Administrator believes the Plan is in compliance with the applicable requirements of the IRC, and therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not, would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
