Report on the Financial Statements

We were engaged to audit the accompanying financial statements of AECOM Pension Plan (the Plan), which comprise the statements of net assets available for benefits as of September 30, 2021 and 2020, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we are not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 8, which was certified by U.S. Bank N.A., the trustee of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the Plan Administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan Administrator has obtained a certification from the trustee as of September 30, 2021 and 2020 and for the years then ended, that the information provided to the Plan Administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental Schedule H, Line 4i-Schedule of Assets Held At End of Year, and Schedule H, Line 4j-Schedule of Reportable Transactions as of or for the year ended September 30, 2021, are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on these supplemental schedules.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

AECOM PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF THE PLAN

The following description of the AECOM Pension Plan (the “Plan”) is provided for general information purposes only. Selected Plan provisions are described below. Participants should refer to the Plan document and the Summary Plan Description for more complete information regarding the terms of the Plan.

General — The Plan is a frozen defined benefit pension plan that provides benefits to certain U.S. employees of AECOM (“AECOM” or the “Company”) and its participating subsidiaries who were hired on or before March 31, 1998.

Effective April 1, 1998, Plan participation was frozen for all eligible employees. Except as otherwise provided in the Plan, each employee who was a participant in the Plan as of March 31, 1998, will continue to participate in the Plan in accordance with the terms of the Plan. No person was eligible to become a participant in the Plan after March 31, 1998, except for certain employees who were on authorized leave of absence on March 31, 1998. Benefit accruals were frozen effective October 9, 2009 for all remaining participants.

Prior to March 31, 1998, participants were required to contribute up to 1.5% of annual compensation based on years of service. Effective April 1, 1998, employee contributions were no longer accepted by the Plan. All employee contributions made on or after April 1, 1998 and on or before December 31, 2006 were made to the AECOM Retirement & Savings Plan (“AECOM RSP”) and were deposited into separate pension accounts within the AECOM RSP (“AECOM RSP Pension Accounts”).

The Plan is administered by the AECOM Americas Benefits Administration Committee (delegated by the Global Benefits Administration Committee) as authorized by AECOM. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”), as amended.

Funding Policy — Contributions to provide benefits under the Plan are made by the Company and certain employee rollovers from the AECOM RSP Pension Accounts. The Company contributes such amounts as are deemed necessary on an accrual basis to provide the Plan with assets sufficient to meet the benefits to be paid to Plan participants and to meet minimum funding standards as required by law. Required contribution levels are based upon the payment of the current normal cost for each participant, as well as amortization of the total unfunded actuarial accrued liabilities. Under the Coronavirus Aid, Relief, and Economic Security Act (the “CARES Act”), the Company delayed the final payment required to meet the minimum funding requirements of ERISA for the year ended September 30, 2019 until January 4, 2021. The Company met the minimum funding requirement for the years ended September 30, 2021 and September 30, 2020.

Employee Rollovers from Other Plan — Upon termination of employment, a participant may elect, within a specified period of time, to make a direct rollover from his or her AECOM RSP Pension Accounts to the Plan. This rollover will increase the participant’s monthly benefit amount commencing at the participant’s normal retirement date.

Vesting — Participants who have completed at least five years of vested service or who reach age 65 while employed with the Company are fully vested in their accrued benefit under the Plan. Participants in the Plan are always 100 percent vested in any employee contributions (plus applicable interest) they have made to the Plan.

Benefits — Upon retirement, a participant will receive a benefit, as calculated under the Plan’s terms, which is based on the participant’s years of service, final average compensation, and the participant’s

AECOM PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

employee contributions to the Plan. Effective April 1, 2004, the Plan was amended to limit the amount of annual compensation used to calculate a participant's benefits to the participant's highest calendar year compensation from 1994 to 2003. Furthermore, effective October 9, 2009, accrued benefits were frozen; and credited service earned from October 9, 2009 and later is no longer taken into account for determining accrued benefits. Participants receive an actuarially-based benefit calculated under the Plan as described more fully in Note 6.

In addition, prior to January 1, 2007, participants were allowed to make specific elective contributions to the AECOM RSP into the AECOM RSP Pension Accounts for rollover to the Plan. Any such rollovers will increase the participant's monthly benefit amount commencing at the participant's normal date.

A participant's benefit under the Plan will commence at his or her normal retirement date or, if eligible, an early retirement date as defined under the Plan. For married participants, the normal form of payment is a qualified 50 percent joint and survivor annuity, unless a spousal waiver is obtained. For unmarried participants, the normal form of payment is a single life annuity. If an active participant dies with a vested benefit, a death benefit based on age of the participant at death will be paid to the participant's beneficiary. A participant shall be eligible for disability benefits if the participant terminated employment by reason of disability after completing 10 or more years of vesting service. The participant's disability retirement benefit is payable beginning when the participant reaches age 65 and is based on the participant's compensation when they became disabled and the years of service the participant would have earned if the participant had worked until age 65 (or October 9, 2009, if earlier).

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting — The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates — The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition — Investments in mutual funds held by the Plan are stated at fair value, primarily based on quoted market prices. Investments in common investment trusts and limited partner interests are valued at fair value, which is based on the net asset value of the fund. Purchases and sales are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Net appreciation or depreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Expenses — The Plan's expenses are paid by either the Plan or the Company, as provided by the Plan document. Expenses that are paid directly by the Company, and not reimbursed by the Plan, are excluded from these financial statements. Certain expenses incurred in connection with general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying Statements of Changes in Net Assets Available for Benefits. In addition, certain investment-related

AECOM PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

expenses are included in net appreciation (depreciation) of fair value of investments presented in the accompanying Statements of Changes in Net Assets Available for Benefits.

Benefit Payments — Benefit payments to participants are recorded upon distribution by the Plan.

Fair Value Measurements — The Plan's investments, which are stated at fair value, are disclosed in accordance with the established framework and disclosure requirements described in the FASB Accounting Standards Codification ("ASC") No. 820-10, "*Fair Value Measurements and Disclosures*" ("ASC 820-10"), which defines fair value, establishes a framework for measuring fair value under current accounting pronouncements that require or permit fair value measurement and enhances disclosures about fair value measurements. ASC 820-10 defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction, which requires an entity to maximize the use of observable inputs when measuring fair value.

The standard describes three levels of inputs that may be used to measure fair value:

Level 1	Inputs to the valuation methodology are quoted prices available in active markets for identical investments as of the reporting date.
Level 2	<p>Inputs to the valuation methodology include:</p> <ul style="list-style-type: none">• Quoted prices for similar assets or liabilities in active markets;• Quoted prices for identical or similar assets or liabilities in inactive markets;• Inputs other than quoted prices that are observable for the asset or liability;• Inputs that are derived principally from or corroborated by observable market data by correlation or other means. <p>If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.</p>
Level 3	Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the asset or liability and the reporting entity makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The following is a description of the valuation methodologies used for instruments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy.

Mutual Funds

A mutual fund is an investment company registered under the Investment Company Act of 1940 that pools the capital of many investors and invests it in stocks, bonds, short-term money market instruments, and/or other securities. These investments are public investment vehicles valued at the closing price reported in the active market in which the investments are traded. These investments are classified within Level 1 of the valuation hierarchy.

AECOM PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

Money Market Funds

These investments are public investment vehicles valued using the price of \$1 as the fair value per unit in active markets. The money market funds are classified within Level 1 of the valuation hierarchy.

Collective Investment Trusts

A collective investment trust is a trust for the collective investment and reinvestment of assets contributed from employee benefit plans maintained by more than one plan. These investments are valued using the net asset value (“NAV”) provided by the administrator of the collective trust. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is used as a practical expedient to estimate fair value.

Collective investment trusts are not classified within the fair value hierarchy; however, the amounts measured using NAV is disclosed to permit reconciliation of the fair value of investments to the Statements of Net Assets Available for Benefits.

Limited Partner Interests

Investments in privately-held securities and partnerships are investments in closely held instruments for which there is no available market. These funds seek capital appreciation and current income by investing in various financial instruments. The funds may invest in publicly traded equity and debt securities, as well as derivatives thereof. In addition, the funds may pursue a value-oriented strategy through short selling and investments in private or less liquid instruments (financial instruments and other obligations for which no market or only a limited market may exist). The funds may also leverage its portfolio with borrowed funds. The fair value is determined by the Plan’s management using the NAV, as a practical expedient. The Plan’s management considers subscription and redemption rights, including any restrictions on the disposition of its interest in its determination of fair value. For information regarding restrictions on redemptions, see Note 5.

Limited partner interests are not classified within the fair value hierarchy; however, the amounts measured using NAV are disclosed to permit reconciliation of the fair value of investments to the Statements of Net Assets Available for Benefits.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although Plan management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Subsequent Events — The Plan has evaluated subsequent events through June 10, 2022, which is the date the financial statements were available to be issued.

3. CONTRACT WITH INSURANCE COMPANY

In 1986, AECOM entered into an investment contract with Metropolitan Life Insurance Company (“Metropolitan”). AECOM purchased an allocated contract that represents a contractual arrangement whereby funds were allocated to purchase annuities for Ashland Inc. (“Ashland”) participants prior to the Plan sponsor change in 1990. Under the terms of the allocated contract, Metropolitan assumed a

AECOM PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

legal obligation to make benefit payments, as described in the contract, to named participants or their beneficiaries; therefore, the related benefit obligations covered by this contract and the related value of the contract are excluded from the Plan's net assets available for benefits and accumulated plan benefits.

4. FAIR VALUE MEASUREMENTS

6. ACCUMULATED PLAN BENEFITS

Actuarial Present Value of Accumulated Plan Benefits — Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Because benefits under the Plan are frozen, the accumulated plan benefits for active employees are based on their accrued benefits as of October 9, 2009 (the "Plan Freeze Date"). Future active employee compensation and credited service increases are no longer applicable after the Plan Freeze Date. Due to the plan freeze, benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included and are fully attributable to employee service rendered to the valuation date. Benefits to be provided via purchased annuity contracts are excluded from Plan assets and are excluded from accumulated plan benefits.

AECOM PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

The actuarial present value of accumulated plan benefits is determined by Mercer (US) Inc. by applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

Significant actuarial assumptions used for purposes of estimating the actuarial present value of accumulated plan benefits as of October 1, 2020 and 2019 were:

Return on Investment	2020 – 5.5% 2019 – 6.0%
Average Retirement Age	Ranging from 10% at age 55 to 100% at age 70
Average Withdrawal Rates ⁽¹⁾	Ranging from 8% at age 47 to 0% at age 55
Mortality Rates	2020 – Pri-2012 mortality table with fully generational projections using Mercer Modified MMP-2021 projection factors 2019 -- Pri-2012 mortality table, with fully generational projections using Mercer Modified MMP-2019 projection factors
Percentage Married	Males 80%; Females 60%
Age Difference	Males are assumed to be three years older than their spouses

⁽¹⁾ All active participants are age 47 and over

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Actuarial assumptions used in the calculation of accumulated plan benefits were changed from the prior year. The employee contribution interest credit rate for future years was updated from 1.81% to 0.46% to better reflect expected future plan experience. The interest rate was updated from 6.00% to 5.50% to reflect the Capital Market outlook as of October 2020. The mortality improvement scale was updated from MMP-2019 to MMP-2021 to reflect additional data from the Social Security Administration.

Employer contributions and the actuarial present value of accumulated plan benefits are estimated by the Plan's independent actuary. Employer contributions for the year ended September 30, 2021 met the required minimum funding amounts under ERISA. Accumulated participant contributions and interest thereon totaled \$5.4 million and \$6.0 million as of October 1, 2021 and 2020, respectively. Employee contributions received interest credited at 0.46% and 1.81% for plan years ended September 30, 2021 and 2020, respectively. The actuarial present value of accumulated plan benefits is shown below as of October 1, the beginning of the Plan years:

7. TAX STATUS

The Plan obtained a favorable determination letter dated February 2, 2016, from the Internal Revenue Service (the “IRS”) which stated that the Plan complies with the applicable regulations of the Internal Revenue Code (“Code”) and therefore, the related trust is exempt from taxation. The Plan has been amended since applying for the determination letter. The Plan administrator believes that the Plan is currently designed and operated in compliance with the applicable requirements of the Code and therefore believes that the Plan continues to be qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. INFORMATION CERTIFIED OR PROVIDED BY THE TRUSTEE

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR Section 2520.103-8 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure

AECOM PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

under ERISA. Accordingly, U.S. Bank N.A., the Trustee, has certified the investments and related investment transactions, interest and dividends, and net appreciation (depreciation) in fair value of investments as shown in the accompanying financial statements and supplemental schedules are complete and accurate as of September 30, 2021 and 2020 and for the years ended. No audit procedures were performed on the information provided by the Trustee except to compare such information to the related information included in the accompanying financial statements and supplemental schedules.

9. PLAN TERMINATION

Although it has not expressed any intent to do so, AECOM has the right under the Plan to discontinue its contributions at any time or to amend or terminate the Plan subject to provisions of the Plan agreement and provisions of ERISA. In the event the Plan is terminated, the net assets of the Plan will be allocated as specified by the Plan document in accordance with ERISA and its related regulations.

In the event of termination, benefits to be provided via contracts under which Metropolitan (see Note 3) is obligated to pay the benefits would be excluded for allocation purposes.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation ("PBGC") if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling on the amount of an individual's monthly benefit that the PBGC guarantees. The ceiling is adjusted annually and varies depending on the form of benefit payment elected by the participant at the time of termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan's sponsor and the level of benefits guaranteed by the PBGC.

10. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Plan contributions are made and the actual present value of accumulated plan benefits reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term would be material to the financial statements.

11. RELATED PARTY TRANSACTIONS AND PARTY-IN-INTEREST TRANSACTIONS

As described in Note 2, the Plan paid certain expenses related to Plan administration and investment activity to various service providers. These transactions qualify as party-in-interest transaction. These party-in-interest transactions qualify for prohibited transaction exemptions.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Mortality sponsor elections		
• Healthy participants	Section 430(h)(3) prescribed separate static annuitant and nonannuitant mortality tables. These tables are based on the RP-2006 mortality tables with IRS-developed adjustments and projected with mortality improvement scale MP-2018.	
• Pre-1995 disabilities	Same as described above for healthy participants.	
• Post-1994 disabilities	Same as described above for healthy participants.	
DMJM lump sum		
• Mortality table	417(e) prescribed mortality table for the 2020 plan year	
• Interest rate	417(e) prescribed interest rates for the 2020 plan year (August 2020 rates - 0.52%, 2.22%, and 3.03%)	
Other economic assumptions		
• Salary increases	N/A	
• Social Security wage base	N/A	
• Inflation	N/A	
• Administrative Expenses	\$1,875,000	
• Expected return on assets for 2020 plan year (used to calculate the actuarial value of assets)	4.65%	
• Interest on employee contributions	0.46%	

Rationale for economic assumptions

- Discount rates for funding purposes – This assumption was prescribed by IRS. The stabilized discount rates reflect funding relief under the American Rescue Plan Act of 2021.
- DMJM lump sums – The DMJM lump sum is based on the better of the PBGC interest rates and the GAM71 mortality table weighted 75% male/25% female and the 417(e) assumptions. At almost all ages, the latter basis provides the greater lump sum. The interest rates are the 417(e) rates for the current plan year.

¹ Reflects funding relief under of the American Rescue Plan Act of 2021.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

- Expected investment return – This assumption is based on the median simulated investment return using capital market assumptions published in Mercer Investment Consulting's Capital Markets Outlook for the plan's current asset mix, net of an adjustment of 12 bps for investment expenses.
- Administrative Expenses – Administrative expenses are based on the prior year expenses, adjusted to reflect the change in PBGC premiums, rounded to the nearest \$25,000.
- Interest on employee contributions – This assumption is set as 120% of the federal mid-term rate for the current plan year.

• Future vested deferred	35%	35%	30%	
• Future deaths	0%	100%	0%	
• Current vested deferred	35%	35%	30%	

Rationale for demographic assumptions

- Mortality tables for funding purposes – This assumption is prescribed by the IRS.
- Withdrawal – This assumption is based on an experience study undertaken in 2017 using data from October 1, 2011 through October 1, 2016 and the expectation that the future withdrawal patterns and circumstances of the employer will not differ significantly from the period studied.
- Disability incidence – The plan currently has no disabled participants and due to its size, does not have enough credible experience to analyze disability incidence. Therefore, we have assumed the disability incidence is included in the turnover rates.
- Retirement rates – The retirement rates are based on an experience study undertaken in 2017 using data from October 1, 2011 through October 1, 2016 and the expectation that the future retirement patterns and circumstances of the employer will not differ significantly from the period studied.
- Benefit commencement age for future and current vested deferred participants– Because the plan's early retirement factors do not materially subsidize early retirement benefits and there is no financial advantage to delaying benefits past age 65, we have assumed all vested terminated participants commence benefits at age 65.
- Percent married and spouse age difference – The assumptions regarding percent married and spouse age difference at benefit commencement are based on an experience study undertaken in 2017 using data from October 1, 2011 through October 1, 2016.
- Form of payment – This assumption is based on an experience study undertaken in 2017 using data from October 1, 2011 through October 1, 2016.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Actuarial methods for funding****Asset methods**

The asset valuation method is an average of the adjusted market value for each year during the last two years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** All current and former employees who are due a benefit as of the valuation date are included in the valuation liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break-in-service on the valuation date are treated as terminated participants.

Minimum funding methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual are the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Schedule SB, line 32 — Schedule of Amortization Bases

The total shortfall amortization charge is the sum of the individual shortfall amortization installment for each plan year covered under PPA. Although an individual shortfall amortization installment can be negative, the combined shortfall amortization charge cannot be less than \$0.

Shortfall bases				
Year established		Outstanding balance	Years remaining	2020 Installment
2019	\$	4,575,263	14	\$ 449,500
2020		(2,688,385)	15	(252,404)
Total	\$	1,886,878		\$ 197,096

Schedule SB, line 24 — Change in Actuarial Assumptions

- The employee contribution interest crediting rate was updated for future years from 1.81% to 0.46% to better reflect the current economic environment and as a best estimate for expected future plan experience.
- The interest rates and mortality table were updated in accordance with PPA.
- The administrative expenses assumption was updated from \$1,750,000 to \$1,875,000 to better reflect plan experience and expectation of the upcoming year.
- The expected return on assets was updated from 5.10% to 4.65%.
- The DMJM lump sum basis was updated to the 417(e) basis for the 2020 plan year.

Schedule SB, Part V — Summary of Plan Provisions**Summary of major plan provisions**

The Whitman & Howard Pension Plan (W&H Plan) merged into the AECOM Pension Plan on April 30, 2009. Major provisions of the former W&H Plan follow those of the AECOM Pension Plan.

Effective date	October 1, 1989
Plan year	The 12-month period beginning October 1 and ending September 30.
Most recent amendment	Plan document amended and restated as of October 1, 2011 and last amended by Amendment 2020-1.
Status of the plan	The plan was closed to all employees hired or rehired after March 31, 1998. The plan was frozen October 9, 2009.

Definitions

• Covered employees	Plan participation was frozen as of April 1, 1998. No new participants may enter the plan after March 31, 1998.
• Participation	<p>All employees participating as of September 30, 1989 continued to be eligible to participate. For others:</p> <ol style="list-style-type: none"> DMJM employees hired prior to May 1, 1990 were eligible to participate the first of the month following or coincident with their date of hire. Non-DMJM employees hired before May 1, 1990 were eligible May 1, 1990. Others hired before September 30, 1990 were eligible following a 12-month eligibility period in which they completed at least 1,000 hours of service. All other employees of participating AECOM companies will be eligible following one year of employment. Part-time employees, however, must have 1,000 hours of service in a 12-month eligibility period.

• Employee contributions	<p>Before May 1, 1990 (Non-DMJM Participants Only):</p> <p>2% of compensation for the calendar year, plus 2% of compensation in excess of \$13,000 for the year</p>
--------------------------	---

After May 1, 1990:		
	Years of Credited Service	Percent of Annual Compensation
DMJM Participants Hired before May 1, 1990	Less than 20	1.5%
	At least 20, less than 35	0.5%
	35 or more	0.0%
Non-DMJM Participants Entered on or before May 1, 1990	Less than 25	1.5%
	At least 25, less than 40	0.5%
	40 or more	0.0%
All others	Less than 25	1.5%
	25 or more	0.0%

Starting April 1, 1998, employee contributions were no longer allowed by the plan; instead a hypothetical account was set up assuming employees would contribute the amounts shown above to an account. This account earned interest credits based on the investments returns of a benchmark account. The hypothetical account was converted to an Offset Amount at termination. The Offset Amount was frozen October 9, 2009.

Schedule SB, Part V — Summary of Plan Provisions

• Vesting service	<p>a. Non-DMJM participants prior to January 1, 1990 Calendar years with 1,000 hours of service.</p> <p>b. All others - Total years and completed months of service, excluding periods of service after eligible to participate for which contributions are required but not made. Accrued Benefit at September 28, 1990 under the prior pension plans (non-Highly Compensated Employees only).</p> <p>d. The Offset Amount.</p> <p>Benefit for highly compensated participants (with annual earnings before October 1, 1994 greater than \$150,000) after September 30, 1994 will be no less than the Accrued Benefit as of September 30, 1994 plus a future service benefit for credited service after September 30, 1994 calculated as under b. above.</p> <p>Target Benefit</p> <p>Base Percentage times the lesser of Final Average Monthly Compensation and Covered Compensation, plus Excess Percentage times the excess of Final Average Monthly Compensation over Covered Compensation.</p>

Schedule SB, Part V — Summary of Plan Provisions

Potential Credited Service	
Years and months of participation to Normal Retirement Date if employee joined the plan at earliest possible date. For participants over age 65, use Accrued Credited Service, if greater.	
Early retirement	
• Eligibility	a. Before May 1, 1990 (Non-DMJM Participants Only) - After age 55 with completion of 10 years of Vesting Service b. Before May 1, 1990 (DMJM Participants Only) - After age 60 with completion of 5 years of Vesting Service c. After May 1, 1990 - After age 55 with completion of 5 years of Vesting Service
• Benefit	Prior to October 1, 2020, the Accrued Benefit reduced by 1/12 for each of the first three years that retirement precedes the normal retirement date, reduced by 1/24 for each additional year greater than three. Effective October 1, 2020 the early retirement factors will be based the better of the prior reduction and on the Pri-2012 Private Retirement Plans Base Mortality Table, blended 50% male/50% female, with mortality projected to the year 2035 using the MP-2019 mortality projection scale, and a 5% annual interest rate.
Late retirement	
• Eligibility	Continued employment beyond age 65.
• Benefit	Benefit accrued to Late Retirement Date. Active participants over age 70.5 begin receiving benefits on April 1st following the year they turn age 70.5.
Deferred vested	
• Eligibility	100% vesting after 5 years of Vesting Service.
• Benefit	If vested, return of accumulated contributions with interest, plus payment of employer provided monthly benefit at retirement, or payment of total monthly benefit at retirement. If not vested, return of accumulated contributions with interest.
Disability	
• Eligibility	Disabled while employed, after completing ten or more years of Vesting Service.
• Benefit	Normal retirement benefit, determined using FAMC at date of termination due to disability, and credited service projected to Normal Retirement Date. Benefit is payable commencing at Normal Retirement Date. FAMC and credited service were frozen as of October 9, 2009.
Pre-retirement death	
• Benefit	If the participant was vested, married and died before the earliest retirement date, a lifetime annuity to the spouse equal to the monthly benefit he or she would have received if the participant had separated from service, retired at his or her earliest retirement date, chosen the qualified joint and survivor annuity, and died prior to commencement of benefits. If the participant was vested, married and dies after the earliest retirement date, a lifetime annuity to the spouse equal to the monthly benefit he or she would have received if the participant had retired on the day before death.

Schedule SB, Part V — Summary of Plan Provisions

	<p>If the value of spouse annuity payments is less than accumulated Participant contributions with interest, the spouse has the option of taking the excess value as a lump sum payment or as an actuarial equivalent monthly benefit.</p> <p>If the participant was not vested or not married, payment of accumulated participant contributions with interest is paid to the beneficiary.</p>
Post-retirement death	
• Benefit	If the participant dies after retiring, survivor benefits are based on the form of benefit chosen at retirement.
Form of benefits	
• Optional forms	<p>Single Life Annuity</p> <p>10 Year Certain and Life Annuity</p> <p>15 Year Certain and Life Annuity</p> <p>20 Year Certain and Life Annuity</p> <p>50% Joint & Survivor Annuity</p> <p>66 2/3% Joint & Survivor Annuity</p> <p>75% Joint & Survivor Annuity</p> <p>100% Joint & Survivor Annuity</p> <p>Lump Sum for DMJM Participants Only</p> <p>Automatic cash out if lump sum is less or equal to \$1,000 before the withdrawal of the employee contributions with interest</p>
Miscellaneous	
• Maximum compensation	Compensation for any 12-month period used to determine accrued benefits may not exceed the limits in IRC Section 401(a)(17) for the calendar year in which the 12-month period begins.
• Maximum benefits	Annual benefits may not exceed the limits in IRC Section 415. This limit is indexed annually. For 2020, the limit is \$230,000.
• Withdrawal of accumulated employee contributions with interest	At any time after termination and prior to retirement, Participants have the option to withdraw their accumulated contributions with interest. If a Participant withdraws these funds, their benefit will be actuarially reduced.
• Buy back of the Offset Amount	At termination, Participants have the opportunity to buy back the Offset Amount using Participant's funds from the AECOM 401(k) Plan. Prior to the plan freeze, the amount required to buy back the Offset Amount was equal to the hypothetical account balance. After the plan freeze, the amount required to buy back the Offset Amount is the actuarial equivalent value of the Offset Amount at termination.
• Actuarial equivalence for non-417(e) forms of payment	Effective October 1, 2020, Pri-2012 Private Retirement Plans Base Mortality Table, blended 50% male/50% female, with mortality projected to the year 2035 using the MP-2019 mortality projection scale, and a 5% annual interest rate.
• Changes since the prior valuation	The actuarial equivalence for non-417(e) forms of payment and early retirement factors was updated as of October 1, 2020

Schedule SB, Part V — Summary of Plan Provisions

Schedule SB, Part V — Summary of Plan Provisions

Form of benefits	
<ul style="list-style-type: none"> Optional forms of retirement benefits 	Life Annuity with 10 year certain (normal form for single participants) Actuarial equivalent 50% Joint & Survivor (normal form for married participants) 75% Joint & Survivor 100% Joint & Survivor Lump sum for participants under age 55 Automatic cash out if lump sum is less or equal to \$1,000
<ul style="list-style-type: none"> Changes since the prior valuation 	The actuarial equivalence for non-417(e) forms of payment and early retirement factors was updated as of October 1, 2020 to be the better of the prior factors and the updated actuarial equivalence for AECOM plan participants. However, we do not believe this change will impact the Whitman & Howard benefits.

Benefits included or excluded

Unless noted below, all benefits provided by the plan are included in this valuation:

- Most recent plan amendments included:** Amendment 2020-1. AECOM elected to include this amendment for funding purposes under code section 412(d)(2).
- Plan amendments excluded:** Amendments effective after the current plan year are excluded from the valuation. Usually amendments adopted after the valuation date are also excluded from the valuation. However, AECOM elected to include Amendment 2020-1, effective October 1, 2020, that updates the actuarial equivalence for non-417(e) forms of payment and early retirement factors, for funding purposes under code section 412(d)(2).
- Late retirement increases:**
 - Active participants:* The plan provides benefit suspension notices to participants who work beyond normal retirement and participants who reach age 70 ½ are required to commence receiving their benefits and are valued as retirees. Therefore, there are no late retirement increases.
 - Deferred vested participants:* Vested terminated participants will receive retroactive payments with interest from the later of age 65 and their termination date to their benefit commencement date. This valuation includes actuarial increases for vested terminated participants over age 65 to approximate the increase in the liability due to the retroactive payments with interest.
- Shutdown Benefits:** We are not aware of any corporate actions that would create shutdown benefits; therefore, they are excluded.
- Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Schedule SB, Part V — Summary of Plan Provisions**Plan provisions specific to funding****Additional benefits included or excluded**

- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits that occurred before the valuation date but includes contingent event benefits which are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
 - *Plan amendments:* See above.
 - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
- **Scheduled benefit increases:** There are no scheduled benefit increases.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.

Plan provision changes since prior valuation

Effective October 1, 2020 the actuarial equivalence for non-417(e) forms of payment and early retirement factors is updated to Pri-2012 Private Retirement Plans Base Mortality Table, blended 50% male/50% female, with mortality projected to the year 2035 using the MP-2019 mortality projection scale, and a 5% annual interest rate.

Maximum compensation amounts and maximum benefit amounts under IRS rules were updated from 2019 to 2020.
