Note 1. Plan Description

The following description of Road Ranger, LLC 401(k) Plan (the Plan) is provided for general information purposes only. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan sponsored by Road Ranger, LLC (the Company). All employees who have completed 90 days of service are eligible for the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan is administered by the Plan's trustees. The trustees have overall responsibility for the operation and administration of the Plan. The Plan's trustees determine the appropriateness of the Plan's investment offerings and monitor investment performance.

Contributions: Each year, participants may contribute up to an amount not to exceed a dollar limit which is set by the Internal Revenue Code (IRC). Participant contributions are limited to 90% of eligible compensation. Participants may designate some or all of their contributions as Roth contributions subject to the IRC limitations. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined-benefit or defined-contribution plans. The Company may make a discretionary matching contribution in an amount equal to that percentage of each participant's deferral as determined by the Company from year to year. The Company may also make a discretionary non-elective contribution to participants as determined by the Company from year to year. In 2020, the Company has elected not to make discretionary matching or non-elective contributions.

Participant accounts: Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contributions, if any, and (b) plan earnings, and charged with an allocation of administrative expenses and applicable loan fees. Allocations are based on participant earnings, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account, as defined.

Vesting: Participants are immediately vested in their voluntary contributions, rollover contributions, and the actual earnings received within these accounts. Vesting in Company contributions is based on years of continuous service. Participants vest 20% after two years of credited service and an additional 20% every year thereafter. A participant is 100% vested in their account after six years. In the event of death, disability, or retirement at designated ages, participants become fully vested.

Investment options: Each participant has the option to invest their account balance and contributions in selected investment options as made available and determined by the Board of Trustees. Each participant has the option to transfer monies between funds and change the allocation of the investment election daily.

Note 1. Plan Description (Continued)

Notes receivable from participants: Participants may borrow from their account a minimum of $500 up to a maximum equal to the lesser of (a) $50,000, reduced by the excess of the highest outstanding balance of loans during the one-year period ending on the day before the date of a new loan, or (b) 50% of the participant's vested balance. Notes are available for any purpose. A participant is limited to two outstanding notes at any time. Note terms are up to five years, or up to thirty years for the purchase of a primary residence. The notes are secured by the balance in the participant's account and bear a rate of interest that is based on the prime rate published by the Wall Street Journal at the time the note is made, plus 2%. Principal and interest payments are required and are paid through payroll deductions.

Payment of benefits: On termination of service for any reason, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested account balance, regular installments over a period not to exceed their life expectancy or partial withdrawals. In addition, in-service distributions are allowed at age 59½ and hardship distributions are permitted if certain criteria are met. Absent an election by the participant, terminated participants with a vested account balance of $5,000 or less will receive an automatic lump-sum distribution.

Forfeited accounts: According to the Plan's provisions, forfeited nonvested accounts may first be used to pay administrative expenses and reinstate prior account balances. Any remaining amount will reduce employer contributions. At December 31, 2020 and 2019, forfeited nonvested accounts were approximately $1,700. No forfeitures were used to pay plan expenses or reduce employer contributions as stated in the plan document. Accumulated forfeitures will be applied to pay expenses or reduce the employer contribution, if any, in 2021.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Board of Trustees determines the Plan's valuation policies utilizing information provided by the investment custodian. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded for on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as distributions based upon terms of the plan document.

Payment of benefits: Benefits paid directly to participants are recorded when paid.

Note 2. Summary of Significant Accounting Policies (Continued)

Administrative expenses: Administrative expenses can be paid by either the Company or the Plan. The expenses of maintaining the Plan that are paid directly by the Company are excluded from these financial statements.

Subsequent events: The Plan's management has evaluated subsequent events through September 30, 2021, the date on which the financial statements were available to be issued.

Note 3. Information Certified or Provided by the Custodian, Reliance Trust Company

The following is a summary of the Plan's asset information as of December 31, 2020 and 2019, and for the year ended December 31, 2020, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the plan custodian, and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the custodian that the information provided to the Plan Administrator by the custodian is complete and accurate to the best of their knowledge and belief. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL's) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets:

	2020	2019
Investments, at fair value:		
Shares of registered investment companies	$ 1,075,695	$ 1,302,488
Units of collective investment trusts	184,174	194,491
Notes receivable from participants	30,735	11,276

The plan custodian also certified to the completeness and accuracy of $56,755 of net appreciation in fair value of investments, $32,915 of dividends and interest and $978 of interest from notes receivable from participants related to the aforementioned plan assets for the year ended December 31, 2020.

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of fair value hierarchy under Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820 are described below:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include: • Quoted prices for similar assets or liabilities in active markets; • Quoted prices for identical or similar assets or liabilities in inactive markets; • Inputs other than quoted prices that are observable for the asset or liability; • Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specific (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020 and 2019.

Shares of registered investment companies: Shares of registered investment companies are valued at the daily closing price as reported by the fund. Funds held by the Plan are open-end funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The funds held by the Plan are deemed to be actively traded.

Units of collective investment trusts: Units of collective investment trusts are valued based on the NAV per unit of the collective investment trust funds. The NAV, as provided by the trustee, is used as a practical expedient to estimating fair value. The NAV is based upon the fair value of the underlying investments comprising the trust less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

Note 4. Fair Value Measurements (Continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets measured at fair value as of December 31, 2020 and 2019. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

	2020			
	Total	Level 1	Level 2	Level 3
Shares of registered investment companies	$ 1,075,695	$ 1,075,695	$ -	$ -
Investments measured at NAV (a)	184,174			
Investments at fair value	$ 1,259,869			

	2019			
	Total	Level 1	Level 2	Level 3
Shares of registered investment companies	$ 1,302,488	$ 1,302,488	$ -	$ -
Investments measured at NAV (a)	194,491			
Investments at fair value	$ 1,496,979			

(a) In accordance with Subtopic 820-10, certain investments that are measured at NAV as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

Changes in fair value levels

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. Plan management evaluates the significance of the transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2020, there were no transfers in or out of Level 3.

Investments Measured Using the Net Asset Value Per Share Practical Expedient

The following table summarizes investments measured at fair value based on NAV per share as of December 31, 2020 and 2019. There are no participant redemption restrictions for these investments. The redemption notice period is applicable only to the Plan.

	Fair Value		Unfunded	Redemption	Redemption
	2020	2019	Commitment	Frequency	Notice Period
Units of collective investment trust - Invesco Stable Asset Fund	$ 59,776	$ 47,280	$ -	Daily	None
Units of collective investment trusts - State Street Bank & Trust Co. Funds	124,398	147,211	-	Daily	None
	$ 184,174	$ 194,491	$ -		

Note 5. Related-Party and Party-In Interest Transactions

Certain plan administrative functions are performed by officers or employees of the Company for which no compensation is received from the Plan. ADP, LLC (ADP) provides recordkeeping services to the Plan and, therefore, qualifies as a party-in-interest. Fees paid to ADP were approximately $17,400 during the year ended December 31, 2020.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and terminate the Plan subject to the provisions of ERISA and IRC. In the event of plan termination, the net assets of the Plan are to be allocated to the participants on the basis of their individual account balances.

Note 7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of the risk associated with certain investment securities it is at least reasonably possible that changes in the value of investment securities will occur in the near-term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 8. Income Tax Status

The Plan has adopted a non-standardized form of a prototype 401(k) and profit sharing plan sponsored by ADP, LLC. The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by the Plan. The Plan has been amended since the prototype plan received its opinion letter. However, the Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan had taken an uncertain tax position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
