Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of The Marcus Corp 401(k) Retirement Savings Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2021 and 2020, and the related statement of changes in net assets available for benefits for the year ended December 31, 2021, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of The Marcus Corp 401(k) Retirement Savings Plan as of December 31, 2021 and 2020, and the changes in its net assets available for benefits for the year ended December 31, 2021, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of The Marcus Corp 401(k) Retirement Savings Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about The Marcus Corp 401(k) Retirement Savings Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

CLA is an independent member of Nexia International, a leading, global network of independent accounting and consulting firms. See nexia.com/member-firm-disclaimer for details.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of The Marcus Corp 401(k) Retirement Savings Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about The Marcus Corp 401(k) Retirement Savings Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at year end) as of December 31, 2021 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements.

Retirement and Benefit Plan Administrative Committee and Plan Participants
The Marcus Corp 401(k) Retirement Savings Plan

The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

401(K) RETIREMENT SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2021 AND 2020

1. Description of Plan

The following description of The Marcus Corp 401(k) Retirement Savings Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan originally effective June 1, 1989. The Plan has been amended throughout the years to comply with tax legislation and most recently amended effective January 1, 2019. The Plan covers all nonunion employees and certain union employees covered by a collective bargaining agreement. The Plan is subject to the Employee Retirement Income Security Act of 1974 (ERISA). The Board of Directors of The Marcus Corporation (the Company) is responsible for the oversight of the Plan. The Retirement and Benefit Plan Administrative Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance, and reports to the Board of Directors.

Eligibility - Employees of the Company are eligible to participate in the deferral components of the Plan on the later of 90 days of service or turning 21 years of age. Employees are eligible to participate in the safe harbor match component of the Plan if they meet the eligibility requirements above.

Contributions - The Plan includes a salary deferral arrangement allowed under Section 401(k) of the Internal Revenue Code (IRC). Eligible participants are permitted to elect to have a percentage up to 60%, limited by Plan provision, of their compensation contributed as pre-tax 401(k) or Roth contributions to the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions.

Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of contributions into various investment options offered by the Plan. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

Beginning on January 1, 2017, the Company began making "safe harbor" matching contributions. The "safe harbor" matching contribution is equal to 100% of the participant's elective deferral (pre-tax and Roth deferrals) up to 3% of their eligible compensation; plus 50% of that participant's elective deferrals between 3% and 5% of their eligible compensation.

Beginning on January 1, 2017, the Company discontinued their discretionary profit sharing in favor of the "safe harbor" matching contribution.

THE MARCUS CORP
401(K) RETIREMENT SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2021 AND 2020

1. Description of Plan (continued)

Participants Accounts - Participants may elect to invest their account balances, consisting of employee contributions and Company contributions, in 1% increments, into various fund options. Participants have the opportunity to change their investment elections and allocations daily. Participants who do not make such an election are automatically invested in the default investment alternatives established under the Plan. The default investment is a nearest age-appropriate target fund option based on the assumed retirement age of 65.

The safe harbor contributions may be contributed into the Marcus Stock Account, as determined by the Board of Directors. These contributions are made in the form of cash or Company stock. Participants may transfer contributions from the Marcus Stock Account into other investment options offered by the Plan. The Retirement and Benefit Plan Administrative Committee approves all investment transactions within the Marcus Stock Account.

Each participant's account is credited with the participant's contribution, the applicable matching Company contributions, an allocation of investment earnings or losses, and an allocation of administrative expenses, as defined. Allocations are based upon the participants' earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Vesting - Employee contributions and the Company's "safe harbor" matching contributions and earnings thereon are immediately 100% vested. All pre-2017 discretionary Company contributions and earnings thereon vest ratably, as defined in the Plan agreement, over a period of six years. Notwithstanding the above, a participant is fully vested upon reaching normal retirement age, death, or permanent disability.

Voting Rights - Each participant with an interest in Company common stock is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is not permitted to vote shares of Company common stock for which the Trustee has received no direction from the participant.

Notes Receivable from Participants - Participants are allowed to take loans from the Plan. Loan amounts are limited to 50% of the participant's vested account balance, with a maximum loan amount of \$50,000 and a minimum of \$1,000. Loan terms range from one to five years, or up to 10 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at the prime rate plus one percentage point. Principal and interest are paid through biweekly payroll deductions.

THE MARCUS CORP
401(K) RETIREMENT SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2021 AND 2020

1. Description of Plan (continued)

Benefit Payments - Benefits paid to participants represent the amount paid to participants who terminated employment during the year, or in prior years, and to qualified hardship cases. Participants may also elect to receive distributions upon reaching age 59½. If a terminating participant's account balance does not exceed \$1,000, the Plan will distribute the benefit in a lump sum as soon as administratively practicable. If a terminating participant's account balance does not exceed \$5,000, the Plan will distribute the benefit to an Individual Retirement Account or Annuity. Benefit payments exceeding \$5,000 are paid in a lump sum at the participant's discretion, but at no date later than the April 1 following the end of the calendar year in which the participant attains age 70½.

Forfeited Accounts - At December 31, 2021 and 2020, forfeited nonvested accounts totaled \$17,000 and \$21,000, respectively. These amounts are to be used to reduce future Company contributions or pay administrative expenses of the Plan. Forfeitures used to reduce Company contributions and pay administrative expenses in 2021 were \$16,000 and \$17,000, respectively.

2. Summary of Significant Accounting Policies

Basis of Accounting - The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates - The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities and changes therein. Actual results could differ from those estimates.

Investments Valuation and Income Recognition - The Plan's investments are reported at fair value, except for fully benefit-responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Retirement and Benefit Plan Administrative Committee determines the Plan's valuation policies utilizing information provided by the investment advisors and custodians. See Note 4 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Net appreciation in fair value of investments includes both realized and unrealized investment gains and losses. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Notes Receivable from Participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2021 or 2020. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

2. Summary of Significant Accounting Policies (continued)

Benefit Payments - Benefits are recorded when paid.

Plan Expenses - Administrative expenses are paid by the Company, an individual participant, or the Plan at the discretion of the Retirement and Benefit Plan Administrative Committee.

CARES Act - Effective in April 2020, certain provisions under the CARES Act relating to participant distributions and participant loans were enacted. The CARES Act allows for utilization of these provisions immediately, but requires formal adoption of the amendment no later than the last day of the plan year beginning on or after December 31, 2022.

Subsequent Events - The Plan has evaluated subsequent events through June 24, 2022, the date the financials statements were available to be issued.

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2021 and 2020.

Common Stock: Valued at the closing price on the active market in which the security is traded.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common Collective Trusts: Valued using the NAV of units, as determined by the insurance company. NAV is a readily determinable fair value and is the basis for current transactions.

Self-Directed Brokerage Accounts: Consist of mutual funds, common stocks, and cash equivalents that are valued on the basis of readily determinable market prices.

4. Fair Value Measurements (continued)

The following tables set forth, by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31 (in thousands):

2021				
	Level 1	Level 2	Level 3	Total

Total Investments at Fair Value	\$ 27,680	\$ 56,180	\$ —	\$ 83,860

2020				
	Level 1	Level 2	Level 3	Total

Mutual Funds	13,839	—	—	13,839
Self-Directed Brokerage Accounts	1,702	—	—	1,702
Total Investments at Fair Value	\$ 21,655	\$ 50,551	\$ —	\$ 72,206

5. Group Annuity Contract with Insurance Company

The Plan invests in a traditional fully benefit-responsive guaranteed investment contract with New York Life Insurance Company (the Insurance Company). The Insurance Company maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer but may not be less than 3%. The crediting rate is reviewed on a semi-annual basis for resetting. The guaranteed investment contract does not permit the Insurance Company to terminate the agreement prior to the scheduled maturity date.

	2021	2020

THE MARCUS CORP
401(K) RETIREMENT SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2021 AND 2020

5. Group Annuity Contract with Insurance Company (continued)

This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by the Insurance Company, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA, or (5) premature termination of the contract. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Such events include (1) an uncured violation of the Plan's investment guidelines, (2) a breach of material obligation under the contract, (3) a material misrepresentation, and (4) a material amendment to the agreement without the consent of the issuer.

6. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' accounts balances and the amounts reported in the statements of net assets available for benefits.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, all participants would become 100% vested in their company contributions.

THE MARCUS CORP
401(K) RETIREMENT SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2021 AND 2020

8. Plan Tax Status

The Plan is placing reliance on an opinion letter dated March 31, 2014, received from the IRS on the prototype plan indicating that the Plan is qualified under Section 401 of the IRC and is therefore not subject to tax under current income tax law. The Plan has been amended since receiving the opinion letter. However, the Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. Party-In-Interest Transactions

The Plan invests in common stock of The Marcus Corporation, the Plan Sponsor. In addition, certain Plan investments are managed by Principal Trust Company. Principal Trust Company is the trustee as defined by the Plan and, therefore, the investment transactions qualify as party-in-interest transactions. These party-in-interest transactions are exempt from the prohibited transactions rules of ERISA. Administrative expenses of \$210,000 were paid to the trustee for the year ended December 31, 2021.
