MILLER & MARTIN ALTERNATE PROFIT SHARING PLAN

Notes to the Financial Statements

September 1, 2021 and December 31, 2020

(1) Description of plan

The following description of the Miller & Martin Alternate Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

(a) General

The Plan was a defined contribution plan which was adopted on December 1, 2006, as a complement to the previously adopted Miller & Martin Profit Sharing Plan (the "Main Plan"). The plans were designed to operate together to provide retirement benefits for employees of Miller & Martin PLLC (the "Plan Sponsor"). The Plan covered substantially all employees who had completed six months of service (participants) with the exclusion of temporary employees, employees of affiliated employers which have not formally adopted the Plan, and employees joining the Plan Sponsor through an acquisition or merger who have not yet reached the expiration of the transition period. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

(b) Contributions

Participants could contribute the maximum allowable amount under Section 401(k) of the Internal Revenue Code (IRC). Participants could also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. In order to participate in the employee deferral contributions and the Plan Sponsor matching contributions, employees were required to make a minimum contribution of 1% of compensation. Participant contributions were permitted up to 80% of compensation.

The Plan Sponsor matched an amount equal to 100% of each participant's contributions up to 2% of each participant's compensation. Plan Sponsor and participant contributions could not exceed the maximum amount allowable for federal income tax purposes. The Plan excluded a certain group of participants from the matching contribution portion. In addition, the Plan Sponsor provided notice to participants annually with respect to its intention to make a safe harbor contribution of 3% of each eligible participant's compensation. No eligible participants were excluded from the safe-harbor contribution. Safe harbor contributions were made for the year ended December 31, 2020. For the period ending September 1, 2021, safe-harbor contributions were funded to the Plan Sponsor's Main Plan.

The Plan also provided that the Plan Sponsor could make a discretionary contribution each year of an amount authorized by the Plan Sponsor for eligible participants with two or more years of service who were employed on the last day of the plan year; however, an annual contribution by the Plan Sponsor was not required. For the year ended December 31, 2020, the Plan Sponsor contributed a discretionary contribution of 2.5% of each eligible participant's compensation. For the period ending September 1, 2021, the contribution was funded to the Plan Sponsor's Main Plan.

MILLER & MARTIN ALTERNATE PROFIT SHARING PLAN

Notes to the Financial Statements

September 1, 2021 and December 31, 2020

(c) Participant accounts

Each participant's account was credited (charged) with the participant's contributions, and allocations of Plan Sponsor contributions, investment earnings (losses), and investment expenses and trustee fees allocable to such participants. Allocations were based on participant compensation or account balances as defined in the plan agreement.

Contributions were invested into individual brokerage accounts at the participant's direction.

Participants could also transfer all or a portion of their accounts between the Plan and the Main Plan on a quarterly basis.

(d) Vesting

Participants were immediately vested in their elective salary deferral plus actual earnings (losses) thereon. Participants were also immediately vested in the Plan Sponsor's safe harbor, matching, and discretionary contributions.

(e) Payment of benefits

On termination of service, a participant could elect to receive a cash or in-kind lump-sum payment, installments over a specified period equal to his or her entire account, or partial withdrawals.

For all active or terminated employees age 55 and older, with 10 or more years of service, in-service withdrawals (\$1,000 minimum) could be taken from the Plan.

(f) Administrative expenses

Certain expenses of maintaining the Plan were paid directly by the Plan Sponsor and were excluded from these financial statements. Trustee fees were paid by the Plan and are included in the statements of changes in net assets available for benefits. Investment expenses are included as a reduction to investment income in the net assets available for benefits.

(2) Summary of significant accounting policies

(a) Basis of accounting

The financial statements of the Plan are prepared on the accrual basis of accounting. On September 1, 2021, the Plan was merged into the Main Plan.

MILLER & MARTIN ALTERNATE PROFIT SHARING PLAN

Notes to the Financial Statements

September 1, 2021 and December 31, 2020

(b) Investment valuation and income recognition

The investments were stated at fair value as reported by Regions Bank ("Regions"). Fair value was the price that would have been received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Administrative Committee determined the Plan's valuation policies by utilizing information provided by the investment advisors and Regions. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

(c) Payment of benefits

Benefits are recorded when paid.

(d) Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

(3) Certified information

Certain information related to investments presented and disclosed in the accompanying financial statements, including the fair value of investments, accrued investment income, and accrued expenses as of September 1, 2021 and December 31, 2020, and the net appreciation in fair value of investments, and interest and dividend income for the period ended September 1, 2021 and the year ended December 31, 2020, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Regions.

(4) Fair value measurements

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

MILLER & MARTIN ALTERNATE PROFIT SHARING PLAN

Notes to the Financial Statements

September 1, 2021 and December 31, 2020

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for asset measurement at fair value for significant assets that are held in the self-directed brokerage accounts.

- (i) *Common, foreign and preferred stocks, corporate bonds, municipal obligations, and publicly traded limited partnerships:* Valued at the closing price reported on the active market on which the individual securities are traded.
- (ii) *Mutual funds and money market funds:* Valued based on the funds' reported closing net asset values (NAV) of shares held by the Plan as of the last business day of the plan year. The funds are deemed to be actively traded.
- (iii) *Investments in privately traded limited partnerships:* Investments in privately traded limited partnerships have no quoted market prices and are stated at estimated fair value as provided by the general partner and/or the investment manager. These estimated values may be determined based on the value of the underlying assets, sales of comparable assets, projected cash flows or some combination thereof. Due to the inherent uncertainty of the valuation, the assigned fair values may differ significantly from the values that would have been used had a ready market for the investments existed, and the differences could be material.

Redemption of certain investments in this category may be restricted in the short term and/or may yield a value significantly different from the estimated fair value.

MILLER & MARTIN ALTERNATE PROFIT SHARING PLAN

Notes to the Financial Statements

September 1, 2021 and December 31, 2020

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan's management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

There were no plan assets remaining as of September 1, 2021. The following table sets forth by level, the Plan's assets at fair value as of December 31, 2020:

	Fair Value Measurements as of December 31, 2020 Using the Following Inputs

(5) Income tax status

The Plan obtained a favorable determination letter on August 24, 2017, in which the Internal Revenue Service (IRS) stated that the Plan was in compliance with the applicable requirements of the IRC. The Plan was required to operate in conformity with the IRC to maintain its qualification. The Plan was amended since receiving the determination letter. However, the plan administrator believes that the Plan was designed and was being operated in compliance with the applicable provisions of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability or asset if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of September 1, 2021, there were no uncertain positions taken or expected to be taken that would require recognition of a liability or asset or disclosure in the financial statements. The Plan was subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
