Note 1 - Plan Description

The following description of FourPoint Energy, LLC 401(k) Plan (the "Plan") prior to the plan merger further described in Note 6 provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established on January 1, 2014 covering all full-time employees of FourPoint Energy, LLC (the "Company") who are age 21 or older. Employees who are under a collective bargaining agreement or are nonresident aliens are not eligible to participate in the Plan. The entry date for eligible participants is immediate. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The last amendment to the Plan was effective January 1, 2018.

FourPoint Energy, LLC administers the Plan. Ascensus Trust Company (Ascensus) serves as trustee, manages plan assets, and maintains the Plan's records. Ascensus offers plan participants a variety of investment options through various mutual funds and a common collective trust. Individual accounts are invested in the various investment options at the direction of the participants.

Contributions

The Plan provides for employee salary deferral contributions up to a maximum of 100 percent of annual eligible compensation subject to maximum tax-deferred limitations established by the Internal Revenue Code. This maximum percentage may be reduced by the plan administrator in certain circumstances. Eligible employees who have reached age 50 during the plan year may elect to make catch-up contributions, as limited by the IRS. The Plan also permits rollover contributions from other qualified retirement plans. Employee contributions to the Plan are made through regular payroll deductions.

Participants are eligible to defer on an after-tax basis through regular payroll deductions a portion of annual eligible compensation as Roth 401(k) contributions. Provided requirements are met, withdrawals of contributions and any earnings are tax free to the participant. A participant's combined pretax and Roth 401(k) contributions cannot exceed the maximum annual amount allowed by law.

The Plan is operating pursuant to the safe harbor provisions of the Internal Revenue Code (IRC) Section 401(k)(12). The Company's safe harbor matching contributions are on an annual basis and will equal 100 percent of elective deferrals up to 4 percent of a participant's eligible compensation. The Company has the right to designate all or a portion of the matching safe harbor contributions as qualified. To the extent matching contributions are so designated, they are nonforfeitable and may not be withdrawn from the Plan prior to separation from service or attainment of age 59½. Safe harbor contributions totaled \$86,255 for the period ended September 1, 2021.

The Company can make annual profit-sharing contributions to the Plan in an amount to be determined by the Company. In order to be eligible for the discretionary profit-sharing contribution, the employee must be employed on the last day of the plan year and have met all other eligibility requirements, as defined by the plan document. For the period ended September 1, 2021, the Company did not make a discretionary profit-sharing contribution.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of the Company's contributions and plan earnings and charged with plan losses and an allocation of administrative expenses. Allocations are based on the participants' eligible compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

September 1, 2021 and December 31, 2020**Note 1 - Plan Description (Continued)*****Vesting***

Participants are immediately vested in their contributions and employer safe harbor matching contributions, plus actual earnings thereon.

The Company's discretionary profit-sharing contributions, if any, vest according to the following schedule:

<u>Years of Service</u>	<u>Vesting Percentage</u>
Less than 2	- %
2	20
3	40
4	60
5	80
6	100

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their vested account balances. Participants may have a maximum of one loan outstanding at any given time. The notes receivable are secured by the balance in the participant's account, bear interest at rates that range from 5.25 percent to 7.50 percent, which are commensurate with local prevailing rates determined quarterly by the plan administrator at loan origination; and mature at various dates through March 2050. Loans have a maximum term of 5 years, unless such loan is for the purchase of the participant's primary residence, in which case the repayment period may not exceed 30 years from the date of the loan origination. Principal and interest are paid ratably through payroll deductions. Upon termination of a participant from employment, the participant's loan shall continue to be payable in accordance with the provisions of the participant's loan or be due in full. No loans were deemed to be a distribution in the current year.

Benefit Payments

Upon termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or various installment annuities.

The Plan allows in-service distributions and partial distributions to participants age 59½ or older who have not terminated employment with the plan sponsor. The Plan also provides for hardship withdrawals for defined hardship events. Participants who are granted a hardship withdrawal are not allowed to make contributions for the six months following such withdrawal. The Plan allows in-plan Roth conversions. Furthermore, the Plan allows for terminated participant vested account balances of \$1,000 or less to be automatically distributed. If a terminated participant's vested account balance is greater than \$1,000 and the participant does not elect to have such distribution paid directly to an eligible retirement plan, distribution shall be paid by the plan administrator in a direct rollover to an individual retirement arrangement. The IRS has required minimum distributions once a participant reaches age 70½ during the previous plan year and is no longer employed by the Company.

Forfeitures

If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. Forfeitures are used to reduce future company contributions or to pay administrative expenses of the Plan. There were no forfeiture account balances at September 1, 2021 and December 31, 2020.

September 1, 2021 and December 31, 2020

Note 1 - Plan Description (Continued)

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan document and ERISA. Upon termination of the Plan, participants become 100 percent vested in their account balances.

Related Party and Party-in-interest Transactions

Certain plan assets are in investment funds managed by Ascensus Trust Company or its affiliates. Ascensus Trust Company is the trustee of the Plan; therefore, these transactions qualify as party-in-interest transactions, as defined under ERISA guidelines.

Benefits are recorded when paid.

Investment Valuation

The Plan's mutual funds are stated at fair value. Purchases and sales of investments are recorded on a trade-date basis. Interest income is recognized on the accrual basis. Dividends are recognized on the ex-dividend date.

The common collective trust is valued at net asset value (NAV) of units of the common collective trust. NAV is used as a practical expedient to estimate fair value. There are no redemption restrictions or unfunded commitments on this investment.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

Administrative Expenses

Various administrative costs are paid by the Company. The Plan has a revenue-sharing arrangement where participants receive a revenue credit against their expenses for investing in Vanguard Group Inc.'s (Vanguard) investment options, which are included in net realized and unrealized gains in fair value of assets on the statement of changes in net assets available for benefits.

Notes Receivable from Participants

Notes receivable from participants are recorded at their unpaid principal balances plus any accrued interest. Notes receivable from participants are written off when deemed uncollectible.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including June 14, 2022, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

Ascensus, as agent for Ascensus Trust Company (the "Trustee"), holds the Plan's investments and notes receivable from participants and executes all related transactions. The investment and notes receivable from participant balances and related income and losses included in the accompanying financial statements are based solely on information certified by the Trustee.

Note 4 - Tax Status

The Plan is a prototype plan. The prototype plan has received a favorable opinion letter from the Internal Revenue Service (IRS) dated March 31, 2014 indicating that the Plan, as designed, is qualified for federal income tax-exempt status. The Plan has not individually sought its own determination letter.

Note 5 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

Level 1

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances where inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.
