Report on the Financial Statements

We have audited the accompanying financial statements of the Consolidated Cash Balance Program of Mass General Brigham and Member Organizations (the Plan), which comprise the statements of net assets available for benefits as of September 30, 2021 and 2020, the related statement of changes in net assets available for benefits for the year ended September 30, 2021, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial status of the Plan as of September 30, 2021 and 2020, and the changes in its financial status for the year ended September 30, 2021, in accordance with accounting principles generally accepted in the United States of America.

1. Description of Plan

General

The Consolidated Cash Balance Program (the Plan) is a defined benefit plan covering substantially all employees of Mass General Brigham Incorporated (MGBI, the Plan Sponsor), The General Hospital Corporation (GH), Massachusetts General Physicians Organization, Inc. (MGPO), The MGH Institute of Health Professions, Inc. (IHP), The Spaulding Rehabilitation Hospital Corporation (SRH), Spaulding Hospital-Cambridge, Inc. (SHC), Rehabilitation Hospital of the Cape and Islands Corporation (RHCI), Spaulding Nursing and Therapy Center Brighton, Inc. (SCB), The McLean Hospital Corporation (McLean), Mass General Brigham Home Care, Inc. (MGBHC), AllWays Health Partners Holding Company, Inc. (AllWays Health), Martha's Vineyard Hospital, Inc. (MVH), WNR, Inc. (WNR), Newton-Wellesley Hospital (NWH), North Shore Medical Center, Inc. (NSMC), North Shore Physicians Group, Inc. (NSPG), Mass General Brigham Community Physicians, Inc. (MGBCP), The Brigham and Women's Hospital, Inc. (BWH), Brigham and Women's Physicians Organization, Inc. (BWPO), Brigham and Women's Faulkner Hospital, Inc. (BWFH), Massachusetts Eye and Ear Infirmary (MEEI), Massachusetts Eye and Ear Associates, Inc. (MEEA), Cooley Dickinson Health Care Corporation (CDH), Wentworth-Douglass Hospital (WDH) and Mass General Brigham Integrated Care, Inc. (iCare) (effective October 1, 2020) who have attained age 21 and completed one year of eligibility service (1,000 hours or more). Employees who were employed before January 1, 2016, at the GH, MGPO and IHP will receive benefits according to a historical plan design.

The Plan includes certain legacy plans that over time have merged into the Plan. The mergers did not result in any change in the benefits, rights or features of any participants or beneficiaries under the respective plans.

GH, MGPO, IHP, SRH, SHC, RHCI, SCB, McLean, MGBHC, MGBI, AllWays Health, MVH, WNR, NWH, NSMC, NSPG, MGBCP, BWH, BWPO, BWFH, MEEI, MEEA, CDH, WDH and iCare are collectively referred to as the Affiliates.

Information about the plan agreement and the Pension Benefit Guaranty Corporation's (PBGC) benefit guarantee is contained in the Plan's Summary Plan Description. Copies of this pamphlet are available to plan members (Members) from the MGBI Human Resources Support Center.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Vesting

Benefits become vested after completing three years of vesting service.

Pension Benefits

Benefits under the Plan are based on a participant's account balance and are paid at retirement or termination of employment. A participant may elect to defer commencement of benefits until age 72, or age 70 1/2 for participants born before July 1, 1949. Benefits are paid in a single lump-sum payment or as an actuarially equivalent annuity. Annual allocations are made to participant accounts based on the participant age, years of service, salary and employer. Interest is credited

Consolidated Cash Balance Program of Mass General Brigham and Member Organizations

Notes to Financial Statements

(\$ in thousands)

to participant accounts annually at the one-year Treasury Bond rate for the month of September preceding such twelve month period plus 100 basis points, but not less than 5.0 percent or not more than 12.0 percent. The Plan permits early retirement for employees age 55 to 64. Distributions are made under the terms of the Plan because of death, retirement or disability, with special provisions existing for terminated employees.

Pre-retirement Death and Disability Benefits

Vested Members are entitled to pre-retirement death benefit coverage. The death benefit payable to the Member's spouse or beneficiary is determined using the beneficiary's age at the birthday nearest to the date in which the benefits will commence. Active employees who became totally disabled receive annual disability benefits that are equal to the normal retirement benefits they have accumulated as of the time they become disabled. Disability benefits are paid until normal retirement age at which time disabled participants begin receiving normal retirement benefits computed as though they had been employed to normal retirement age.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of the accompanying financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements and the actuarial present value of accumulated plan benefits as of the benefit information date, the changes in net assets available for benefits during the reporting period, and, when applicable, the disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are carried at fair value. The fair value of the Plan's interest in the Partners HealthCare Master Trust for ERISA Assets (the Master Trust) is based on the beginning of year value of the Plan's interest in the Master Trust, plus actual contributions and investment income, less actual distributions and expenses (investment manager fees). Fair value of investments in the Master Trust are determined when available by reference to published market quotations. Investments in registered investment companies and common trusts are valued at their net asset values (NAV). Partnerships are reported based upon the value of the Master Trust's capital account in such partnerships, which approximates fair value. Partnerships do not have readily ascertainable market values but are valued by the investment manager using the following methodology: investments in securities sold short or traded on a national securities exchange are valued based on quoted market prices; investments in securities that are not traded and restricted securities of public companies are valued based on amounts reported by the fund manager and evaluated by management. Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

The Master Trust in which the Plan invests may utilize forward currency exchange contracts to manage exposure to currency fluctuations and hedge against adverse changes in connection with purchases and sales of securities. The contracts are recorded at fair value based on the applicable translation rates and any resulting change in unrealized appreciation (depreciation) is recorded in the statement of changes in net assets available for benefits as part of the Plan's interest in Master Trust investment income (loss). Realized gains (losses) are recorded at the time the forward contract matures or by delivery of the currency. As of September 30, 2021 and 2020, net unrealized depreciation on forward currency exchange contracts was (\$1,814) and (\$1,414), respectively.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those estimated future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to services rendered by employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries and (b) present employees or their beneficiaries. Benefits under the Plan are based on employees' compensation during their years of service. The accumulated plan benefits for active employees are based on their compensation for all service years ending on the date for which the benefit information is presented (the valuation date).

Benefits payable under all circumstances (retirement, death, disability and termination of employment) are included to the extent they are deemed attributable to employee service rendered to the valuation date.

A consulting actuary estimates the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

The Plan's expenses are paid either by the Plan (through the Master Trust) or the Plan Sponsor, as provided by the plan document. Expenses that are paid directly by the Affiliates are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statement of changes in net assets available for benefits. In addition, certain investment related expenses are included in the Master Trust investment income presented in the accompanying statement of changes in net assets available for benefits.

3. Pandemic

On March 11, 2020, the World Health Organization designated COVID-19 as a global pandemic resulting in an extraordinary impact on the Plan Sponsor in 2020. In response to the financial impact of COVID-19, substantially all employees' defined benefit employee credits were suspended from September 1, 2020 through November 30, 2020.

On December 11, 2020, the Executive Committee of the MGBI Board voted to restore employee credits for the period during 2020 in which they were suspended. In March 2021, the suspended 2020 pay credits were restored to participant accounts.

4. Funding Policy

The Plan Sponsor's funding policy is to contribute the net periodic pension cost, if any, accrued each year, but not less than the minimum required employer contribution under ERISA. The Plan has met the ERISA minimum funding requirements for the years ended September 30, 2021 and 2020. Additionally, the Affiliates may from time to time contribute in excess of the net periodic pension cost and the minimum required contribution under ERISA to ensure certain plan funding levels.

Although they have not expressed any intention to do so, the Affiliates have the right under the Plan to discontinue their contributions at any time and to terminate their participation in the Plan, subject to the provisions set forth in ERISA.

5. Accumulated Plan Benefits

The accumulated plan benefit information is as follows as of:

<i>September 30,</i>	2021	2020
Actuarial present value of accumulated plan benefits:		
Vested benefits:		
Participants currently receiving payments	\$ 1,535,151	\$ 1,395,972
Other participants	4,266,975	4,000,900
Total vested benefits	5,802,126	5,396,872
Nonvested benefits	65,165	78,178
Total actuarial present value of accumulated plan benefits	\$ 5,867,291	\$ 5,475,050

The significant assumptions underlying the actuarial computations were:

<i>September 30,</i>	2021	2020
Assumed credit interest rate on cash balance accounts	5.25%	5.25%
Assumed interest rate for benefit obligations	7.00%	7.00%
Assumed retirement age with an average retirement age of 65	62 - 75	62 - 75

Assumed 2021 mortality for non-annuitants was based on Pri-2012 “Employees” table without collar and base year of 2012, projected generationally using Scale MP-2021 and for annuitants was based on Pri-2012 “Healthy Annuitants” table without collar and base year 2012, projected generationally using Scale MP-2021, with separate mortality after the participant’s death, based on Pri-2012 “Contingent Survivor” table without collar and base year 2012, projected generationally using Scale MP-2021. For 2020 valuation, the base mortality tables were projected generationally using Scale MP-2020.

The significant changes in the actuarial present value of accumulated plan benefits for the Plan are as follows:

<i>September 30,</i>	2021	2020
Beginning value	\$ 5,475,050	\$ 5,157,235
Increase due to the passage of time	387,868	364,957
Benefits accumulated and effect of non-investment experience	201,524	186,457
Actuarial (gain)/loss	26,244	42,286
Benefits paid	(275,862)	(264,510)
Change in actuarial assumption	6,140	(11,375)
Plan amendments	46,327	-
Ending value	\$ 5,867,291	\$ 5,475,050

6. Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a) Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan.
- b) Other vested benefits insured by the PBGC up to the applicable limitations, as described in ERISA.
- c) All other vested benefits (that is, vested benefits not insured by the PBGC).
- d) All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Affiliates and the level of benefits guaranteed by the PBGC.

7. Interest in the Master Trust

The assets of the Plan are pooled and invested in the Master Trust. The assets of the Master Trust are held by the State Street Bank and Trust Company (the Custodian). Certain funds are managed by an affiliate of the Custodian and, therefore, qualify as party-in-interest transactions.

At September 30, 2021 and 2020, the Plan had a 100% interest in the net assets of the Master Trust.

The Master Trust invests in a variety of assets which include private partnerships whose assets include equity, fixed income and other investments. As of September 30, 2021 and 2020, the Master Trust has unfunded commitments of \$1,267,706 and \$1,052,941 which will be drawn down by the various general partners over the next several years. The maximum annual drawdown is expected to be 3 to 5 percent of investments.

Total net dividend and interest	14,629
Net investment income	\$ 2,252,214

8. Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (also referred to as exit price). Therefore, a fair value measurement should be determined based on the assumptions that market participants would use in pricing the asset or liability. In determining fair value, the use of various valuation approaches, including market, income, and cost approaches, is permitted.

Fair Value Hierarchy

A fair value hierarchy has been established based on whether the inputs to valuation techniques are observable or unobservable. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect the reporting entity's assumptions about the inputs market participants would use. The fair value hierarchy requires the reporting entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. In addition, for hierarchy classification purposes, the reporting entity should not look through the form of an investment to the nature of the underlying securities held by an investee.

Consolidated Cash Balance Program of Mass General Brigham and Member Organizations

Notes to Financial Statements

(\$ in thousands)

The hierarchy is described below:

- Level 1:** Valuations using quoted prices in active markets for identical assets or liabilities. Valuations of these products do not require a significant degree of judgment. Level 1 assets and liabilities primarily include debt and equity securities that are traded in an active exchange market.
- Level 2:** Valuations using observable inputs other than Level 1 prices such as quoted prices in active markets for similar assets or liabilities; quoted prices for identical or similar assets or liabilities in markets that are not active; broker or dealer quotations; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.
- Level 3:** Valuations using unobservable inputs that are supported by little or no market activity and are significant to the fair value of the assets or liabilities.

Valuation Techniques

All investments, except for some partnerships and commingled funds, are classified within Level 1 or Level 2 of the fair value hierarchy as they are valued using quoted market prices, broker or dealer quotations, or other observable pricing sources. In evaluating the Level at which the Master Trust's private partnerships have been classified within the fair value hierarchy, management has assessed factors including, but not limited to price transparency, the ability to redeem these investments at net asset value (NAV) at the measurement date and the existence or absence of certain restrictions at the measurement date. Investments in private partnerships generally have limited redemption options for investors and, subsequent to final closing, may or may not permit subscriptions by new or existing investors. These entities may also have the ability to impose gates, lockups and other restrictions on an investor's ability to readily redeem out of their investment interest in the fund. The private partnerships use NAV as the practical expedient in reporting their value. As of September 30, 2021 and 2020, the Plan has excluded all assets from the fair value hierarchy for which fair value is measured at NAV per share using the practical expedient.

Total investments, at fair value	\$ 714,980	\$ 1,671,245	\$ 5,373,269	\$	7,759,494

9. Tax Status

The Master Trust established under the Plan to hold the Plan's assets is intended to be exempt pursuant to the appropriate section of the Internal Revenue Code (IRC). The Plan has obtained its latest determination letter on March 29, 2021 in which the Internal Revenue Service (IRS) stated that the design of the Plan was in compliance with the applicable requirements of the IRC. The Plan Sponsor believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, the Plan Sponsor believes that the Plan was qualified and the related trust was tax-exempt as of the financial statement date. Accordingly, no provision for income tax has been recorded in the accompanying financial statements.

Accounting literature requires the Plan Sponsor to evaluate tax positions taken by the Plan and recognize a liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. Plan Sponsor has concluded there are no uncertain positions taken. The Plan is subject to routine audits by taxing jurisdictions; however,

Consolidated Cash Balance Program of Mass General Brigham and Member Organizations

Notes to Financial Statements

(\$ in thousands)

there are currently no audits for any tax periods in progress. The Plan Sponsor believes it is no longer subject to examinations for years prior to 2018.

10. Risks and Uncertainties

The Plan provides for investments in the Master Trust. These investments in the Master Trust include investments in short-term investments, separately managed investments (including preferred and common stocks, registered investment companies, corporate and government debt), commingled funds, and private partnerships. These investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the value of investments will occur in the near-term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Contributions to the Plan are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee compensation and demographics, all of which are subject to change. Due to the uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these assumptions in the near-term would be material to the financial statements.

11. Subsequent Events

The Plan has assessed the impact of subsequent events through June 30, 2022, which is the date the financial statements were available to be issued. There were no such events, other than listed below, that required adjustments or disclosure in the notes to the audited financial statements.

On March 22, 2022, the Board of Directors of MGBI voted to change the name of the Master Trust to "MGB ERISA Master Trust".

Demographic and Other Assumptions

Inclusion date	The valuation date coincident with or next following the date on which the employee becomes a participant.
New or rehired employees	It was assumed there will be no new or rehired employees after the census date.
Mortality – Healthy and Disabled	Separate rates for non-annuitants (based on RP-2014 “Employees” table without collar or amount adjustments, adjusted backward to 2006 with MP-2014, and then projected forward with a static projection as specified in the regulations under §1.430(h)(3)-1 using Scale MP-2018) and annuitants (based on RP-2014 “Healthy Annuitants” table without collar or amount adjustments, adjusted backward to 2006 with MP-2014, and then projected forward with a static projection as specified in the regulations under §1.430(h)(3)-1 using Scale MP-2018).
Termination (not due to retirement) rates	Rates as set forth in Exhibit A. None is assumed for former NCH participants.
Disability	For CDH, 1985 Pension Disability Table Class 1 for males & females. None Assumed for all other entities.
Retirement	100% at age 65 or present age, if older, for former NCH participants.

For CDH, age 65. However, 50% of participants with 25 years of service before age 65 are assumed to retire at the later of the completion of 25 years of service and attainment of age 62.

For all other participants, rates varying by age, average age 67

Deferred Vested	Retirement*	Lump Sum	66.67%	Age 65 or date of valuation, if later
Deferred Vested	Retirement*	Life Annuity	33.33%	Age 65 or date of valuation, if later

* For former NCH participants, 100% of actives are assumed to elect a 50% contingent annuity at age 55 or date of termination if later. For Deferred Vested participants who only have an annuity option (no cash balance account), the benefit is assumed to be payable as a single life annuity at age 65, unless an optional form was provided to us on the client data.

For GHC, MPO, McLean and BWH lump sum amounts are the greater of the cash balance account and the present value of any prior plan benefit using the substitution of annuity form under IRS Regulation 1.430(d)-1(f)(4) and unisex mortality. Annuity benefits are the greater of the Actuarial Equivalent (using plan specified factors) of the cash balance account and the benefit derived from the prior plan benefit formula.

Benefit commencement date for participants in the CDH sub- plan

- Preretirement death benefit The later of the death of the active participant or the date the participant would have attained age 65.
- Deferred vested benefit Age 65.
- Retirement benefit Immediately upon termination of employment.

Form of payment for participants in the CDH sub-plan

All participants are assumed to receive a life annuity with 3 years certain, but in no event will a participant receive less than a refund of accumulated contributions with interest.

Benefit commencement date for former participants in the UH sub-plan

- Preretirement death benefit The later of the death of the active participant or the date the participant would have attained early retirement age.
- Deferred vested benefit The later of current age or age 65.
- Retirement benefit Upon termination of employment.

Form of payment for former participants in the UH sub-plan

100% - Life annuity for single
50% - Life annuity for married
50% - 66 2/3% Contingent annuity for married

Benefit commencement date for former participants in the MEEI sub-plan

- Preretirement death benefit The later of the death of the active participant or the date the participant would have attained age 55.
- Deferred vested benefit Age 65.
- Retirement benefit Upon retirement.

SCHEDULE SB ATTACHMENTS

Form of payment for former participants in the MEEI sub-plan

75% of all employees terminating employment (including pre-retirement deaths) are assumed to elect an immediate lump sum payout, and 25% are assumed to elect a straight life annuity. 33.33% of all employees retiring are assumed to elect an immediate lump sum payout, and 66.67% are assumed to elect a straight life annuity.

Lump sum amounts are the greater of the cash balance account and the present value of any final average pay benefit using the substitution of annuity form under IRS Regulation 1.430(d)-1(f)(4) and unisex mortality. Annuity benefits are the greater of the Actuarial Equivalent (using plan specified factors) of the cash balance account and the benefit derived from the prior plan benefit formula.

Lump sums for former participants in the MEEI sub-plan

For the PPA liabilities, the Cash Balance and hypothetical matching account balances prior to 1/1/2019 are converted to annuities using a long-term 30-year Treasury interest assumption of 3.50% and the mortality table prescribed in Revenue Ruling 2001-62.

For the PPA liabilities, the amount of the lump sum payable is determined using the annuity substitution rules contained in the final PPA regulations without either of the optional adjustments.

Covered pay

For CDH, actual rate of pay as of the census date. For all others, actual pensionable earnings with increases at the assumed salary scale for the 2019 plan year.

Cash flow

- **Timing of benefit payments** Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.

Methods – Cost and Funded Position

Valuation date

First day of plan year

Funding target

Present value of accrued benefits as required by regulations under IRC §430.

Target normal cost

Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.

Decrement Timing

The approach used is called rounded middle of year (rounded MOY) decrement timing. Most events are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant's rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. For retirement and withdrawal decrements: the age is generally the participant's rounded age at the middle of the year.

Actuarial value of assets [for determining minimum required contributions]

Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year.) The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a bias to produce an actuarial value of assets that is below the market value of assets.

Benefits Not Valued

All benefits described in the Plan Provisions section of this report were valued. Willis Towers Watson has reviewed the plan provisions with Mass General Brigham and, based on that review, is not aware of any significant benefits required to be valued that were not.

Data Sources

Willis Towers Watson used asset data supplied by the custodian. Mass General Brigham through its third party administrator, furnished participant data as of October 1, 2020. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available. In consultation with Mass General Brigham assumptions were made for missing or apparently inconsistent data elements as described in our Data Action Plan dated June 30, 2021.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Cash balance interest crediting rate	For CCB, the interest credited at the end of each year based upon the beginning of year Cash Balance Account will be equal to the one-year U.S. Treasury bill rate as of the 9/30 during the calendar year plus 1.0%. It will not be less than 5.0%, nor greater than 12.0%. For MEEI cash balance pay credits earned prior to 12/31/2018, the interest credited at the end of each year based upon the beginning of year Cash Balance Account will be equal to the yield on 10-year U.S. Treasury securities in the prior November. It will not be less than 5.0%. After examining historical variability in this rate, including the increase in interest crediting expected to be caused by the minimum interest credit, we believe that the selected assumption is reasonable based on market conditions at the measurement date.
Lump sum conversion rate	Lump sum benefits for non-cash balance benefits are valued using "annuity substitution", so that the interest rates assumed are effectively the same as described above for the discount rate.
Rates of increase in compensation, Social Security Wage Base and CPI	Assumed increases were chosen by the plan sponsor and they represent an estimate of future experience.
Administrative expenses	Administrative expenses are estimated by determining the expected actual expenses for the coming year, and include the following: ▶ PBGC premiums ▶ Willis Towers Watson actuarial fees, ▶ Administrative fees by the Plan's third party administrator, ▶ a charge for Mass General Brigham's Benefits Office expense related to plan operation, and ▶ all other administrative expenses (based on a three-year average of actual expenses for all other administrative expenses)

Assumptions Rationale - Significant Demographic Assumptions

Mortality	Assumptions used for funding purposes were selected by the plan sponsor among the choices prescribed by IRS §430(h).
Termination	Termination rates are based on plan sponsor expectation for the future with periodic monitoring of observed gains and losses caused by termination patterns different than assumed. An experience study prepared in 2018 was the basis for the updated termination assumptions.
Retirement	Retirement rates are based on plan sponsor expectations for the future with periodic monitoring of observed gains and losses caused by retirement patterns different than assumed. An experience study prepared in 2018 was the basis for the updated retirement assumptions.
Benefit commencement date for deferred benefits:	
■ Deferred vested benefit	Deferred vested participants' assumed commencement age is a single age intended to capture the average age at commencement. Deferred vested early commencement factors are not subsidized so that the difference between this approach and using assumed commencement rates at multiple ages is not expected to be significant.
Form of payment	The percentages of participants assumed to elect various annuity forms and lump sums is based on observed experience modified to reflect an estimate of future experience.

Source of Prescribed Methods

Funding methods	The methods used for funding purposes, including the method of determining the plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRS §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in assumptions since prior valuation	The segment rates were used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC§430. The mortality table used to calculate the funding target and target normal cost was updated to include one additional year of projected mortality improvement, as required by IRC §430. The assumed plan-related expenses added to the service cost were changed from \$10,850,000 for the 2019 plan year to \$10,900,000 for the 2020 plan year based on expected changes to underlying components. The salary scale was updated to better reflect future expectations. The ARPA interest rate stabilization provisions have been reflected in this report. The assumed commencement age was updated to age 65 for BWH deferred vesteds to align with the rest of the plan.
Change in methods since prior valuation	None.

Statement by Enrolled Actuary
To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB – Statement by Enrolled Actuary

Plan Sponsor	Mass General Brigham Incorporated
EIN/PN	04-3230035 / 499
Plan Name	Consolidated Cash Balance Program of Mass General Brigham and Member Organizations
Valuation Date	October 1, 2020
Enrolled Actuary	Jennifer S. Collier, A.S.A., E.A
Enrollment Number	20-05680

The actuarial assumptions that are not mandated by IRC § 430 and regulations, represent the enrolled actuary's best estimate of anticipated experience under the plan, subject to the following conditions:

The actuarial valuation, on which the information in this Schedule SB is based, has been prepared in reliance upon the employee and financial data furnished by the plan administrator and the trustee. The enrolled actuary has not made a rigorous check of the accuracy of this information but has accepted it after reviewing it and concluding it is reasonable in relation to similar information furnished in previous years. The amounts of contributions and dates paid shown in Item 18 of Schedule SB were listed in reliance on information provided by the plan administrator and/or trustee.

**Schedule SB, Line 22
Description of Weighted Average Retirement Age
as of October 1, 2020**

For each active participant an expected retirement age was calculated, weighted in proportion to the probability that the individual would remain an active participant to each age and then retire at that age. The plan's weighted average retirement age of 67 is the arithmetic average of the expected retirement ages of all participants in the Consolidated Cash Balance Program of Mass General Brigham and Member Organizations based on the hypothetical method. Note that participants in the former plan in tables II have a lower weighted average retirement age.

The rates of retirement at each age are as follows:

Demographic and Other Assumptions

Inclusion date	The valuation date coincident with or next following the date on which the employee becomes a participant.		
New or rehired employees	It was assumed there will be no new or rehired employees after the census date.		
Mortality – Healthy and Disabled	Separate rates for non-annuitants (based on RP-2014 “Employees” table without collar or amount adjustments, adjusted backward to 2006 with MP-2014, and then projected forward with a static projection as specified in the regulations under §1.430(h)(3)-1 using Scale MP-2018) and annuitants (based on RP-2014 “Healthy Annuitants” table without collar or amount adjustments, adjusted backward to 2006 with MP-2014, and then projected forward with a static projection as specified in the regulations under §1.430(h)(3)-1 using Scale MP-2018).		
Termination (not due to retirement) rates	Rates as set forth in Exhibit A. None is assumed for former NCH participants.		
Disability	For CDH, 1985 Pension Disability Table Class 1 for males & females. None Assumed for all other entities.		
Retirement	100% at age 65 or present age, if older, for former NCH participants. For CDH, age 65. However, 50% of participants with 25 years of service before age 65 are assumed to retire at the later of the completion of 25 years of service and attainment of age 62. * For former NCH participants, 100% of actives are assumed to elect a 50% contingent annuity at age 55 or date of termination if later. For Deferred Vested participants who only have an annuity option (no cash balance account), the benefit is assumed to be payable as a single life annuity at age 65, unless an optional form was provided to us on the client data.

For GHC, MPO, McLean and BWH lump sum amounts are the greater of the cash balance account and the present value of any prior plan benefit using the substitution of annuity form under IRS Regulation 1.430(d)-1(f)(4) and unisex mortality. Annuity benefits are the greater of the Actuarial Equivalent (using plan specified factors) of the cash balance account and the benefit derived from the prior plan benefit formula.

Form of payment for former participants in the MEEI sub-plan		75% of all employees terminating employment (including pre-retirement deaths) are assumed to elect an immediate lump sum payout, and 25% are assumed to elect a straight life annuity. 33.33% of all employees retiring are assumed to elect an immediate lump sum payout, and 66.67% are assumed to elect a straight life annuity.	
Lump sums for former participants in the MEEI sub-plan		For the PPA liabilities, the Cash Balance and hypothetical matching account balances prior to 1/1/2019 are converted to annuities using a long-term 30-year Treasury interest assumption of 3.50% and the mortality table prescribed in Revenue Ruling 2001-62.	
Covered pay		For the PPA liabilities, the amount of the lump sum payable is determined using the annuity substitution rules contained in the final PPA regulations without either of the optional adjustments. For CDH, actual rate of pay as of the census date. For all others, actual pensionable earnings with increases at the assumed salary scale for the 2019 plan year.	
Cash flow		■ Timing of benefit payments	
		Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.

The approach used is called rounded middle of year (rounded MOY) decrement timing. Most events are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant's rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. For retirement and withdrawal decrements: the age is generally the participant's rounded age at the middle of the year. Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year.) The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a bias to produce an actuarial value of assets that is below the market value of assets.

Benefits Not Valued	
All benefits described in the Plan Provisions section of this report were valued. Willis Towers Watson has reviewed the plan provisions with Mass General Brigham and, based on that review, is not aware of any significant benefits required to be valued that were not.	
Data Sources	
Willis Towers Watson used asset data supplied by the custodian, Mass General Brigham through its third party administrator, furnished participant data as of October 1, 2020. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available. In consultation with Mass General Brigham assumptions were made for missing or apparently inconsistent data elements as described in our Data Action Plan dated June 30, 2021. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Cash balance interest crediting rate	For CCB, the interest credited at the end of each year based upon the beginning of year Cash Balance Account will be equal to the one-year U.S. Treasury bill rate as of the 9/30 during the calendar year plus 1.0%. It will not be less than 5.0%, nor greater than 12.0%. For MEEI cash balance pay credits earned prior to 12/31/2018, the interest credited at the end of each year based upon the beginning of year Cash Balance Account will be equal to the yield on 10-year U.S. Treasury securities in the prior November. It will not be less than 5.0%. After examining historical variability in this rate, including the increase in interest crediting expected to be caused by the minimum interest credit, we believe that the selected assumption is reasonable based on market conditions at the measurement date. Lump sum benefits for non-cash balance benefits are valued using "annuity substitution", so that the interest rates assumed are effectively the same as described above for the discount rate. Assumed increases were chosen by the plan sponsor and they represent an estimate of future experience.
Rates of increase in compensation, Social Security Wage Base and CPI	Administrative expenses are estimated by determining the expected actual expenses for the coming year, and include the following: ▶ PBGC premiums ▶ Willis Towers Watson actuarial fees, ▶ Administrative fees by the Plan's third party administrator, a charge for Mass General Brigham's Benefits Office expense related to plan operation, and ▶ all other administrative expenses (based on a three-year average of actual expenses for all other administrative expenses)

Assumptions Rationale - Significant Demographic Assumptions

Mortality	Assumptions used for funding purposes were selected by the plan sponsor among the choices prescribed by IRS §430(h).
Termination	Termination rates are based on plan sponsor expectation for the future with periodic monitoring of observed gains and losses caused by termination patterns different than assumed. An experience study prepared in 2018 was the basis for the updated termination assumptions.
Retirement	Retirement rates are based on plan sponsor expectations for the future with periodic monitoring of observed gains and losses caused by retirement patterns different than assumed. An experience study prepared in 2018 was the basis for the updated retirement assumptions.
Benefit commencement date	Deferred vested participants' assumed commencement age is a single age intended to capture the average age at commencement. Deferred vested early commencement factors are not subsidized so that the difference between this approach and using assumed commencement rates at multiple ages is not expected to be significant.
Form of payment	The percentages of participants assumed to elect various annuity forms and lump sums is based on observed experience modified to reflect an estimate of future experience.

Source of Prescribed Methods

Funding methods
The methods used for funding purposes, including the method of determining the plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRS §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in assumptions since prior valuation

The segment rates were used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC§430.

The mortality table used to calculate the funding target and target normal cost was updated to include one additional year of projected mortality improvement, as required by IRC §430.

The assumed plan-related expenses added to the service cost were changed from \$10,850,000 for the 2019 plan year to \$10,900,000 for the 2020 plan year based on expected changes to underlying components.

The salary scale was updated to better reflect future expectations.

The ARPA interest rate stabilization provisions have been reflected in this report.

The assumed commencement age was updated to age 65 for BWH deferred vesteds to align with the rest of the plan.

Change in methods since prior valuation

None.

Other Plan Provisions

Normal Form of Payment
The normal form of retirement benefit for employees who are married shall be the actuarially reduced benefit provided under a 50% contingent annuitant pension, unless an employee elects an optional form of payment. The normal form of payment for single employees is the single life annuity.

Optional Forms of Payment
The optional forms of payment include the 50%, 66-2/3%, 75% and 100% contingent annuitant option, a life annuity option for married participants, a 10, 15 or 20 year certain and continuous option, a 10, 15 or 20 year certain option and a lump sum option.

Actuarial Equivalence
For former NCH participants: The actuarial equivalence factor is calculated using a 7.50% interest rate and the 1983 GAM Unisex Mortality Table. This factor is used to convert from the normal form of payment to an optional form of payment.

For all other participants for balances earned prior to 2017 and for all balances for grandfathered participants: The actuarial equivalence factor is calculated using a 7.50% interest rate and the 1951 GAM Projected to 1960 Mortality Table set back two years for participants and 1951 GAM Projected to 1960 Mortality Table set back three years for beneficiaries. These factors are used to convert cash balance accounts accrued before 2009 to an annuity and to convert from the normal form of payment to any optional form. For Post 2008 Cash Balance Accruals, the Applicable Mortality table established by the IRS under 417(e)(3) in effect for the Plan Year is used to convert the cash balance account to an annuity. For balances earned post-2016 for non-grandfathered participants, the interest used is 5.0% and the mortality used is Applicable Mortality table established by the IRS under 417(e)(3) in effect for the Plan Year. This is used to convert the account balance to an annuity and to convert from the normal form of payment to all optional forms.

Limits on benefits and pay

All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective. Increases in the dollar limits are assumed for determining pension cost.

Future Plan Changes

Willis Towers Watson is not aware of any future plan changes which are required to be reflected.

Changes in Benefits Valued Since Prior Year

Dover Women's Health was added to the plan effective 7/1/2019 and Kindred Healthcare was added to the plan effective 10/1/2019.

The minimum pay credit for participants of General Hospital Corporation hired prior to 2016 was increased for both calendar 2017 and calendar 2018.

The Newton-Wellesley Hospital provided a retirement window which included enhancements to pension benefits. These enhancements have been added effective September 30, 2019.

There have been no other changes in benefits valued since the prior year.

Plan Provisions for BWH participants

Status of Plan Active and open to eligible participants.

Effective Date January 1, 1976, as restated October 1, 1989 and amended through October 1, 2017.

Covered Employees Employees are eligible when they have attained age 21 and completed one year of service during which they have worked at least 1,000 hours. Employees of BWPO and BWFH (excluding nurses) are first eligible on January 1, 2017 unless otherwise excluded due to collective bargaining or grandfathering in another MGB-sponsored retirement plan. BWFH nurses are first eligible on October 1, 2017.

Definitions

Benefit Service Benefit Service is based on calendar years in which a participant is paid for at least 1,000 hours. A full year is credited for 2,080 hours in a calendar year and fractional years are credited if the participant has less than 2,080 hours but at least 1,000 hours in a calendar year.

Vesting Service A participant earns a year of Vesting Service for each calendar year from date of hire in which he is paid for at least 1,000 hours.

Compensation Compensation means the W-2 earnings plus any amounts contributed by the Hospital through salary reduction for 403(b) annuities and any pre-tax contributions made to a flexible benefits program. Effective January 1, 2017, compensation used in calculating pay credits for all participants other than members of the BWH nurses shall be the basic regular salary paid to a participant during the calendar year, including payments for accrued time off, shift differentials, and salary deferrals to a tax sheltered annuity, limited to the amount permitted under Section 401(a)(17) of the Code.

Final Average Monthly Compensation Average of a participant's compensation (base salary for 2,080 hours) over 60 consecutive months during his last 120 months while an active member which produces the highest average.

Early retirement	Cash Balance Account Annuity payable at any age beginning with his early retirement age, but no later than his normal retirement age and not less than the Grandfathered Benefit, if applicable. If the payment of the benefits is deferred, the Cash Balance Account will accrue Interest Credits until payments commence. If applicable the Grandfathered Benefit is reduced by 6-2/3% for each of the first five years and 3-1/3% for each subsequent year that benefit commencement precedes Normal Retirement Date.
Deferred vested retirement	Cash Balance Account Annuity payable at any age but no later than normal retirement age, and not less than the Grandfathered Benefit if applicable. If the benefit is deferred, the Cash Balance Account will accrue Interest Credits until payments commence. If applicable, the Grandfathered Benefit, if paid prior to normal retirement age, would be reduced as for early retirement.
Preretirement death	Vested participants are entitled to preretirement death benefit coverage. The death benefit payable to the beneficiary is the Cash Balance Account Annuity, but not less than the Grandfathered Benefit, if applicable. If applicable, the Grandfathered Benefit would be reduced as for early retirement.
Other Plan Provisions	
Optional forms of payment	The optional forms of payment include the 50%, 66-2/3%, 75% and 100% contingent annuitant option, a life annuity option for married participants, a 10, 15 or 20 year certain and continuous option, a 10, 15 or 20 year certain only option and a lump sum option.

Actuarial equivalence

For balances earned prior to 2017 for all participants other than BWH nurses and for balances earned prior to 8/15/2019 for BWH nurses, the actuarial equivalence factor is calculated using a 7.50% interest rate and the 1951 GAM Projected to 1960 Mortality Table set back two years for participants and 1951 GAM Projected to 1960 Mortality Table set back three years for beneficiaries.

For balances earned post-2016 for all participants other than BWH nurses, the interest used is 5.0% and the mortality used is Applicable Mortality table established by the IRS under 417(e)(3) in effect for the Plan Year. These factors are used to convert cash balance accounts to an annuity and to convert from the normal form of payment to any optional form.

Plan Provisions for MEEI participants

Effective Date The last restatement was effective October 1, 2012. The most recent amendment reflected in the following plan provisions is effective January 1, 2019

Eligibility Any employee employed by the Plan Sponsors but not including physicians, research associates, residents, clinical or research fellows, students, per diem employees, temporary employees, employees covered by a collectively bargained agreement, or employees deemed ineligible by the board of directors. Eligible employees become participants of the plan after completing 1,000 hours of service in the first full year of employment or calendar year.

Definitions

Benefit Service For cash balance purposes, the Participant will be credited with a prorata portion of a year of benefit service for each calendar year in which he/she completes 1,000 hours of service as an Eligible Employee based on hours over 2,080. For purposes of the Background Benefit, the Participant will be credited with one year of benefit service for each calendar year in which he/she completes 1,000 hours of service as an Eligible Employee.

For all purposes, no benefit service is earned after 12/31/2018.

Compensation Compensation means the basic regular wage or salary paid by the Plan Sponsors before any and all deductions. Compensation does not include bonus or overtime. In determining a Participant's Frozen Final Average Benefit or Background Benefit, compensation for part-time employees is calculated as if the employee worked the full-time schedule for his/her job classification. For plan benefit purposes, no compensation in excess of the applicable IRC section 401(a)(17) limit is taken into account.

SCHEDULE SB ATTACHMENTS

Schedule SB, Line 22 Description of Weighted Average Retirement Age as of October 1, 2020

For each active participant an expected retirement age was calculated, weighted in proportion to the probability that the individual would remain an active participant to each age and then retire at that age. The plan's weighted average retirement age of 67 is the arithmetic average of the expected retirement ages of all participants in the Consolidated Cash Balance Program of Mass General Brigham and Member Organizations based on the hypothetical method. Note that participants in the former plan in tables II have a lower weighted average retirement age.

The rates of retirement at each age are as follows:

Preretirement Death

The amount of death benefit payable to a surviving spouse is 50% of the benefit the participant would have received if the participant had retired on the date of his death and elected a 50% joint & survivor annuity.

Upon the death of a married participant (active or terminated) who is vested in his accrued benefit but who has not attained eligibility for early retirement as of his date of death, his spouse will be entitled to receive a benefit that is actuarially equivalent to 50% of the benefit the participant would have received if he had retired at the earliest retirement age and had elected a 50% joint and survivor annuity.

The pre-retirement death benefit of a participant who remains in service after his normal retirement date and who has elected a form of payment will be governed by the election made.

Other Plan Provisions

Forms of Payment

Normal Form: Actuarially equivalent 50% Joint and Survivor annuity if married on date of benefit commence; life annuity if single.

Optional Forms: Actuarially equivalent (to life annuity): 50%, 75% or 100% Joint and Survivor annuity, 10 year certain and continuous annuity and life annuity (for married participants)

Benefits are converted to the optional form of payment elected using the plan actuarial equivalence of 7-1/2% interest and the 1983 Group Annuity Mortality Table for males and females (50% blend).

Maximum on benefits and pay

All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code.

Other Plan Provisions

Normal Form of Payment

The normal form of retirement benefit for employees who are married shall be the actuarially reduced benefit provided under a 50% contingent annuitant pension, unless an employee elects an optional form of payment. The normal form of payment for single employees is the single life annuity.

Optional Forms of Payment

The optional forms of payment include the 50%, 66-2/3%, 75% and 100% contingent annuitant option, a life annuity option for married participants, a 10, 15 or 20 year certain and continuous option, a 10, 15 or 20 year certain option and a lump sum option.

Actuarial Equivalence

For former NCH participants: The actuarial equivalence factor is calculated using a 7.50% interest rate and the 1983 GAM Unisex Mortality Table. This factor is used to convert from the normal form of payment to an optional form of payment.

For all other participants for balances earned prior to 2017 and for all balances for grandfathered participants: The actuarial equivalence factor is calculated using a 7.50% interest rate and the 1951 GAM Projected to 1960 Mortality Table set back two years for participants and 1951 GAM Projected to 1960 Mortality Table set back three years for beneficiaries. These factors are used to convert cash balance accounts accrued before 2009 to an annuity and to convert from the normal form of payment to any optional form. For Post 2008 Cash Balance Accruals, the Applicable Mortality table established by the IRS under 417(e)(3) in effect for the Plan Year is used to convert the cash balance account to an annuity.

For balances earned post-2016 for non-grandfathered participants, the interest used is 5.0% and the mortality used is Applicable Mortality table established by the IRS under 417(e)(3) in effect for the Plan Year. This is used to convert the account balance to an annuity and to convert from the normal form of payment to all optional forms.

Plan Provisions for BWH participants

Status of Plan	Active and open to eligible participants.
Effective Date	January 1, 1976, as restated October 1, 1989 and amended through October 1, 2017.
Covered Employees	Employees are eligible when they have attained age 21 and completed one year of service during which they have worked at least 1,000 hours. Employees of BWPO and BWFH (excluding nurses) are first eligible on January 1, 2017 unless otherwise excluded due to collective bargaining or grandfathering in another MGB-sponsored retirement plan. BWFH nurses are first eligible on October 1, 2017.

Definitions

Benefit Service	Benefit Service is based on calendar years in which a participant is paid for at least 1,000 hours. A full year is credited for 2,080 hours in a calendar year and fractional years are credited if the participant has less than 2,080 hours but at least 1,000 hours in a calendar year.
Vesting Service	A participant earns a year of Vesting Service for each calendar year from date of hire in which he is paid for at least 1,000 hours.
Compensation	Compensation means the W-2 earnings plus any amounts contributed by the Hospital through salary reduction for 403(b) annuities and any pre-tax contributions made to a flexible benefits program. Effective January 1, 2017, compensation used in calculating pay credits for all participants other than members of the BWH nurses shall be the basic regular salary paid to a participant during the calendar year, including payments for accrued time off, shift differentials, and salary deferrals to a tax sheltered annuity, limited to the amount permitted under Section 401(a)(17) of the Code.
Final Average Monthly Compensation	Average of a participant's compensation (base salary for 2,080 hours) over 60 consecutive months during his last 120 months while an active member which produces the highest average.

Grandfathered Benefit 1.2% of Final Average Monthly Compensation for each year of Benefit Service up to 25 years, plus $\frac{1}{4}$ of 1% of Final Average Monthly Compensation for each year of Benefit Service in excess of 25. Grandfathered Benefits were frozen for non-union employees as of December 31, 1998 for employees hired prior to age 40. No Grandfathered Benefits apply to non-union employees hired after 1998 or union employees hired after 2000.

Normal Retirement Date (NRD) First of the month coinciding with or next following the attainment of age 65.

Opening Balance Credit The Opening Balance credit of any participant in the plan as of January 1, 1999 for those not covered by a collective bargaining agreement with the MNA or as of January 1, 2001 for those covered by such an agreement is equal to the greater of the cash balance account calculated as though the plan had always been in effect and the present value of the participant's accrued benefit at that date.

Cash Balance Credit For each calendar year, each member who completes 1,000 hours of service shall receive a Cash Balance Credit equal to Compensation earned during that year multiplied by the percentage based on the following schedule effective January 1, 2017:

Sum of Age Plus Vesting Service	Percentage of Compensation			
	BWH Nurses	BWH	BWFH	BWPO
Less than 35	5.00%	3.00%	1.50%	4.00%

Early retirement

Cash Balance Account Annuity payable at any age beginning with his early retirement age, but no later than his normal retirement age and not less than the Grandfathered Benefit, if applicable. If the payment of the benefits is deferred, the Cash Balance Account will accrue Interest Credits until payments commence.

If applicable the Grandfathered Benefit is reduced by 6-2/3% for each of the first five years and 3-1/3% for each subsequent year that benefit commencement precedes Normal Retirement Date.

Deferred vested retirement

Cash Balance Account Annuity payable at any age but no later than normal retirement age, and not less than the Grandfathered Benefit if applicable. If the benefit is deferred, the Cash Balance Account will accrue Interest Credits until payments commence.

If applicable, the Grandfathered Benefit, if paid prior to normal retirement age, would be reduced as for early retirement.

Preretirement death

Vested participants are entitled to preretirement death benefit coverage. The death benefit payable to the beneficiary is the Cash Balance Account Annuity, but not less than the Grandfathered Benefit, if applicable.

If applicable, the Grandfathered Benefit would be reduced as for early retirement.

Other Plan Provisions

Optional forms of payment

The optional forms of payment include the 50%, 66-2/3%, 75% and 100% contingent annuitant option, a life annuity option for married participants, a 10, 15 or 20 year certain and continuous option, a 10, 15 or 20 year certain only option and a lump sum option.

Actuarial equivalence

For balances earned prior to 2017 for all participants other than BWH nurses and for balances earned prior to 8/15/2019 for BWH nurses, the actuarial equivalence factor is calculated using a 7.50% interest rate and the 1951 GAM Projected to 1960 Mortality Table set back two years for participants and 1951 GAM Projected to 1960 Mortality Table set back three years for beneficiaries.

For balances earned post-2016 for all participants other than BWH nurses, the interest used is 5.0% and the mortality used is Applicable Mortality table established by the IRS under 417(e)(3) in effect for the Plan Year. These factors are used to convert cash balance accounts to an annuity and to convert from the normal form of payment to any optional form.

For balances earned after 8/15/2019 for BWH nurses, the interest used is 5.0% and the mortality used is the Applicable Mortality tables established by the IRS under 417(e)(3) in effect for 2019. These factors are used to convert cash balance accounts to an annuity and to convert from the normal form of payment to any optional form.

Status of Plan	For all participants except those who are members of the MNA and VNA unions, pay and service were frozen as of January 2, 2010. The plan is closed to new entrants effective February 6, 2012 and February 16, 2012 for members of the MNA and VNA unions, respectively.
Effective Date	July 1, 1976, as restated July 1, 2010
Eligible Employees	Any member in the plan prior to July 1, 1985 and not otherwise excluded is a member in this plan on July 1, 1987. Otherwise, each employee becomes a member on the first day of the month coincident with or next following the completion of one year of service and attainment of age 21 provided such member elects to make contributions to the plan.

Definitions

Credited Service	Total years and months of service as a contributing member under this plan and the prior plan of the employer including disability credited service.
Vesting Service	An employee's period of employment with the employer commencing on the date he/she first performs an hour of service and ending on the employee's "date of severance" which shall be the earlier of the date of his/her termination, retirement or death or the first anniversary of his/her absence for any other reason. Vesting Service also includes a period of severance of less than twelve months.
Pensionable Earnings	Base pay, overtime, shift differential and weekend bonuses paid in a calendar year plus any pre-tax contributions made by the employee to a plan maintained by the employer.

Social Security Average Earnings

The average of the maximum amount of wages subject to Social Security taxes (the "wage base") for the thirty-five-year period ending with the year in which the member attains Social Security Retirement Age. In determining the member's Social Security Average earnings in a plan year, the wage base in effect for the calendar year beginning prior to the first day of the plan year shall be deemed to be the wage base for such a plan year. Notwithstanding the foregoing, if the member is retiring on or after his/her normal retirement date, the wage base in effect for the plan year in which his/her normal retirement date occurs shall be assumed to continue in determining such average. If a member terminates employment prior to his/her normal retirement date, the wage base in effect for the plan year in which his/her termination occurs shall be assumed to continue in determining such average.

Normal Retirement Date (NRD)

First day of the month coincident with or next following the attainment of age 65.

Normal Retirement Benefit

The sum of (a), (b) and (c) where:

- (a) is 1.3% of Final Average Earnings multiplied by years of Credited Service;
- (b) is .5% of Final Average Earnings in excess of \$9,000 multiplied by years of Credited Service up to July 1, 1987 not to exceed 25 years and;
- (c) is .5% of Final Average Earnings in excess of Social Security Average Earnings multiplied by the lesser of Credited Service after July 1, 1987 or the number of years by which 25 exceeds the years of Credited Service up to July 1, 1987.

Deferred vested

Termination for reasons other than death or retirement after meeting the following criteria:

Benefit attributable to employee contributions is fully vested at all times

Benefit attributable to employer contributions is 100% vested for participants before 7/1/1987. All other members are 20% vested after completion of three years of vesting service increasing 20% for each additional year thereafter to 100% after 7 years of vesting service.

Preretirement death benefit

Death while eligible for normal, early, postponed or deferred vested retirement.

Benefits Paid Upon the Following Events

Normal retirement

Normal retirement benefit determined as of NRD

Early retirement

If applicable, normal retirement benefits reduced by 6-2/3% for each of the first 5 years and 3-1/3% for each of the subsequent 5 years that benefit commencement precedes Normal Retirement Date.

For members with 25 years of Credited Service, normal retirement benefits reduced 6-2/3% for each of the first 5 years and 3-1/3% for each of the subsequent 2 years that benefit commencement precedes age 62.

Termination with deferred vested benefits

Normal retirement benefit payable at NRD or, at the participant's election, a reduced benefit payable as early as age 55 if completed 3 or more years of vesting service prior to termination. The benefit would be reduced as if for early retirement.

Preretirement death

Unmarried Member

Member's accumulated contributions with interest payable to designated beneficiary.

Married Member

If a married member dies before the earlier of attaining age 55 and becoming vested in any portion of the employer derived benefit, the surviving spouse is eligible to receive a refund of the member's accumulated contributions with interest or an actuarially equivalent single life annuity payable to the spouse.

If a married member dies after the earlier of attaining age 55 and becoming vested in any portion of the employer derived benefit, the surviving spouse will receive the survivor portion of an annuity calculated as if the member has terminated employment on the day before his/her death and elected the 66 2/3% contingent annuitant option with 120 months guaranteed payable at the member's Normal Retirement Date. At the election of the spouse, the benefit may be payable on the first day of any month following the member's death. If payments commence on or after the member's 55th birthday, no reduction for early commencement is applied. If payments commence prior to the member's 55th birthday, the benefit is actuarially reduced to reflect early commencement.

Death Benefit Guarantee

If the total sum of all benefits paid to the member and a surviving spouse or beneficiary is less than the member's accumulated contributions with interest, a residual death benefit payment will be made equal to the member's accumulated contributions with interest over the total death benefits paid to the member and surviving spouse or beneficiary.

Other Plan Provisions

Optional forms of payment

The optional forms of payment include the 66-2/3% and 75% contingent annuitant option, a life annuity with 36 monthly payments guaranteed option, 66 2/3% contingent annuitant option with 120 months guaranteed, a 10 or 15 year certain and continuous option, non-refund life annuity and full cash refund annuity.

Plan Provisions for MEEI participants

Effective Date	The last restatement was effective October 1, 2012. The most recent amendment reflected in the following plan provisions is effective January 1, 2019
Eligibility	Any employee employed by the Plan Sponsors but not including physicians, research associates, residents, clinical or research fellows, students, per diem employees, temporary employees, employees covered by a collectively bargained agreement, or employees deemed ineligible by the board of directors. Eligible employees become participants of the plan after completing 1,000 hours of service in the first full year of employment or calendar year.

Definitions

Benefit Service	For cash balance purposes, the Participant will be credited with a prorated portion of a year of benefit service for each calendar year in which he/she completes 1,000 hours of service as an Eligible Employee based on hours over 2,080. For purposes of the Background Benefit, the Participant will be credited with one year of benefit service for each calendar year in which he/she completes 1,000 hours of service as an Eligible Employee. For all purposes, no benefit service is earned after 12/31/2018.
Compensation	Compensation means the basic regular wage or salary paid by the Plan Sponsors before any and all deductions. Compensation does not include bonus or overtime. In determining a Participant's Frozen Final Average Benefit or Background Benefit, compensation for part-time employees is calculated as if the employee worked the full-time schedule for his/her job classification. For plan benefit purposes, no compensation in excess of the applicable IRC section 401(a)(17) limit is taken into account.

Final Average Monthly Compensation	Final average monthly compensation is 1/60 th of the Participant's aggregate Plan Compensation for the 60 consecutive months during which the Participant received his or her highest Plan Compensation as an Eligible Employee within the 120 months prior to the date as of which final average monthly compensation is to be determined. For benefit purposes, no compensation earned after 12/31/2018 is recognized.
Maximum on benefits and pay	<u>IRC Section 415(b) Maximum Benefits</u> – The applicable defined benefit limit is indexed for inflation for 2017 and beyond. <u>IRC Section 401(a)(17) Compensation Limit</u> – The applicable compensation limit is indexed for inflation for 2017 and beyond.
Grandfathered Participant	A grandfathered participant is an individual who was an active employee and a plan participant on January 31, 2004, and who had completed at least 5 years of vesting service as of January 31, 2004 and whose attained age (as of December 31, 2004) plus years of vesting service (as of January 31, 2004) equalled or exceeded 65. Grandfathered Participants accrued benefits under the Frozen Final Average Benefit formula through January 31, 2009. Beginning February 1, 2009, they accrue addition benefits under the cash balance formula (or if applicable, the Background Benefit formula).

Eligibility for Benefits

Normal retirement date	Later of age 65 and completion of 5 years of service.
Early retirement date	Age 55 with 5 years of service.
Late retirement date	Retirement after NRD.

Benefits Paid Upon the Following Events

Normal retirement

Greater of (a) and (b) + (c):

- a. Background Benefit – Equals 1.1% times “pre-age 50” Benefit Service plus 1.3% times benefit service “post-age 50” multiplied by Final Average Monthly Compensation (with the service capped at 25 years) minus the Match Benefit (where the Match Benefit is the annuity value of the accumulation of the maximum employer match contribution under the 403(b) program assuming a 6% rate of return).
- b. Cash Balance Benefit – A “contribution credit” is credited to the cash balance account at the end of the calendar year, based on a participant’s years of benefit service as of December 31. No contribution credits will be recognized after December 31, 2018. An interest credit based on the prior November’s yield on 10-year U.S. Treasury securities is credited to the cash balance account at the end of each calendar year. The interest credit can never be lower than 5.0% (5.5% for years prior to October 1, 2017).

Years of Benefit Service	Contribution Credit (% of compensation)
Less than 5	2.0%
5 but less than 10	2.5%
10 but less than 15	3.5%
15 but less than 20	4.5%
20 but less than 25	6.0%
25 or more	7.5%

- c. Frozen Final Average Benefit – 2% of final average five-year compensation for each year of benefit service 9 maximum 25) completed as of February 1, 2004 (or February 1, 2009 for grandfathered participants).

Early retirement

Calculated as for normal retirement, but based upon earnings and service as of the date of early retirement. Frozen Final Average Benefit early retirement benefits are reduced by 4% per year and all other benefits are actuarially reduced for each year that benefit commencement precedes age 65.

Late retirement	A participant who works beyond normal retirement age will receive the greater of: (i) the normal retirement pension described above but based on earnings and service to actual retirement date, and (ii) accrued benefit at normal retirement age with actuarial increase.
Vested termination	Reduced amounts are available for commencement at any time after termination based on an actuarially equivalent reduction.
Pre-retirement death	The death benefit payable to the beneficiary is equal to 50% of the deceased participant's accrued benefit under the 50% joint-and-survivor form of payment, but in no event, less than the value of the participant's cash balance account. This benefit is payable at the participant's earliest possible retirement age and is reduced for early commencement.

Other Plan Provisions

Forms of payment	<i>Normal Form:</i>	For unmarried participants, a pension payable monthly for life. Married participants will receive an actuarially equivalent 50% joint-and-survivor annuity.
	<i>Optional Forms:</i>	A vested terminated or retired participant may elect an immediate lump sum payment in lieu of a monthly pension. Retirees may choose from all other immediate payment options offered under the plan while vested terminated participants may elect either the immediate lump sum, an immediate life annuity (immediate 50% or 75% joint-and-survivor annuity, if married), or a deferred annuity.

Actuarial equivalence

The Cash Balance Account and Match Benefit are converted to the annuity payment forms using the mortality table described in Revenue Ruling 2001-62 and the annual yield on 30-year Treasury Securities for the month of August preceding the plan year in which the conversion is made.

The Frozen Final Average Benefit and Background Benefit are converted to a lump sum using the mortality assumptions prescribed under Section 417(e)(3)(B) of the Internal Revenue Code and the applicable interest rate described under Section 417(e)(3)(C) of the Internal Revenue Code for the month of August preceding the plan year in which the conversion was made.
