Part I	Asset and Liability Statement
---------------	--------------------------------------

1 Current value of plan assets and liabilities at the beginning and end of the plan year. Combine the value of plan assets held in more than one trust. Report the value of the plan's interest in a commingled fund containing the assets of more than one plan on a line-by-line basis unless the value is reportable on lines 1c(9) through 1c(14). Do not enter the value of that portion of an insurance contract which guarantees, during this plan year, to pay a specific dollar benefit at a future date. **Round off amounts to the nearest dollar.** MTIAs, CCTs, PSAs, and 103-12 IEs do not complete lines 1b(1), 1b(2), 1c(8), 1g, 1h, and 1i. CCTs, PSAs, and 103-12 IEs also do not complete lines 1d and 1e. See instructions.

Independent Auditors' Report

To the Participants and Plan Administrator of
Oshkosh Corporation Salaried and Clerical Employees' Retirement Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2021 Financial Statements

We have performed an audit of the financial statements of the Oshkosh Corporation Salaried and Clerical Employees' Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2021 (in liquidation), and the related statement of changes in net assets available for benefits for the year ended December 31, 2021 (in liquidation), and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's 2021 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2021, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion on the 2021 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the 2021 Financial Statements section:

- the amounts and disclosures in the 2021 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the 2021 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2021 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the 2021 Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Emphasis of Matter - Plan Termination and Liquidation Basis of Accounting

As discussed in Note 1 to the financial statements, the governing body of the Plan approved a plan of liquidation on July 27, 2021, and management determined liquidation to be imminent. As a result, the Plan has changed its basis of accounting from the ongoing plan basis of accounting used in presenting the 2020 financial statements to the liquidation basis of accounting used in presenting the 2021 financial statements. Our ERISA Section 103(a)(3)(c) audit opinion is not modified with respect to this matter.

Responsibilities of Management for the 2021 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the 2021 Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2021 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2021 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control-related matters that we identified during the audit.

Other Matter - Auditors' Report on the 2020 Financial Statements

We were engaged to audit the 2020 financial statements of the Plan. As permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed us not to perform and we did not perform any auditing procedures with respect to the information certified by a qualified institution. In our report dated September 14, 2021, we indicated that (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on the 2020 financial statements, and (b) the form and content of the information included in the 2020 financial statements other than that derived from the certified information were presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Oshkosh Corporation Salaried and Clerical Employees' Retirement Plan

Notes to Financial Statements

December 31, 2021 and 2020

1. Plan Description

The following brief description of the Oshkosh Corporation Salaried and Clerical Employees' Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined benefit plan, which includes all salaried and clerical employees of Oshkosh Corporation; Oshkosh Defense, LLC; Oshkosh Airport Products, LLC; and Oshkosh Commercial Products, LLC (collectively the Company) hired prior to September 30, 2012 and not covered by a plan maintained pursuant to a collective bargaining agreement. Benefits were frozen for all participants effective December 31, 2012. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Termination of Plan

In July 2021, the Company's Board of Directors approved the termination of the Plan effective November 15, 2021. Due to the Plan termination, the Company is winding down operations of the Plan in an attempt to have the Plan fully liquidated by the end of the fourth quarter 2022. The Notice of Intent to Terminate the Plan and the Notice to Interested Parties regarding the Plan termination were distributed to Plan participants on September 10, 2021. The Plan submitted an Application for Determination for Terminating Plan with the Internal Revenue Service (IRS) on October 1, 2021 and filed a Standard Termination Notice with the Pension Benefit Guaranty Corporation (PBGC) on May 12, 2022. The Notice of Plan Benefits was distributed to Plan participants on May 11, 2022.

The Plan anticipates it will be distributing request forms to participants in the third quarter of 2022, in which participants will be able to elect how they wish to receive their distribution (i.e., lump sum payment; single life annuity; or 50 percent or 75 percent joint and survivor annuity). See *Note 2 Summary of Significant Accounting Policies* for more information.

Prior to distribution of accrued benefits, certain benefits under the Plan are insured by the PBGC. Generally, the PBGC guarantees most vested normal-age retirement benefits, early retirement benefits and certain disability and survivor's benefits. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations.

Administration of Plan Assets

The Plan's Investment Committee has overall responsibility for the operations and administration of the Plan and determines the appropriateness of the Plan's investments and monitors investment performance.

Contributions

The Company's funding policy is to make contributions to the Plan generally based on amounts required to be funded under provisions of ERISA. No voluntary employee contributions are permitted. The Plan complied with these minimum funding requirements for the years ended December 31, 2021 and 2020.

Vesting

As a result of the Plan termination, all participants became fully vested in their accrued benefits on November 15, 2021.

Oshkosh Corporation Salaried and Clerical Employees' Retirement Plan

Notes to Financial Statements

December 31, 2021 and 2020

Retirement Benefits

Normal retirement is age 65. Employee participants may elect early retirement between the ages of 55 and 65. Benefits are received at normal retirement age or, if elected, at early retirement. Benefits are determined based upon years of benefit service, Social Security benefits, and monthly salary, averaged over the highest five consecutive years of service prior to when the Plan was frozen on December 31, 2012.

As a result of the Plan termination, the Plan was amended to allow most plan participants who are not currently receiving a monthly pension payment to elect a lump sum distribution or begin immediate annuity payments during a Lump Sum Window election period. Participants may also decide to delay their pension benefit decision to a later date (by electing this or failing to make any election) at which time the Company will purchase an annuity contract on their behalf. Participants may elect to receive their distributions in the following forms: a single life annuity; a 50 percent, 75 percent, or 100 percent joint & survivor annuity; a five-year or ten-year certain & life annuity; or a lump sum payment if it is not more than \$10,000.

If a vested participant dies prior to commencing retirement benefits, the surviving spouse death benefit is equal to 50 percent of the monthly benefit the participant would have received if such participant retired on the day immediately preceding death (or at age 55 if later) and elected a 50 percent joint & survivor annuity.

Administrative Expenses

Substantially all administrative expenses are paid by the Plan. These expenses include PBGC premiums, investment management fees, and trustee fees. Expenses paid by the Company are excluded from these financial statements.

2. Summary of Significant Accounting Policies

Basis of Accounting

Due to the Plan termination, management determined that liquidation of the Plan is imminent and the financial statements for 2021 have been prepared using the liquidation basis of accounting. Under the liquidation basis of accounting, assets are measured at the expected cash proceeds from liquidation and liabilities are measured in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) that otherwise apply to those liabilities. The 2020 financial statements were prepared as a going concern on the accrual basis of accounting.

Accounting Estimates

The preparation of these financial statements requires the use of certain estimates by Plan management in determining the Plan's assets, liabilities, and changes therein, and the actuarial present value of accumulated benefits and changes therein at the date of the financial statements. Actual results could differ from those estimates.

Oshkosh Corporation Salaried and Clerical Employees' Retirement Plan

Notes to Financial Statements
December 31, 2021 and 2020

Investment Valuation and Income Recognition

The Plan's primary investment is its interest in the Oshkosh Corporation Employees' Retirement Trust (Master Trust). The Master Trust includes the Plan, the Pierce Manufacturing, Inc. Pension Plan (Pierce Plan), and the Oshkosh Corporation Hourly Employees' Retirement Plan (Hourly Plan). In November 2015, the Plan's assets became segregated from the other assets of the Master Trust as the Plan implemented a liability-driven investment strategy, which caused the Plan to have a divided interest in the Master Trust. The objective of this strategy is to align Plan assets more closely with Plan liabilities in terms of how both respond to changes in interest rates. Under this strategy, Plan assets were allocated to two investment categories: a category containing high-quality fixed income securities and another category comprised of traditional securities and alternative asset classes. Over time, the Plan intended to reduce the assets allocated to the return-seeking category and correspondingly increase the assets allocated to the high-quality fixed income category. In June 2021, substantially all return-seeking investments were liquidated and moved into high-quality fixed income investments.

The Plan's investment in the Master Trust as of December 31, 2021 is presented at liquidation value which approximates fair value. Fair value approximates the amount the Plan expects to collect at liquidation. The Plan's investment in the Master Trust as of December 31, 2020 is presented at fair value, which has been determined based on the fair value of the underlying investments of the Master Trust. The fair value of investments in common stocks, bonds and notes, money market funds, and mutual funds are determined by quoted market prices on the last business day of the Plan year. The fair value of investments in common collective funds are determined using the net asset value (NAV) per share (or its equivalent) practical expedient. See *Note 4 Fair Value Measurements* for a discussion of fair value measurements.

Security transactions are recorded on the trade date. Interest income is recorded on the liquidation basis for 2021, including amounts expected to be earned through the final distribution of Plan assets, and the accrual basis for 2020. Dividends are recorded on the ex-dividend date. Net appreciation includes the gains and losses on investments bought and sold as well as held during the year.

Risks and Uncertainties

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported, based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

The Master Trust provides for investments in common stocks, money market funds, mutual funds, and common collective funds. Investment securities are exposed to various risks, including, but not limited to, interest rates, market, and credit risks. Market risks include global events which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could be material to the financial statements.

Benefit Payments

Benefit payments to participants are recorded upon distribution.

3. Information Certified by the Trustee (Unaudited)

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA as of and for the years ended December 31, 2021 and 2020. Accordingly, the trustee of the Plan and Master Trust has certified the completeness and accuracy of all investments reported in the accompanying Statements of Net Assets Available for Benefits as of December 31, 2021 and 2020 and the related investment activity reported in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2021.

The fair value of the assets held in the Master Trust and the Plan's divided interest in the assets held in the Master Trust as of December 31, 2021, were as follows:

	Master Trust	Plan

4. Fair Value Measurements

The Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 820, *Fair Value Measurement*, defines fair value as the price that would be received to sell an asset or paid to transfer a liability (i.e. exit price) in an orderly transaction between market participants at the measurement date. ASC Topic 820 requires disclosures that categorize assets and liabilities measured at fair value into one of three different levels depending on the assumptions (i.e. inputs) used in the valuation. Level 1 provides the most reliable measure of fair value, while Level 3 generally requires significant management judgment. The three levels are defined as follows:

Level 1 - Unadjusted quoted prices in active markets for identical assets or liabilities

Level 2 - Observable inputs other than quoted prices included in Level 1, such as quoted prices for similar assets or liabilities in active markets or quoted prices for identical assets or liabilities in inactive markets

Level 3 - Unobservable inputs reflecting management's own assumptions about the inputs used in pricing the asset or liability

An asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Plan management is responsible for the determination of fair value. Accordingly, Plan management performs periodic analyses on prices received from the pricing services to determine whether the prices are reasonable estimates of fair value. As a result of these reviews, Plan management has not historically adjusted the prices obtained from the pricing services.

The following is a description of the valuation methodologies used to measure the Master Trust's assets at fair value. There have been no changes in the methodologies used as of December 31, 2021 and 2020.

Common Stocks, Money Market Funds, and Mutual Funds: Valued at fair value based on quoted market prices on the last business day of the Plan year.

Common Collective Funds: Valued at fair value based on NAV per share (or its equivalent) practical expedient.

5. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits represent the estimated future periodic payments, including lump-sum distributions, under the Plan's provisions that are attributable to services rendered by the employees through the valuation date. Accumulated plan benefits include benefits expected to be paid to the following: (a) retired or terminated employees or their beneficiaries and (b) present employees or their beneficiaries. Benefits for retired or terminated employees or their beneficiaries are based on years of benefit service, Social Security benefits and monthly salary, averaged over the highest five consecutive years of service. Benefits payable under all circumstances - retirement, death, disability, and termination of employment - are included, to the extent they are deemed attributable to employee service rendered, through the valuation date.

The actuarial present value of accumulated plan benefits is determined by the Plan's independent actuary, Aon, and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements, such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

Significant actuarial assumptions used in the valuation as of January 1, 2021, were as follows:

- Mortality basis – Base table: amounts-weighted aggregate rates from the Pri-2012 mortality study projected generationally from 2012 with Scale MP-2021
- Actuarial cost method – Standard unit credit cost method
- Normal retirement age – Active Participants: Graduated rates between age 55 and age 65
- Interest rate used in accrued benefit calculations – 2.70%
- Rate of return – 5.00%

Oshkosh Corporation Salaried and Clerical Employees' Retirement Plan

Notes to Financial Statements

December 31, 2021 and 2020

The foregoing assumptions were made based on the assumption the Plan will continue. Effective July 2021, the Plan sponsor resolved to terminate the Plan. The present value of accumulated plan benefits as of May 31, 2022 is estimated to be \$140,400,000. The Plan sponsor will fund any obligation in excess of the market value of the Plan assets. This estimated amount has been recorded in the financial statements as a receivable by the Plan in liquidation and totals \$18,900,000.

The interest rate used in accrued benefit calculations changed from 3.25 percent to 2.70 percent. The mortality improvement projection scale changed from MP-2020 to MP-2021. These assumption changes resulted in an increase of \$11,705,096 in actuarial present value of accumulated benefits for the year ended January 1, 2021. The rationales for the assumption change summarized above and for selecting each of the assumptions used in the Plan reporting valuation was to best reflect future anticipated Plan experience.

The actuarial present value of accumulated plan benefits and changes in accumulated plan benefits, as of and for the year ended January 1, 2021 are as follows:

Vested benefit:	
Participants and beneficiaries currently receiving benefits	\$ 68,907,458
Other participants	<u>86,989,423</u>
Total vested benefits	<u>155,896,881</u>
Actuarial present value of accumulated plan benefits	<u>\$ 155,896,881</u>
Actuarial present value of accumulated plan benefits, at beginning of year	\$ 143,513,168
Increase (decrease) during the year attributable to:	
Benefits accumulated	990,360
Change in actuarial assumptions	11,705,096
Benefits paid	(4,896,981)
Interest	<u>4,585,238</u>
Net increase	<u>12,383,713</u>
Actuarial present value of accumulated plan benefits, at end of year	<u>\$ 155,896,881</u>

6. Related-Party and Party in Interest Transactions

The Plan's investments are administered under a contract with the trustee of the Plan. Contributions are held and managed by the trustee who invests cash received, interest, and dividend income and makes distributions to participants. These transactions qualify as party in interest transactions which are exempt from the prohibited transactions rules of ERISA.

Certain administrative functions of the Plan are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

Notes to Financial Statements

December 31, 2021 and 2020

7. Tax Status

The IRS has determined and informed the Company by a letter dated May 10, 2017, that the Plan and related trust were designed in accordance with the applicable regulations of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter; however, the Company and Plan management believe that the Plan is currently designed and operating in compliance with the applicable requirements of the IRC, and the Plan and related trust continue to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Plan management is required to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Concentrations

As of December 31, 2021 and 2020, the Master Trust had investments of \$339,694,482 and \$241,514,238, respectively, concentrated in three funds. These funds invest in a diversified pool of investments.

9. Subsequent Events

Management of the Plan has evaluated subsequent events through June 30, 2022, which is the date that the financial statements were approved and available to be issued, for events requiring recording or disclosure in the Plan's financial statements.

Valuation of Plan Assets

Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.

A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).

Statement by Enrolled Actuary
To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, line 22—Description of Weighted Average Retirement Age

The average retirement age shown in line 22 has been calculated by assuming the following retirement rates and no decrements other than retirement for this calculation. All retirements are assumed to occur at mid-year, except for the 100% retirement age. Two different groups, participants with under 30 years of service at retirement and participants with 30 or more years of service at retirement, are used to develop the average. Based on the current active population, approximately 60% of the participants retire with 30 or more years of service. Therefore, the estimated weighted average retirement age is 61 (60% x 61.18 + 40% x 61.64).

Schedule SB, Part V—Summary of Plan Provisions

Effective Date	The plan was established effective March 1, 1972.
Covered Employees	All salaried and clerical employees. Employees covered by a plan maintained pursuant to a collective bargaining agreement and Directors are excluded from participation. The plan closed to new entrants effective September 30, 2012.
Plan Freeze Date	December 31, 2012.
Plan Termination Date	November 15, 2021.
Plan Year	Effective December 22, 2016, the plan year was changed to the calendar year beginning with the January 1, 2017 plan year.
Transfers	Transfers in and out of the plan will accrue vesting and benefit service earned before and after transfer (but not after December 31, 2012), but compensation will be limited to the time actually covered by the plan (but not after December 31, 2012). The accrued benefit will be offset by the benefit accrued under other plan(s).
Normal Retirement Eligibility	An employee is eligible for normal retirement benefits at the end of the month in which age 65 is attained.
Benefit	<p>The monthly normal retirement benefit is equal to the larger of (a) and (b) where:</p> <p>(a) Is 50% of average monthly compensation less 45% of primary Social Security, multiplied by 1/30 for each benefit accrual year of service (maximum 30 years); and</p> <p>(b) Is the multiplier in effect for Oshkosh Truck Corporation Hourly Employees Pension Plan times each year of benefit service (maximum 45 years). The multiplier is \$31 as of October 1, 2012.</p> <p>The normal retirement benefit will in no event be less than the largest early retirement benefit.</p> <p>All benefit accruals are frozen effective December 31, 2012.</p>

Early Retirement
Eligibility

An employee is eligible for early retirement upon attainment of age 55 if he has a minimum of five years of service.

Benefit

The monthly benefit is equal to the normal retirement benefit based on service projected to age 65 multiplied by the product of (a), (b) and (c) where:

(a) Is a fraction equal to (1) divided by (2) below:

- (1) The number of years of benefit service at date of retirement.
- (2) The number of years of benefit service the employee would have had at age 65 if he had remained in service.

(b) Is equal to the participant's vested percentage; and

(c) Is equal to 1.00; minus

- (1) 1/180 for each month that payments commence prior to age 65 (but in no event more than 60 months); plus
- (2) 1/360 for each month that payments commence prior to age 60.

However, for a participant who retires on or after age 62 and has completed at least 30 years of benefit accrual service, the reductions in (c) above are at the rate of 1/360 for each month that payments commence prior to age 65.

All benefit accruals are frozen effective December 31, 2012.

Late Retirement
Eligibility

Retirement after age 65, but not beyond age 70.5 except with the consent of the employer.

Benefit

Benefits will be calculated at age 65 and will increase actuarially thereafter. Retirement benefits will not be paid if an employee continues to work at Oshkosh Corporation.

Disability Retirement
Eligibility

An employee is eligible if, after having completed five years of service, he is unable to perform his employment duties.

Benefit

The monthly benefit commencing immediately is equal to the actuarial equivalent of his vested accrued normal retirement benefit. This benefit is calculated in the same manner as for early retirement using service at date of disability in the proration factor.

Vesting
Eligibility

Five years of continuous service.

Benefit

The monthly benefit is equal to the vested accrued normal retirement benefit earned to the date of termination. This benefit is calculated in the same manner as for early retirement using service at date of termination in the proration factor. In no event shall payments commence prior to age 55.

Preretirement Surviving Spouse's Benefit
Eligibility

Active employees must have completed five years of continuous service at death and married at least one year.

Benefit

For employees eligible for early retirement, the benefit is equal to 50% of the amount the participant would have received had the participant retired on the day before his death and elected the 50% spouse's annuity.

For employees not eligible for early retirement, the benefit is equal to 50% of the amount the participant would have received had the participant terminated on the date of death, survived to his early retirement age and retired with an immediate 50% spouse's annuity. The spouse's benefit will begin on the date the participant would have reached his early retirement age.

Normal Form of Payment

Life annuity for single participants, and an actuarially equivalent 50% joint and survivor annuity for married participants.

Optional Form of Payment

Optional forms provided are: Five year certain and life, 10-year certain and life, 75% and 100% joint and survivor annuities.

Source of Contribution

The company pays the entire contribution.

Compensation

Compensation is the amount reported on Internal Revenue Service Form W-2, including section 125 and section 401(k) deferrals and excluding bonuses and income from restricted stocks. The earnings are limited each year by the IRS Code section 401(a)(17) limit on recognizable pay.

Compensation after December 31, 2012 is not recognized.

Average Monthly Compensation

Average monthly compensation is the sum of the highest five consecutive completed calendar years' compensation prior to the participant's normal retirement age or other date of termination, divided by 60.

Hours of Service

For purposes of this plan, hours of service will be determined on the basis of actual hours for which an employee is paid or entitled to payment.

Year of Service

For purposes of eligibility, vesting, and benefit accrual, 1,000 hours will constitute a year of service.

Years of service for purposes of benefit accruals are frozen effective December 31, 2012.

Primary Social Security Benefit

Based on law in effect at earlier of date of termination of employment or normal retirement date. Estimates of amounts payable at normal retirement age will assume that earnings continue to age 65 at the same rate as was in effect at date of termination.

Limit on Benefits

All benefits are limited by IRS Code section 415.

Actuarial Equivalence

Small-Amount Cashouts

Section 417(e)(3) "applicable mortality table" and the "applicable interest rate".

Annuity Payment Forms

6.00% interest and the RP2000CH table projected to 2028, weighted 85% male.

Plan Changes Since the Prior Year

The funding valuation reflects the plan termination date of November 15, 2021.

November 15, 2021 Plan Termination

This is the final Schedule SB for the plan as a result of the November 15, 2021 plan termination. The 2021 plan year is a short plan year for the period January 1, 2021 to November 15, 2021. This short plan year was reflected in the 2021 valuation.

Other Information to Fully and Fairly Disclose the Actuarial Position of the Plan

Due to software limitations with the electronic filing process, information filed electronically cannot be controlled by the Enrolled Actuary. The values on the signed Schedule SB will govern to the extent there are any differences in the entries filed electronically and the actual data contained on the signed Schedule SB.

Under the American Rescue Plan Act of 2021 (ARPA), the stabilized interest rates for certain purposes will be adjusted once the ARPA stabilization is applied. By default, this stabilization would have applied starting with the 2020 plan year.

On September 28, 2021, Oshkosh Corporation made an explicit election not to apply the ARPA interest rate stabilization (for any purposes) to the Salaried and Clerical Employees Retirement Plan for the 2021 plan year. Therefore, this Schedule SB reflects stabilized 2021 minimum funding interest rates without regard to ARPA.

Schedule SB, line 24—Change in Actuarial Assumptions

- A change in the unlimited expected rate of return on assets from 5.00% to 4.25%.
- A change in the assumed expenses payable from the trust from the prior year's actual administrative expenses to the prior year's administrative expense, excluding PBGC premiums, plus current year PBGC premiums.

These changes were made to better reflect the anticipated plan experience. Neither of these assumption changes reduced the funding shortfall; as such, approval of the Commissioner is not required.
