LEHMAN-ROBERTS COMPANY RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
September 30, 2021 and December 31, 2020

NOTE 1 – DESCRIPTION OF PLAN

The following description of the Lehman-Roberts Company Retirement Plan (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General: The Plan is a defined benefit pension plan covering substantially all eligible employees of Lehman-Roberts Company and affiliated corporations (the “Employer” or “Company”) who have completed at least 1,000 hours of service in a consecutive twelve months. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

On July 22, 2020, the Company’s Board elected to terminate the Plan effective July 31, 2020 (refer to Note 6 – *Plan Termination* for further details). All participants became 100% vested at that time. Any participant or beneficiary who was entitled to a retirement benefit as of July 31, 2020 was eligible to elect during a sixty day period beginning August 3, 2020, to receive an adjusted benefit in the form of a lump sum payment in lieu of the normal benefit subject to certain requirements. The plan fully distributed all assets in September 2021.

The Plan entered into a commitment agreement dated March 4, 2021 to purchase an annuity contract in the amount of \$23,751,825 from CMFG Life Insurance Company for all participants with a benefit obligation remaining in the Plan after the Plan Termination Lump Sum Window.

Pension Benefits: The Plan provides benefits under the Market Based Cash Balance formula. Accrued benefits for active participants as of December 31, 2016 were converted to an opening cash balance account. Each year, eligible participants’ cash balance account (reflecting a notional amount) will be credited with an interest credit and a contribution credit. The interest credit is based on the rate of actual earnings on the assets of the Plan assets segregated for the purposes of cash balance investments for the relevant time period, net of investment expenses attributable to that asset pool. The contribution credit is based on eligible earnings of the participant and a percentage ranging from 3-5%, based on age and credited service as of December 31, 2016. Effective November 1, 2019, the Plan amended in-service distributions that regardless of any age or service limitations imposed by Early Retirement provisions of the Plan, a participant who has attained age 62 may elect to receive an in-service distribution of the participants cash balance account. Effective December 31, 2019 all benefit accruals were frozen and no new members could join the Plan. As a result, the cash balances were no longer being credited with contribution credits, only interest credits.

Death and Disability Benefits: If an active employee with five years of vested service dies between ages 55-64, the employee’s beneficiary is eligible for a pension equal to a percentage of the amount determined, considering the employee’s compensation and service to the date of death. If the employee had reached the normal retirement age (65) at the date of death, the beneficiary would be entitled to a monthly payment equal to the pension the employee would have received had they reached retirement age. This pension is payable for the life of the beneficiary.

If a qualified employee becomes totally and permanently disabled, the accrued benefit is paid immediately, or deferred if covered by a disability program.

Vesting: For participants that are not credited with an hour of service after December 31, 2016, they are 100% vested after five years of credited service. For participants that are credited with an hour of service after January 1, 2017, they are 100% vested after three years of credited service. A vested participant has a permanent right to a benefit under the Plan. As a result of the Plan termination in July 2020, all participants became 100% vested.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: As a result of the decision to terminate the Plan in 2020, the accompanying financial statements are prepared on the liquidation basis of accounting in accordance with US GAAP.

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results may differ from those estimates. It is at least reasonably possible that a significant change may occur in the near term for the estimates of the actuarial present value of accumulated plan benefits and the fair value of various limited partnerships.

Investment Valuation and Income Recognition: The Plan's investments are reported at fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (level 1 measurements) and gives the lowest priority to unobservable inputs (level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan.

Mutual funds: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (level 1 inputs).

Collective trust funds: The fair values of participation units held in collective trusts are based on the net asset values per unit as reported by the fund managers. The collective trusts provide for daily redemptions by the Plan at reported net asset values per share, with no advance notice requirement.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investments measured at fair value on a recurring basis are summarized below:

	Fair Value Measurements at December 31, 2020 (In Liquidation) Using			
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Investments:				
Collective trust funds*	\$ -	\$ -	\$ -	\$ 10,838,265
Mutual funds	14,661,565	-	-	14,661,565
Total assets	\$ 14,661,565	\$ -	\$ -	\$ 25,499,830

*Investments measured at fair value using net asset value per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table for such investments are intended to permit reconciliation of the fair value hierarchy to the investments at fair value line item presented in the statement of net assets available for benefits.

Risks and Uncertainties: The Plan invests in various investments. Investments are exposed to various risks such as interest rate, market, liquidity, and credit risks. Market risk includes global events such as a pandemic. Due to the level of risk associated with certain investments and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimates and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Payment of Benefits: Benefit payments to participants are recorded upon distribution.

Administrative Expenses: Certain administrative and plan recordkeeping services are performed by employees of the Company. None of the employees receive compensation from the Plan for these services. All other administrative expenses including trustee fees, investment management fees and PBGC premiums are paid by the Company. Investment management fees are charged to the Plan as a reduction of investment return and included in the investment income (loss) reported by the Plan.

NOTE 3 – PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the plan, any party rendering service to the Plan, the employer, and certain others. Party-in-interest fees paid by the Plan include administrative, investment management and trustee fees. Certain professional fees for the administration and audit of the Plan were paid by the Company. Various administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

LEHMAN-ROBERTS COMPANY RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
September 30, 2021 and December 31, 2020

NOTE 3 – PARTY-IN-INTEREST TRANSACTIONS (Continued)

The Plan held a portion of its investments in mutual fund accounts and collective trust funds managed by FIAM Trust Company and Fidelity Investments, who are related entities to the trustee of the Plan, Fidelity Management Trust Company. As a result, these investments were party-in-interest transactions.

NOTE 4 – INVESTMENTS - UNAUDITED INFORMATION

Substantially all information pertaining to the Plan's investments included in the financial statements, including the associated investment income (loss), was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Fidelity Management Trust Company as of September 30, 2021 and December 31, 2020 and for the period January 1, 2021 to September 30, 2021. This information has not been audited by independent accountants.

NOTE 5 – FUNDING POLICY

The Company has agreed to voluntarily contribute such amounts as are necessary to provide assets sufficient to meet the benefits to be made to plan participants. For the period January 1, 2021 to September 30, 2021, the Company satisfied the minimum funding requirements of ERISA. Participant contributions are not permitted under the Plan.

NOTE 6 – PLAN TERMINATION

On July 22, 2020, the Company's Board elected to terminate the Plan effective July 31, 2020. All participants became 100% vested at that time. Any participant or beneficiary who was entitled to a retirement benefit as of July 31, 2020 was eligible to elect during a sixty day period beginning August 3, 2021, to receive an adjusted benefit in the form of a lump sum payment in lieu of the normal benefit subject to certain requirements. The plan fully distributed all assets in September 2021.

NOTE 7 – ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments that are attributable under the Plan's provisions to the service employees have rendered. The actuarial present value of accumulated plan benefits is determined by an actuary from Fidelity Workplace Investing LLC and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

As discussed in Note 1 – *Description of Plan*, the Company terminated the Plan effective July 31, 2020. The significant assumptions underlying the actuarial computations as of September 30, 2021 and December 31, 2020 are as follows:

2021 – All assets were distributed from the trust as of September 31, 2021 and therefore the actuarial present value of accumulated plan benefits was zero as of September 31, 2021. The benefits paid amount includes the actual benefits paid in 2021 including a final annuity purchase premium of \$23,751,825. There were no changes in assumptions from the December 31, 2020 valuation.

NOTES TO FINANCIAL STATEMENTS
September 30, 2021 and December 31, 2020

NOTE 7 – ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS (Continued)

2020 – The present value of accumulated plan benefits at December 31, 2020 reflects the actual annuity purchase premium and expected benefit payments in 2021, discounted back to December 31, 2020 using a discount rate of .26%

The accumulated plan benefit information as of September 30, 2021 and December 31, 2020 is as follows:

	September 30, 2021	December 31, 2020
Vested benefits:		
Participants currently receiving benefits	\$ -	\$ 24,345,029
Other participants	<u>-</u>	<u>546,424</u>
	-	24,891,453
Non-vested benefits	<u>-</u>	<u>-</u>
Total actuarial present value of accumulated plan benefits	<u>\$ -</u>	<u>\$ 24,891,453</u>

The change in accumulated plan benefits for period ended September 30, 2021 is as follows:

Actuarial present value of accumulated plan benefits – beginning of period (in liquidation)	\$ 24,891,453
Increase (decrease) attributable to:	
Benefits accumulated and gains/losses	(537,848)
Benefits paid	(24,364,379)
Increase for interest due to decrease in discount period	<u>10,774</u>
Actuarial present value of accumulated plan benefits – end of period (in liquidation)	<u>\$ -</u>

NOTE 8 – TAX STATUS OF PLAN

The Internal Revenue Service had determined and informed the Company by a favorable determination letter on the termination of the Plan dated April 29, 2020, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (the “Code”). Therefore, Plan Management believes that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of September 30, 2021 and December 31, 2020, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2018.

NOTE 9 – SUBSEQUENT EVENTS

Plan management has evaluated subsequent events for recognition and disclosure through June 30, 2022, which is the date the financial statements were available to be issued.
